—Then followed an eloquent and argumentative sermon, delivered by Rev. Father Scollard, with an impressiveness and acceptability, that would do credit to any priest with far more years and experience than the preacher of the day. His text was the 22nd verse of the 17th chapter of St. John:—"And the glory which thou hast given me I have given them." After referring to the solemn and impressive ceremony that had been witnessed that day, the setting apart of a man to the sacred order of the priesthood, the preacher reminded his hearers that the ceremony of the day was not a mere religious pageant, but it meant far more than that—a divine work had been wrought—a new existence brought about, endowed with supernatural power and grace—the soul and substance of sacerdotal consecration. The salvation of souls was a supernatural work. A direct call from God did not suffice. There was lacking the power to perform the functions of the priesthood, unless it were given through the hands of the consecrating bishop. St. Paul though receiving a direct call from God did not dare to enter upon the work of his ministry til he had received the Holy Ghost through the imposition of the hands of the Apostles. And this power had been transmitted by the Apostles to their successors in the sacred ministry—it had come down in an unbroken chain. By this communication of grace the priest had become a sharer in the spiritual power of the blessed Saviour. The ceremony that had that day been performed, impressed a sacred seal upon the soul of the ordained priest—and he was made a priest forever after the order of Melchesidec. All human eloquence in the preaching of the Gospel, the preacher said, would without the power conferred by the sacerdotal consecration, be as sounding brass and a tinkling cymbal. The great work of the priesthood was the power to sacrifice, and the necessity and perpetuity of sacrifice involved the necessity of the priesthood. Man was of dual nature—soul and body—and there must, therefore, be in addition to the feeling of internal reverence an outward manifestation of that reverence. Jesus Christ was the eternal and invisible priest, who stood at the altar giving power and effect to the words of the priest. The preacher closed his sermon by referring to the power and dignity which had been by virtue of his consecration conferred upon the newly ordained priest, entitling him to demand both for his person and his holy office the reverence of good men.

At the conclusion of the sermon the Bishop, clergy and assistants retired, and Rev. Father Collins, attended by Rev. Father McColl, gave his blessing individually to the congregation as in turn the members of the large congregation knelt at the sanctuary rail. Rev. Father Collins celebrated his first mass in the Cathedral this morning at 7 o'clock.

If you could see your own scalp through an ordinary magnifying glass you would be amazed at the amount of dust, dandruff and dead skin thereon accumulated. The best and most popular remedy for cleansing the scalp is Ayer's Hair Vigor.

St. John's Church.

A special vestry meeting is called for to-night at St John's School house to consider matters of importance connected with the music of the church.

Turner's Tents.

Mr. J. J. Turner received a telegram on Saturday evening to send a large tent to Gananoque for the Agricultural exhibition. He has also received a large order for awnings from Picton.

Epworth's Attention.

A full attendance of the Charlotte street Epworth League is requested this evening. Secretary Colville, of the Y. M. C. A., is to be present and give an address full of interesting particulars of the great Minneapolis convention.

Organ Recital.

As will be seen by advertisement in another column, Dr. Davies will give one of his popular organ recitals at St. John's church on Thurday evening next. The programme will include Romberg's overture, "Don Mendeza"; an Offertoire by Theophile Salome, a Carpentta by Mendelssohn, and other selections.

Sunday School Building Opening.

The new Charlotte street Sunday school building will be opened on Sunday and Monday, Sept. 20th and 21st, when Rev. S. J. Shorey will preach special sermons in the church, on Sunday. On Monday evening a tea and entertainment will be given in the new school room at which Rev. Mr. Shorey and others will give addresses. Further particulars will be announced hereafter.

To-Morrow is Circus Day.

Robinson's circus will be here to-morrow, or rather in Ashburnham, where the license to exhibit is cheaper. The show will be located on Riverside Park, and it is not likely the street parade will cross the bridge, as there is a license fee of $100 to be paid before it would be allowed, and the advance agents came to the conclusion that they would not pay the money. When Robinson himself arrives here to-morrow he may change his mind.

The Military Camp.

Quartermaster Stapleton and Sergt. Wm. Bradburn, "C" Troop, 3rd Regiment of Cavalry, left this morning for Belleville to prepare the camp for the reception of the remainder of the troop to-morrow. The Peterborough wing of the Durham Field Battery will hold its last practice drill to-night and leave at 6 40 in the morning to join the main body at Port Hope and proceed to Belleville. The camp at Belleville will last about ten days.

Another Scoundrel Abroad.

As three gentlemen were coming down Water street last night they were met by a young woman in great distress, from a recent attempt at indecent assault. She was in too excited a frame of mind to give a clue to the direction in which the miscreant had fled. The girl who was weeping and sobbing said that he had seized her roughly, and her torn attire and dishevelled hair bore testimony, to the truth of her statement. This is unfortunately no new thing for this quarter two or three other similar assaults have been committed. There is need for greater police vigilance.

Labour Day.

It is understood that Labour day will not be celebrated in Peterborough this year, as it will be celebrated in many places in Canada next Monday. The reason given is that Civic holiday is of so recent date that the working classes in Peterborough do not think it would be wise to solicit another holiday so close at hand. The men who toil from day to day are certainly entitled to the recreation the day involves. The working men of Peterborough, are as a class industrious and steady and theirtoil is arduous, with but few enjoyments besides those they derive from the limited time they have to spend with their families at home. The men that day after day rises at 5, breakfasts at 6, and starts off with his dinner can to be at his work at seven, and reaches home fatigued with his days work at seven, has not much opportunity for even domestic enjoyment. He must retire early to get the rest to fit him for another day's work. These men cannot, as the more highly favored can do, take a week or two's holidays, or perhaps a month's, like lawyers, ministers or others. It is therefore not extravagant to claim for them one day in the year, and the EXAMINER would have been glad to have seen the workingmen of Peterborough enjoy to-day in some manner that would be a relaxation from the tread mill of toil they have passed the other part of the year upon. To-day is being celebrated in Montreal, and the *Star* of that city on Friday thus adverts to the event:

"Labor Day to the masses of all races and creeds domiciled in cities has become the most popular of holidays. It is recognized as the people's holiday by municipal governments in almost all cities. It is the one day of all the year set apart for the enjoyment of the workingmen, and even those who are technically excluded by that designation are as anxious as those who claim it, to see the celebration a grand success. It is to be hoped that next Monday the skies will smile propitiously, and that nothing may happen to mar the pleasure of the occasion."

Oppressed headaches, partial loss of vision, hawking and spitting, are certain symptoms of catarrh. Nasal Balm never fails to give immediate relief and effect a permanent cure. Easy to use, pleasant and agreeable. It has cured thousands of others and will cure you. Sold by all dealers or sent on receipt of price (50c. and $1 a bottle) by addressing G. T. Fulford & Co., Brockville, Ont. dw

The Musical "Musketeers."

Immense Crowds and Grand Meetings at the Salvation Army Barracks—The Wandering Minstrels in Peterborough.

The "Musical Musketeers," as one short-sighted old lady called them, are not a trained troupe of performing insects of the genus Culex. Their music is sweet and pleasant to the ear, and is unaccompanied by the sharp sting which would draw something more pronounced than hallelujahs from a brass statue if it could speak. It was Company No. 1, of the Musical Musketeers, which held the fort at the Salvation Army barracks Saturday night and Sunday. Last spring Company No. 2 of this minstrel organization, visited Peterborough. These travelling musicians do a great deal of good in snaring up the people and attracting crowds of the great unwashed into the House of God, where Christian influences are able to work upon them. This Company, nine in number, Staff-Captain Griffiths stated, has now been out on the road for nearly 200 consecutive days, during which time they have been holding meetings every day and night. It was also stated that the crowds which attended their meeting at Peterborough were equalled by only one other place in Canada—Kingston. At the Sunday afternoon meeting there were 800 in the barracks, and the two evening meetings were about as well attended.

Saturday night there was a great marchout. The Musketeers' Band and the band of the local corps played alternately, a long line of soldiers following through the crowded streets. On arriving at the barracks, the visiting minstrels took possession of the platform, to the exclusion of all others, and gave a concert of sacred music. Solos were sung by different members of the troupe, to each of which there was a hearty chorus for the entire audience to join in. The band was transformed into an orchestra for the inside gathering, and the singing was helped by the music of a violin, an organ, a harp, a 'cello and a base viol, all played in splendid time and with a vigor characteristic of Army methods.

Lieut. (Miss) Pettitt sang "Drifting Away," an operatic air with words supplied, in good style and voice, and the three boys in the troupe gave "Three Hebrew Boys," sung antiphonally and with a chorus. Master Dick Griffiths, the boy soprano, charmed his hearers. Cadet Bird also gave a practical answer to the popular query, "What's in a name?" He sang very nicely.

The corps was joined here by Capt. Boyler, formerly of Peterborough, who was attached to the Musketeers but left them a month ago. She took part in the proceedings Sunday. The colored girl, Lieut. Lee, whom many wished to hear, was absent on sick-leave.

On Sunday there were three meetings and the same number of street march-outs, all large and imposing parades. Sunday night a great "open-air" was held, about 100 soldiers being in the circle, enrrounded by an immense crowd. A large offering was taken up in a comparatively novel manner. Two papers were spread on the ground at opposite sides of the circle, and the people were invited to "toss a nickel at the plate, and the Lord would bless them." A rivalry was created to see which side would produce the more coin, and by this means the collection was brought up to a good figure. The army people exhibit as keen a wit and activity in obtaining the sinews of war as they do in fighting the forces of darkness.

The proceeds of these meetings will give the army a good lift. Ten cents admission was charged Saturday night, and on Sunday silver collections were taken at the door. After the local corps gets its share, and the expenses of the Musketeers are paid, the surplus will be devoted to the fund for the Homes of Rest for sick officers.

The Musketeers will be in Omemee to-night, and will reach Toronto in time to participate in the great anniversary celebration beginning Saturday next and continuing till the 16th.

Church Chimes.

The annual harvest thanksgiving service will be held in St. John's church on Thursday, Sept. 17th.

In the George Street Methodist Church on Sunday morning, the pulpit was occupied by Rev. W. H. Cooke, of Cavan.

The holiday season being pretty well over there was generally a better attendance yesterday at all the churches in the town.

At the Sunday evening service in St. John's church Rev. J. C. Davidson, Rector, made a touching reference to the fact that three members of the congregation had been taken away by death within the past week.

The Rev. Geo. Edwards, the popular pastor of Charlotte street Methodist church returned a few days since from a pleasant months holidays at Stony Lake and a visit to friends on his former charge. Mr. Edwards occupied the pulpit yesterday for the first time since his return and was greeted with large and appreciative congregations. His sermons both morning and evening, based on the very important question "Is thine heart right?" were practical, earnest and eloquent and cannot fail but result in much good to those who heard him.

Rev. Mr. Torrance, who occupied his pulpit yesterday for the first time since his return from the old country, preached a powerful, practical sermon in St. Paul's last night. He founded his remarks upon the last verse of the book of the prophet Zechariah:—"Yea every pot in Jerusalem and in Judah shall be holiness unto the Lord of Hosts, etc." His subject was religion in every day life and he sub-divided it into religion in the home, religion in recreation, religion in the family, religion in business, and religion in politics. Amplifying, he pointed out even in Christian lands there was no doubt of terrible corruption. He referred to an incident of corruption in the United States which was related to him a year ago and he then had thought to himself that we were free from that kind of thing in Canada. But the recent developments at Ottawa had shown a very deplorable state of affairs—men in high places had been shown to have been guilty of giving and receiving bribes. The preacher warmly denounced this state of corruption and he applied to our case the words of the Old Testament scripture:—"Thy princes are rebellious and companions of thieves; every one loves gifts and followeth after rewards. They judge not the fatherless, neither doth the cause of the widow come unto them. Therefore saith the Lord of Hosts, the mighty one of Israel, 'Ah, I will ease me of my adversaries and avenge me of my enemies.'" In further comment, Rev. Mr. Torrance said we had reason to be thankful that the people were not disposed to condone offences of the kind he has referred to. As the non-conformist conscience of England had demanded the deposition of Parnell, so, no doubt, he said, would the Canadian conscience demand the deposition of all those in high places who had been proved to have been guilty of political corruption.

Douro.

Obituary.

Douro lost one of its oldest residents last week in the person of Mr. Michael Torpy, who died at the advanced age of 87 years. Deceased came to Canada in 1824 with his parents, who settled in Douro. For the last two years he lived with his son, Mr. E. Torpy, Otonabee, at whose residence he died. For over 40 years Mr. Torpy was assessor of the township, and was the first assessor appointed. He was a councillor for several years. He leaves three sons and three daughters living, one daughter being dead. The body was interred at the Catholic burying ground, Douro, the funeral being largely attended.—*Register.*

Norwood.

The High School Association Football Team Elects its Officers.

The semi-annual meeting of the Norwood High School Association Football Club was held in the High School on Sept. 2nd, when the following officers were duly elected:

PRESIDENT.—John Davidson, M.A., LL.D.
1ST VICE PRESIDENT.—A. Steer.
2ND VICE PRESIDENT.—F. W. Tinsoth.
CAPTAIN.—Geo. McDowell.
SECRETARY-TREASURER.—C. H. Edwards.
COUNSELLOR.—E. Mollmoyle.
CURATOR.—Harry McClary.

The prospects for the season are very encouraging, and the Secretary is now prepared to communicate with either local or western clubs with a view of arranging matches for the fall season.

Do not suffer from sick headache a moment longer. It is not necessary. Carter's Little Liver Pills will cure you. Does, one little pill. Small price. Small dose. Small pill.

To-Morrow.

That is the Date of the Great John Robinson Show in Peterborough.

It is a self evident fact which everyone within a radius of 50 miles of this city knows, that the great John Robinson show will exhibit in Peterborough to-morrow.

Every legitimate method of making known its coming has been resorted to. It is by far the best advertised attraction that has ever visited Peterborough. Excursions have been arranged on all the lines of railways centering in the city. Men in the interest of the colossal show have billed, programmed and lithographed every station. Circulars, bills, newspapers and programmes announcing the many features of the great show, have been scattered broadcast. Excursion bills containing rates have been sent to every station agent; a waggon load of packages was sent out on the various lines of railroads from the baggage room in this city. These packages were directed to the several station agents and contained rates of fare, which for the occasion will be greatly reduced. Only two performances will be given at 2 and 8 p.m. The grand street parade will take place on the day the great show exhibits here, which is to-morrow.

Y. M. C. A. Notes.

Mr. E. A. Mansell gave a very practical and helpful address at the young men's meeting Saturday evening and was greatly appreciated by all present.

Mr. Thomas Cochrane led the Bible study and consecration service Sabbath morning. Those present felt the power of the Spirit to open and apply the truth for freedom and service.

The open air service was well attended on Sabbath afternoon. The general secretary gave the Gospel address and the Y. M. C. A. band led the singing, which was heartily helped by the audience. We are believing for results from these services.

Rev. George Edwards gave a thoughtful and impressive address at the Gospel and Song Service last evening, which made a marked impression on all present. Extracts from a letter from Mr. F. G. Saunders, now in China, were read, showing the sad condition of the millions in China who are without the privileges of the Gospel of Jesus Christ.

Bible study for young men on Tuesday evening at 8 p.m.

The boys' meeting will be next Friday evening at 7.15.

Personal.

Mr. Albert E. Hurley left this morning for Toronto to resume his studies at St. Michael's College.

Mr. W. H. McIlwain is contractor for the erection of Mr. Collector Clementi's new residence corner Park and Charlotte streets.

The Minden *Echo* of Sept 4th says:—Rev. Orr. Bennett, formerly Presbyterian Minister here, is expected to visit this locality next week, when he will be certain of a hearty welcome by the numerous friends he made during the term of his pastorate in Minden.

We notice by our exchanges throughout Manitoba, the Northwest and British Columbia that through Messrs J. R. Stratton, M. P. P., Peter Hamilton and R. B. McKee who are making a tour of these parts of the Dominion, Peterborough is getting quite a boom in free advertising. The papers in the different places where they stop off are interviewing these gentlemen and the advantages that Peterborough possesses as a manufacturing and business centre are being fully laid before the people. They seem to "stand in" with the press wherever they go. Messrs. McKee and Hamilton are returning home by way of San Francisco, and Mr. and Mrs. Stratton return by way of Winnipeg, stopping off a day at Rat Portage, North Bay and Sudbury. They have all left Victoria on their homeward journey.

News Nuggets.

—The Toronto *World* says:—"The corner stone of a Methodist church on Dovercourt-road, to be known as the Centennial, will be laid on Thursday afternoon by Mr. George A. Cox of Peterborough with due ceremony.

Ambitious Raspberries.

Mr. John Best, Dongal street, has "left on our table" a cluster of ripe second-growth Cuthbert raspberries, which the wet and warm weather of the past fortnight have forced into maturity.

The Laundry Changes Proprietors.

There has been a change in the management of Persian Laundry. J. Graham & Co. have retired and a new syndicate have purchased the business, with Mr. H. W. Stock as manager.

Punished for Being Punished.

Dave Fleming, a young man who has been giving the police considerable trouble lately, came to the end of his tether on Saturday night, when he was "salted" in a double sense. Fleming was drinking at the Columbane House, and picked a quarrel with an inoffensive young man, who was compelled to fight in self defence. Fleming got the worst of the struggle, and had his friends not interfered he would have been badly beaten. An information was laid against Fleming, and on a charge of assault he was fined $10. As the same time he was fined $2 for disorderly conduct Friday night at Frank's restaurant, where after getting a dinner he refused to pay for it and cut up rough. Fleming ought to take the lesson to heart and behave himself better in future.

Police Court Pencillings.

At the police court several cases were disposed of this morning.

William Edmonson, a boy old enough to know better, was charged with jostling and indulging in horse play on George street on Sunday night. He was arrested and spent the night in the cells and was dismissed with a warning.

Geo. McAlpine, a sixteen year old youth, a week ago last Saturday night hit Kenneth Dixon with a stone as the latter was driving by. Young Dixon's head was cut so severely that a surgeon's needle was required to close the wound. McAlpine was allowed to go on suspended sentence, his future conduct being left to determine whether punishment shall be imposed.

Joseph Donohue and James Coughlin, two loafers who have been lounging about the streets for some time, were charged with vagrancy, and dismissed with the advice that they had better leave town at once if they did not want a term in gaol.

Sallow and leaden hued complexions soon give place to the loveliest pink and white, when the use of Ayer's Sarsaparilla is persisted in, and cosmetics entirely abandoned. Nothing can counterfeit the rosy glow of perfect health, which blesses those who use this medicine. dw

Purify Your Blood

The importance of purifying the blood in its relation to perfect health is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is hereditary and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

Canada's Debt.

A well known literary man in the United States, writing in the September number of the New England *Magazine*, refers to the enormous debt of Canada. He says:

"The rapid, the startling growth of the debt of Canada, which has increased from $75,300 743 in 1870, to $238,000,000 in 1890, with a population almost as a stronghold of a stagnant trade, has struck some important observers with the idea that there has been something wrong in the government of a peaceful young state of enormous extent and great natural resources. Of course, a large portion of this debt was incurred for the construction of railways, improvements of canals and similar political and commercial works; but the results of returns do not compensate for the vastness of the new debt, with its oppressive load of interest. They freely comment upon the fact the fact that while the United States have reduced their debt from $59 to $16 50 per head in 20 years, Canada has run up her's from $21 to $47."

The writer is slightly in error in fixing the debt at $47 per head of population. Even the Government returns show a debt of $48.65 per head of population, and admits that there are liabilities which make the gross debt $66 07 per head. The bookkeeping of the Macdonaldites was fraudulent, and there can be no reasonable doubt that when affairs are closely investigated it will be found that the liabilities are accurately stated whilst the assets are imaginary. The gross debt we have to carry is actually $66,07 per head, and it will ere long be discovered that the gross debt is also the net debt.

The new census enables us to reckon the debt with some degree of accuracy. Two years ago the Macdonaldites officially certified that the population of Canada was 5,075,855. The census shows that to-day—two years after that official declaration—the population is only 4,833,344. These numbers must be taken as a foundation for any calculation made, but it is the deliberate opinion of this journal that the present census is as fraudulent as the last, and that the population is made to appear much larger than is really the case. But, accepting the figures of the census, and admitting the population to be 4,823,344, then we find that the gross debt of the country in March 31st last, was $286,717,383, and the debt was $234 192 354, then the gross debt per head was $66 07, and the net debt was $48 65.

The following table shows the increase in per capita indebtedness since Confederation:

	Gross debt.	Net debt.
1868	28 74	22 47
1871	32 32	22 08
1881	45 19	35 76
1891	66 47	48 65

In twenty years of Macdonaldism and National policy the public debt has increased from $28.74 per head, to $66 07 per head! What an awful commentary on the disclosures now being made at Ottawa!

Ontario, happily, has no Provincial debt, but the other provinces are all heavily loaded with debts dishonestly and dishonourably contracted. In Quebec there is a provincial debt of $34,000 000. This requires taxation to the amount of $22 18 per year to pay the interest on the debt. Add this $22.18, to the $66 07 and we find that every man woman and child in the Province of Quebec has to pay as her share of the public indebtedness no less than $88 25 every year of his life. For a man with a wife and three children this amounts to $441.26 a year! *Bobcaygeon Independent.*

The "Times" Yet Exists.

The baseball match which was to have taken place on Saturday between the *Times* and EXAMINER staffs, had to be postponed on account of the rain. The great struggle will take place later, and in the meantime the EXAMINER'S battery will borrow the Durham Field Battery's guns and practice their catcher on a few easy ones. "Casey's Troubles" won't be a patch on this game when it comes off.

DIED.

MCNAMARA.—At No. 65 Park street, on Sunday, Sept. 6th, 1891, Maggie, eldest daughter of Mr. P. J. McNamara, aged 26 years

Funeral Tuesday morning at 9 o'clock, from the family residence, 65 Park street.

The Persian Steam Laundry COMPANY.

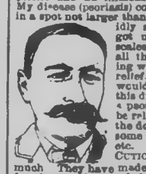
All debts due the old firm must be paid to the undersigned at once.

The continued patronage of the public is respectfully solicited.

H. W. STOCK,
1dlw Manager.

Scratched 28 Years

A Scaly, Itching, Skin Disease With Endless Suffering Cured by Cuticura Remedies.



If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me $200.00 and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body, and got under my nails. The scales would drop off of me all the time, and my suffering was endless, and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was $5 worth. If you had been here and said you would have cured me for $200.00 you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

DENNIS DOWNING, Waterbury, Vt.

Cuticura Resolvent

The new Blood and Skin Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), instantly and speedily cure every species of itching, burning, scaly, crusted, pimply, scrofulous, and hereditary diseases and humors of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scrofula.

Sold everywhere. Price CUTICURA, 75c; SOAP, 35; RESOLVENT, $1.50. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations and 100 testimonials.

PIMPLES, blackheads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

ACHING SIDES AND BACK,

Hips, kidney, and uterine pains and weaknesses relieved in one minute by the Cuticura Anti-Pain Plaster. The first and only pain-killing plaster.

TORONTO TOPICS.

Events of More Than Passing Interest in the Queen City.

Toronto, Sept. 8. The full official Exhibition was formally opened to-day. [illegible] to-day. The weather [illegible] was cool and appreciable. Indicate even more than the usual success. The [illegible] was good, and if it accommodates the 150[illegible] Industrial will surpass its predecessors all the way round.

Toronto, Sept. 8. The following nominations were received at the Dominion Department yesterday from the authorities at Joplin, Mo.: On June 29 a woman about 30 years of age committed suicide in this city. At the inquest nothing could be found relating to her identity. She had been here but four days and was a stranger. In her trunk I found a photo of her, of which I send you a copy. The photo was taken in Galveston, Texas. In the trunk I also found a card bearing the name, Mrs. W. E. Thorne. There is some reason to think that is her name. Since the inquest I learn that she gave her name to different parties as Mrs. Dulie Beach before marriage, that her husband and child were dead, that she was originally from Ontario, Canada, and that she had been traveling about the United States for a little over three years. I would like to establish her identity, with a view of notifying her people of her death, and think you can assist me a little. Can you tell me if a woman answering to either of the above name was a resident of Toronto up to three or four and a half years ago, and, if so, if she has any relatives living and what their post office address is.

The bright prospect of a big potato crop has been somewhat [illegible] during the last few days by the appearance of the dreaded rot. As to its extent, there is a difference of opinion among dealers. Some claim it exists only in the low lying lands east of Toronto, while one Potato Pioneer avers it is prevalent and will destroy 50 per cent. of the crop. Others estimate the damage at one-third. Whatever the condition may be in other districts, so there is no doubt that the disease has appeared immediately east of here and evidently in its most virulent form. One farmer who has a large quantity under cultivation was yesterday heard to remark that he would be compelled to plough up the whole of it to save it while a small deal of damage had been done to the crop on other part of his farm. The greatest amount of damage seems to have been done in low lying fields and where the potatoes after a heavy rain, were most susceptible to injury by the scorching rays of the sun. Absolute good many potatoes received on the market have proved to be worthless.

Mr. W. A. Murray, head of the well known dry goods firm of Murray & Co., King street east, died yesterday at the residence of his son, Scarboro. The deceased, who was highly respected, was born in Perthshire, Scotland in 1811. He came to Canada in 1834 to join his brother in the dry goods business in Hamilton and remained there, though he learned the dry goods business on Scotland, he was for a number of years a principal buyer for Todd, Irvine & Co., Limerick, Ireland. He then and with his brother, who is still doing business in Hamilton, but for a short time, apparently forseeing the destined greatness of the Queen City. He came to Toronto in 1853 and entered into partnership with Mr. Wm. B. Wallis, under the [illegible] of Wallis & Murray. During all these years Mr. Murray made two round trips to Europe each year crossing the sea in all over 125 times.

Forty families of Jews who had been expelled from Russia arrived in the city by train from Montreal last night and were met and taken care of by Rabbi Elzas and a number of the members of the Richmond street synagogue. They were in a pitiful state of poverty, and were destitute of money and food. Had [illegible] been sent from Russia by people who [illegible] of it they had been in prison like criminals, though their only offence was that they belonged to the race which the despot, Czar has decreed resident in his own dominions. These immigrants are only allowed to enter the United States upon the Assessed Holders Charities has given bonds for a million dollars that they will not become a public burden. They were therefore sent to their various destinations in the U. S. via the Chicora to Lewiston.

Garsmon Edward Hanlan and William Conor left at 11 20 yesterday for New Westminster, B. C., to fulfil their engagement in the regatta there on September 23rd. They took the steamship express for Owen Sound, where they will take one of the Canadian Pacific steamships for Port Arthur, and go from the latter place overland. A number of friends saw them off at the Union Station. The two rowers [illegible] taken three shells with them. O'Connor had two built by Biddleck, and Hanlan one made by George Wahn. Hanlan's shell is [illegible] seven inches long, and weighs only 20 lbs.

Mr. Joseph Harris, Government Grain Inspector at the Toronto Board of Trade, has resigned. He has held the office for 20 years and was gone ully popular among the grain men. As an authority on grain he is a soul. Should soon seldom or never be duplicated. Mr. Harris leaves Saturday next for Winnipeg, where he will engage in the grain business.

The transfer system on the street car goes into force to-day, and night cars will run hereafter.

WHISKY SOLD.

An English Curate's Sad Down-all Through Drink.

London, Sept. 8. [illegible] ed [illegible] Henry Rudge, the [illegible] of Hammond [illegible] was [illegible] here highly respected, died [illegible] downfall he became addicted to liquor. [illegible] he began drinking and it was [illegible] by the parish trustees that [illegible] large amount of parochial funds. A year ago Rudge was [illegible] his pay [illegible] of [illegible] Overcome by despondency and blame he attempted to commit suicide, but was prevented. He was sent [illegible] the offence. It is believed that he [illegible] poison through some friend while in [illegible] was thus enabled to finally [illegible] the work of self-destruction. [illegible] shows signs of poison.

A DYNAMITE BOMB

Deliberately Exploded in Carroll's Room Blows Him to Pieces.

New Brunswick, Sept. 8. [illegible] Carroll, of Fredericton, committed suicide in the Dominion House here by exploding a dynamite bomb in his room. The explosion shook all the buildings in the neighborhood. Carroll's remains were scattered all over the room and one arm was found in the street. The windows and plastering were broken and the furniture damaged. He told some persons that he intended to kill himself to create a sensation for the newspapers. He left a note saying life was not worth the living.

AN EAGLE'S QUARRY.

A Living Babe Borne Into the Air and Dropped to Its Death.

Sault Ste. Marie, Ont., Sept. 8.—John Cowadie, a Chippewa Indian, living on the shore of Echo Lake, started out yesterday to gather a party. His only child, a girl baby, was on the outside of the hut, near the door, his wife being on the opposite side of the little dwelling. When the Indian father and the party had proceeded half a mile or so, they saw an enormous bald eagle soaring over the edge of Echo Lake, near the hut. There was no thought of danger to the child, but their sportsman's instinct prompted them to turn back to get a shot at the bird.

As they turned to retrace their steps, the eagle made a sudden swoop to the earth. The Indian quickened his pace and reached his cabin in advance of the white men. When they arrived at the lake they saw a dead eagle of unusual size and formidable appearance lying upon the ground, near it the Indian babe, torn and bleeding, and also dying.

The scream and rush of the great bird upon the child brought the Indian mother upon the scene. Her babe was already several feet in the air held by the ugly talons of the eagle. The child was evidently too heavy for the bird and was dropped to the earth.

The fall caused its death. The eagle [illegible] the [illegible] but was [illegible] of its claws when [illegible] succeeded in [illegible] it away. As the bird rose in the air it was shot by the father, who had arrived too late to save the child.

The white man had no difficulty in securing the eagle and they will have it stuffed.

Young Thieves from Toronto.

Belleville, Sept. 8. Detective John A. Greene of Montreal, who is in connection with Robinson's circus, on Saturday evening arrested three boys named William Leaver, Adolphus Scott and P. McKeon, aged 16, 15 and 15. They stole four whips and two rugs from vehicles which were left near the circus grounds. At the court yesterday the boys stated that one of the circus men told them if they did not steal the whips they would thrash them. After warning them the magistrate allowed them to go. They belong to Toronto.

Canada's Imperial Railway.

Victoria, B. C., Sept. 8.—A British regiment returning to England from China next month is to make the trip eastward by way of Canada. This will be the first practical test of Britain's new military highway to the east across her American possessions, and the result will be looked for with much interest. Great Britain expects this route to be of enormous value in case of trouble in India and of the Suez Canal being blockaded. The agreement between the Government and the railroad for the use of the route was made public last week.

Terrible Reaper Accident.

Drayton, Ont., Sept. 8. The 10-year-old son of Joseph Hills, Maryboro township, was driving a reaper, and in reaching forward to throw it out of gear one of the revolving rakes caught his head and threw him in front of the knives. Both arms and leg were completely severed from his body. He was also severely cut about the face and died in two hours.

INFANTICIDE CHARGED.

Lizzie Taylor, of Moorefield, in This Serious Predicament.

Lucknow, Sept. 8. Alice and Lizzie Taylor, mother and daughter of Moorefield, are at present serving three months term in jail for their part in the stealing of some goods from a relative, Miss Ratcliffe. Their daughter, at the time of her arrest, had in her care her illegitimate child, which, subsequently died in the jail. A coroner's jury found that the child died from natural causes, but that its death was hastened through the action of Constable McFadden, the official who arrested the two women in the interesting case, it being stated that he had not allowed the mother time to properly bathe the infant. The case has created new interest, however, by the re-arrest of the mother charged with killing the babe.

The evidence of the jail surgeon, Dr. Smith, showed that when the child was brought to the jail, where it died, it was in a very emaciated condition, and, considering the way it had been fed and clothed, as told to him, the result of death was only what might have been expected.

Mr. Anson Battin of Usborne, a cousin of the prisoner, said the Taylor girl told her she would not feed it, even if the little devil died. The prisoner also told witness she had fed the child buttermilk, blackstrap and water.

AN EAGLE'S QUARRY.

A Living Babe Borne Into the Air and Dropped to Its Death.

Sault Ste. Marie, Ont., Sept. 8.—John Cowadie, a Chippewa Indian, living on the shore of Echo Lake, started out yesterday to gather a party. "THE LATE MINISTER,"

IS THE CLEARING-UP PHRASE USED BY PREMIER ABBOTT,

In Correcting Misapprehensions Concerning Sir Hector Langevin—The Letters Between Premier and Recent Colleague—Enquiry About a Letter From Hon. Wm. Macdougall.

Ottawa, Sept. 8.—In the House yesterday Sir John Thompson said he wished to make a statement at the instance of the late Minister of Public Works. When his resignation was announced another minister took charge of the department. He was surprised two or three weeks afterwards at a question put in the House as to the position of the late Minister, because it indicated a misapprehension on the subject, which was not anticipated at the time that the resignation was announced. He stated then to Mr. Laurier that the resignation did not require to be accepted, because his view and the view of the Minister himself and his colleagues were that he had renounced his office in placing his resignation in the hands of the person qualified to receive it, and unless the resignation was declined it took no effect as a matter of course. He thought from the fact that the question was put that some members were under the impression that while resigning his office as Minister of Public Works Sir Hector continued to take part in the deliberations of council and to act otherwise as a member of the Cabinet. It was obviously unfair to leave the House under the impression that their late colleague still shared the responsibility of the acts of the council. The honorable gentleman felt that the ambiguity should no longer exist and, therefore, addressed this letter to the Premier yesterday:

Ottawa, Sept. 7, 1891.

My Dear Prime Minister: I see that at the last meeting of the Senate a question was put to you by one of the Senators to know whether my resignation, as Minister of Public Works, had been accepted. This question coming after a similar one in the House of Commons, makes me perceive that there is some misunderstanding about my position and in order to put an end to it, I wish, as intended by me, and ask you that my resignation may be accepted without further delay.

I remain, my dear Prime Minister,
Yours very truly,
Signed: HECTOR L. LANGEVIN.

In reply Mr. Abbott wrote this letter to Sir Hector Langevin yesterday:

Privy Council Office,
Ottawa, Sept. 7, 1891.

Dear Sir Hector Langevin,—I have to acknowledge your letter of this morning requesting that your resignation may be accepted without further delay, and to say that in accordance with your request I shall regard your resignation as final and shall lay it before His Excellency immediately. I remain, dear Sir Hector,

Yours truly,
Signed: J. J. C. Abbott

Mr. Laurier said that the statement showed that there was ground for the misapprehension. He understood that Sir Hector Langevin had ceased to be an advisor of His Excellency from the time that he placed his resignation in the hands of the Premier.

The Baie Des Chaleurs Subsidy.

In reply to Mr. Binfret, Mr. Foster said that the total amount of subsidies paid to the Baie Des Chaleurs Railway was $524,175.

A Letter of the Long Ago.

Mr. Forbes has given notice that he will enquire has the Government or any member thereof had their attention called to the following statement published over the signature of Hon. William Macdougall; (1) shortly after the accession of Sir John Macdonald in 1878 the Government determined to abandon the construction of the Georgian Bay branch of the Pacific Railway; (2) It was then under a contract in which Messrs. Smith & Ripley of New York, well-known railway contractors, had acquired a controlling interest; (3) Mr. Chapleau had been retained by the contractors to advise them in securing this controlling interest; (4) In consequence of his ignorance or neglect the assignment of the interests they bargained and paid for were so informal and imperfect that on a motion of the judges of the Supreme Court on appeal from the judgment of the Exchequer Court in their favor for $171,000 held that Messrs. Smith & Ripley had acquired no legal interest in the contract, the majority of judges expressed the opinion that as these gentlemen had obtained a good title and had expended a large sum of money on the contract had been illegally set aside from them, and that the Government ought, as a matter of public duty, to see that the contract had been legally and duly dealt with by them. Sir Chapleau neither appeared nor advised on any of the proceedings in the courts from 1878 to 1884, when the case was finally disposed of on a petition to the Governor in Council preferred and presented by me. (6) On this day information reached me that the council had decided to offer them $2,000 in full of their claim. Mr. Smith informed me that, as the Chapleau 10 per cent. demanded 10 per cent. of the amount. When Mr. Smith & A. Chapleau actually received that sum or any part of it I cannot affirm, as I did not see the money paid to him but I know that he was exceedingly attentive to Messrs. Smith & Ripley on and during the day on which they drew the money from the bank.

8. Mr. Smith and his partner gave as a reason for offering me $2,000 for my professional services extending over a period of about four years that they had been compelled to pay large sums to people who had done nothing but use influence with the Government.

9. I believe that Mr. Chapleau received a large sum of that solatium. I leave the records of the Exchequer Court, the reports of the Supreme Court, and the testimony of any professional brethren who were counsel with me to vindicate my reputation as a lawyer in that difficult case. It would have been capable and easy if Mr. Chapleau had given proper notice to his colleagues when they paid away such as he says they did for securing to them a controlling interest in the contract. I am, etc.,

Signed, "William Macdougall."

And the Government purpose taking any steps in the matter? If so, whether an investigation will be immediately directed.

The Copyright Law.

Sir John Thompson has given notice that he will move that an address of Parliament be presented to Her Majesty the Queen on the subject of the copyright law.

Lynched by 50 Men.

Wilmington, N. C., Sept. 8. Saturday a negro named McBest assaulted a white woman near Garland. McBest was arrested and placed under guard. Last night fifty masked men took McBest from the guards and hanged him.

Cable Chat.

The London Board of Trade returns show that imports increased in August £1,420,000 and that exports decreased £2,150,000 compared with August, 1890.

The British bark Fiji, bound from Hamburg to Melbourne, has been wrecked on the rocks of Warnambool, Australia. Thirteen of the crew were drowned.

A despatch from Mombassa in British East Africa announces that the British East African Company's Steamship Kenia, has navigated the river Tana a distance of 300 miles from the coast and thus opened to trade a fertile and populous district.

The prospects for a good harvest in the Caucasus splendid. The Government has reduced by 50 per cent. the rates hitherto levied upon cereals transported on the Caucasus railroads in order to facilitate conveyance of grain from one part of the country to the other.

The official announcement that Lady Macdonald is to be raised to the peerage is made in The Official Gazette, published in London. From the text of the announcement it is provided that after Baroness Macdonald's death the son of the late Sir John becomes "Lord Macdonald of Earnscliffe."

The Austrian army manœuvres closed today and the Emperor of Germany has gone to Munich, accompanied by Chancellor Von Caprivi. A drenching rain made the manœuvring ground at Geoffrits extremely heavy to-day. Nevertheless, to-day's manœuvres were the most brilliant of the whole series. Both the German and Austrian Emperors warmly commended the officers and men and especially their marching power, fighting tactics and steadiness of fire.

Children Cry for Pitcher's Castoria.

BRITISH AND FOREIGN.

THE GERMAN KAISER MERCIFUL TO THE ERRING.

He Pardons Mrs. O'Neil Who Shot Her Husband—History of the Crime—The Sufferings of the Woman and Daughter's Welfare Made Her Desperate.

Wiesbaden, Sept. 8.—Mrs. O'Neil, the wife of Gen. O'Neil claiming to be an officer in the United States army, who, while in a fit of jealousy shot at and dangerously wounded her husband at this place on May 20 last, and who was imprisoned for that crime has been pardoned by Emperor William and released from imprisonment. Mrs. O'Neil has been separated from her husband and on the day mentioned called at his house and found him in company with another woman. Mrs. O'Neil immediately opened fire on the couple, emptied three chambers of a revolver in their direction, and then turned the weapon upon herself, but only succeeded in wounding herself in the hand. The general, however, was found to be in a precarious condition. Both Mrs. O'Neil and the general were removed to an hospital.

Subsequently on July 11 Mrs. O'Neil was sentenced to four months' imprisonment. It was claimed, in her behalf, that she had been married to the General for 20 years; that he habitually neglected her; that he had squandered a fortune which she brought him; that she had a daughter 15 years of age who was dependent upon her and that the General had installed his mistress in his home. The latter escaped injury from Mrs. O'Neil's bullets. Mrs. O'Neil is 60 years of age. Her daughter is being educated in Florence.

A Newcastle Vessel Lost.

The Captain and Ten Men Perish from Suffering.

San Francisco, Cal., Sept. 8.—Australian mails bring details of the loss of the bark Ellen, which foundered on the voyage from Newcastle to Loumea. During a severe storm it was discovered that the vessel was leaking and that there was six feet of water in the hold. All hands went to the pumps, but there exertions were useless, and all hope of saving the vessel was abandoned. The captain issued instructions to man the boats. All hands left the bark and in a short time afterward the vessel foundered. It had been impossible to secure any water or provisions and all were so exhausted from their exertions that they could scarcely stand. Two of the men were swept away by waves at one time and a third jumped overboard. The remainder did their best to keep the course to New Rocks lighthouse. The captain and steward succumbed. Only one man, an able seaman named Peterson, was saved, while Captain Stevens and ten men were lost. The vessel was owned in Newcastle.

The Irish Situation in America.

Omaha, Neb., Sept. 8.—John P. Sutton, secretary of the Irish National League of America, when asked whether the coming convention at Chicago would be for or against Parnell, said: "This convention will be perfectly independent of all Irish factions. When the convention was called the following cablegram was sent the leaders of each faction. 'Convention meets in Chicago Oct. 1.' Parnell replied as follows: 'Regret that I cannot visit America in October, may possibly later; what do you suggest?'

"Mr. Parnell probably wanted a further postponement of the convention, but the days for submission to the whims of Irish leaders have passed forever," said Mr. Sutton. "Mr. McCarthy, after many days of meditation, answered:—'Cablegram received; thanks.'"

"By Parnell in power and Parnell out of power, and by the members of McCarthys following, whether united or disunited, the treatment accorded to the Irish National League has been cowardly, discourteous, and, I may say, treacherous."

A Woman's Fatal Plunge.

Peoria, Ill., Sept. 8. Another aeronaut fell in Peoria Lake yesterday. This time it was Mme. Keefer, wife of the man who fell in the lake a week ago. Mme. Keefer made the ascension under protest, as a strong wind was blowing. The plucky little woman sailed away, and when at the height of 5000 feet cut her parachute loose and dropped. The parachute did not open soon enough and she fell into the lake. The immense crowd on the shore was horrified to see her sink with the big parachute settling over her. Anticipating a repetition of last Sunday's accident, boats were in waiting, and the woman was fished out. She still clung to the trapeze bar, but was unconscious. She has not regained consciousness, and may die.

Trouble in the Carolines.

San Francisco, Sept. 8. Letters from the Caroline Islands contain accounts of the disturbances between the Spanish troops and the natives at Panope. At one battle the Spanish mustered 1,200 men and the natives were not so numerous, but the Spaniards had to retire with heavy loss. The island of Panope is divided into five tribal districts, each ruled by a king. One of these tribes is especially hostile to the Spanish government, and the Governor has issued a proclamation that every tribe will be annihilated unless the members surrender themselves and their arms to the Spanish authorities. Peace has been restored.

500 Labor Delegates Present.

Newcastle, Eng., Sept. 8.—The Trades Union Congress opened here yesterday. There are over 500 delegates present and they represent about 1,500,000 British workmen skilled and unskilled. Thomas Burt, member of Parliament for Morpeth, Northumberland, a member of the Labor Commission, was elected president. The Congress will discuss whether eight hours should or should not constitute a day's work. Also the means for workingmen and their employers' liability in case of accident or also likely to be discussed.

Double Tragedy on a Steamer.

San Francisco, Sept. 8.—Ceylon advices give the details of a double tragedy which occurred on the steamship Hohenzollern, which left Adelaide June 22. Lawrence M. Davidson eloped with Miss Ardiffe, his wife's sister, a warrant had been issued for their arrest, and it is presumed that this came to their knowledge, for as the vessel reached the port Davidson shot himself through the head and the girl swallowed strychnine, dying shortly afterward.

A Heavy Suit Against the G. T. R.

Port Huron, Mich., Sept. 8.—Mrs. Emily T. McDonnell of this city, yesterday commenced a suit against the Grand Trunk Railway for $100,000 damages. On June 30, 1890, Mr. and Mrs. McDonnell were going to Niagara Falls. When near Copetown the parlor car jumped the track and rolled down an embankment. Mr. McDonnell was killed and his wife internally injured. Workmen were engaged repairing the track at the time.

A Dynamite Accident.

Drummondville, Ont., Sept. 8.—John Morse, son of Samuel Morse of this place, stood among a number of boys on a street corner picking at the cap of a dynamite cartridge, when all at once it exploded, taking off both thumbs and the two first fingers of both hands.

"The Little World" Inventor Dead.

Hamilton, Sept. 8.—John McCowell, the clever inventor of the little world, who shot himself in the head a week ago yesterday morning, died at [illegible] residence, No. 39 Dunlop street, shortly after 10 o'clock Saturday night.

Dead and Alone.

Winnipeg, Sept. 8.—Francis Ramuson, a C.P.R. laborer, was found dead at Barclay Station, near here, yesterday.

$200,000 for a Mine.

Winnipeg, Sept. 8.—An English syndicate has just paid $200,000 for one of the mines at Illecillewaite.

You Take no Risk

in buying Hood's Sarsaparilla, for it is everywhere recognized as the standard building-up medicine and blood purifier. It has won its way to the front by its own intrinsic merit, and has the largest sale of any preparation of its kind. Any honest druggist will confirm this statement. If you decide to take Hood's Sarsaparilla, do not be induced to buy any thing else instead. Be sure to get Hood's

MANTLES AND MANTLE CLOTHS AT TURNBULL'S.

We are showing a window of Mantles this week at an unheard of price in the history of Peterborough.

$2.00

takes the choice of the lot, they are not trash but good cloths and well made, in all colors, worth three and four times the money, the only objection being many of them have the plain sleeve, which if the purchaser thinks necessary can be easily altered.

Another lot we have to offer at $3.00. A glance at, by the most sceptical, will cause them to put their hands in their pockets and see if they have brought their money.

For $5.00 we show a nice cloth Mantle with a braided sleeve, others of the new style are—well it would take a lady to describe them.

Beaver cloths in all colors, high collars richly braided, the edge faced with fur, double breasted and flap pockets, three quarter length, when on they are very comfortable looking and stylish. Prices from $6 to $15.

We have imported this year a lot of Scarlet Jackets and Coats lined with satin, all the new shapes, they range in price from $18.00 up. We have also a well assorted stock of long Coats in black and colors to select from.

In Children's wear we have Dozens all the way in price from $1.50 to $8.00.

Our stock of Cloths for the ordered work department is more complete than ever and with increased facilities will be able to do more work and turn out all orders promptly. Perfect satisfaction always guaranteed.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as they supply in a condensed form the substances actually needed to enrich the BLOOD, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also Invigorate and Build up the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental force dull or failing, or his physical powers lagging, should take these Pills. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing

THE DR. WILLIAMS' MED. CO.
Brockville, Ont.

The Daily Examiner is delivered to any part of the Town for 10c. a week. 35c. a month, $2.00 for six months.

Daily Examiner.

TUESDAY, SEPT. 8, 1891.

Barnardo Home Boys.

The Toronto *Empire* says:—We hear a great deal about the pauper lads who are sometimes sent out to service in this country by English agencies like Dr. Barnardo's homes. The pros and the cons of the subject have already been gone into more than once and far be it from us to pull up our skirts when an honest lad, even though a pauper, is given a start here. What we want in those boys is soundness of body and mind and a batch of them now on the way out, according to the *Mark Lane Express*—a reputable authority, it must be admitted—meet these requirements. Here is what that paper says: "Through the city of London, on Wednesday, there passed a procession, with bands and banners, of conveyances carrying some 120 boys to St. Pancras railway station, on their way to Canada. They were well-featured, good-looking lads, who came from Dr. Barnardo's homes, and a correspondent who saw them pass his city office, writes to ask whether it can be good policy to send these youths away while we are allowing destitute aliens so land in large numbers on ours shores. Whether it be wise to receive the poor from other lands is distinct from the question whether it is well to rescue these lads from the streets of London. It is stated that 4,500 boys and girls have been emigrated to Canada, and of these only 2 per cent. have failed in their after lives. If these figures are nearly accurate, the account is rather more hopeful than could have been made of the same number retained at home. The party sailed on Thursday in the steamer Circassian."

A Conservative Journal's Strong Talk.

The *Star*, in a strong article on Thursday denouncing the Government, says:—"The Conservative leaders seem to have no policy but to hang on like grim death, to screen each other under all circumstances, to drift. One would imagine the Government to be bankrupt in brains as well as bankrupt in honour. We do not suggest that the investigation now going on should be in any way interrupted. By all means let it go on, but there is no reason why the whole Conservative party in Parliament should cling with fatuous obstinacy to discredited, dishonoured and impotent leaders. Mr. Abbott held at the time of the Pacific scandal that a man is seldom justified in deserting his party and never justified in deserting it at a pinch. Is the Abbott doctrine to prevail to-day? Are the National Policy, Canada's commercial independence, and British connection to be sacrified to save a lot of hoodlieg politicians? If there are Conservatives in Parliament, above all if there are Conservatives in the Government, who are jealous of the honour of their party, and anxious for its political principles, now is the time for them to declare themselves in no uncertain tones. The people need leaders in whose political principles they can have confidence, and in whose integrity they can trust. That the rascals are going out is evident—whether by the slow process of the election courts or by the Government committing political Hari Kari, matters comparatively little. The great point is that they are going, and that the people are anxiously looking to see who shall lead them into a condition of national honour, combined with national prosperity."

Electric Street Railways.

Electric street railways seem bound to entirely supersede the horse car system at no very distant date. A writer in the *Forum* for this month furnishes some interesting facts, which goes far to sustain this prediction. It is only twelve years since the first suggestion of the possibility of utilizing electricity as a motive power in street car service was made. Four years ago there were but some dozen roads where electric cars were in successful operation. Richmond Va., was the first city where a large, thoroughly equipped electric street railway was established. That was in 1888, since which time no less than three hundred and fifty railways have adopted the new system and worked it successfully. These lines include those in Australia and Japan as well as in the United States. They use four thousand cars, seven thousands motors, two thousand six hundred miles of track and carry a billion passengers annually. They employ fully ten thousand persons, and it is stated that there never has been an authenticated report of death on account of the electrical pressure used. Thirty million dollars are invested in this industry in the United States alone, and every year sees an increasing number of cities adopting electric cars for rapid transit. These facts are a notable proof of the facility with which new scientific and mechanical contrivances and inventions are put into practical operation in these days when speedy locomotion is a grand object in city business life.

If you could see your own scalp through an ordinary magnifying glass you would be amazed at the amount of dust, dandruff and dead skin thereon accumulated. The best and most popular remedy for cleansing the scalp is Ayer's Hair Vigor.

Two Genuine Harvest Excursions

Fulford & Co., Brockville, Ont. dw

Children Cry for Pitcher's Castoria.

Alarming Intelligence!

Thousands of Canadians Dropping Off—They Die Owing to Improper Treatment!

Educated and thinking Canadians are alarmed, and have become thoroughly aroused of late, owing to the large number of sudden and unexpected deaths. We are indeed forced to admit that matters look terribly serious for the future of our country. Our intelligent people who can discern the signs of the times, must not be called alarmists; they are true patriots and honest citizens, having at heart the moral and material welfare of our Dominion.

They clearly perceive that thousands of our men and women are yearly consigned to the silent grave, and know that thousands of others are ready to follow, who are now struggling in a deadly whirlpool, where they must soon be engulfed, unless some extraordinary effort is put forth to save them.

Improper heart action, or heart failure, is the terrible agent which is now creating such havoc, and so rapidly decimating our population. Physicians know well that this dreadful malady is on the increase, and they look with alarm on the situation. The fatal visitor, "heart failure," is in reality and awful nerve disease; it means unstrung and shattered nerves, and a complete nervous prostration; in many cases it is a paralysis of body and heart.

The first warnings or symptoms of this very prevalent disease should not be trifled with, they are serious and dangerous, and no time should be lost in obtaining relief.

The premonitory symptoms of heart failure are weak nerves, intermittent pulse, dull brain action, lightness in the head, giddiness, faint, weak feelings, short difficult breathing, pains and palpitation in the regions of the heart, a drowsy feeling during the day time, and sleeplessness and unrest at night. Some are easy startled at noise or commotion; others are continually experiencing a feeling of some danger coming on, and have constant anxiety and apprehension.

Failure to note any of these symptoms—neglect of these true monitors, will certainly result in heart disease and death.

All the symptoms above noted are a result of nerve depression—a lack of nerve power.

The nerves and brain should at all times receive that food which they require, so as to keep the heart action in a healthy condition. When this is accomplished, there can be no danger from heart failure. Physicians have not been able to grapple with this terrible malady when obliged to rely on their own formulæ and medicines. Many medical men honestly advise their patients to use Paine's Celery Compound, as they are perfectly acquainted with its powers, and are aware that its use offers the only hope of cure for weak and irregular heart action.

No other remedy ever brought before the notice of mankind possesses such wonderful merits and extraordinary powers. It is the only remedy for weak nerves and clouded brain that is positively guarranteed to act promptly and give the desired results. No other remedy can boast of such great successes and marvellous cures as Paine's Celery Compound, and its grand record should give faith and courage to all Canadians who experience the slightest symptoms of that dreaded disease, heart failure. Do not delay its use an hour, your condition is critical, and time is precious.

Sallow and leaden hued complexions soon give place to the loveliest pink and white, when the use of Ayer's Sarsaparilla is persisted in, and cosmetics entirely abandoned. Nothing can counterfeit the rosy glow of perfect health, which blesses those who use this medicine. dw

A Narrow Escape.

"I would probably have been in my grave to-day had it not been for Dr. Fowler's Extract of Wild Strawberry. For two years I suffered from bowel complaint and became very weak and thin, but after using half a bottle of the Extract I was completely cured and have since had not return of the complaint."—*Miss Hilton, 34 Huntley street, Toronto.* dw

Purity of ingredients and accuracy of compounding, make Milburn's Aromatic Quinine Wine the criterion of excellence. dw

Don't You Forget It.

"I will never forget that Dr. Fowler's Extract of Wild Strawberry saved my life. Five years ago I had a terrible attack of summer complaint and was given up by my doctor and my parents. A friend advised Fowler's Strawberry and at the second dose I was relieved and soon was as well as ever."—*Maggie McGillivray, Falkenburg, Ont.* dw

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

If you have any pains in the joints, caused from cold or dampness, do not wait until it develops into a bad state of rheumatism, but ask W. R. Greatrex, druggist, for a bottle of Royal Rheumatic Remedy. dw

When Baby was sick, we gave her Castoria
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria
When she had Children, she gave them Castoria.

They have discovered it! "What? Vita Ore, which is warranted to cure Diphtheria or any Throat trouble, Dyspepsia or Female Weaknesses. Put up by the Vita Ore Co'y, Box 89, Belleville. d303m w

The Voice of the People.

In every part of Canada the voice of the people rules, and the voice of the people endorses Burdock Blood Bitters as the best and surest blood purified known. Nothing drives out boils, blotches, humors, sores and impurity so quickly as B.B.B., and perfect health with bright clear skin always follows its use. dw

MANY A LIFE

HAS been saved by the prompt use of Ayer's Pills. Travelers by land or sea are liable to constipation or other derangements of the stomach and bowels which, if neglected, lead to serious and often fatal consequences. The most sure means of correcting these evils is the use of **Ayer's Cathartic Pills.** The prudent sailing-master would as soon go to sea without his chronometer as without a supply of these Pills. Though prompt and energetic in operation, Ayer's Pills leave no ill effects; they are purely vegetable and sugar-coated; the safest medicine for old and young, at home or abroad.

"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural and regular action so that now I am in

Excellent

health."—Mrs. C. E. Clark, Tewksbury, Massachusetts.

"I regard Ayer's Pills as one of the most reliable general remedies of our times. They have been in use in my family for affections requiring a purgative, and have given unvarying satisfaction. We have found them an excellent remedy for colds and light fevers."—W. R. Woodson, Fort Worth, Texas.

"For several years I have relied more upon Ayer's Pills than upon anything else in the medicine chest, to regulate my bowels and those of the ship's crew. These Pills are not severe in their action, but do their work thoroughly. I have used them with good effect for the cure of rheumatism, kidney troubles, and dyspepsia."—Capt. Mueller, Steamship Felicia, New York City.

"I have found Ayer's Cathartic Pills to be a better family medicine for common use than any other pills within my knowledge. They are not only very effective, but safe and pleasant to take—qualities which must make them valued by the public."—Jules Hauel, Perfumer, Philadelphia, Pa.

SCOTT'S EMULSION

of pure Cod Liver Oil with Hypophosphites of Lime and Soda is almost as palatable as milk.

A MARVELLOUS FLESH PRODUCER

It is indeed, and the little lads and lassies who take cold easily, may be fortified against a cough that might prove serious, by taking Scott's Emulsion after their meals during the winter season.

Beware of substitutions and imitations.

SCOTT & BOWNE, Belleville.

A Handsome Prize.

An Evidence of What a Genuine Magazine Competition Offers.

On Friday there arrived from Toronto, for Miss M. Horn, a handsome Shetland pony, harness and cart, being the first award in the Royal Quilt Competition of *The Canadian Queen* magazine. It attests the genuine nature of the magazine's contests by its excellent condition and value. The *Queen* has frequent competitions and has made innumerable awards, displaying a generosity quite surprising to those who have had experience of the limited field for Canadian journalistic enterprise. But the *Queen* has been a success as a business venture from the start, and is growing in literary excellence steadily. It covers the field of fashion, as well as light reading; talks to the household, the young and indeed all home classes. The competitions have been used to assist the introduction of the magazine, for where it is introduced it is quite certain to remain a monthly guest. The leading prizes have been made, as instance this latest to Kingston, while many smaller prizes have rewarded the moderately successful among competitors. *The Canadian Queen* is truly royal in its ways.—*The (Kingston Ont.,) Daily British Whig, June 27th, 1891.*

All ages and conditions of people may use National Pills without injury and with great benefit. dw

A single scratch may cause a festering sore. Victoria Carbolic Salve rapidly heals cuts, wounds, burns and all sores. dw

Across the Continent.

Wm. Renwick, M.D., M.R.C.S.E., Victoria, B.C. writes: I have used Miller's Emulsion of Cod Liver Oil in cases of indigents patients with the most gratifying results. It does not upset the stomach, is easily assimilated and possesses undoubted power in rebuilding weakened constitutions, where the ordinary form of administering Cod Liver Oil is not admissable. For the future, whenever I have occasion to prescribe any preparation of Cod Liver Oil, I will give Miller's Emulsion the preference, being perfectly satisfied with its therapeutic efficacy. In big bottles, 50c. and $1—at Peterborough Drug Stores. dw

You hardly realize that it is medicine when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use. dw

B. & C. corsets boned with Kabo never works up or down or breaks. If it does in a year, you shall have your money back from the store where you bought your corset.

The steels may break—the best of steels have their limits of strength. But Kabo has no breaking limit; it doesn't break at all.

And the B. & C. corset is perfect in form.

The store has a primer on Corsets for you.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355.92
Increase over previous year	3,421,378 84
New Applications received in 1890	6,371,329.15
Increase over 1889	2,268,585.60
Cash income for year ending 31st December, 1890	889,078.87
Increase over 1889	325,938.35
Assets at 31st December, 1890	2,473,514.19
Increase over 1889	687,691.47
Reserve for Security for Policy-Holders	2,109,222.66
Increase over 1889	567,732.71
Surplus over all Liabilities and Capital Stock	233,175.69
Increase over 1889	75,649.05
Death claims fallen in during 1890	143,961.65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$34,824 07
" " " " 1886, "	89,452 97
" " " " 1890, (four years)	232,175 69

THE OLDEST IN AMERICA

A HOUSE SUPPOSED TO BE AT LEAST 225 YEARS OLD.

A Landmark Which Will Serve as a Guide-post to Future Doings in the Line Architectural. What the Official Records Show. Description of the House.

Quaint old Chicopee is the location of a house supposed to be 225 years old, one of the oldest houses in the State. It is in a good state of preservation, and at the present time is used as a residence by a man who first saw the light of day there fifty seven years ago and has always lived in it.

The history of the house cannot be traced backby documentary evidence; it is probable that all the records that could prove the age of the old place have been destroyed by a fire at Northampton.

The only evidence on which to base the claim for its age is that furnished by those who have learned its history from the tradition handed down to them.

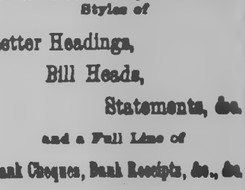
The picture of the house, which is a good one, will be familiar to all who have seen what is known as "Snow House," situated on Ezekiel Brook, now commonly known as Cook's Brook, the famous resort for trout fishing.

It is now in Chicopee, but in its early history was in Springfield, and was embraced in that part long agowset offas Chicopee. It is about one and a half miles outside the village of Chicopee Falls, off the main high way.

The present occupant of the house is Nathan Churchill Snow. He has lived alone in the house for the last fifteen years, where his wife's death occurred. He makes his living by farming and has all the old-fashioned ideas about the life of a farmer. He is out at 2 or 3 o'clock every morning in summer and not later than 5 o'clock in winter. Sometimes Mr. Snow has a load of wood, straw or hay delivered in Springfield before 6 o'clock in the morning.

He will be 57 years old Sept. 18, and boasts that never in his life has he touched a drop of intoxicating liquor, but says he likes a good cigar. Mr. Snow served in the Thirty-seventh Massachusetts Regiment during the late war.

A century ago the grandfather of the present of the house came from Bridgewater, Conn., and took up his residence in this old house, getting it from Uriel Cooley. Churchill Snow was the next owner and now his son holds it.



A HOUSE SO OLD SO ONE CAN TELL ITS AGE.

The tradition handed down to the present Mr Snow would make the house 240 years old, but from stories from other sources he thinks it is even older.

A story can be traced back which is connected with Reuben Burt, who was a veteran of the Revolutionary War; he said the house was over 100 years old at the time of the war.

Stillman Munger, father of Hiram Munger, the well known Advent preacher, who has preached at more camp meetings than any man living, remembered the house standing in the same place when he was 12 years old and the son, Hiram Munger, is now about 81 years old.

In the north room of the old house the first Methodist meeting ever held in Hampden County took place. It was conducted by the Rev. Mr. Heeding, afterwards Bishop Heeding.

The Rev. Lorenzo Dow, whose name is known to nearly every Methodist, also preached in the house.

Hiram Munger, who can remember events of seventy-three years ago, says he has no doubt the house is much over 200 years old, for at that time it was credited with 150 or 175 years.

Records in City Clerk Wait's office show that early in the year 1660 Uriel Cooley was one of the persons to settle at Skipmuck, which was the early name for that section. That was the Uriel Cooley family from which the Snow family bought the house.

The building is but one story high, and to all appearances never knew what it was to have a coat of paint.

It is remarkably well preserved, and the wood shows very little of the ravages of time. As will be seen by the picture, the chimney is in the centre of the building, and the roof has begun to sag with age.

Entering the front door you find yourself in a hall about ten feet square. The chimney, which projects into this hall, was built of blue clay, and stands well the wear and tear. To the left and right of the hallway are the two rooms which constitute the house.

The window frames or sashes are one piece, and no arrangements were ever made for using them for ventilation.

Both rooms are about 35 feet square and always cool and comfortable. No plaster was ever put on, the walls being of ordinary pine boards.

The centre piece or brace is a huge timber of yellow pine. There is no upper story, but a sort of loft for storage purposes.

The timbers and studding, which are as hard as ever, were hewed from logs.

The house has two cellars, and from the amount of stone used in their construction, shows they were intended for defense in case of an attack by the Indians.

Mr Snow some time ago thought of tearing down the old house, but friends who knew of the old age of the building persuaded him to let it remain. The people of Chicopee would be sorry to lose the old landmark. Boston Globe.

CHASED ACROSS THE SEAS.

£5,000 Newcastle-on-Tyne Embezzler Caught in Detroit.

New York, Sept. 7. Sidney Old, alias Samuel Owens, was secretary and cashier of Easter & Renwick of Newcastle-on-Tyne, and who form what is known as the Dry-dock and Jetty Company, limited. He was a prominent and wealthy tradesman, but he [illegible] business affairs of his dual [illegible] to obtain money by [illegible] Toward the end of last May he pleaded nervous prostration, due to over work, and his employers not only gave him a vacation for two weeks, to date from June 1, but also a handsome check as a testimonial of their regard for him. He did not return on the 15th of the month and a couple of days later Fisher & Renwick were compelled to suspect that something was amiss. Accountants were set to work at the books and their report was that there was a shortage of £7,000.

A quiet search was made for Old through Scotland Yard and a faint trace of him was found in London on June 27, when he proposed £250 in sovereigns and an order for £200 in favor of Samuel Owens on Brown Brothers of New York. Meanwhile Old projected his scheme to bury himself in the New World. He arrived in New York on July 6, put up at the Coleman House and cashed his draft at Brown Brothers. Two days afterwards he went west and disappeared.

Fisher and Renwick were determined to adopt Bank of England methods in Old's case and spend any sum required to bring him to justice. He was traced to Montreal, then to Toronto and Saturday afternoon information was received that the fugitive was a guest at the Hotel Normandie, Detroit. A message to the chief of police here asking for Old's arrest was within two hours answered by the announcement that he was in custody and had confessed his identity.

Niagara's Latest Victim.

NIAGARA FALLS, Sept. 7.—The body of a woman was seen floating in the river opposite Paradise Grove, by tourists who were picnicking in the locality. The discovery was made known to the proper authorities and the body recovered and taken to Lewiston, where it awaits identification. The body was in a badly decomposed state and had evidently been in the water for some time. The corpse was almost nude.

The Ring.

LONDON, Sept. 7. Charley Mitchell will deposit a forfeit to bind a match with Jim Corbett to fight with bare knuckles according to London prize ring rules for £1,000 to £2000 a side.

Fred Johnston has issued a challenge to fight either Cal. McCarthy or Tommy at 8 stone 6 pounds, for £200 or £500 and the largest purse offered in England or America. Johnston's backers will allow £100 for expenses to fight in England, or take expenses to fight in America.

By Laying-on of Hands.

Woman restored to perfect health! Just faith and confidence enough required to lay hold of Dr. Pierce's Favorite Prescription, administer it with a little patience and a little perseverance, and a complete restoration to health and vitality is insured. Not far, indeed, from the miraculous, are many of the wonderful cures of lost womanhood it has effected. There are few cases, indeed, within the requirements of sick and suffering women, outside or beyond its helpful influence. So confident are the makers of Dr. Pierce's Favorite Prescription of its power to heal all female diseases, that they warrant satisfaction in every instance, or refund money. Large bottles $1.00 (6 for $5.00;) at druggists. b

Solomon's Wisdom.

The wisdom of Solomon, were he alive today, would lead him to choose Burdock Blood Bitters as a remedy for all diseases of the stomach, liver, bowels and blood. It cures dyspepsia, biliousness, headache, constipation and all forms of bad blood from a common pimple to the worst scrofulous sore. dw

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

What does "OR" mean? It means the only Reliable Kidney Cure ever put on the market. Put up by the OR Co'y, B x 89, Belleville. d303m-w

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine d

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure Blood, removing all foul humors from a common pimple to the worst scrofulous sore. dw

It can do no harm to try Freeman's Worm Powders if your child is ailing, feverish or fretful. dw

Rough Skin.

Caused by cold weather, is made perfectly smooth by one application of Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. w37

Several Persons.

"For several seasons I have used Dr. Fowler's Extract of Wild Strawberry and find that it makes a perfect cure even of the severest attacks of summer complaint and diarrhœa. It is supreious as gold."—Mrs. F. C. Winger, Foothill, Ont. dw

My friend, look here! you know how weak and nervous your wife is, and you know that Carter's Iron Pill will relieve her, now why not be fair about it and buy her a box. dw

Chapped Hands

Made smooth, soft and white by using Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal.

Do not suffer from sick headache a moment longer. It is not necessary. Carter's Little Liver Pills will cure you. One, one little pill. Small price. Small dose. Small pill.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them but after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

Carter's Little Liver Pills are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents five for $1. Sold everywhere, or sent by mail

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not close this fall with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy them but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. sod-w

I HAVE GAINED STRENGTH!

"I could have reported a month or two sooner, but I wanted to see if the cure was permanent, and can safely say that I believe it is. I weigh fifteen pounds more than I did when I commenced. I have gained strength and that general enervation has disappeared. I will always remember you as my benefactor."

The original of above is on file in our office. It is No. 56 in a collection of over 2,000 similar letters from patients. We have a

The Peculiarity of the Verb, Eat.

There is a peculiarity about this little word which perhaps some have noticed. In the first place it has reference to the consumption of food, and secondly has reference to most important drink. The verb eat, either in the present or past tense, contains the letters of the word tea—hawley bro.' fine tea is the particular beverage meant.

Cantata.

A meeting will be held next Tuesday evening at 8.30 in the Y hall 423 George street over Miss Sandersons store to organize for the study of cantatas this winter. All choir singers and as many others as wish are invited to take part, be present next Tuesday and enroll your names. No charge made. Rehearsals will be given as soon as organized.

Yours truly

He is Coming.

Mr. Lamrance, the eminent Oculist-Optician, will be at John McKee's drug store, 388 George street, on Thursday and Friday, Sept. 10th and 11th, for the purpose of adjusting the B. Laurence Pebble and other spectacles and eye glasses to all conditions of sight. His thorough knowledge of his profession and large experience enables him to select such lenses as are best suited to each requirement, however difficult, and always ensures to the wearers of the B. Laurance spectacles ease and comfort, and an abiding improvement to their sight. d52 61 w36 37

The Dominion Illustrated.

A fine group in the last issue of the *Dominion Illustrated* shows the portraits of the officers and executive of the Canadian Press Association, and on the adjoining page is a brief biographical sketch of each. No finer series of landscape views are presented by any journal in America than those reproduced from week to week by the *Dominion Illustrated*. The last issue is especially noteworthy in this respect. It is a genuine art number. The views at Metis, Ste. Rose and Gaspe are simply charming. The old house which was the residence of the author of "Sam Slick" is also shown in this number, as well as the castle of San Angelo, Rome, the French Warship "Bisson," views at the recent Lachine Regatta, humorous cartoons, etc. The number is one of the best that has appeared this season.

Twenty-seven Hundred Dollars Voted Away in a Lump.

A New Arrangement Made With the Electric Light Company—The Town Case to be Appealed—No Estimates Until Next Week.

The town council was very slow in getting to work last night. The councillors gathered in the town clerk's office to the number of eight, did considerable committee work, and talked over various matters, and it was after nine o'clock before they went upstairs. Then there was more delay, two aldermen withdrawing for a few minutes and breaking the quorum. It lacked only twenty minutes of ten o'clock when the proceedings opened, and the meeting lasted less than an hour, though considerable work was rushed through.

It was thought the estimates would be brought down, and the rate struck at this meeting, but as the figures were not quite ready for presentation it was decided to hold a special meeting next Monday night for the reception of the finance budget.

The councillors present Monday night were Mayor Stevenson and Messrs. Moore, Meldrum, Davidson, Cahill, Dawson and Kelly—a bare quorum. Councillor Bradburn was on hand early in the evening, but did not wait long enough to see the council go into session.

THE TOWN'S SUIT.

Town Solicitor Edwards sent in a letter re Leonard vs. Peterborough as follows:

Since the last meeting of the council I have obtained a full copy of the judgment of Mr. Justice MacMahon, and have carefully considered the same. I have also written Messrs. Dumble & Leonard to ascertain whether they elect to take the $75 and leave the street to the town, or to take the $500 damages and the street as well, and they have written me that the Judge was in error in supposing that they would take the lesser sum, and they elect to claim the $500 damages and the full quantity of land as well. To support the conclusion arrived at in his judgment, the learned Judge goes the length of holding that no such street as Water street, along the river front, exists. He fails to give effect to the description in the patent to John Brown as a dedication of the highway, and takes no notice of the plan in the Registry office showing the street which has been acted upon by the owners of the property ever since 1836—and down to and including the plaintiff herself. I feel strongly that this judgment is entirely unsupported by the law or the facts in evidence, and I advise that the case be appealed to the Divisional Court or the Court of Appeal.

Yours truly,
E. B. EDWARDS.

This matter was dealt with later.

OTHER COMMUNICATIONS.

A communication was read from the Bell Telephone Co., inviting the town council to visit their display at the Toronto exhibition—Received.

James O Brien asked for the removal of a pole from in front of his premises—Referred to the Street and Bridge Committee.

Mr. J. Hampden Burnham, on behalf of the owners of properties at the corner of Bethune and London streets, and Aylmer and McDonel streets, notified the council that every year these properties were flooded, and called upon the council to remedy the evil, in order to avoid harsh measures being taken.

The Royal Oil Company applied for permission to run a railway siding to a warehouse on Perry street, which they proposed erecting—Referred to the Finance Committee.

Mr. George Matthews applied for a crossing.—Referred to the Street and Bridge Committee.

A COMPLAINT.

Messrs. John Green and Jas. McDonough appeared before the council to enter a complaint against W. Drewry, to whom the council had given the contract for laying the Edison drainpipes. They claimed that Mr. Drewry owed the men he employed and they could not get their pay from him. The council could, however, take no action in the matter.

of which latter $26.00 to be paid by county for Otonabee bridge.

Your Committee would also recommend that four hundred dollars be granted to the Horticultural Society for taking care of the Court House park.

Your Committee would also recommend that one hundred dollars be granted to the West Riding Agricultural Society.

All of which is respectfully submitted.
R. S. DAVIDSON,
Chairman.

This report, which amounted to over $2,700, was adopted.

ALL NIGHT LIGHTS.

Mr. Cahill read the following report:

Your Fire, Water and Light Committee beg leave to report that after further negotiations with the Peterborough Power and Light Co., subject to your approval, by which the whole of the seventy-five (75) lights to be contracted for with the company shall burn all night, the price to be 25 cents per light per night; sixty of the lights to be 2000 candle power, and fifteen not less than 1200 candle power. Your Committee recommend that this arrangement be approved of.

All of which is respectfully submitted.
THOS. CAHILL,
Chairman.

MR. CAHILL explained that by the previous arrangement the town was to pay $300 for 30 all night lights, whereas by the new arrangement they were getting the remaining 45 all night lights, of the whole 75 for only $225, which was a much better bargain and he believed it would be more satisfactory to all persons. He thought the Electric Light Company was giving the town as cheap lights as could be got anywhere in the province.

The report was adopted.

TO BE APPEALED.

Moved by Mr. Moore, seconded by Mr. Davidson, that having heard read the communication of the Town Solicitor in re suit of Leonard vs. Town, the Solicitor be directed to have the matter reheard before the Divisional Court or carried to the Court of Appeals, as shall be decided in a conference with him by Councillors Davidson, Cahill and Moore.

Mr. Dawson and Mr. Cahill enquired what the cost of an appeal would be, and advised that the case be settled amicably if possible. Mr. Cahill further said he had heard that at an early stage in this case a proposition was made for the settlement of the suit, and had he known of it he would have used his influence to have a settlement arrived at.

Mr. MOORE replied that he could give no idea of the cost of this appeal, and said he understood from the town solicitor that according to the tone of Messrs. Dumble & Leonard's letter they would not now accept what the Judge had considered was fair. As to a former proposition for settlement, Mr. Moore said there had never been a specific proposition as far as he knew, and the town solicitor had told him no such proposition had ever been brought to his notice. He felt that the town would be justified in appealing the case in view of the Town Solicitor's letter.

The Mayor said he had a remembrance of the plaintiff's offering to take $75 and allow the road to remain as it was, and Street Inspector Pope was called on to tell what he knew of the matter. Mr. Pope stated that one day there was an agreement come to between Mr. Belcher and Mr. Edwards, and Mrs. Leonards representatives, by which Mrs. Leonard was to give up the street without compensation, but this agreement was afterwards upset.

As there seemed to be no definite information obtainable on the subject, the resolution referring the matter to a committee was adopted.

MORE HOSE FOR THE LADDIES.

Mr. Cahill moved, seconded by Mr. Davidson, that the Fire, Water and Light Committee be authorized to purchase 300 feet of hose for fire purposes—Carried.

Mr. Moore moved, that as Councillor Dennistoun's three months leave of absence had expired, he be granted another month's leave. This was carried.

The council then adjourned for one week.

Lacrosse at Port Hope.

The Ontario Lacrosse club of of Port Hops defeated the Young Canadians of Toronto on Saturday by four straight goals. Joe Bagley, Peterborough's dandy player, played with Port Hope at first home field, and scored the last goal for the winners. The Ontario's are keeping up their old practice of playing outside men. They are bound to win "by hook or by crook."

Visiting Oddfellows.

Unusual interest attended the meeting of Otonabee Lodge of Oddfellows last night by reason of the visit of the Grand Chaplain and a brother from the United States. Rev. Wm. J. Sanders, P. G., of Beaverton Lodge No. 249, Grand Chaplain of the Grand Lodge of Ontario, and Bro. Thos. Couch, of Capital Lodge, No. 11, Lincoln, Neb., were given a hearty welcome. Both made addresses, and a pleasant evening was spent.

Burglars at Lakefield.

The G. T. railway station and D. McLean's grist mill were entered by burglars on Saturday night or Sunday morning. They got some small change in both places. Mr. McLean's safe was open, which no doubt saved them the trouble of forcing it. He is minus some papers, valuable only to himself. They attempted to enter Mr. Joo. Hull's grist mill also, but were evidently prevented by Mr. Hull's dogs, which had been left in his office at night. There is no trace whatever of the burglars.

Bancroft and Irondale Railway.

The Minden *Echo* says:—"Mr. Pusey, of Irondale, was a visitor to the county town on Monday last, when we were pleased to see him in perfect health. He is indefatigable in his efforts to push on his railway enterprise, and we hope ere long to see the road completed to Ottawa. If determined energy is contributory to success, Mr. Pusey is certainly deserving of it; his work so far has greatly enhanced the value of property about Irondale, and the road, even the short distance now running, is found to be of immense benefit to the settlers in that locality."

Further Arrangements

Mr. Wm. Collins, the indefatigable secretary of the Central Exhibition, is constantly employed perfecting arrangements to add to the interest of the Exhibition. He has closed with Messrs. Robertson & Quinn for the exhibition of their Edison phonograph on the grounds, and has made railway arrangements in addition to those mentioned in these columns on Saturday. During the exhibition a suburban train will run from London street to the exhibition grounds and return, on the G.T.R., and all regular trains on the Grand Junction and Lakefield branches will stop at the exhibition platform on the days of the exhibition.

The Launch of the "Mystic."

Mr. Arthur Tebb has constructed at his residence on Smith street, a steam yacht, named the "Mystic" and yesterday afternoon the launch took place. The "Mystic" glided gracefully into her natural element, Little Lake, (through the medium of Mr. Robert Baker's truck wagon,) and she rode the waters like a thing of life. The "Mystic" is a beautiful little craft with trim lines and promise of speed. She is twenty-two feet in length and her boiler is arranged to use either coal or wood. The "Mystic" is a handsome addition to the steamer fleet of our southern waters.

A Nautical Vision of Beauty.

Major Sloan's trim little steam yacht, the "Estelle," is a familiar and pretty sight to campers at Stony Lake, as she flits gracefully about from point to point with flags flying, her brightly painted sides, striped curtains and polished brass smokestack and carronade gleaming in the sun. At the Lakefield regatta the "Estelle" with a gay party of American ladies and gentlemen from "Boschink" aboard, attracted much attention and admiration. Resplendent in rainbow dressing and decked with flags of every shape and color, the "Estelle" was a pretty picture. Her carronade was fired at intervals, and altogether the little craft created quite a sensation. Lakefield citizens were pleased to have their American visitors at the regatta.

A Level Crossing Close Call

The deadly crossing nearly got in its fatal work last evening. Mr. T. Hurley, the real estate agent, Mr. E. K. Ostrom and Mr. B. A. Ostrom were driving on Charlotte street between four and five o'clock. They stopped at the Charlotte street crossing of the Grand Trunk to permit a train to pass, and then went on, thinking themselves safe. They were naturally looking at the train that was past and did not notice another train coming in the opposite direction till it was right upon them. Mr. B. A. Ostrom jumped from the buggy and urged the horse forward just in time, as the passing train fairly grazed the hind wheels of the buggy. A second later, and there would have been a fatal event to chronicle. It is greatly to be regretted that the authorities do not take measures to provide gates for the railway crossings. It seems to be the policy of the Railway Committee of the privy council to insist that municipal corporations be required to pay half the expense of the gates at level railway crossings, and it is a matter for the town council to decide whether it will incur this expense or allow citizens to be chopped in pieces. The C.P.R. has "killed its man"—the unfortunate Mrs. Detcher—and as the above narrow escape shows the G.T.R. bids fair to not permit its rival to outdo it in homicidal enterprise. Railways are great necessities but certainly some arrangement might be arrived at by which the risk of the slaughter of citizens could be reduced to a minimum. If a railway director, member of the Railway Committee of the Privy Council or a member of the town council got a level cross into "kingdom come," there might be some hope of action being taken to draw the fangs of the deadly level crossing.

This is Circus Day.

Riverside Park Covered with Canvas—Fine Shows for the People—A Great Show in Robinson's.

Robinson's great ten-combined circus is here to-day, and in consequence there is a large crowd of people in town. A circus, and especially such a one as Robinson's, will draw better than a triple expansion persons plaster. One disappointing feature of this visit of Robinson's circus is that Peterborough proper is given the go-by. The large license fee ($100) charged for such exhibitions and street parades frightened the circus people and they stayed on the other side of the river. The public naturally expected that though the tents were pitched in Riverside Park the morning procession would certainly come over to town, and great numbers were disappointed. The procession passed through the streets of Ashburnham only, but there were great throngs in waiting to see the brilliant pageant. As the procession was about leaving the grounds an intimation was sent the circus managers that they would not be prohibited from parading the streets of the town, but they were up on their dignity by this time and declined to accept the last minute favor.

Robinson's circus is a big one. It came in on a special train from Port Hope early this morning, the train being left on the Ashburnham siding for unloading. Riverside Park was found rather small for exhibition purposes, but by crowding a little, the tents were nearly all got up.

In the street parade were two brass bands, Scotch bagpipes, negro minstrels and a calliope. The lordly lion, the bear, the leopard and other wild animals were exhibited in open cages. The ladies' cadet corps was a very pretty sight.

On returning to the grounds a free exhibition was given in front of the main tent for the benefit of the hundreds of people who had gathered on the ground.

This consisted of a thrilling slide from the top of the tent to the ground by a lady, and tight rope walking by a man.

There are two well-equipped side shows with the circus, in each of which there are a variety of human and animal wonders—tall men, midgets, fat women, tattooed people, a double-bodied cow, huge snakes, giant horses, etc.

This afternoon and evening there will be performances in the main circus—the grand menagerie, hippodrome and magnificent spectacular exhibition of King Solomon and the Queen of Sheba. In the menagerie is the oldest elephant of whose age there is any authentic record. He is known to be 125 years old. There is also the great lion, old Rex, who tore the scalp off a clown who ventured near his cage in Montreal. The circus events are the best ever seen. Mr. Robinson has the finest lot of performers traveling in America. The great Bible Spectacle King Solomon's temple, is said to be alone worth the price of admission.

No one should miss this chance of seeing the only circus which will be in Canada this year.

—The worst cases of scrofula, salt rheum and other diseases of the blood, and cured by Hood's Sarsaparilla.

Social.

The young people of St. Luke's congregation give a social at the Rectory on Monday evening next, commencing at 7.30 p.m. A brass band will be in attendance and refreshments will be served.

Harvest Festival.

The annual harvest festival of St. Luke's church as announced some time ago, takes place on Thursday Sept. 17th. The Rev. Edwin Daniel has been communicated with and has kindly consented to occupy the pulpit on that occasion. Mr. Daniel is rector of St. John's Church Port Hope.

Burying a Comrade.

The funeral of the late A. K Stewart, roadmaster, who was killed in the collision at Lornsville Junction last Friday, takes place at Uxbridge at 2 o'clock to-day. The employes of the Grand Trunk workshops here, who formerly worked with Mr. Stewart on the Uxbridge division, went down to-day to help lay their late comrade to rest.

Special Vestry Meeting.

At the special vestry meeting held in St. John's school room last night to consider matters of importance in reference to the musical portion of the services of the church, there was a fair attendance and a most harmonious deliberation upon the subject in hand. The result was that the meeting heartily endorsed the action of the church wardens in extending the date of the notice of the termination of Dr. Davies' engagement to January 1st, 1892. These officials meanwhile are charged with the duty of procuring the services of another competent organist, at a salary not to exceed $400 per annum.

Two Genuine Harvest Excursions

Will be run from Chicago, Milwaukee, and other points on the lines of the Chicago & St. Paul Railway, to points in Western Minnesota, Northwestern Iowa, South and North Dakota, Nebraska, Kansas, Colorado, Utah, Wyoming and Montana, at cheap excursion rates, on August 25 and September 29, 1891.

P. S.—It will do your heart good to see the magnificent crops in South Dakota. They are simply immense. d57-65

If you could see your own scalp through an ordinary magnifying glass you would be amazed at the amount of dust, dandruff and dead skin thereon accumulated. The best and most popular remedy for cleansing the scalp is Ayer's Hair Vigor.

DIED.

LACHEUR.—In Peterborough, on Sunday, Sept. 6th, 1891, Ann Jane, wife of Mr. John Lacheur, aged 48 years.

Make the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. BEGOLE, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." MRS. PHEBE MOSHER, 99 Brooks Street, East Boston, Mass.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy anything else instead. Insist upon having

Hood's Sarsaparilla

100 Doses One Dollar

Weather Notes for August.

Mr. Tolford's Monthly Record.

August the fine and the beautiful! Although the early flowers have faded and gone, leaving only a withered and decaying stock, where once beauty and fragrance were combined, still myriads of unexcelled grandeur, not only in the flowery kingdom, but also in looking across the golden fields of yellow corn, all bespeak a mighty, loving, and all-wise Creator, not only furnishing the pleasures, but also the comforts and necessaries of life to make man happy. The month came in with about the usual heat, but on the 7th we had it as sunrise to 50°, at 8 to 75°, at 10 to 80°, at 1 to 90°, at 7 to 82°, and again on the 11th at sunrise to 60°, on 8 h o 70°, on 11 to 90°, on 2 to 92°, and at 7 to 75°. But hold on, there never was an August without frost in Canada. On the morning of the 3rd we had it, the thermometer standing at 44°, and again on the 29th a sharp white frost, with the thermometer down to 34°, leaving the mean temperature of the month at 61°. Rain fell on 16 days to the depth of 2 inches and 56/100 of an inch, being a high record for August. We had four thunder storms, the severest being on the 11th, rain falling about 1½ inches, accompanied with wind and hail. We had once halo and once a sun dog, twice auroral lights, once 4th and once 11, and 3 times fog. The following are the different point from which the wind was blowing at sunrise during the month respectively, namely. Southwest 5 days, north one day, northeast 6 days, northwest 10 days, south 1 day, west 4 days, southeast 2 days, and east 2 days. During our rain storm on Saturday night water fell to the depth of 1 inch and 10-100. Sept. 8th sharp frost this morning with the thermometer down to 42°.

Personal.

Mr. R. Nimmo, dentist, has resumed practice after a brief holiday trip.

Mr. Charles Patton, of the Carr Chemical Fire Extinguishing Company, is in town today, in the interests of the Chemical Fire Engine, manufactured by the Company. A public test of the extinguisher will be given on the market square, of which due notice as to the date and hour will be given through the press and otherwise. Representatives of the company have within the present month sold about 150 of these engines to the schools, chief factories, county buildings and to private persons in Lindsay, a good endorsement of the merits of the engine for the purposes of extinguishing fires.

Honour Roll.

School Section No. 2, South Monaghan

Mr. G. Gerald Fitzgerald, teacher. The list of successful candidates at the recent promotion examinations is given below:—

Scratched 28 Years

A Scaly, Itching, Skin Disease With Endless Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me $200.00 and an immeasurable amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body, and got under my nails. The scales would drop off of me all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was $5 worth. If you had been here and said you would have cured me for $200.00, you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a bird of second nature to me. I thank you a thousand times.

DENNIS DOWNING, Waterbury, Vt.

Cuticura Resolvent

The new Blood and Skin Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), instantly and a speedily cure every species of itching, burning, scaly, crusted, pimply, scrofulous, and hereditary diseases and humors of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scrofula.

8-HOUR DAY FAVORED

THE BRITISH LABOR PARLIAMENT ON THE QUESTION.

Notables at the Opening—"The Queen and the Country" to Be Toasted, but the Rest of the Royal Family are to be Left Out.

NEWCASTLE, Eng., Sept. 9. The proceedings of the Trades Union Congress, now in session here and representing the interests of over 1,500,000 skilled and unskilled workmen of Great Britain, are attracting widespread attention. In some quarters the congress is termed "The Workmen's Parliament," and the movement is looked upon as likely to lead to important political results. Princess Beatrice, Lady Dilke, Thomas Potter (Radical Reformer), John Gorst, Parliamentary Secretary of the India office, and other members of Parliament were present at the opening of the Congress yesterday. During the session "Ben" Tillet, the labor leader, will bring forward a resolution favoring the creation of a State Board of Arbitration, with the view of preventing strikes and settling labor disputes between the workmen and their employers. A keen canvass for votes is being made on the question of an eight hour work day, and as to whether eight hours, if adopted as the limit of a day's work, shall be made a legal day's work, and compulsory, or whether it shall be left to local trade unions. The committee of arrangements had a dispute over the toasts which are to be proposed at the banquet. Some of the most loyal of the labor delegates on the committee mentioned proposed that the time honored toast "The Queen and the Royal Family" should be drunk. To this proposition there was considerable opposition. Some of the committee men were in favor of drinking to the Royal family, though they raised no objection to the Queen. For a time it looked as if both the "Queen" and the "Royal family would be dropped from the toast list. Upon cooler reflection, however, the committee came to a compromise understanding and agreed that "The Queen and the country should be the loyal toast. The Parliamentary Committee report just issued sets forth that it is to be regretted that the Government has given considerable balance of power to capital in the appointment of the Royal Labor Commission. The report holds that in so doing the Government is wilfully placing the inquiry now in progress upon the side of the employers of labor. The report adds that the organization of labor is making satisfactory progress throughout the country.

The president, Thomas Burt, M.P., in his opening address yesterday congratulated the Congress upon being the largest body of representatives of trades union to meet in any part of the world. Mr. Burt also said he was glad to see that women's unions were so largely represented at the Congress as they should labor equally with the men. The president expressed the opinion that wherever women did the same work in quantity and quality as men they ought to ask the same pay as men and the latter ought to support them in their demands. Mr. Burk predicted as the trades unions grew strong, strikes would diminish in number and importance. Referring to conciliation boards as means of settling disputes between employer and employes Mr. Burt said: "While arbitration affords a chance of arriving at a settlement, it is criminal to strike."

Touching upon the subject of State legislation in regard to workmen, their manner of employment and their hours of labor, he declared that this was a subject upon which a great dividing line was drawn between workmen, some advocating that the hours of the State ought to be limited to enforcing existing laws and others desiring such action upon the part of the state as would lead to a fundamental change in the entire industrial system. Mr. Burt believed that self-help was the best solution for existing social problems and declared that in his opinion advocating of the suggestion that the state should be the producer and employer of labor would lead to disaster if applied.

After a considerable discussion the congress, by a large majority, approved of a resolution favoring an international eight hour law.

FRENCH WORKINGMEN'S PILGRIMAGE.

ROME Sept 9 The coming of the French workingmen's pilgrimage at Paris this month is awaited with interest. 20,000 workmen will take part. Count De Mun will accompany the pilgrims and read the address to the Pope.

In the address Count De Mun will thank Leo XIII. in the name of the working class for his intervention in favor of the social question and will attest to the great progress made since the publication of the recent encyclical letter in more just and equitable regulations of labor.

BRITISH COMMERCE.

Trade Returns Already Show a Decided Contraction—Distress in Europe.

LONDON, Sept 9 The Board of Trade returns show that the threatened contraction of British commerce has already commenced. The decrease in exports is mainly due to the falling off in the tin plate trade, and total decrease of £900,000 in textile exports. £4,000,000 in cotton goods exported to the East. Corn and flour imports show a decline for 1890, indicating a large deficiency, as prices have been higher. Other food imports show increases.

Lord Salisbury on the Dardanelles.

LONDON, Sept. 9 In a letter to a correspondent Lord Salisbury, referring to the privileges which the Porte is supposed to have granted Russia by permitting vessels of her volunteer fleet to pass the Dardanelles, says, Russia possesses no rights as to the passage of the Dardanelles or Bosphorus which are not possessed by the other powers also.

Italy and the Coming War.

ROME, Sept. 9.—The Italian Government has sent an urgent order for 50,000 rifles to the Terni factory and has instructed Gen. Ricotti, formerly Minister of War, to minutely inspect the forts in the Alpine districts.

FRANK RISCH IS HELD

TO ANSWER THE ABDUCTION CHARGE BEFORE JUDGE AND JURY.

Lulu Rolls is an Heiress Worth $12,000 the Bulk of Which She is to Get When She Comes of Age or Marries—Emile Discharged.

ST. CATHARINES, Sept. 9. A full house faced Magistrate Comfort as he ascended the bench at the Police Court yesterday morning to give a hearing to Frank Risch and his brother Emile, of Toronto, charged with attempting to abduct Miss Lulu Rolls, of this city. Mr. Cox, of Cox & Vale, solicitors of the Rolls estate and guardians of the young lady, appeared for the prosecution and W. K. Patterson for the young men.

The young man Frank as he entered the dock still wore the suit he had on when he entered the church. He chatted pleasantly with his counsel before the proceedings began, and assumed an air of careless indifference to the many eyes that were peering at him from outside the railing.

Mr. Cox, at the magistrate's request, read the information charging Frank Risch with feloniously and maliciously taking away Miss Rolls with the intention of marrying her.

The prisoner elected that the case should go before a judge and jury and the preliminary investigation began.

H. Vale of Cox & Vale, as the first witness, He said he was an executor and trustee under the will of the late Dr. Rolls. The young lady, Louisa T. Rolls, was a niece of Dr. Rolls. She was entitled to about $12,000 under the wills of her aunt and uncle and was also interested in real estate devised by Dr. Rolls. The trustees had attended to the management of this money providing for her living and education. He believed the young lady was still under age and living with her father. Last Friday he received a communication from Mrs. Henry Rolls, containing the announcement of the marriage and a telegram from Toronto telling the chief of police that Risch intended to elope with Miss Rolls. Mrs. Rolls had previously told him that Miss Rolls informed her that she was to be married to Risch the following morning. He advised her to see that the girl's father knew of the fact. The witness continued to detail the steps he had taken to stop the marriage, recounting his interview with Rev. Mr. Kerr. Incidentally he caused a sensation by the statement that the larger portion of Miss Rolls' estate was payable to her on her marriage.

Rev. R. Kerr described how the young man had come to him and Emile asked him to perform the ceremony. They wished it quietly done in the rectory, but he suggested the church and they agreed. He told Mr. Vale he could not go behind the license and refuse to marry them unless there were some just impediment. He then described at length the arrival of the just impediment in the shape of two policemen, who hustled the scowling men out without ceremony, hardly giving them time to get their hats and threatening them with the handcuffs if they didn't look sharp.

Finally at noon the court adjourned for lunch at 2 o'clock.

At 6 o'clock results were arrived at. Frank Risch, the would be bridegroom, was liberated from the county jail on bail of $5000, himself in $1000 and Joseph and Stores Robinson, auctioneers, $500 each. The case will come up at the Fall Assizes, which opens here next Monday. Emile Risch, who was arrested with his brother in the church as an accessory, was discharged, the case against him falling flat.

When Frank Risch appeared in the dock he looked rather worried, but dressed very completely and he wore in his coat lapel a small white pink. On both sides of him his brother Emile and counsel fanned the whole affair as a most excellent joke.

FOUR FINGERS SCALDED OFF.

Mr. Henry Rolls, the father of the young girl did not bother attending the Police Court yesterday afternoon when bail was asked for the defendants, but employed himself harvesting the crops. During the progress of the reaping something went wrong with the machine, and Mr. Rolls stopped his horses to make repairs. While his hand was in the knives the horses started, the result being that four fingers were severed.

The Cyclone at Halifax.

HALIFAX, Sept. 9. A terrible cyclone raged here last night, sweeping along the wharves and tearing down everything loose and insecure in its path. The cyclone's greatest fury was felt in the harbor. The massive railway drawbridge at the narrows was lifted from its foundations by the freshet and swept down the harbor. This morning its piles were drifting all over the channel and the Bedford Basin is just as open and as free as it was before the erection of the structure. Four hundred feet of the grain elevator chute which runs from the elevator to the end of the wharf was tumbled into the harbor. The schooner J. L. Crossley, Capt. McGillvary, discharging a cargo of coal at the gas house wharf, was struck by the full fury of the gale and sank at her moorings. Many other vessels were also damaged.

Drowned Away From Home.

SAULT STE. MARIE, Ont., Sept. 9. Ellen, the 10 year old step-daughter of Mr. James Bussmault, left here on the steamer Pacific in charge of her aunt to attend the school at Wekwemekong. The weather was rough and stormy during the trip, and all the party were very sick. When the boat arrived at Maintowaning, where they were to disembark, the little girl was not to be found. It is supposed that during an attack of sickness she went to the rail of the boat and was tossed overboard by the rolling of the boat and drowned.

The German so-called "smokeless" powder which was used at the Switzerland marksmen, produces clouds of light blue smoke. The German powder, which produces a brown puff hardly distinguishable from the ground, is much superior.

A clyde firm has sent to the Prince of Wales a plan and estimates for a racing yacht. Prince George has incited his father to try to obtain yachting honors, and there is a court report that the prince is ambitious to race his yacht in American waters.

EVER CHASING BOODLE.

MORE REVELATIONS OF PRINTING SUPT. SENECAL'S DOINGS.

$200 From Buntin, Reid & Co.—$1,300 From the Dominion Type Foundry—These are Among the Latest Known and Largest Amounts Paid Senecal for Government Business.

OTTAWA, Sept. 9.—At a meeting of the Public Accounts Committee yesterday morning, Mr. Joseph O. Morgan, a traveller for Buntin, Reid & Co. of Toronto, told how a year ago he had gone to Senecal for an order and a short time after Senecal went to him. He gave him an order for mill board and straw board and was promptly tackled for money by Senecal. The price of the goods was very low and the witness had never been in the habit of giving money gratuities. He gave Senecal two hundred dollars. After the order was given Senecal said he was very hard up, and had to pay for some land which he had bought. Senecal wanted three hundred, but witness beat him down a hundred. Witness firm had also got a small order from Senecal. The cheque for $200 given Senecal had been given by the bookkeeper. No member of the firm knew of the money being given. Morgan assumed the responsibility. Witness wanted to send the money to Senecal, but Senecal insisted on spot cash.

D. A. Scott, bookkeeper for the Dominion Type Foundry, Montreal, told how money had been paid by the manager, witness himself and the president of the company, to Senecal. Mr. Stark, the president, gave Senecal a cheque for $200, witness had given Senecal two $200 cheques. Senecal got in all about $1,800, a mirror worth about sixty dollars, and some cases of Pommery, about 40 in all, worth $29 a case. There were other presents but what they were witness could not say. Witness knew that before Senecal's appointment to the Bureau of printing he was on L'Etendard. The total sales of type to the Government aggregated $18,200. Senecal was always wanting money, sending telegrams to the firm saying he was hungry. Most of the type supplied the Government came in full.

He knew Mr. Chapleau had corresponded with Crosby, traveller for the firm, regarding business of the Printing Bureau. Chapleau wrote saying that no orders had been given the firm. The president wrote back saying Senecal had given an order which had been accepted in good faith. The goods were being manufactured. This was four or five months after they received the order. Mr. Chapleau was asked to take note of the delivery of the goods, but nothing more was heard from him. Witness had not a copy of Chapleau's letter as Crosby had it with him in British Columbia. Crosby had a document relating to the Printing Bureau. Witness had talked to Crosby about "greasing" Senecal.

Crosby said if Senecal kept on the firm would soon have nothing left for profit. Senecal was always asking for money. Frequently telegraphed to the firm. Senecal also sent a good many letters and telegrams. Those containing orders were filed away, while those of peculiar interest were put in the safe, an I Crosby had them now in British Columbia.

Witness was asked if his firm contributed to election funds, but the chairman ruled the question out of order.

R. L. Patterson of Miller & Richard, Toronto, had got his type, which he supplied the Government, into the country free.

Mr. Lister asked witness whether his firm had given money to assist the Government in the elections.

Chairman Wallace thought the committee should not exceed its privileges and disallowed the question.

Sir Richard Cartwright called for a vote and the decision of the chair was sustained 10 to 12.

Mr. Chapleau asked leave to make a few remarks. He said he wrote to the Dominion Type Foundry saying that he wanted an explanation of the statement that he, (Chapleau) had asked for money. President Stark wrote back to him denying that such statement had been made and assuring him that none of the company's officials had said so. Stark had said he had been asked for money but denied that he had accused Chapleau of doing so.

Lister asked whether Stark knew that Senecal's exactions had been represented to Chapleau. Witness replied that on one occasion the manager had said he was going to let Chapleau know what Senecal was doing. Chapleau asked when the last order was given by Senecal. Witness said Senecal came in with a letter signed by Chapleau saying that Senecal had been appointed superintendent of Printing Bureau. On that day Senecal was given list of prices. No order was given him, but afterwards Senecal showed witness a printed copy of statute appointing him superintendent. He knew that within a month after this Crosby came to Ottawa to get order. Within six months order was completed, and Senecal declined to accept the material, giving no reason for so doing. Chapleau also wrote saying that no order had been given out, that Senecal had no authority to give orders. The type was finally accepted.

Witness had heard from a member of the firm and knew himself why the type was taken. It was because Francis Benoit of Montreal put a cheque from the firm of $1,600 for Liberal Conservative club of that city. After that material was accepted witness knew not the cheque himself. He was in January or February, 1888. The cheque was given Benoit by somebody whom witness did not know. Either the manager, or the president told him to draw cheque, and order spoken of was given in spring of 1887, until four or five weeks ago, witness had in his possession two notes of $150 and $200 respectively given by Senecal to the firm in the year 1887. Crosby, the manager, now had these notes. Senecal had got this money from the manager, saying that he was moving to Ottawa, and wanted money. The firm had found that if they did not give money to Senecal they would get no order. Senecal would say: "Well, if you don't come to time, Patterson will." Witness never expected Senecal to meet his notes, but Mr. Murray, the then president of the company, believed that Senecal would.

R. S. White examined witness W. J. Gillean, assistant manager of the Canada Paper Co. He knew Berthiaume, the manager of La Presse, Montreal. The Canada Paper Company had paid off certain notes made by La Presse's manager to the New England Paper Co., and endorsed by Mr. Chapleau.

Lister asked witness whether he thought Berthiaume financially strong.

"I don't know.

"Would you take his note for $10,000 undorsed by Mr. Chapleau?"

"Well, I would rather have the endorsation."

"Would you take Mr. Lister's note?" asked Mr. Foster.

"Mr. Lister's note is a devilish sight better than Mr. Foster's," replied the member for West Lambton.

Ald. J. D. Rolland, of Montreal, president of Rolland Paper Co., told how he got three years contract for paper in 1887. The contract was to be renewed in early winter of this year. Witness came to Ottawa and got the contract renewed. His firm since 1887 had not paid any money to Dansereau, of Montreal, in connection with the contract.

PRIVILEGES AND ELECTIONS.

OTTAWA, Sept. 9. The sub-committee of the Privileges and Elections Committee, appointed to prepare a draft report to be submitted to the main committee, held a consultation meeting yesterday with closed doors. It is understood that no agreement was reached, Sir John Thompson, Mr. Girouard and Mr. Adams want to exonerate Sir Hector Langevin, while Messrs. Mills and Davies will not agree to it. Another meeting will be held on Thursday, and a meeting of the main committee will be held on Friday, when it is expected that majority and minority reports will be presented by the sub-committee.

THE DOMINION PREMIER

Says He Scarcely Knows What Imperial Federation Means.

OTTAWA, Sept. 9.—In the Senate yesterday Mr. Wark moved that an humble address be presented to His Excellency the Governor-General, praying His Excellency will take into consideration the importance of drawing more closely the ties that bind the colonies to the Mother Country and to each other, and whether Canada should not take the initiative in making overtures to the other colonies of the empire with this object in view.

Mr. Abbott said he hoped that the motion would not be pressed as it covered more ground than it seemed to cover. It pointed to Imperial Federation, which was a subject he thought the House was not prepared to adopt an address. He scarcely knew what Imperial Federation meant. He never found a definition precise enough to enable him to say whether he agreed with it or not.

The motion was withdrawn.

FRAUDS IN THE GOVERNMENT.

Mr. Abbott, in moving the second reading of the bill respecting frauds on the Government, said that it would not be necessary to establish by absolute substantive proof that a person who gave gifts to a public official did so with an ulterior motive; no person would believe that such presents were made innocently.

Mr. Scott said he thought the earnestness and good faith of the Government would be much better manifested if they instituted prosecution under the law as it now stands.

Mr. Abbott said he did not wish to discuss what action the Government would take with respect to those who had been shown guilty of these practices, but if Mr. Scott thought they would not prosecute any of those implicated he might find himself mistaken.

A NORTH-WEST CAIN.

Particulars of Genius Webb's Murder of His Brother at Balder.

WINNIPEG, Man., Sept. 9.—John Webb, a farmer living 12 miles south of Balder, a village on the Northern Pacific 152 miles from Winnipeg, was fatally shot on Friday last by his brother Genius in a dispute over the ownership of three stacks of wheat. Genius loaded his gun and went out to shoot prairie chickens. He met his brother John and they began quarreling over the division of the wheat, both claiming the stacks in question. John dared Genius to touch the grain; there was an interchange of passionate words, and suddenly Genius, ablaze with anger, put his gun to his shoulder and leveled it at his brother, who was two rods away. The heavy charge of shots struck John on the neck and left breast, inflicting fatal wounds. The shooting was witnessed by a third brother, who gave the alarm. The fratricide was arrested and taken into Brandon and brought to Winnipeg. Genius Webb blames his brothers for what occurred. He says that his two brothers had nearly beaten the life out of him and he was getting even with them. He takes matters quietly and does not seem to appreciate the position he is in. The prisoner is a young man of 30, and his father lives in London, Ont.

THE WHEELBARROW PUSHER.

Alex. McKee Mysteriously Missing from His Home at Windsor.

WINDSOR, Sept. 9.—Alexander McKee one of the oldest residents of Windsor is missing and his relatives and friends are very solicitous as to his welfare. He has been popularly known in this vicinity for 40 years. He is an uncle to McKee Rankin, the actor. In 1849 he left Windsor for California pushing a wheelbarrow the entire distance across the continent and his experience while on the trip and after reaching California form the basis for McKee Rankin's popular play "49." He prospered in California and purchased considerable land in Essex County upon returning to Canada but it long ago took wings. The missing man was the author of the famous California guide book bearing his name.

A Miraculous Railway Escape.

SAULT STE. MARIE, Ont., Sept. 9.—The express train from the east was thrown off the track about two miles east of Welwood Algoma, yesterday morning. The engine was turned over on its back; the baggage car ran on top of the engine, and the mail car was shivered into splinters. The escape of everyone on the train was most miraculous. Mr. Mallard was on the mail car, and suffered but a few scratches. Engineer Kelson and the fireman stuck to their posts and crawled out of the caboose when the engine landed on her back in the ditch.

Algoma Game and Wild Beasts.

SAULT STE. MARIE, Ont., Sept. 9.—Archie Wilson killed three bears last week in the vicinity of Shingwank Home. Robert Clark killed a bear yesterday on the Rankin property and received $6 for the skin. This is the fourth bear killed in that vicinity in about 10 days.

A number of red deer have found their way into the country around Bar River, and parties claim to have heard the cry of wolves in full chase. These animals are strangers in Algoma and must have been driven here by bush fires or sharp hunting east ward.

A Big Fire at Clinton.

CLINTON, Sept. 9. A big fire is raging here this morning, which threatens to be a very serious blaze. Kennedy's big livery, which is situated in the centre of the town, is burned to the ground, with all its contents. Beatty's big new barn is now burning and many buildings adjoining are also on fire. The Rattle Hotel will be saved. The town is fully aroused and the firemen are working manfully to save the adjacent buildings. There is not a dollar of insurance on the burned buildings.

Dr. Tripp, of Ingersoll, Dead.

INGERSOLL, Sept. 9.—Doctor Tripp of Ingersoll died yesterday. His name has been recently before the public in unpleasant connections. First, in a dispute with a woman named Pope to whom he had transferred his firm; and latterly in an action in which a Mrs. Andrews and her daughter were to be the central figures, now pending.

Is He a Russian Spy?

CALCUTTA, Sept. 8.—Gen. Alikhanoff, the well-known Russian commander and Oriental diplomat, has been arrested at Cabul, Afghanistan charged with being a spy in the employ of the Russian Government. It is probable that stern measures will be taken by the Ameer in the case of this prisoner, who is considered by the British authorities to be one of the most daring, astute and dangerous men in the Russian service.

Tranby Croft Again.

LONDON, Sept. 8.—The announcement that the Prince of Wales will revisit Tranby Croft this autumn evokes loud outcries from the religious press. The Methodist Times asks if the Prince has not a single friend in touch with the British people, and warns him that his conduct excites deep emotion among the middle and working classes, on which the stability of the throne rests.

The Old Flag in Quebec.

QUEBEC, Que., Sept. 8.—Le Canadien says:—"Are we on the eve of a crisis in Quebec? The British flag has not waved for the last two weeks over the offices of the Lieut.-Governor at the public buildings, yet the Prime Minister and his colleagues are at their posts. Le Canadien, which has gone through the Letellier tempest, sees the precursory signs of another cyclone."

In Fear of Revolution.

NEW YORK, Sept. 8.—The latest news from Hayti, brought in by the steamship Adirondacks, which arrived from Gonaives yesterday, is to the effect that President Hippolyte is in constant apprehension of an attack by the revolutionary exiles under the leadership of Gen. Legitime. All the Haytian ports are well garrisoned.

Insane and a Horse Thief.

BRANTFORD, Sept. 9.—Ellen Wesley was up at the police court on a charge of stealing a shawl from Mr. Day of Langford. Mr. Day said that last evening he left his horse tied in front of Mr. R. L. Hamilton's at Echo-place. When he came out it was gone. On going to Cainsville he found that a woman answering the description of the accused had been there with the rig. He telephoned to the Brantford police and came up to the city. The woman is certainly insane, as her every action shows. The magistrate remanded her to jail for one week.

"Don't Care to Eat."

It is with the greatest confidence that Hood's Sarsaparilla is recommended for loss of appetite, indigestion, sick headache, and similar troubles. This medicine gently tones the stomach, assists digestion, and makes one "real hungry." Persons in delicate health after taking Hood's Sarsaparilla a few days, find themselves longing for and enjoying the plainest food with unexpected relish.

J. C. Turnbull.

MANTLES AND MANTLE CLOTHS AT TURNBULL'S.

We are showing a window of Mantles this week at an unheard of price in the history of Peterborough.

$2.00

takes the choice of the lot, they are not trash but good cloths and well made, in all colors, worth three and four times the money, the only objection being many of them have the plain sleeve, which if the purchaser thinks necessary can be easily altered.

Another lot we have to offer at $3.00. A glance at, by the most sceptical, will cause them to put their hands in their pockets and see if they have brought their money.

For $5.00 we show a nice cloth Mantle with a braided sleeve, others of the new style are—well it would take a lady to describe them.

Beaver cloths in all colors, high collars richly braided, the edge laced with fur, double breasted and flap pockets, three quarter length, when on they are very comfortable looking and stylish. Prices from $6 to $15.

We have imported this year a lot of Scarlet Jackets and Coats lined with satin, all the new shapes, they range in price from $18.00 up. We have also a well assorted stock of long Coats in black and colors to select from.

In Children's wear we have Dozens all the way in price from $1.50 to $8.00.

Our stock of Cloths for the ordered work department is more complete than ever and with increased facilities will be able to do more work and turn out all orders promptly. Perfect satisfaction always guaranteed.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and BLOOD PURIFICTOR, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from Poor and Watery Blood, or from VITIATED CONDITIONS of the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, excesses and dissipations. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY BOY or girl who finds his mental force or physical powers failing, or who is ailing in any way, should take these Pills. They will restore the lost energies, both physical and mental.

EVERY VICTIM of Nervousness should take them. They cure all suppressions and irregularities, which inevitably entail chronic ill-health if neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful errors and indiscretions, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing

Some of the Dangers of Exhibition Times.

The exhibition season is at hand, when thousands of people will flock to the cities in which the various exhibitions are held, sojourn there for a few days and then flit back to their homes again. This sort of thing appears to have become a necessary part of human existence, and we certainly should not like to write anything which would detract from the pleasures annually derived by the masses of the population from visiting the exhibitions. But the amount of disease of one kind or another which is disseminated or scattered about by the flocking and flitting of these thousands of people is probably not inconsiderable, but worth our attention, with the view of preventing it. Many special cases of infectious disease have been reported in this journal from time to time in which the infections from which they have originated had been carried by clothing from distant places, thus making new centres of disease, and sometimes with fatal results. * * * Such infections are quite likely to be carried in like manner from the cities to the rural districts. People from the country visiting the city usually lodge in strange places. Sometimes one may be placed in a room in which there has been a case of infectious disease, and which has not been properly disinfected, and the owner of which is either ignorant or disregardful of the serious consequences which might befal another from lodging in the room. And so scarlet fever or measles, or something worse, may be carried back to some innocent children in the country. We simply desire, as it is the duty of this journal, to make known the danger and to suggest forethought and care on the part of all concerned, both in country and town. Both urban and rural health officers, and the public too, would do well to be particularly on their guard for many weeks after exhibition time, as well as a little before and during that time.—*Canada Health Journal.*

Cold Springs, Otonabee.

(From Our Own Correspondent.)

SUNDAY SCHOOL PICNIC.—The Cold Springs Union Sunday School Picnic will be held at Jubilee Point on Thursday, Sept. 17. The steamer "Beaver," with scow attached, will leave the locks at 8 a. m. sharp. This picnic has always been very successful and enjoyable in former years, and there is no doubt that its enviable reputation will be more than sustained on this occasion. The tickets for adults are 30 cents; for children under 15, 15 cents; and all children under 8 go free. A cordial invitation is given to all to be present. With such low rates and the prospect of such a pleasant trip, it is expected that there will be a good turn out of the friends of the school. The boat will stop at any convenient point on the river where stoppages are usually made, for those who may wish to get on. Remember the day and date, Thursday, Sept. 17th.

Mount Pleasant.

(From Our Own Correspondent.)

Herb. McLean has returned from his visit to Toronto.

D. R. Gardiner is back from the North-west and Dakota. He looks as well as usual, and appears to have enjoyed his short trip out there. He is in his old position in Mr. Molndoe's general store.

Mr. David Best, who has been teaching for the past three or four months in the Northwest, is expected home soon.

John Handley has not left yet for Western Ontario.

Mr. George Maddis has drifted over to Uncle Sam's land.

Miss Minnie McLean has returned to her home in Toronto.

Miss Lottie Smith left last Saturday for her home in Peterborough, after having spent an enjoyable season in our village.

Some of our citizens attended the school picnic give by T. W. McLean last Friday, at Ida.

Mr. A Webster, of Millbrook was in town last Thursday.

Cavanville.

(From Our Own Correspondent.)

Our school suspended study last Friday, the occasion being a picnic got up by the teacher in Mr. Thos. Jackson's grove at Ida. The weather was all that could be desired, and the afternoon's amusements began with a baseball match between Fleetwood and Millbrook teams. The boys from Manvers defeated their Cavan brethren by a score of 9 to 7. Tea was served about the time the baseball match was being concluded, and then the races for the school children began. They were well contested, and added considerable humor and enthusiasm to the afternoon's fun. Following is a list of prizes and successful scholars:

Girls Race (10 years and over,) 50 yards straightaway.—1st Bertha Watt, 2nd Sadie Hutchinson.

Boys Race (under 10 years).—1st Willie Graham, 2nd Roy Lough.

Girls Race (under 10 years).—1st Mary Howe, 2nd Eva Knotts.

Boys Race (over 10 years)—1st Fred Cathcart, 2nd Willie Watt.

Sack Race (50 yards).—1st Willie Touchburo, 2nd Arthur Vance.

Combination Race (100 yards)—1st Tommy Lincln, 2nd Fred Cathcart.

Obstacle Race (50 yards).—1st Fred Cathcart, 2nd Percy Lowes.

The races were concluded about dark. Everyone then sought other shelter than what the woods afforded, leaving, we believe with a feeling of having spent an enjoyable few hours.

Two Genuine Harvest Excursions

Will be run from Chicago, Milwaukee, and other points on the lines of the Chicago & St. Paul Railway, to points in Western Minnesota, Northwestern Iowa, South and North Dakota, Nebraska, Kansas, Colorado, Utah, Wyoming and Montana, at cheap excursion rates, on August 25 and September 29, 1891.

P. S.—It will do you heart good to see the crops in South Dakota. They are simply enormous. d57-65

Children Cry for Pitcher's Castoria.

A Hamilton Man's Bravery.

He is Rewarded by the U. S. Government for Saving Eleven Lives.

The gentleman, Captain Martin Mahoney, referred to in the following article is a brother-in-law of Mr. John McGrath and Mr. Daniel McGrath of Peterborough, who have just reason to be proud of so brave and daring a relative:—

Captain Martin Mahoney, of this city, who is in command of the schooner Aurora, has been presented with a valuable gold watch, chain and compass, worth over $300, by the United States Government, in recognition of his bravery in saving a woman and ten men, the crew of the schooner Charles C. Ryan, a United States vessel, which was shipwrecked on June 9th, 1890, in Lake Huron Captain Mahoney was then in command of the schooner M. L. Brock and had set sail from Georgian Bay with a load of lumber for Sarnia. When 30 miles south of Cove Island he sighted the Ryan, which was water logged. The wind was blowing a heavy gale and it was almost impossible to reach her. He rounded the schooner three times before he succeeded, and had no sooner rescued all those on board, consisting of one woman and ten men, than the ill-fated vessel went down. The shipwrecked crew were brought to Sarnia, and shortly after John McGibbon, of Sarnia, the owner of the vessel, brought the matter to the attention of U. S. Consul Farrar, who was at that time stationed at Sarnia. Consul Farrar reported to the United States Government the facts connected with the brave rescue of American citizens from a watery grave by a Canadian captain, and as a result the watch, chain and compass were forwarded to the British Government, thence to Ottawa. From there the Minister of Finance sent it to Mayor Watson, with instructions to make the presentation in a public manner as possible. In the absence of the Mayor, and to suit the convenience of the captain, who could only remain in port a short time, a large gathering of prominent citizens was hastily convened in the parlors of the Belchamber House, and the presentation was made.

Mrs. Mahony, the wife of the captain was also present, having gone from her home in Hamilton to witness the presentation.

Eight years ago Capt. Mahony was also presented with a valuable silver watch, gold chain and compass by Mr. J. Shaw, lumber merchant, of Sarnia, being owner of the schooner Azov, which Capt. Mahony was then commander of, for making the first trip that spring from Georgian Bay to Sarnia through the ice.

Sallow and leaden hued complexions soon give place to the loveliest pink and white, when the use of Ayer's Sarsaparilla is persisted in, and cosmetics entirely abandoned. Nothing can counterfeit the rosy glow of perfect health, which blesses those who use this medicine. dw

A Narrow Escape.

"I would probably have been in my grave to-day had it not been for Dr. Fowler's Extract of Wild Strawberry. For two years I suffered from bowel complaint and became very weak and thin, but after using half a bottle of the Extract I was completely cured and have since had not return of the complaint."—Miss Hilton, 34 Huntley street, Toronto. dw

Purity of ingredients and accuracy of compounding, make Milburn's Aromatic Quinine Wine the criterion of excellence. dw

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

They have discovered it! "What?" Vita Ore, which is warranted to cure Diphtheria or any Throat trouble, Dyspepsia or Female Weaknesses. Put up by the Vita Ore Co'y, Box 89, Bellaville. d303m-w

The Voice of the People.

In every part of Canada the voice of the people rules, and the voice of the people endorses Burdock Blood Bitters as the best and surest blood purified known. Nothing drives out boils, blotches, humors, sores and impurity so quickly as B.B.B., and perfect health with bright clear skin always follows its use. dw

MANY A LIFE

HAS been saved by the prompt use of Ayer's Pills. Travelers by land or sea are liable to constipation or other derangements of the stomach and bowels which, if neglected, lead to serious and often fatal consequences. The most sure means of correcting these evils is the use of **Ayer's Cathartic Pills.** The prudent sailing-master would as soon go to sea without his chronometer as without a supply of these Pills. Though prompt and energetic in operation, Ayer's Pills leave no ill effects; they are purely vegetable and sugar-coated; the safest medicine for old and young, at home or abroad.

"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural and regular action so that now I am in

Excellent

health."—Mrs. C. E. Clark, Tewksbury, Massachusetts.

"I regard Ayer's Pills as one of the most reliable general remedies of our times. They have been in use in my family for affections requiring a purgative, and have given unvarying satisfaction. We have found them an excellent remedy for colds and light fevers."—W. R. Woodson, Fort Worth, Texas.

"For several years I have relied more upon Ayer's Pills than upon anything else in the medicine chest, to regulate my bowels and those of the ship's crew. These Pills are not severe in their action, but do their work thoroughly. I have used them with good effect for the cure of rheumatism, kidney troubles, and dyspepsia."—Capt. Mueller, Steamship Felicia, New York City.

"I have found Ayer's Cathartic Pills to be a better family medicine for common use than any other pills within my knowledge. They are not only very effective, but safe and pleasant to take—qualities which must make them valued by the public."—Jules Hauel, Perfumer, Philadelphia, Pa.

J. R. STRATTON.

Children always Enjoy It.

SCOTT'S EMULSION

of pure Cod Liver Oil with Hypophosphites of Lime and Soda is almost as palatable as milk.

A MARVELLOUS FLESH PRODUCER

It is indeed, and the little lads and lassies who take cold easily, may be fortified against a cough that might prove serious, by taking Scott's Emulsion after their meals during the winter season.

Beware of substitutions and imitations.

SCOTT & BOWNE, Belleville.

A Handsome Prize.

An Evidence of What a Genuine Magazine Competition Offers.

On Friday there arrived from Toronto, for Miss M. Hora, a handsome Shetland pony, harness and cart, being the first award in the Royal Quilt Competition of *The Canadian Queen* magazine. It attests the genuine nature of the magazine's contests by its excellent condition and value. The *Queen* has frequent competitions and has made innumerable awards, displaying a generosity quite surprising to those who have had experience of the limited field for Canadian journalistic enterprise. But the *Queen* has been a success as a business venture from the start, and is growing in literary excellence steadily. It covers the field of fashion, as well as light reading; talks to the household, the young and indeed all home classes. The competitions have been used to assist the introduction of the magazine, for where it is introduced it is quite certain to remain a monthly guest. The leading prizes have been made, as instance this latest to Kingston, while many smaller prizes have rewarded the moderately successful sucong competitors. *The Canadian Queen* is truly royal in its ways.—*The (Kingston Ont.,) Daily British Whig. June 27th, 1891.*

All ages and conditions of people may use National Pills without injury and with great benefit. dw

A single scratch may cause a festering sore. Victoria Carbolic Salve rapidly heals cuts, wounds, burns and all sores. dw

Across the Continent.

Wm. Renwick, M.D., M.R.C.S.E., Victoria, B.C. writes: I have used Miller's Emulsion of Cod Liver Oil in cases of indigents patients with the most gratifying results. It does not upset the stomach, is easily assimilated and possess undoubted power in rebuilding weakened constitutions, where the ordinary form of administering Cod Liver Oil is not admissable. For the future, whenever I have occasion to prescribe any preparation of Cod Liver Oil, I will give Miller's Emulsion the preference, being perfectly satisfied with its therapeutic efficacy. In big bottles, 50c. and $1—at Peterborough Drug Stores. dw

You hardly realize that it is medicine when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use. dw

B. & C. corsets boned with Kabo never works up or down or breaks. If it does in a year, you shall have your money back from the store where you bought your corset.

The steels may break—the best of steels have their limits of strength. But Kabo has no breaking-limit; it doesn't break at all.

And the B. & C. corset is perfect in form.

The store has a primer on Corsets for you.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355.93
Increase over previous year	3,421,372.84
New Applications received in 1890	6,371,599.15
Increase over 1889	2,268,886.60
Cash income for year ending 31st December, 1890	889,078.87
Increase over 1889	325,938.35
Assets at 31st December, 1890	2,473,514.19
Increase over 1889	687,691.47
Reserve for Security for Policy-Holders	2,109,326.68
Increase over 1889	567,732.71
Surplus over all Liabilities and Capital Stock	232,175.69
Increase over 1889	75,649.95
Death claims fallen in during 1890	142,961.65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$54,824 07
" " " 1886, "	89,452 97
" " " 1890, (four years)	232,175 69

SOPHIE'S SUICIDE.

The Famous "Nihilists" Takes Her Life With the Scissors.

LONDON, Sept. 7.—Sophie Guengberg, the famous "Nihilists, who was sentenced in September last to imprisonment for life at Schlusselburg, an island of the Neva 21 miles from St. Petersburg has committed suicide. Sophie has been despondent for many months. Finally she secured a pair of scissors and with them hacked her throat in so deliberate a manner that she died in spite of the efforts made to save her life. Sophie was tried with Stoelanofsky and Freifeld on the charge of having been implicated in a plot to kill the Czar. All three prisoners were condemned to be hanged. Sophie's sentence was finally commuted to life imprisonment. She was much admired by Nihilists throughout Europe.

The English Press on the Chinese Outrages.

LONDON, Sept. 7. Commenting on a statement cabled to this city from Shanghai and purporting to give the views of the educated classes of Chinese in regard to foreign missionaries and demanding the withdrawal of the foreign missions from Chinese territory, which it is claimed, have utterly failed in the object they were intended to accomplish, and only tend to ferment revolt, the Times to day says: The lesson to be drawn is that a liberal treatment of China is useless. Europe should unflexibly and firmly insist upon the observance of treaty rights and thus avoid irritating, fussy naval displays. We are glad to believe that this is the view now held by the English office. The Morning Advertiser says: A nation of China which occupies toward foreigners such an intellectual standpoint as this can hardly be brought to a desirable tone of mind by diplomatic remonstrances. The Post expresses the opinion that "It is evident equally from the inherent strength of the Chinese as from their manifest weakness that a trifling policy is the worst that can be adopted. Europe must prepare either to enforce or to renounce her treaty rights.

The Petition Against Connee Dismissed

TORONTO, Sept. 7. The petition against Mr Connee, West Algoma, was tried before Justices Osler and Ferguson at Port Arthur in July last, and all the charges were dismissed. The charge on which judgment was reserved was that Connee had promised a Mrs. Tennant, whose influence he had canvassed on behalf of her husband's vote, a boarding-house at some point on the railway. The evidence went to show that Connee met the lady one day and stopping her asked about her husband's vote. She said she would do what she could, but added that one good turn deserved another and said she would like to get a boarding house on the railway. Connee admits having said that if would be all right, but says it was an evasive answer to get the lady off. Mrs. Tennant's evidence was corroborated by the president of the Conservative Association, who heard the conversation. This last went in Connee's favor as then Lordships thought it must have been only an evasive answer as alleged by the respondent, having been made in the presence of so important a person as the president of the enemy's association. The petition was dismissed with costs.

A Fatal Railway Wreck

BELLEVILLE, Sept. 7. Owing to the unauthorized use by a brakeman of the signal protecting the diamond crossing at Lonnerville Junction, a passenger train was backed into a freight, which had just started to cross. The station buildings prevented the engineer from seeing each other in time. Conductor Stewart was killed and one lady slightly injured about the face.

Three of the coaches of the passenger train were upset, and, when falling, knocked over a telegraph pole which struck Stewart and instantly killed him. Stewart had held the position of conductor on the Napanee section of the Grand Trunk for a number of years, and lived in Oshawa. His daughter, who resides in the city, left for home Saturday evening on the Midland, and received the sad news of her father's death early in the day.

A Farmer Tarred and Feathered.

NEWBURG, Ont., Sept. 7. A farmer named Edwards has an adopted son, who offended him in some way. To punish the little fellow Edwards, it is said, conceived the horrible idea of burying him alive. This idea was promptly carried out. He dug a hole, laid the boy in it and covered him up. After the lapse of a few seconds, thinking the child had been sufficiently punished, he relieved him from his living tomb, to find him almost dead from suffocation and fright and it was some time before consciousness was restored. The outrage coming to the ears of the neighbors, they resolve to avenge it and a number of able bodied men visited Edwards house with a coat and a pail of tar and a bag of feathers. The tar and feathers were liberally applied to Edwards person and with the rail he was given a free ride for a distance of about three concessions.

Mr. C. R. Devlin, M.P., Dying.

OTTAWA, Sept. 8. Mr. Charles R. Devlin, M.P., for Ottawa County, is at the point of death from an affection which supervened in the throat. At that time Drs. Quirk and Lindel were in consultation, but the position was considered very serious.

A Simple Cause of Illness

OTTAWA, Sept. 8. Mayor Edder Hull has been severely ill from blood poisoning caused by a pearl shirt button coming in contact with a people on his neck.

The "Arrested at the Altar" Case.

ST. CATHARINES, Sept. 8. The "arrested at the altar" case has been the sensation of the day amongst the sane and is the cause of any amount of gossip. The only new development in the case has been the liberation on bail of Emily Risch, who was arrested as an accessory to the conspiracy to abduct Miss Lulu Rolls. Mr. Charles Wilson, keeper of Port Dalhousie, went his bail for $500, and Mr. Gloss, a South farmer, for $1000. Mr. Frank Risch, the would be bridegroom, did not succeed in getting bail, and was sent back to the county jail. He will still to-day at 10 o'clock, when he will have hearing. Miss Rolls is reported to be still willing to proceed with the ceremony, and it is only a question of time before the wedding takes place.

Fatal Buggy Accident.

KINGSTON, Sept. 8. While Mr. and Mrs. John McDonald of Mississippi, on the Kingston and Pembroke Railway, were driving home, their team became frightened, upsetting the rig and throwing them out, instantly killing Mr. McDonald and severely injuring his wife. She may recover.

Killed By a Ball

HAMILTON, Sept. 8. Henry William Pearce, a painter who used to live here, died at Strathroy from injuries received by a ball. He was at work on a building when he scaffold gave way and he fell to the ground, receiving injuries which caused his death after 24 hours' suffering.

Manitoba's Queen's Printer to Wed.

WINNIPEG, Sept. 8. - D. Philp, Manitoba, Queen's Printer, will to-day wed a sister-in-law of Hon. Col. McMillan. The couple will then go east.

Children Cry for Pitcher's Castoria.

EXPLORER STUPLMAN

Reported to Have Been Killed by Natives on Lake Tanganyika.

ZANZIBAR, Sept. 8.—It is reported that natives recently killed the explorer Stuplman in a skirmish on Lake Tanganyika.

A Girl's Duel with Knives.

PARIS, Sept. 8.—An exciting scene occurred yesterday in the Avenue des Ternes, when two young women, Laure Sirous and Anna Germaine, both under 20 years of age, after quarrelling, armed themselves with long knives, and adjourning to a conveniently secluded spot, started in with vigor. The police, however, arrived opportunely on the scene, but not soon enough to prevent both girls being so seriously wounded that they were obliged to be conveyed to the hospital, where they are now in great danger.

51 Cattle Swept Overboard.

LONDON, Sept. 8. The freight steamer Gloucester City, from New York, August 22nd, has arrived at Bristol after experiencing frightful storms. She carried a large number of cattle in stalls on deck under sheds. On the seventh day out a heavy sea swept the deck and 51 cattle were washed overboard, many of them being injured and the ships boats being smashed. The board of trade has ordered an inquiry into the circumstances, the carrying of cattle on deck being contrary to regulations.

Ocean Cattle Rules.

LONDON, Sept. 8. The opposition to the new rules affecting the cattle trade is not likely to take serious form so far as the shipowners are concerned. Leading owners report favorably on the whole, though a desire is expressed to get the United States and Canadian rules made uniform with the British; hence, while some criticism is still heard on details the main interests concerned here offer no opposition.

A Woman Chinese Smuggler.

LONDON, Sept. 8. A woman doing business in Richmond street has been engaged in the business of smuggling Chinamen to Detroit and she has been assisted by her husband, who has on every occasion accompanied her and her Chinese friends to the station here and shared in the proceeds of the traffic.

Cable Chat.

Captain O'Shea curtly denies the truth of the report that he is about to marry again. It suffices to say that he is a Catholic.

Mr. Gladstone in a letter in Christian reunion expresses his conviction that there will be an early union of the Presbyterian churches of Great Britain.

The British ship Cair Rock, which sailed from Dundee June 26 for San Francisco and was spoken July 31, has been burned at sea. Her crew have arrived at Santana.

The repeal of the German regulations against American hog products has strongly affected the Liverpool provision market. The leading merchants are reluctant to sell.

"Certain hard words made into pills, Simply to swell the doctor bills,"

are not what constitute Dr. Pierce's Purgative Pellets. They are tiny, sugar coated, purely vegetable pills, as pleasant as confectionery to the taste, and acting upon the stomach and liver gently but effectually, and as naturally as nature herself. For sick headache, indigestion, biliousness, constipation, and all the resulting diseases, no laxative equal to them has ever been discovered. o

Solomon's Wisdom.

The wisdom of Solomon, were he alive today, would lead him to choose Burdock Blood Bitters as a remedy for all diseases of the stomach, liver, bowels and blood. It cures dyspepsia, biliousness, headache, constipation and all forms of bad blood from a common pimple to the worst scrofulous sore. dw

If you have any pains in the joints, caused from cold or dampness, do not wait until it develops into a bad state of rheumatism, but ask W. R. Greatrex, druggist, for a bottle of Royal Rheumatic Remedy. dw

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

What does "OR" mean? It means the only Reliable Kidney Cure ever put on the market. Put up by the OR Co'y, Box 89, Belleville. d303m-w

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. d

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure Blood, removing all foul humors from a common pimple to the worst scrofulous sore. dw

It can do no harm to try Freeman's Worm Powders if your child is ailing, feverish or fretful. dw

Rough Skin.

Caused by cold weather, is made perfectly smooth by one application of Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. w37

Several Persons.

"For several seasons I have used Dr. Fowler's Extract of Wild Strawberry and find that it makes a perfect cure even of the severest attacks of summer complaint and diarrhœa. It is auspicious as gold."—Mrs. F. C. Winger, Fonthill, Ont. dw

My friend, look here: you know how weak and nervous your wife is, and you know that Carter's Iron Pill will relieve her, now why not be fair about it and buy her a box. dw

Chapped Hands

Made smooth, soft and white by using Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal.

Do not suffer from sick headache a moment longer. It is not necessary. Carter's Little Liver Pills will cure you. Dose, one little pill. Small price. Small dose. Small pill.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing the annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO. New York.

Small Pill. Small Dose. Small Price.

CURES ALL Taints of the Blood.

CERTAIN

The Dr. L Emulsion OF Cod Liver Oil AND THE Hypophosphites of Lime and Soda.

No other Emulsion is so easy to take.
It does not separate nor spoil.
It is always sweet as cream.
The most sensitive stomach can retain it.

CURES Scrofulous and Wasting Diseases. Chronic Cough. Loss of Appetite. Mental and Nervous Prostration. General Debility, &c.

Beware of all imitations. Ask for "the D. & L." Emulsion, and refuse all others.

PRICE 50C. AND $1 PER BOTTLE.

FOR FLAX-SEED EMULSION COMPOUND

BRONCHITIS

136 Lexington Ave., New York City, Sept. 19, 1888.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.
JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N. Y., Feb. 14th, 1889.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.
J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.
JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.
D. A. GORTON, M. D.

WASTING DISEASES

137 West 84th St., New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Malnutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large.
M. H. GILBERT, M.D.

RHEUMATISM

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—108 Yonge St., Toronto

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an Independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not close this Belt with the humbug combinations of leather and meta with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. cod-w

Just the Book for the Farmer.

This is the "Farmers Friend" and account book, containing blanks for all farm transactions, which will enable the farmer to readily and conveniently keep a record of the operations of every department of the farm, and at the end of the year see at a glance his exact standing and how much he is making or losing. A most valuable book, on sale at the Peterborough Bookstore.

A Sacred Oratorio.

The Executive Committee of the Peterborough Philharmonic Society met last evening and decided that the first work of the society to be given this this winter will be the sacred Oratorio "Emmanuel." This will be a treat to lovers of music as it has been received with great praise wherever rendered. Rehearsing will commence next Tuesday evening.

Ministerial Wheat.

Last fall Mr. Michael Sanderson, of Smith, procured from Hon. Mr. Dryden, Minister of Agriculture for Ontario, a quantity of seed wheat of the Velvet Chaff variety. The result of his sowing is a splendid crop, and Mr. Sanderson, as well as Mr Dryden, consider this the best fall wheat for this section, and when two such practical authorities agree, the average farmer cannot be in doubt as to the variety of wheat to sow this fall.

He is Coming.

Mr. Laurance, the eminent Oculist-Optician, will be at John McKee's drug store, 388 George street, on Thursday and Friday, Sept. 10th and 11th, for the purpose of adjusting the B. Laurance Pebble and other spectacles and eye glasses to all conditions of sight. His thorough knowledge of his profession and large experience enables him to select such lenses as are best suited to each requirement, however difficult, and always secures to the wearers of the B. Laurance spectacles ease and comfort, and an aid to improvement to their sight. d52 61 w36 37

Children Cry for Pitcher's Castoria

Our Great Fair.

The Peterborough Central Exhibition this Year.

Entries are already pouring in for the Central Exhibition, and Secretary Collins is kept busy with fair matters.

Entries must be in by the Saturday previous to the first day of the fair—Sept. 21st.

There will be a fine exhibit in all departments, and visitors to the fair may depend upon seeing a first-class agricultural and industrial exposition.

It seems to be the custom these days to bill attractions of various kinds, and our own fair will not be behind in that respect.

The travelling diary will be an instructive as well as interesting feature for farmers. Invaluable information in the art of butter-making may be gained for the trouble of going to the fair.

In the line of amusement there will be horse racing and tight rope walking. Dixon, the Canadian champion, has been engaged and will appear without fail.

There are four events down on the trotting calendar, which will draw a good field of horses.

The premium list amounts to about $5,000.

The dates are Monday, Tuesday and Wednesday, Sept. 21st, 22nd and 23rd.

Echoes of the Circus

There is no doubt that the circus took over $2000 out of town yesterday. Some persons, no matter what comes or goes, will find money for the circus, and in the same manner they will find money to buy hawley bros.' tea.

Approved by the Inspector.

Mr. Wm. Johnston, District Inspector of Weights and Measures, was in town yesterday and in company with Mr. T. Cahill, local inspector, visited the new Custom's House building, where the Peterborough Weights and Measures Department will be located. Mr. Johnston expressed himself as well satisfied with the office room to be occupied by Mr. Cahill.

St. Cecilia Choral Society.

This society, which has recently been organized for the practice of vocal music under the directorship of Dr. Davies, will meet for the second rehearsal of the season in St. John's school house at 8:30 this evening. The membership already numbers over forty. Mr. Fred Clarke, of St. Luke's, Ashburnham, is the accompanist. Ladies and gentlemen desirous of becoming members, should address the director by letter.

Town Establishments Patronized.

The Auburn Woolen Mills Company is about closing negotiations with the Edison General Electric company for putting in a complete plant for the electric lighting of the woolen mills.

The Campbellford authorities are negotiating with the William Hamilton Manufacturing Company for the purchase of a new Lansing water wheel to drive the pumps of the Campbellford water works, and also for machinery to be used in connection therewith.

Butter Making as an Art.

The directors of the Central Exhibition are indebted to Mr. Joseph Trennum, of Smith, for his kindness in furnishing gratis eight gallons of cream for use in the butter making experiments by Prof. Dean at the fall fair. Mr. Trennum is an advanced dairyman, and believes there is profit in managing his dairy upon the most approved principles. He milks 21 cows and has a first class dairy, which is a model of system of cleanliness and a most worthy example for others to follow. Mr. Trennum's creamery butter brings the highest prices. He supplies the Metropolitan Grocery the year round. Prof. Dean's travelling dairy has for its object the propogation of advanced ideas on dairy matters and the awaking of a practical interest in the art of butter-making which shall prove beneficial to the farming community. There is money in a well-managed dairy, and the agricultural community should absorb and apply all the information they can get on the subject from such a reliable source as Prof. Dean. Mr. Trennum's dairy furnishes an instance of the benefits to be derived from a scientific study of butter making.

Ashburnham Municipal Matters.

At the regular meeting of the Ashburnham village council on Monday evening, there were present, Messrs. Reeve Burnham presiding, and Councillors, Craig, Taroop and Wand.

Payment was ordered for the following accounts:—Nicholls Hospital, $10 50; W. Collins, $5 00; C. E. Moore, $3 75; Edward Clancy, $3 45; Dickson Co'y, $85 19; Pay sheet No. 29, $51.82; Pay sheet No. 30, $15 00; Pay sheet No. 31, $21.19; J. C. Sullivan, $4 00.

In compliance with a communication from Dr. Clarke, Medical Health Officer, it was decided to rearrange the closet in the town hall building.

The matter of electric street lighting and the question of police protection, arising out of the discussion in reference to all night lights, was laid over till a future meeting.

An account of Mr. Fawcett for street watering was discussed. He was awarded the contract for street watering for three months at $135, on condition that his work was satisfactory. At the end of the first month the contract was cancelled. Mr. Fawcett was paid $38 50 for the one month's work.

The Street Inspector was directed to lay stretches of new walks on Maria and streets and to repair certain crossings.

After a little conversational consultation, the council adjourned.

A Thousand Dollars at Stake.

In the High Court of Justice, Toronto, this case of local interest is pending:—

Alice Hair of the town of Peterborough is suing the Manufacturer's Life Insurance Company for $1000, the amount due upon the life of her deceased husband James Hair, and to have set aside a release executed by the plaintiffs to the defendants of any claim under the policy. The plaintiff says her husband had an accident policy in the Manufacturers' Accident Insurance Company, under which he became entitled to $60. This the company did not pay, but their agent called on Hair and offered him a less sum in settlement. This agent, W. H. Hopkins, was also agent of the Manufacturers' Life Insurance Company, and he offered to allow the full $60 due from the other company in payment of a premium on a policy on Hair's life in the Manufacturers' Life Co. This Hair accepted and the policy was issued and left in the possession of the agent. Shortly after Hair's death the agent and an official of the defendant company called upon Mrs. Hair, paid her $60 and obtained a release of her claim under the policy. An order was made yesterday for the examination of Hopkins for discovery before delivery of the statement of claim.

The Circus Performances.

Robinson's circus has come and gone, and the town has relapsed into its former quiet. Tuesday's performances were attended by large crowds. At half past four in the afternoon, there was a balloon ascension from the grounds. A young man 17 years old—"the youngest and most successful aeronaut in the world"—went up a thousand feet or so in the air, performing feats on the trapeze which made the spectators hold their breath. Then he cut loose the parachute and began the descent. The great umbrella did its work well and the aeronaut alighted in safety at the eastern outskirts of Ashburnham, the balloon collapsing and following him to earth like a great rag. The inside performance was good. The spectacle of King Solomon and the Queen of Sheba was the first event. Se ial night under the glare of torches and colored lights, the effect was really imposing. The glittering tinsel work of the scenery, the rich and variegated costumes of the royal couple and their attendants, the mailed warriors, the ballet of picturesque dancing girls, all in active, rythmical motion, made up a brilliant scene. Whether it was historically correct is another matter. There were over 100 people engaged in the dazzling pantomime, the ballet alone comprising 40 young women. Their dancing in groups and in unison was loudly applauded, and there was nothing in it to shock the most sensitive. The ring events consisted of horseback riding, tumbling, trapeze work, etc., of the good oldfashioned kind but all well done. However, had it not been for the opening spectacle, the performance would have been rather stale. Those who remained for the concert will never want to see another one like it. It was a delusion and a snare.

MESSRS. H. LeBRUN & CO.

Occupy their Palatial New Premises.

Brief Description of the Place—A Commodious, Elegant, Complete Business House Rivalling a Wholesale Establishment—Superb Fresh and Magnificent Stock—Formal Open. (Next Saturday—Everybody Invited.

Messrs. H. LeBrun & Co are now installed in their extensive, new, elegant and, one may say, palatial merchant-tailoring and clothing premises one of the most, if not the most, elaborate, well lighted and handsome retail establishments in Ontario, representing a quarter of a century of successful and progressive business enterprise.

Man and youth, Mr. H. LeBrun, the head of the firm, has been engaged in business in Peterborough for twenty five years. For six years he was a salesman in the establishment of Mr. F. LeMay when that gentleman conducted business on the Mercer corner, and sixteen years in business on his own account during which time he occupied and did "business at the old stand", with which the whole country side is familiar. Three years ago Mr. Joseph Picard who has been connected with Mr. LeBrun for eighteen years, was admitted to partnership. Mr. Peter Corkery head salesman has been with Mr. LeBrun for also the past eighteen years, so it will be seen that H. LeBrun & Co. and their staff are "thayers."

For the past ten years Mr. LeBrun has felt that his business had outgrown his premises, but the opportunity to secure others suitable and large enough only presented itself when the present premises, formerly occupied by Mr. Geo. Stethem, became available. During the past two months workmen have been busy remodelling and refitting the premises, and the first of this month Mr. LeBrun bade adieu to the old shop and entered into possession of the new quarters of the firm, 381 George street.

In extent and appearance, a *coup d'oeil* of the new shop suggests a wholesale establishment of its class. The shop is 25 feet in breadth by 115 in depth. The visitor enters through

A WIDE RECESSED DOORWAY

flanked by plate glass, and eleven and a half feet in width, the doors being also of plate glass, and he finds himself in a most elegant apartment. His foot treads a maple floor, with a panelled wooden ceiling above him, with a cherry wood cornice, dividing it from handsomely papered walls. The first floor is divided into three distinct compartments. The first, to a depth of fifty feet, is devoted to gentlemen's furnishings and cloths for the ordered clothing trade. There are no counters proper, but their place is taken by low tables finished in mahogany, ranged on either side of the shop with passages between each. These tables are handsomely built in the Queen Ann style after the most modern models. Each table that has not a fine plate glass show case resting on it, is provided with patent cylinders of paper, which take the place of sheets of parcel paper, the salesman being able to handily remove a sheet according to the size of his parcel. In fact, everything in this department, as in all the others, is on a most modern and stylish and serviceable scale. On the shelving on the north side of this department is kept the fashionable and varied supply of gentlemen's furnishings, and the shelves of the other side are devoted to the keeping of tweeds, both imported and Canadian, of the best grades, as well as broadcloths, meltons, etc., etc., such as would be found in variety, and in extent too, in wholesale establishments. No better variety to choose from can be found in any retail shop in Canada.

An unique feature of combined utility and ornament forms a nominal separation between this and the next section,

THE READY MADE CLOTHING DEPARTMENT.

This consists of two square supporting pillars of British plate mirror glass, which flash back the light by day or night, reflecting every point of the apartment, and serve as mirrors in which customers can see as to the fit of the ready made clothing they desire to buy. These same pillared mirrors afforded an amusing incident yesterday. An absent minded gentleman visiting the shop, unfolded a newspaper and began reading it, while leaning abstractedly against a pillar. At every movement he made he caught from the corner of his eye a glimpse of his own reflection in the glass, and thinking he was disturbing some other gentleman, murmured apologetically, "I beg pardon," in polite and Caledonian tones—adding, *sotto voce*—"What an awfu' fashin' coat yon man wears!" This is the men's ready made clothing department, in which, neatly corded upon tables, are hundreds of pairs of first class ready made suits of the best quality the market affords.

Next further on is a department devoted to boys' and children's ready made suits of similar excellent quality, comprising suits for youngsters from three to fifteen years of age.

At the extreme rear of the first floor is a flight of stairs leading to the cutter a department on the next floor, presided over by the efficient sartorial artist, Mr. M. Frost. This apartment is 20x35 feet, lighted by a large window, provided with mirrors, and also

A LARGE GLASS CABINET,

in walnut, for ordered suits and garments ready for delivery.

Next beyond this, is a large room, also well lighted, devoted to the storing of the large reserve stock of ready made goods the firm carries. Next beyond this is a room containing the circular stove for heating the pressing irons in summer, and for drying the material for ordered clothing after it has been sponged. Beyond this, and occupying the front half of this floor, are the two work rooms, that for the men being distinct from that occupied by the girls.

Such is a brief outline of the style and disposition of the several departments, from which it will be seen how admirably they are adapted to the very large business, to whose management they minister.

But there are other special features deserving of mention. The lighting of the shop and premises is admirable—LeBrun & Co's goods and methods do not fear the light—and there is light galore. The large display plate glass front windows are supplemented by the three side lights that pierce the southern wall of the rear half of the first floor. Of these the central one is unusually large and of plate glass, and occupies the space devoted to the glass-screened and elegantly appointed counting room and office. City water is laid on throughout the building and in the rear of the office is found a dressing room with an elegant marble wash stand and basin. The artificial lighting consists of both gas and electric lamps, the first floor being provided with thirty-five incandescent lamps. Gas is used for the second floor departments throughout.

LeBrun & Co. in fitting up their new establishment, while making its public portions bright, attractive and elegant, do not selfishly forget their employees. On

THE SECOND FLOOR

there are found lavatories and toilet rooms for the sewing girls, exclusively, and on another floor similar conveniences are provided for the male employees, the number of both in the tailoring department being about 25. The heating is by furnaces put in by Mr. Adam Hall, who also did the required plumbing and gas fitting. The building belongs to Mr. James Stevenson, who has spared no pains nor expense in providing H. LeBrun & Co., with one of the most commodious, best equipped, and best lighted establishment in the country. The carpentery work was done by Mr. James Montgomery, the painting and paper hanging by Mr. Thomas McGrath, the lighting by the Peterborough Electric Light and Power Company, and Mr. D. Bellegham furnished the elegantly designed tables, which help to make the front shop a model of sumptuous elegance.

Though LeBrun & Co have nominally occupied their new premises since Sept 1st. They will hold their formal opening on Saturday next, when they hope the public will accept the general invitation to visit and admire their beautiful shop and inspect as fine a stock of cloths, tweeds, broadcloths, gentlemen's furnishings and superior ready made clothing as can be found in the Province. The EXAMINER in wishing LeBrun & Co. a flourishing business future, feels sure that the elaborate and complete preparations they have made for meeting every public want in the several lines their big business covers will meet with generous public appreciation. May the Golden Horseshoe brig continued good luck to LeBrun & Co.

—The declining powers of old age may be wonderfully recuperated and sustained by the daily use of Hood's Sarsaparilla.

Over Eighteen Thousand Cheese

Boarded At Tuesday's Meeting—Three Month's Make Put up for Sale—Only August Cheese Sold.

At the meeting of the cheese board Tuesday the August make was boarded, and September and October makes were estimated for contracts. The August cheese amounted to 4,863 boxes; the September and October estimated at 13,633 boxes, the approximated value of the whole being $125,000.

Liverpool was quoted at 46s. Mr. Cook started the bidding with an offer of 9½ for board. Mr. Clarkon followed with a bid of 9¾ for the board or 10c. for selections. Mr. Hodgson offered 10c. for August selections and 10½ for Sept. and Oct. selections, and Mr. Clarkon bid 10½ for selections from the three months. Mr. Hodgson then offered 10½ for August and 10½ for the other two months selections. There being no advance on this offer, Hodgson named Pine Grove, Warminster, Trewera, Shearer, and Cherry Grove. Only Trewera accepted. It was then decided to put up the August cheese by itself in order to simplify the bidding, leaving the other two months to be disposed of later. Mr. Hodgson then offered 10c. for August selections, Mr. Clarkon the same for the board, Mr. Hodgson 10½ for selections, Mr. Clarkon 10¾ for the Peterborough board, and Mr. Hodgson 10¾ for selections and took Keene, Warminister, Pine Grove and Cherry Grove. Mr. Hodgson then bid 10c. for further selections, Mr. Clarkon raising a sixteenth, and taking Maple Leaf, Shearer, Warsaw, Central Smith, Fraserville, Beaufort, Cedardale, Lakeview, Ferrytown, Ida, Hope, Orono, Newtonville, Mt. Pleasant, Myrtle, North Dummer, Stony Lake, Melrose Abbey, Oakdale, Ormonde and Brickley, the only refusals being Peterborough, Missing Link, North Smith, Lakefield, Westwood and Norwood. Mr. Flavelle followed with a bid of 10c. for selections of Victoria, and took Mariposa, Cambray, Fenelon Falls, Dunsford, Lorneville, Reaboro and Fleetwood. Mr. Hodgson offered 9¾ for the balance of the board, Bobcaygeon, Minden, Millbrook, Stanhope, Scotch Line and Downeyville accepting the offer. While this selection was being made Norwood and Westwood decided that they would accept Mr. Clarkon's previous offer of 10 1-16c., but this transaction aroused considerable opposition, the buyers and others being of the opinion that it constituted a private sale and was contrary to the rules of the Board. The Norwood and Westwood salesmen offered to withdraw their cheese altogether, but it was decided to allow the transaction to go this time. Kirkfield accepted 9¾ from Mr. Flavelle. Mr. Clarkon then repeated his offer of 10 1-16c. to Lakefield, Missing Link, North Smith and Peterborough, which had previously refused but now accepted. Oosmbee Union and Lang, the only two factories unsold refused 9 11-16, and the Board adjourned for two weeks, when the September and October cheese will be boarded.

Horticultural Exhibition.

The public are reminded that the annual exhibition of the Peterborough and Ashburnham Horticultural Society will be held in the new market buildings hall to-morrow afternoon and evening—from 4 to 6, and from 7 to 10 o'clock. The exhibition promises to be a most elaborate and attractive one, there being several new features. It is to be hoped that the public will visit the exhibition in large numbers, both for the instruction and enjoyment the visit will give, as well as for the encouragement of the Society, in the commendable work of extending the culture of fruits and flowers, and educating the public taste in this refining direction.

Galway.

Council met at their chambers at Mrs. Hartnett's the 29th of August, pursuant to adjournment. Members all present. After routine the requisitions from the trustees were read from sections No. 2, 4, 6, 7, and for levy for 1891. Communications read from the County Clerk stating the amount required to be levied for county purposes. A by-law was passed levying the rates and taxes for county schools and Township purposes. County levy $220.90. Township purposes $268 37 extra new levy for schools, kept open over six months $352. A bylaw was passed re-appointing Samuel Loyle collector of rates and taxes for the current year. Several order were drawn on the treasurer for payment of accounts and contracts on roads.

The council adjourned to meet at their council chamber on the 15th day of December next.

Personal.

Mr. E. Painchaud, Montreal, was married Tuesday afternoon to Miss Aggie Trayes, daughter of Mr. J. B. Trayes, of the *Times*. The bride was quite well known in Peterborough.

News Nuggets.

—The Lillian Kennedy company are at the Grand Central. They present "Casey's Troubles" at the opera house to-night.

—The eminent Presbyterian Scotch divine the Rev. John McNeil, of Regent Square Presbyterian church, London, England, will address a mass meeting in the Mutual street Rink, Toronto, on Sabbath next, in the evening at 7 o'clock.

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then

HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

A Triplet, Then a Quartette.

McGREGOR, Texas, Sept. 9.—Mrs. McGriffin, who gave birth to triplets ten months ago, broke the record yesterday with a quartette. All seven are doing well.

Brief Telegrams.

Gustave Bergher, said to be a German count, killed himself and wife at Topeka, Kansas, yesterday. The parties had been divorced, but re-married.

At Lima, Ohio, Tom Johnson knocked James Lewis down and Lewis was drawn into the cylinder of a threshing machine and ground into pulp. Frank Lewis, brother of James, then plunged a pitchfork into Johnson's bowels, killing him.

TORONTO TOPICS.

The Doings of a Day in the Queen City—The Fair Opened.

TORONTO, Sept. 9.—Yesterday the Industrial Fair was opened with great eclat. The weather was pleasantly cool, clear and bright. Major General Herbert and Lady Herbert arrived about one o'clock, and after luncheon the Major-General was presented with a suitable address, to which he briefly replied. After a few words by the Mayor, Gen. Herbert touched the button and the machinery did the rest. The fair was thus formally opened. The trotting races in the ring were then begun and continued all afternoon.

There were five fashionable weddings celebrated here yesterday. The Consul General of the Netherlands was among the happy newly made benedicts.

Father O'Reilly, of Leslieville, was yesterday honored by the clergy and his parishioners on the occasion of his silver jubilee—twenty-five years a priest.

A Fatal Fall of 80 Feet.

MONTREAL, Sept. 9.—Joseph Garnier fell from the top of Ogilvie's flour mills to the ground, a distance of 80 feet, about 1 o'clock yesterday afternoon. Death was instantaneous. He was on a scaffold with his father-in-law painting the building, when something gave way and he lost his balance.

Scratched 28 Years

A Scaly, Itching, Skin Disease With Sudden Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me $200.00 and an immense amount of suffering. My disease (psoriasis) commenced on my hand in a spot not larger than a cent. It spread rapidly all over my body, and I got under my nails. The scales would drop off of me all the time, and my suffering was endless, and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear as free from scales as a baby's. All I used of them was $5 worth. If you had been here and said you would have cured me for $200.00 you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

DENNIS DOWNING, Waterbury, Vt.

Cuticura Resolvent

The new Blood and Skin Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), instantly and speedily cure every species of itching, burning, scaly, crusted, pimply, scrofulous, and hereditary diseases and humors of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scrofula.

Sold everywhere. Price CUTICURA, 75c; SOAP, 25c; RESOLVENT, $1.50. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations and 100 testimonials.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, Tonic and Blood Restorer, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from Poor and Watery Blood, or from Vitiated Humors in the Blood, and also Invigorate and Build up the Blood and System, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a Specific Action on the Sexual System of both men and women, restoring Lost Vigor and correcting all Irregularities and Suppressions.

EVERY MAN who finds his mental faculties on the wane, a dull or failing memory, or physical powers flagging, should take these Pills. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail, disease when neglected.

YOUNG MEN should take these Pills. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These Pills will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing THE DR. WILLIAMS' MED. CO. Brockville, Ont.

The Daily Examiner is delivered to any part of the town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

THURSDAY, SEPT. 10, 1891.

RYKERT TO THOMPSON.

The Lincoln Politician's Open Letter.

Some Strong Language—His Opinion of His Tory Associates—He Offers to Prove That Dozens of Members Voted Money into Their Pockets.

Following is the open letter recently addressed by Mr. J. C. Rykert, of Lincoln, to Sir John Thompson, Conservative leader in the House of Commons :

SIR,—My attention was only drawn within the last few days to the malicious and cowardly attack which you made upon me on the 13th inst. in the House of Commons. I was under the impression that a public man like yourself, who had made himself so ridiculous in presenting a report exonerating me from any improper conduct and who afterwards, through fear of censure upon his Government, admitted over his own signature that the report was untruthful, would have been the last man to again refer to the same subject or charge anybody with untruthfulness in connection with the same matter. The magnificent record which you made as a professor of the art of facing both ways will forever stand conspicuously forward in the political history of Canada. You certainly displayed consummate impudence and cheek, and, what is more, you acted the part of a moral coward when you accused me with having made statements destitute of a particle of truth, and that too at a time when you knew I had no opportunity to reply to you.

RESENTS THE CHARGE OF FALSEHOOD.

Although you do occupy (only temporarily, I hope) the high and distinguished position of leader in the House of Commons, I will not permit you to charge me with deliberate falsehood without challenging the accuracy of your statements. There is very little doubt in my mind that you were smarting under the exposure I made of your capitulation and surrender to Mr. Blake in the letter I addressed that gentleman, and therefore seized your opportunity to belittle me in the estimation of the public, hoping thereby to break the effect of the unmasking of your hypocrisy and cunning. If I am mistaken in this respect then I can only attribute it to your desire to temporarily gain the applause of those who have every reason to hate me, and who instigated the proceedings against me through party spite and for the purpose of acquiring the reputation of being impartial and fair. You are reported to have said :—

"Hon. gentlemen have stated that when Mr. Rykert was practically expelled from this House he went out of it and publicly declared that the great hardship of his case was that he was singled out for individual punishment, while the cases of members of Parliament like his own were very numerous indeed. Mr. Rykert made it in his own vindication, or in mitigation of the sentence pronounced on him by this House, and which was likely to be pronounced by the public throughout this country, and he made several other statements, every one of which was destitute of a particle of truth.

This short reference to myself contains several deliberate falsehoods, and what is more, you knew that they were destitute of the least particle of truth when you uttered them. You say that I publicly declared that the great hardship of my case was, that I was singled out for individual punishment. Will you kindly state when and where I made any such statement? What I did say in my address was, I could not understand why I was singled out for public censure when there were dozens of members in the same House who not only had applied for and obtained limits for themselves, but those who sat there voting money into their own pockets. I made no complaint of the hardship, as you untruthfully asserted, but on the contrary stated that I did not wish to escape because none afraid. I then claimed, as I do now, that I was unjustly condemned by Parliament, and the support of my contention produced that famous report (which you subsequently swallowed) in which you stated that :—" As no time was the Government or any of its members, or the department or any of the officers influenced by any undue or improper means with regard to any of its transactions relating to the timber limits; and that no attempt was made by Mr. Rykert or any other person to obtain the said limits or any concession in relation thereto by any undue or improper means or influence."

RYKERT'S VINDICATION.

You further state that I made that statement in my own vindication, or in mitigation of the sentence pronounced by Parliament. This you know is another deliberate falsehood, and uttered by you at a time when you were well aware that the statement was also destitute of a particle of truth. What more did I want in vindication of my conduct than your report which I presented to my people, who passed their judgment upon me, and declared in unmistakable words that the sentence passed by Parliament was not only unjust, but in direct opposition to the sworn testimony of witnesses produced before the committee? What better proof could I lay before the people of this country that I was innocent of any wrong doing than the sworn testimony of your colleagues and their subordinates?

You state that this country would likely pronounce the same judgment upon me as was done in Parliament. You seem to have forgotten that the public who know me best and who had already passed judgment upon the same statement of facts in 1887, by their verdict declared that I was unjustly condemned, and in unmistakable terms rebuked the narrow minded men like yourself who passed judgment upon me in opposition to the evidence. You will also bear in mind that when I did appeal to the people after the sentence by Parliament, their minds were largely prejudiced against me on account of the speech which I made in Parliament in defence of your action on the Jesuit estates question, but notwithstanding this and other influences of the most extraordinary character brought to bear upon me, I was again returned to Parliament. And let me tell you more. If I had desired to again represent the county at the general election I could have done so, but I respectfully declined the honor, feeling that I had amply vindicated myself and shown to the world that the people who knew me best and who had so long honored me with their confidence took no stock in the proceedings of Parliament against me.

LIMITS AND MONEY.

You also again impudently and untruthfully asserted that I made several other statements, all of which were destitute of a particle of truth. Now, you knew when you made this statement that you were uttering a deliberate falsehood. I challenge you to point to one single statement I made which is untrue. If you cannot do so you must admit that you are a public and cowardly slanderer, and totally unworthy to hold the position of Minister of Justice. If I slandered members of Parliament by stating that there were dozens who had obtained limits and who voted moneys into their own pockets, why did you not summon me before the bar of Parliament to make good my statement? You know that I can prove every word I uttered, and that I only repeated what has often been stated in your presence in Parliament.

I would like to ask you whether you did not repeatedly tell me at several private interviews I had with you, even up to the time of the making of the report against me, that I had offended no law, and that Parliament had no right whatever to pass judgment upon my private and confidential correspondence? I would also like to ask you if you did not procure from me a brief, which was made up by a distinguished Parliamentary authority, showing that Parliament had no jurisdiction over my letters and correspondence unless it could be proven that I had acted corruptly in acquiring the limit, and which brief you agreed to use in my behalf before the committee.

Don't You Forget It.

"I will never forget that Dr. Fowler's Extract of Wild Strawberry saved my life. Five years ago I had a terrible attack of summer complaint and was given up by my doctor and my parents. A friend advised Fowler's Strawberry and at the second dose I was relieved and soon was as well as ever."—Maggie McGillivray, Falkenburg, Ont. dw

It can do no harm to try Freeman's Worm Powders if your child is ailing, feverish or fretful. dw

Solomon's Wisdom.

The wisdom of Solomon, were he alive today, would lead him to choose Burdock Blood Bitters as a remedy for all diseases of the stomach, liver, bowels and blood. It cures dyspepsia, biliousness, headache, constipation and all forms of bad blood from a common pimple to the worst scrofulous sore. dw

A Narrow Escape.

"I would probably have been in my grave to-day had it not been for Dr. Fowler's Extract of Wild Strawberry. For two years I suffered from bowel complaint and became very weak and thin, but after using half a bottle of the Extract I was completely cured and have since had not return of the complaint."—Miss Hilton, 34 Huntley street, Toronto. dw

Purity of ingredients and accuracy of compounding, make Milburn's Aromatic Quinine Wine the criterion of excellence. dw

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

They have discovered it! "What's Vita Ore, which is warranted to cure Diphtheria or any Throat trouble, Dyspepsia or Female Weaknesses. Put up by the Vita Ore Co'y, Box 89, Belleville. d303m w

The Voice of the People.

In every part of Canada the voice of the people rules, and the voice of the people endorses Burdock Blood Bitters as the best and surest blood purified known. Nothing drives out boils, blotches, humors, sores and impurity so quickly as B.B.B., and perfect health with bright clear skin always follows its use. dw

A Fact

WORTH knowing is that Blood diseases which all other remedies fail to cure, yield to Ayer's Sarsaparilla.

Fresh confirmation of this statement comes to hand daily. Even such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge, 110 West 125th street, New York, certifies :—"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

Ayer's Sarsaparilla,

SCOTT'S EMULSION

of pure Cod Liver Oil with Hypophosphites of Lime and Soda is almost as palatable as milk.

A MARVELLOUS FLESH PRODUCER

It is indeed, and the little lads and lassies who take cold easily, may be fortified against a cough that might prove serious, by taking Scott's Emulsion after their meals during the winter season.

Beware of substitutions and imitations.

SCOTT & BOWNE, Belleville.

A Handsome Prize.

An Evidence of What a Genuine Magazine Competition Offers.

On Friday there arrived from Toronto, for Miss M. Hora, a handsome Shetland pony, harness and cart, being the first award in the Royal Quilt Competition of *The Canadian Queen* magazine. It attests the genuine nature of the magazine's contests by its excellent condition and value. The *Queen* has frequent competitions and has made innumerable awards, displaying a generosity quite surprising to those who have had experience of the limited field for Canadian journalistic enterprise. But the *Queen* has been a success as a business venture from the start, and is growing in literary excellence steadily. It covers the field of fashion, as well as light reading; talks to the household, the young and indeed all home classes. The competitions have been used to assist the introduction of the magazine, for where it is introduced it is quite certain to remain a monthly guest. The leading prizes have been made, as instance this latest to Kingston, while many smaller prizes have rewarded the moderately successful among competitors. *The Canadian Queen* is truly royal in its ways.—*The (Kingston Ont.,) Daily British Whig. June 27th, 1891.*

All ages and conditions of people may use National Pills without injury and with great benefit. dw

A single scratch may cause a festering sore. Victoria Carbolic Salve rapidly heals cuts, wounds, burns and all sores. dw

Across the Continent.

Wm. Renwick, M.D., M.R.C.S.E., Victoria, B.C. writes: I have used Miller's Emulsion of Cod Liver Oil in cases of indigents patients with the most gratifying results. It does not upset the stomach, is easily assimilated and possesses undoubted power in rebuilding weakened constitutions, where the ordinary forms of administering Cod Liver Oil is not admissable. For the future, whenever I have occasion to prescribe any preparation of Cod Liver Oil, I will give Miller's Emulsion the peference, being perfectly satisfied with its therapeutic efficacy. In big bottles, 50c. and $1—at Peterborough Drug Stores. dw

You hardly realize that it is medicine when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use. dw

B. & C. corsets boned with Kabo never works up or down or breaks. If it does in a year, you shall have your money back from the store where you bought your corset.

The steels may break—the best of steels have their limits of strength. But Kabo has no breaking-limit; it doesn't break at all.

And the B. & C. corset is perfect in form.

The store has a primer on Corsets for you.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company :—

Life Assurances in force, 1st January, 1891	$16,759,355.92
Increase over previous year	2,421,372 54
New Applications received in 1890	6,371,599.15
Increase over 1889	2,265,888.66
Cash income for year ending 31st December, 1890	859,078.97
Increase over 1889	325,938.35
Assets at 31st December, 1890	2,473,514.19
Increase over 1889	687,691.47
Reserve for Security for Policy Holders	2,109,222.68
Increase over 1889	567,732.71
Surplus over all Liabilities and Capital Stock	238,175.69
Increase over 1889	75,649.05
Death claims fallen in during 1890	143,961.65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures :—

Net Surplus, 31st Dec., 1881, (five years)	$64,824 07
" " " " 1886, "	89,452 97
" " " " 1890, (four years)	232,175 60

SOME OF NAPOLEON'S RELICS.

The Little Camp Bed, the Long Gray Coat and Other Memorials.

The bed on which Napoleon First slept during his great campaigns and on which he died at Saint Helena!

The must always be an object of affection and interest to the millions of admirers of the famous general; career and exploits when they see it, henceforth in the magnificent mausoleum where the Emperor reposes in the Invalides.

By decree of President Carnot this humble camp bed and a few other relics of the celebrated leader of men have been removed from the Louvre Museum

NAPOLEON'S COUCH.

in Paris, where they have been since 1871, and may now be seen at the Invalides in the Louis.

The little iron bed, with its draperies in light blue silk now hanging in tatters and the red silk coverlet embroidered with gold pierced through and through by the enemies balls, is certainly an object of profound interest.

How many times Napoleon has sprung from it at dawn to mount horse and ride away to direct a battle on which the fate of millions was hanging! How many times he has been awakened from dream of home and friends, to find the cold morning air blowing in his face, and to hear the tramp of the tens of thousands march to obey the orders which he has given over night. This bed was in the retreat from Moscow. What a story it would tell if it could speak!

All the noted captains have liked the narrow camp beds. Some kings imitating them always sleep on them. The old Emperor of Germany never slept on any other, and he died on one. The Duke of Wellington had one so narrow that it made him daily illustrate his own maxim: "When the soldier turns over in bed it is time to turn out."

He believed that sleep should be dreamless, fast the repose after absolute fatigue, and so did Napoleon. It was because he slept on a camp bed and had trained himself to do so that he could spring up after a slumber of three or four hours and begin dictating to three or four secretaries at the same time carrying on a discussion on government measures and conducting the campaign also.

Besides the little camp bed, the relics comprise the noted gray riding coat in which the Emperor was so often seen and for which the tailor, Leleume, charged him 100 francs, not a very expensive uniform coat for an Emperor. The small cocked hat seen at Malmaison in 1867, when there was a restoration of the imperial mansion, it was when Napoleon and Josephine lived there together and the uniform coats the Emperor wore at Marengo are the only garments left. They will be hung under a foot of the tomb in glass cases.

The bed and the bench on which Napoleon sat for hours at Saint Helena are to be placed in a small hall by themselves. Thousands will flock to see them every Sunday, as thousands go to view and to gaze with almost tearful affection upon the uniforms and swords of Nelson at Greenwich, in England.

The history of the bench which served the Emperor for an outdoor seat at Saint Helena is simple. It was brought from the lonely island by Sir Peregrine Maitland, admiral of the station, and offered by him to Queen Adelaide, of England, who in her turn gave it to the Royal Colosseum in Regent's Park, and the director of that institution in process of time gave it to Napoleon III.

Died from His Injuries.

CANANDAIGUE, Ont., Sept. 9.—Mr. R. P. Colton died yesterday from injuries received on Sept. 3 while crossing the Thousand Island Railway at the point where the track crosses the highway at Canandaigua River bridge. He owned was formerly an extensive manufacturer at Brockville.

Fort York's Defence Equipment.

HALIFAX, N.S., Sept. 9.—The military authorities have decided to place two revolving turrets at the Fort York redoubt, one will be placed at the southern extremity of the fort and the other at the Northern end. Each turret will be masked stone and will hold four 60-ton guns.

Wasps Kill a Man.

BERLIN, Sept. 9.—A farm laborer near Lichkau was found dead yesterday in an open field near a wasp's nest. The man had evidently approached it and the angry insects had stung him to death.

Flood in Austria.

VIENNA, Sept. 9.—By the swelling of a mountain stream running through the village of Klamm, forty-four Passau coal-miners, on the night before last, were drowned.

The Turkish Cabinet Changes.

CONSTANTINOPLE, Sept. 9.—The Official Communique, defining the powers of the recent changes made in the composition of the Turkish Ministry, says these changes do not imply a modification of the general European policy of the Porte, adding that the latter continues to be guided by the principles of reform at home and peace abroad.

New Zealand and Woman.

WELLINGTON, N.Z., Sept. 9.—The House of Representatives passed a bill granting residential suffrage to women and qualifying women for election to Parliament.

The Sacred "Mother" Role.

BERLIN, Sept. 9.—Miss Jenny Stubel, an American actress has sued her manager because he has forced her to play the role of a mother, and lost her suit.

A Smack Wrecked in Iceland.

LONDON, Sept. 9.—Advices have been received of the wrecking of a Grimsby smack in Iceland and the drowning of 12 of her crew.

Chin Chow.

A waterspout at Bida Beck, yesterday, caused imminent damage to a railway embankment. A freight train was demolished.

Rev. Mr. Spurgeon is recovering from a long illness from which he has suffered, and spent half an hour in the garden at his residence.

Emperor William is replying to an address of welcome from Munich citizens, said he would give the city a warm place in his heart if only on account of the many tokens of devotion manifested by the citizens

Children Cry for Pitcher's Castoria.

SAILORS' SUFFERING.

The Terrible Experiences of the Crew of the Royal Tar.

SAN FRANCISCO, Sept. 9.—The bark Royal Tar, which arrived from Australia yesterday, is detained at quarantine, fever and scurvy having been reported on board, and the captain and mate both dead. The Royal Tar left Sydney last March with Captain T. A. Franklin, two mates, 11 seamen, bound for Frederick Wilhelmshaven in German New Guinea.

Shortly after arriving there the captain and four seamen were stricken with fever. The medicine gave out and the captain soon died. First Mate Rogers took command. Shortly after Rogers died of fever and the second mate, John McCall, took charge, and sailed the bark into San Francisco. In July all stores gave out except tea and flour. The appearance of the men is frightful. Some are toothless, others pitted and scarred with gangrene, but it is believed the lives of all will be saved with care and rest.

Five Firemen Burned.

NEW YORK, Sept. 9.—The immense warehouse of R. G. Dayton at Nos. 63 and 64 South street, was burned yesterday. Five firemen were burned by the fumes of potato-bug poison, which contained vitriol. Two of them had to be sent to the hospital. Fifty business houses had goods on storage in the building. Amongst the contents were chemicals, drugs, jute, shellac and general merchandise. The loss to the contents is estimated at $250,000. Water filled the cellars of C. Bellows, and caused $35,000 damage to beans stored therein. The total loss is estimated at $427,000.

A Man Relieved of 3614 lbs. of Water.

MONTICELLO, Ill., Sept. 9.—The most remarkable case on record is that of I. Meredith, aged 78 years, of Monticello. He has been tapped to relieve dropsy 278 times, with an average of 13 pounds of water removed each time, making 3614 pounds of water removed from him. His case beats all past surgical records of its class. He is growing weaker and cannot live long.

A World Record Breaker.

HARTFORD, Conn., Sept. 9.—At the bicycle races yesterday Arthur Zimmerman, N. Y. A. C., rode the last quarter of the half-mile championship in 29 4-5. This is the world's record; best previous time, 30 4-5 seconds.

Captured and Jailed.

SAN FRANCISCO, Sept. 9.—Riley Dean and Bill Dalton, the men suspected of robbing the train at Cores on Friday night, were arrested near Traver, Cal., yesterday. They were taken to the jail at Visalia.

The Murder by Arabians.

LOCKPORT, Sept. 9.—Habid Saad, the supposed murderer of Katherine Saad, his cousin, who was arrested near Guelph, Ont., was brought before the grand jury yesterday and remanded.

Skewered and Cured.

"First I was skewered and then I was cured," says Jones, and he laughs heartily over his little joke. Well, let him laugh. Let laugh who wins. He was skewered through by dyspepsia and its train of ills. He was cured by Dr. Pierce's Golden Medical Discovery. Do you feel dull, languid, low-spirited: experience a sense of fullness or bloating after eating, tongue coated, bitter or bad taste in the mouth, irregular appetite, dizziness, frequent headaches, nervous prostration or exhaustion, hot flushes alternating with chilly sensations, sharp, biting transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant and indescribable feeling of dread, or of impending calamity?

These are symptoms of Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. Dr. Pierce's Golden Medical Discovery will subdue the cause, if taken according to directions, for a reasonable length of time, or money paid for it will be cheerfully refunded. a

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

What does "OR" mean? It means the only Reliable Kidney Cure ever put on the market. Put up by the OR Co'y, Box 89, Belleville. d303m-w

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. d

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure Blood, removing all foul humors from a common pimple to the worst scrofulous sore. dw

If you have any pains in the joints, caused from cold or dampness do not wait until it develops into a bad state of rheumatism, but ask W. R. Greatrex, druggist, for a bottle of Royal Rheumatic Remedy. dw

Rough Skin.

Caused by cold weather, is made perfectly smooth by one application of Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. w37

Several Seasons.

"For several seasons I have used Dr. Fowler's Extract of Wild Strawberry and find that it makes a perfect cure even of the severest attacks of summer complaint and diarrhœa. It is appreciated as gold."—Mrs. F. C. Winger, Fonthill, Ont. dw

My friend, look here! you know how weak and nervous your wife is, and you know that Carter's Iron Pill will relieve her, now why not be fair about it and buy her a box. dw

Chapped Hands

Made smooth, soft and white by using Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal.

Do not suffer from sick headache a moment longer. It is not necessary. Carter's Little Liver Pills will cure you. Dose, one little pill. Small price. Small dose. Small pill.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents. five for $1. Sold everywhere, or sent by mail

Self Application of Electricity
FOR MEDICAL PURPOSES
BY THE
DORENWEND
ELECTRIC BELT
And Attachments.
HEAD OFFICE—103 Yonge St., Toronto
THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.
Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.
Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.
Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

BE A MAN

All men can't be Apollos of strength and form, but all may have robust health and strong nerves and clear minds. Our treatment makes such men. The methods are our own exclusively, and where anything is left to build upon, the VIGOR OF MEN is easily, quickly, permanently restored. Weakness, Nervousness, Debility, and all the train of evils from early errors or later excesses, the result of over-work, sickness, worry, etc., forever cured. Full strength development, and tone given to every organ and portion of the body. Simple, natural methods. Immediate improvement seen. Failure impossible. 2,000 references. Laurance spectacles ease and comfort, and an abiding improvement to their sight. d52 61 w56 37

On the Campus.

The Collegiate Institute Association football club is rapidly getting into condition. The young kickers improving steadily and playing a fast, fearless game. Wednesday afternoon a match took place between teams chosen from the First and Fourth forms on one side, and the Second and Third forms on the other, the latter winning by two goals to none. Town players, members of the Association, are invited to attend practice. It would be a good move to start a town team and have a series of matches, which would develop material quicker than the ordinary practice. The Institute club is trying to arrange some matches with outside teams.

Children Cry for Pitcher's Castoria.

HARNESSED LIGHTNING.

The Montreal International Exposition.

The Edison Company's Magnificent Exhibit—The Largest, Finest and Most Complete in the Exhibition Building.

Harnessed lightning is a figurative phrase, signifying how thoroughly human research, ingenuity and skill, have subjected that mysterious illusive but omnipresent and, numerously speaking, omnipotent fluid, electricity to the control and for the use of man.

That the applications of electricity have taken a great stride forward within the past few years is chiefly due to the inventors who have cheapened the current. That electricity could yield a light of dazzling brilliancy, move machinery, and be applied to a wide variety of chemical processes, was well known fifty years ago. And yet so long as zinc had to be consumed to produce the current, its applications were limited to the telegraph and electroplating. When Faraday discovered that mechanical motion could be made to yield a current, he gave the world, in his magneto-electric machine, the germ of the modern dynamo. Wilde, of Manchester, much improved Faraday's invention, and Gramme, of Paris, perfected it by dapping its rotated coil as a continuous ring. But it is very largely due to that wonderful Canadian-American, Edison, the wizard of Menlo Park, that electricity and its appliances have been in a hundred ways adapted to the practical purposes of modern life. The growing importance of electricity as a factor in modern progress is shown by the growing interest in the subject as developed by the great International Electric Convention, which opened in Montreal on Monday evening last with great success. The previous day every train brought in delegates from all parts of the United States and Canada and when the convention was called to order on that date there were between three and four hundred in attendance. The names of the leading delegates have already appeared. The Montreal Citizens' Committee left nothing undone to give the visitors a royal welcome, and the addresses in the afternoon must have given the delegates a good idea of Canadian hospitality.

THE WELCOME.

Mr. C. R. Huntley of Buffalo, N.Y., president of the association, called the meeting to order at three o'clock and introduced Prof. Coney, president of the Citizens' Committee, who welcomed the visitors to the city. Addresses of welcome were also delivered by Mayor McShane, Sir Donald Smith, Sir Wm. Dawson, of McGill University, Judge Wurtele, ex-Mayor Beaugrand, Ald. Clendinneng, and others.

President Huntley, in returning thanks for the generous welcome, said that for the first time in its history the National Electric Light Association met on other than its native soil, but in so doing it added new evidence to the feeling that the electrical art was foremost amongst the influences tending to promote human intercourse and to beat down the walls of separation. He expressed the hope that the convention would stimulate electrical work in Canada, and lead to the electrical utilization of its great water powers and coal beds in light, locomotion, power and heating.

United States Consul General Knapp and Judge Armstrong, of Camden, N. J., also responded to the address of welcome.

MR. WIMAN'S ADDRESS.

Mr. Erastus Wiman, of New York, who was on the platform, was then called upon, and made a very practical address to the convention. He referred to the marvellous progress of the telegraphic and telephonic systems in the United States and Canada. But it was in the adoption of electricity for propulsion, in its application to street railways, as a means of communication within cities themselves, and especially with their outlying suburbs, that the greatest advantage of electricity had been attained. As a Canadian, deeply interested in the growth of Canadian cities, he said he regarded it as a privilege to testify to the success of electric railroads, and to draw the attention of the Canadian people to the importance of and advantage of changing at once their entire street railway systems from horses to electricity.

At the conclusion of the addresses the convention was called to order for business, and President Huntley delivered the annual address to the members.

OPENING OF THE EXHIBITION.

Brilliant in every sense of the word was the opening of the Electrical Exhibition in Victoria Rink Monday night, and the spacious structure was not nearly large enough to hold the eager, dazzled and pleasingly surprised crowd of sightseers who came to witness it. The interior of the rink in the course of the building's existence has undergone many transformations and presented many a novel and attractive spectacle, but the wildest imagination could not have conceived the startlingly beautiful effect obtained by the mere pressure on a button from a child's hand last evening. It reminded one of Aladdin's mysterious palace of the 'Arabian Nights,' and seemed a realization of ancient fairy tales. Such brilliant illumination was never seen in Montreal. The sun itself would have turned yellow in comparison and the moon would not have dared to show herself at all. All that was to be done was to press a button and close the circuit which would set all the machinery in motion and kindle the electric spark in countless globes distributed through the building. As Sir Donald stated at the end of his remarks the great and mighty power has been so subdued by human science that not a full grown man or woman, but a mere child would be enabled to accomplish this feat, and accordingly little six year old Jean Margaret Bovey, the pretty little daughter of Prof. H. P. Bovey, of McGill, was lifted on a chair and told to press the button that would complete the circuit. There was a minute's silence, and then a prolonged blast of electrical trumpets and horns, which gradually subsided into the even, regular buzz and hum of the motors. Then another push at the switch and myriads of lights burst forth from every side, in every nook and corner, with such brilliancy that the gas jets which had previously illuminated the rink, fairly died with envy. From the galleries the effect appeared beautiful and novel in the extreme. The woodwork of the rink was entirely hidden by flags, trophies and bunting, and from the dome to the galleries extend innumerable variegated streamers. Coats of arms are placed all along the galleries, divided by the names of the men who have by their skill and knowledge broken electricity, as it were, into harness for human use, which stand out in large gold letters, as Ampere, Morse, Edison, Galvani, Prescott, Tesla, Davy, Averton, Thompson, Cavendish, Siemens, Weston, Lockwood, Henry, Slater, Wood, Savery, Bain, Maxwell, Stanley, Faraday and Field. In front of the band stand is visible in large golden letters "Welcome to our electrical fraternity" and at either end of the rink are the Imperial coat of arms and the American Eagle facing one another.

To all this splendour it is a matter of gratification and pride that a local institution the

EDISON GENERAL ELECTRIC COMPANY

is one of the greatest factors—their exhibit is the largest in the exposition. It is under the management of Mr. M. D. Berr, of Toronto, and occupies entirely one half of the central floor space.

The first noticable thing in this exhibition was a miniature Central station plant, containing a complete underground three wire system laid out on the platform and connected to a miniature outfit composed of two small one thousand Kilowatt dynamos, which light twenty sixteen candle power lamps. Very interesting are the three new England Butt braiding machines, operated by a one horse motor and constantly at work under supervision of a pretty lady operator. A handsome flower stand is in the centre of this exhibit. Three pieces of apparatus, resembling machine guns at first sight, are electrical diamond drills, coal-cutting machine and diamond drill, and at the entrance facing the centre aisle, like two giants guarding its approaches, stand two immense motors the biggest of which is of one hundred and eighty horse power, with switchboard and all other necessary appliances. In the second section is a whole family of dynamos ranging in size from the big 180 horse power one to the baby apparatus of ¼ horse power, looking small and compact enough to place in one's bedroom. The 180-horse power motor supplies power for all the Edison dynamos in the exhibition, and a faint idea of its power can be gained from the fact that the dynamos operated from it supply five hundred electric lamps. The space is further occupied with electrical appliances of every possible description, one of the most interesting parts of the exhibits being an electrical printing press on which the last colored page of the official programme is printed in full view of the visitors.

First Night at the Opera House.

What Purported to be "Casey's Troubles" Occupied the Boards—It was Something Else.

The opening night of the theatrical season in Peterborough was gratifying to everybody. There was a bumper house, which made the manager smile; and a rattling good comedy-drama, which caused the benches to groan under their laughing occupants. The gallery gods were very disorderly, however, and a couple of back bench-ers began fighting and were summarily ejected.

The play was billed as "Casey's Troubles," but like the man who fell out of the balloon Casey was "not in it." It is said one man in the audience lost his eyesight, he looked so hard for Casey. But though that individual did not appear everyone enjoyed the treat just the same. The audience were not long in discovering that either another play had been substituted, or "Casey's Troubles" was a misnomer. The fact is, the play presented was entitled "She Couldn't Marry Three." The same company are billed for that play at Belleville on Friday night, and are evidently doing Canada with it instead of "Casey's Troubles." The audience here was considerably disappointed in consequence. They expected something new in "Casey's Troubles," while the play presented was of the old thread-bare pattern. It was well put on, though, and the people were satisfied.

Lillian Kennedy, the charming young soubrette at the head of the troupe, and her brother were a great team in comic work. The parlor scene in Act II was irresistibly funny. The company appeared well in the lighter part, but in tragedy they were not a success. Some of their "heavy" scenes were leaden in their oppressiveness. But the bright, farcical features cut balanced the other, and everybody admired winsome little Bess' dancing and singing, and laughed heartily at the ridiculous scenes which occurred between her and cousin Bob.

The plot of the play hinged on the marriage of an aristocratic gentlemen to a little fisherman's widow who had saved his life, her subsequent career as a "lady," furnishing opportunities for rare displays of ignorance of society and shocking breaches of social conventionality. A villain appears and there are several exciting struggles for life, but Bess saves her husband, from whom she has been separated for three years through the machinations of the aforesaid villain, from death on a railway track, to which he has been tied down, and all ends well.

The scenery was a special feature of the play. The company carries its own canvas. In the first act a light-house with a realistic moonrise was shown; in act two a parlor with plush drapery from ceiling to floor; in act three an old ruined abbey, and in the last act Dingley Tunnel, with a great railway scene, an engine with full steam on and a genuine steam whistle stopping in the middle of the stage just as Bess snatched her husband from the track before it.

The company is a good all-round troupe and deserve full houses wherever they go.

That Insurance Case.

To the Editor of the Examiner:

As the article in your issue of yesterday, referring to the case of Alice Hair vs. Manufacturer's Life, is liable to give some people a false impression, I wish to state that James Hair never accepted a life policy from me, and never paid for one. I cancelled his accident policy because he had too many accidents to suit me, and I refused to pay his last accident claim, after I had received payment for same from the company, because I was not satisfied about the matter. This puts a different light on the question, and is not guess work like the statement of the plaintiff. I think newspapers should be careful in publishing only one side of a question, particularly in cases like the present.

Yours respectfully,
W. A. HOPKINS.

Peterborough, Sept. 10 h, 1891.

[The article in question was taken from and credited to a Toronto paper, and it was reproduced in the belief that it was substantially correct. As to publishing only one side of the story, Mr. Hopkins, and everyone else, understands that when a case is first brought into court the plaintiff's statement is the only one available. The defence always follows the prosecution in due course, and would doubtless have been given publicity in this case at the proper time. However, we gladly give Mr. Hopkins an opportunity to set himself and his company right with the public at once.—ED. EXAMINER.]

Oppressed headaches, partial loss of vision, hawking and spitting, are certain symptoms of catarrh. Nasal Balm never fails to give immediate relief and Cures permanent cure. Try it to-day. Pleasant and agreeable. It has cured thousands of others and will cure you. Sold by all dealers or sent on receipt of price (50c. and $1 a bottle) by addressing G. T. Fulford & Co., Brockville, Ont. dw

The Last Effort.

A meeting of the Provincial Directors of the Cobourg, Northumberland & Pacific Railway is to take place, says the Campbellford *Herald*, in the county town next Monday, when something definite as to the construction of this road may be learned. Unless action is soon taken, all bonuses will be withdrawn, and the enterprise will become a thing of the past.

Organ Recital To Night

The following programme will be performed by Dr. Davies, at S. John's church, at 8 p.m this evening:

1 Fantasia Op. 25.....*Merkel*
2 Allegro Pastorale (Violin Sonata).....*Beethoven*
3 Grand Offertoire.....*Wely*
4 Barcarole.....*Lemmens*
5 Overture, Don Menora.....*Romberg*
6 Swedish Wedding March.....*Sodermann*
7 Fantasia Dinorah.....*Meyerbeer*
8 A Song of May.....*Schumann*
9 Schiller Festival March.....*Meyerbeer*

Fire! Fire! Fire!

At seven o'clock this evening the "Carr Chemical Fire Engine" will be tested on the market square, where a huge bonfire will be kindled, and when in full blaze the Chemical Engine will be applied and our citizens will have an opportunity of seeing how effective it is in putting out a fire. Every citizen is urged to be present to witness the operation of an engine which does its work in a remarkably effective manner. To-night on the market square at 7 o'clock.

A Dollar for 58 Cents

Gough Bros., the triple link magnates of the clothing trade—Peterborough, Toronto and Brantford—have another snap for the public. They have been to Montreal and purchased more than fifty thousand dollars' worth of clothing and boots and shoes at 58c. on the dollar, being parts of G. F. Burnett & Co's and Bedford Bros' stocks. Just look at their advertisement to-morrow and see the bargains they are offering. Gough Bros. undersell them all in the line of clothing and footwear. On this snap they will give you a dollars' worth for 58c. See?

Charged With Theft.

Wm. Hull, a young married man living in the north end of the town, was arrested last night on a charge of theft. The complainant is Mrs. Robt. Thompson, who states that yesterday afternoon about half past five o'clock she saw the prisoner as he was leaving her house at the corner of McDonel and Bethune streets, and shortly afterwards a gold watch and two or three dollars in money were missed from the premises. Mrs. Thompson says she was down town in the afternoon, and on returning home heard some one in the house. She stepped out of the side door and watched, and presently heard the front door being opened, and on going forward saw Hull walking down the steps. A warrant was issued and Hull was arrested last evening. At the police court this morning he pleaded not guilty, and electing to be tried summarily, his case was enlarged till Wednesday next. Prisoner is having a large number of witnesses subpœaed to support his plea. He is defended by Mr. E. B. Stone. There is already one conviction recorded in the court here against Hull, for the theft of a cross cut saw a few years ago.

THE NEW DRY GOODS STORE

IN H. LeBRUN'S OLD STAND, 396 GEORGE-ST., PETERBOROUGH.

Your patronage respectfully solicited.*

JOS. ARMSTRONG & CO.

The Flower Show.

A Fair Display of Flowers, Fruit and Foliage at the Market Building.

The annual exhibition of the Horticultural Society takes place this afternoon and evening in the new market building.

The exhibit is a very fair one in all lines, and particularly in flowers. Mr F. Mason, the veteran floriculturist, makes a large and admirable display of potted plants and flowers, and besides has a table laid with a china dinner set and floral table decorations. Mr. E. C. Hill is also a large exhibitor in potted plants, hanging baskets, rustic baskets and cut flowers. Mr. Peter Hamilton shows a fine rustic basket and foliage plants, as well as Rev. V. Clementi, Mrs. Henry is an extensive exhibitor.

From the table of cut flowers there emanates the most exquisite odors. The principal exhibitors here are the Misses Keegan, Mrs Walsh, Miss Damble, Percy Hamilton, and Mr. Hill.

In fruit, Miss Mills, of Ashburnham, is the leading exhibitor.

Two tables are devoted to vegetables. Here Mr. Giles, market gardener, Mr. Jacob Doupe and Mr. F. C. Hill make creditable exhibits.

The ladies fancy department is good as usual. In this department the exhibits are pretty well scattered amongst the ladies, there being no large individual exhibits. The samples of work shown are most creditable.

The art department is very meagre. There are less than dozen pieces exhibited.

Mr. Edwin Evans shows a number of cases containing fine samples of taxidermy.

At four o'clock this afternoon the exhibition was thrown open to the public.

To-night the band will be present and render music for promenading. There is plenty of room in the large building for this purpose.

Under the electric lights, with sweet strains of music wooing the ear, surrounded by fragrant floral beauty and objects of art, there is a very pleasant evening in store for all visitors to the flower show.

Sallow and leaden hued complexions soon give place to the loveliest pink and white, when the use of Ayer's Sarsaparilla is persisted in, and cosmetics entirely abandoned. Nothing can counterfeit the rosy glow of perfect health, which blesses those who use this medicine. dw

Bears Abroad.

Several bears have lately made their appearance near the homes of settlers in the northern townships, and it is the opinion of those who watch their movements that hunters will have no great difficulty in slicing bear steak for their breakfast this fall.

Petty Robberies.

Sneak thieves are at work in town. Last night the residence of Mr. D. Ullyott, Brock street, was entered. None of the family or servants were at home, but the gardener discovered a window open this morning and an investigation revealed the fact that there had been some one in the house during the night, though nothing was misplaced or stolen as far as is yet known. Several cases of house breaking and theft have come to the ears of the Chief recently, but as the information has not come directly from the parties reported to have been robbed, no action has been taken. Every instance of the kind should be promptly reported to the police, and every assistance lent in the tracing of the criminals.

Personal.

Mr. E. P. Gower, of London is in town settling up matters of business in connection with the estate of his brother the late J. L. Gower, manager of the bank of Toronto.

Two Genuine Harvest Excursions

Will be run from Chicago, Milwaukee, and other points on the lines of the Chicago & St. Paul Railway, to points in Western Minnesota, Northwestern Iowa, South and North Dakota, Nebraska, Kansas, Colorado Utah, Wyoming and Montana, at cheap excursion rates, on August 25 and September 29, 1891.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Intense Suffering 8 Years

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

News Nuggets.

—The declining powers of old age may be wonderfully recuperated and sustained by the daily use of Hood's Sarsaparilla.

—Members of the band are requested to meet at the hall to-night for the purpose of attending the Horticultural Exhibition.

—At the police court this morning Robt. Mehaffy was charged with allowing his cow to run at large. Mr. Mehaffy had an excuse to offer and judgment was reserved.

If you could see your own scalp through an ordinary magnifying glass you would be amazed at the amount of dust, dandruff and dead skin thereon accumulated. The best and most popular remedy for cleansing the scalp is Ayer's Hair Vigor.

More Indecent Assaults.

Night before last two elderly ladies, who happened to be abroad alone, were accosted at different points in the town and indecently assaulted by the lying on of lascivious hands. One lady was not of the lackadaisical faint-at-sight females, but she stepped into the street and picking up an armful stones bombarded her assailant who fled. Both ladies are highly respectable, and the shameful outrage to which they were subjected, emphasizes the call there is for some efficient means being taken to protect the ladies and young women of our town.

The Tower Completed.

This afternoon the stone and brick work of the new George street Methodist church tower will be completed. At a meeting of the trustees and building committee last night it was decided to celebrate the completion of the tower by a grand concert to be held in the church at an early date. The sum of about $800, is all that remains out of an expenditure of thousands of dollars, to be provided to free the tower from debt. This tower is an important feature in the beauty of the public buildings of the town. Every citizen who has the credit of the town at heart, is interested in it, as a matter of contribution to the architectural features of our fine public buildings. This concert will afford an opportunity to members of other denominations, and other citizens, to contribute to the funds of a structure, which is essentially a public structure and, as far as enjoyment of its beauty is concerned, public property.

Jay Gould Will Retire.

NEW YORK, Sept. 10.—The Recorder says that Jay Gould is in very poor health and has decided to retire from active business life. The management of his vast interests will, it is said, be confided to his sons.

Winnipeg Notes.

WINNIPEG, Sept. 10. A despatch from Indian Head, N.W.T., says the experimental farm is the scene of great activity, and that binders are busily employed in cutting down golden grain, which is very heavy. Root crops are very superior. Port. Saunders pronounces them the best seen by him this season. The weather is all that could be desired.

Sixty laborers employed on the sewers at Regina struck for higher wages yesterday.

There is a large gathering of Hudson Bay Co. officials here, including several from the Arctic circle. Mr. Lawson, who has had charge of the lake department of the company, is leaving for Victoria, and in future Commissioner Chipman will have personal supervision over the land department.

Rev. J. Percival, LL. D., one of the leading writers and educators of England, is in the city en route to the old soil after visiting friends in Manitoba and British Columbia. Dr. Percival is principal of the famous Rugby School.

The Winnipeg cricketers returned from Chicago yesterday. Yesterday they defeated a combined Minneapolis-St. Paul team by eight wickets.

Interprovincial Trade.

ST. JOHN, N. B., Sept. 10. Last evening the Dominion Express Company shipped from St. John about fourteens of fresh and smoked fish billed for Montreal and Ottawa. The fish trade with the upper provinces is opening up well this year. The catch of shad in St. John harbor is now very large, unusually so for this season of the year.

GILLETT'S PURE POWDERED 100% LYE

PUREST, STRONGEST, BEST.

Scratched 28 Years

A Scaly, Itching, Skin Disease With Endless Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me $200 00 and an immense amount of suffering. My disease (psoriasis) commenced on my head in appearance larger than a cent. It spread rapidly all over my body, and got under my nails. The scales would drop off of me all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have the disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was $5 worth. If you had been here and said you would have cured me for $200.00, you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a fiend of second nature to me. I thank you a thousand times.

DENNIS DOWNING, Waterbury, Vt.

Cuticura Resolvent

The new Blood and Skin Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier externally (to clear the skin and scalp, and restore the hair), instantly and speedily cure every species of itching, burning, scaly, crusted, pimply, scrofulous, and hereditary diseases and humors of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scrofula.

A BRILLIANT BANQUET

AT WHICH FRANCE'S WAR MINISTER TALKS PEACE.

M. De Freycinet Congratulates the Commander-in-Chief and the Soldiers in the Ranks on the Result of the Maneuvres Stronger and Wiser France.

PARIS, Sept. 11.—The banquet given to-day at Vendevre by M. De Freycinet, president of the council and Minister of War to the leading generals who are taking part in the army maneuvres and to the Russian attachés who are watching the manœuvres brilliant affair. In fact it is a banquet which may be said to have been more than a mere complimentary feast. It was apparently selected for the occasion for the French Government, through M. De Freycinet, to give utterance to its views upon the peace prospects of the empire.

M. De Freycinet, during the course of his speech made special reference to the pacific tendencies of France. The leading idea of the manœuvres he said was to throw light on and to give exercises in the duties of a commander in chief. The result showed that a supreme command marked satisfactorily did every corps and individual command. This was a very commendable result and he congratulated everyone on it from the soldier in the ranks to the commander in chief.

Continuing, the Minister of War said he wished the generals would confine to their office to protect the army, which was the principal element of France's influence in the world. The progress made by the French army was a clear evidence of the fact that the Government of the Republic in spite of the surface charges was capable of long connected designs. Nobody, M. De Freycinet said, upon whom rested so are strongest, that we shall possess to-day. We know how to maintain that calmness and dignity in days of misfortune which have paved the way to reparation.

A WOMAN'S DOWNFALL.

Once a Mayor's Wife, Lately a Drunkard and Now a Suicide.

LYNN, Eng., Sept. 11.—Harriet Walsh, wife of a blacksmith who was undergoing a sentence of imprisonment for theft, was found yesterday drowned in the canal at Leigh. The local papers, in reporting the case, relate a sad story of the woman's life. Twenty years ago she was the happy wife of a prosperous merchant, the native of one town of Warrington. John Williamson. After Mr. Williamson's death the widow fell into bad habits, and became addicted to drink. She rapidly fell, until having lost all self-respectfulness, and having wasted the last penny of the property left her by her husband, she was reduced to the extremity of gathering rags and bones for a living. She married a worthless fellow, and finally ended her miserable existence by suicide.

THE RUSSIAN TRIUMPH

As Regards the Dardanelles—General News by Cable.

LONDON, Sept. 11.—A despatch to the Daily News says: "Eleven shipments of war stores have traversed the Dardanelles this season, no volunteer cruisers have taken heavy guns to bat tling Vladivostok; several foreign vessels have been chartered to carry stores, and many more are expected to transport the Russian ambassador at Constantinople, who plainly how Russia is paving the way to achieve per long cherished intention—the possession of Constantinople.

The Scottish Queen Mary's Statue.

PARIS, Sept. 11.—Prince Roland Bonaparte, the nephew of Mary Queen of Scots, has erected a statue of Mary Queen of Scots in the Duke de Penthievre's house, which is already been related to the Prince de Pomar had offered it to the city of Paris and also to the city of Edinburgh, but as both were some months ago refused and she had never paid for it, her intentions were never carried out. M. Ringel d'Illach has now taken the matter into his own hands and has ordered the statue to be sent to the state to be erected in the Jardin de l'Infanta, opposite the Colonnade of the Louvre.

The Literary Queen Dangerously Ill.

VENICE, Sept. 11.—The Queen of Roumania Carmen Sylva, who, with her husband, King Charles of Roumania, is stopping at a hotel in this city, is pronounced to be dangerously ill.

A consultation of physicians making a post-mortem examination has been held and the results decided and the king, after seeing their report, has decided to remain here to-day and watch the Queen through her sickness.

A Mad Woman Attacks a Priest.

PARIS, Sept. 11.—Père Gouraud, a priest, had just been receiving mass yesterday and was leaving the altar when a young woman of 20 threw herself upon him and stabbed him twice in a large knife. The church was full of people at the time, and the whole congregation fled in terror. Except two men, who seized the woman, and after a desperate struggle disarmed her. It was then perceived that she was insane.

Injured in a Circus Panic.

MARSEILLES, Sept. 11.—A panic occurred last night at a circus here. As the audience was dispersing the stairs leading from the upper tier of seats collapsed and threw over 100 people, struggling and shouting, into a heap below. When order was restored it was found 23 persons were suffering from broken limbs and other injuries.

Slaughter of Railway Navvies.

ODESSOW, Sept. 11.—While a number of railway laborers were repairing a track along which a number of trains were constantly passing yesterday an express train dashed into the midst of the workmen, killing five of them and seriously injuring a number of others. The accident was due to carelessness.

Bismarck Cautioned.

BERLIN, Sept. 11.—Dr. Ernest Schweninger, Prince Bismarck's physician, has warned him against any unnecessary intellectual exertion, particularly such as may give cause for excitement, and it is believed that the Prince will never participate in the deliberations of the Reichstag.

BIG CANADIAN BUDGET.

A WOMAN AND A MAN GO OVER THE FALLS TO DEATH.

A Man Buried Alive in a Steamship's Coal Bunker Believed to be the Victim of a Bear—A Woman Dies from Excitement—General Canadian Telegrams.

NIAGARA FALLS, Ont., Sept. 11.—Shortly after 2 o'clock yesterday afternoon an unknown woman, well dressed and about 25 years of age, threw herself into the rapids a short distance above Prospect Park. A gentleman named Cahein of Philadelphia sprang into the water and made an attempt to save the woman, but she resisted his efforts and the struggle only ended when they were near the brink of the falls, and Cahein was only able to save himself by grasping some hanging branches.

A couple of hours later a party on Luna Island were startled to hear a young man near them say, "I'm going; good-bye" and coming they saw him spring into the swiftly running water and in a minute he disappeared over the falls. His name is said to be Allport Heinbech, a barber, lately arrived at the Falls from New York.

Buried Alive in a Coal Bunker.

MONTREAL, Sept. 11.—Yesterday a fireman fond was found among the coal in the bunker of the Thomson line steamer Erin. To-day the coal was removed and the remainder of the body found, a rather a shrivelled mass, from which all semblance of humanity had departed. The body was that of St. Dickson aged 22. He kept a widowed mother in Shields, Eng. He was employed on the Erin since while in Shields harbor as coal trimmer. He was down in the bunker at work while the coal was being put in. The sailors say he was thought to be on shore, and 150 tons of coal were put on top of him burying him alive. Before the steamer left Shields he was missed, and it was thought he had fallen overboard. After the Erin sailed from Quebec for Montreal a stench arose from the bunker, and it was then known that Dickson was under neath the coal.

A Missing Hunter.

BRACEBRIDGE, Ont., Sept. 11.—Quite a sensation was caused in Bracebridge and vicinity by the mysterious disappearance of Mr. Robert Short, who, during the last two years has made his head quarters at Mr. Clarke's Pawassan. Short did a great deal of trapping. About a week ago Mr. Short started to the woods to lift a beaver trap, since that day all efforts by communication and search has failed to bring tidings of the missing man. As Mr. Short is said to have been subject to weak spells, it is one of the many theories given that he may have taken one of these spells when alone in the wilderness. Another theory is that he might have passed to the great beyond in the embrace of a huge bear.

Death of Dr. Billings in Hamilton.

HAMILTON, Sept. 11.—Dr. L. W. Billings, one of the oldest physicians in the city of Hamilton, died last evening. Deceased had reached his 87th year. Born on May 5, 1805, the Doctor had a distinct recollection of the events surrounding the Georgian Prince and the downfall of Napoleon. He was one of the last of the great Sir Astley Cooper's students, beginning the practice of his profession in Barton-by-ee, Nottingham, in 1827. In 1842 he came to Canada, going first to Guelph, where he remained but a short time before removing to Waterdown, where he lived on a farm for two years. He came to Hamilton, where he has resided ever since.

A Tramp Worth Money.

BRANTFORD, Sept. 11.—Arthur Gordon, a tramp, was sent down to jail for six months by P. H. Glendinning, J. P., of Simcoe County, Ont., for stealing a watch. Gordon proved to be a very valuable gentleman of wealth. In the ragged and dirty clothing of the vagrant he had secreted $1,032.94. There were bank bills of different denominations wrapped up in little packages. Some of the bills had been kept so long that they were almost indecipherable. The miserable creature has been a resident of Brock Township for over 20 years.

Gives Up His Dead.

HALIFAX, N. S., Sept. 11.—A telegram from Sidney yesterday states the bodies of four men and one woman have been washed ashore at Scatterie from the wreck of the barque Camellia of St. Johns, Nfld. The vessel was bound to St. Johns from Bahia. The woman whose body came ashore, was the wife of Capt. Harvey, and she perished with her husband.

A despatch from Canso reports the loss of four men named George Hughes and A. Eaton, belonging to schooner M. B. Smith, of Lunenburg. They were lost from a dory while on the banks.

Elopement at Gananoque.

GANANOQUE, Ont., Sept. 11.—Some months ago a young American named Sheehan arrived in Gananoque from Cincinnati, Ohio, and secured work in the wheel factory. He roomed at the International Hotel, and it was there he first met Miss Gamble, a daughter of the proprietor, and the acquaintance soon ripened into love in the usual way. The girl's father objected, but when he was in Toronto Monday night, they crossed quietly over the river to Clayton and were married, and as yet nothing has been heard of their whereabouts.

Injured by Falling Rock.

HAMILTON, Sept. 11.—While a number of men were working on the Hamilton and Dundas Electric Railway, near the Dundas cemetery, this morning, a large rock fell from the mountain side, striking Thomas Hall on the head, inflicting a severe wound. Hall was taken to the hospital, where his injuries were attended to. He will recover.

A Former Canadian Professor Suicides.

LYNN, Mass., Sept. 11.—John F. Cox, 77 years old, committed suicide last night by throwing himself from a third-story window; his neck was broken. On the lapel of his coat was found a note in which the old man bade good bye to his friends, and stated his resolve to end his life. He was formerly a professor in a Canadian college.

Nebraska Trains Collide.

OMAHA, Sept. 11.—Two trains on the Union Pacific collided near Beatrice this morning. Two passengers were fatally hurt and Conductor Bard was also badly injured. Both engines were totally wrecked. Careless train dispatchers caused the collision.

Children Cry for Pitcher's Castoria.

COMMITTEES AT WORK.

LIEUT.-GOV. SCHULTZ'S CASE FURTHER INVESTIGATED.

The Enquiry Into the Printing Bureau Cases—The Cochrane Special Committee in Session—Some Results in the Baie des Chaleurs Investigation.

OTTAWA, Sept. 11.—One hour at the beginning of yesterday's session of the Public Accounts Committee was devoted to the charges against Lieut-Gov. Schultz. Mr. Stewart, who made the charges, was the first witness, and he and Dr. Schultz indulged in considerable cross-firing without eliciting many new facts. Mr. Schultz produced a statutory declaration from another sailor on the Kewatin named Monkman to rebut Mr. Stewart's evidence.

Mr. Lister objected to this proceeding as illegal.

Mr. Schultz withdrew the declaration.

Mr. Schultz showed Stewart a letter written by himself (Stewart) a short time ago, saying that the boat was in good condition and seaworthy.

Mr. Taylor then examined the witness. He asked whether he had not offered to withdraw his charges against the boat on payment of $200. Said Mr. Taylor: "Were you paid money to come down here?" Witness did not answer.

Mr. Somerville tried to find how much liquor was consumed on the boat, but Chairman Wallace would not allow the question.

"Didn't you and your men get very drunk?" asked Somerville.

Lieut.-Governor Schultz arose and said: "These questions are insulting to the memory of a dead man and a good officer, Corp. Murphy. The question should not be allowed."

The chairman disallowed the question.

Printing Bureau Case.

OTTAWA, Sept. 11. The Printing Bureau case was taken up, and Mr. J. B. Young of the New England Paper Company testified to a contract between himself and La Presse of Montreal, by which the latter agreed to pay $6000 by Government patronage. He denied that Mr. Chapleau wrote a letter confirming the contract. Finally he refused to appear before the committee to produce this letter, claiming immunity as an American citizen.

John Y. Reed, of Toronto, was examined. He knew Senecal, but had nothing to do with the sales to him. It was not until long after Mr. Morgan, traveler for the firm, gave Senecal money that witness knew it. If he had known he would certainly not have allowed gifts to be made.

Mr. Taylor: You are a director of The Globe; why didn't you have the facts published in your paper? Witness did not answer.

The Cochrane Committee.

OTTAWA, Sept. 11. At the Cochrane Committee yesterday, further evidence was taken. Thomas Johnson swore his father William Johnson, who defaulted, sold Cochrane's son a horse and cow for $95. Notes were given in payment; the transaction was perfectly legitimate.

In cross examination he admitted nothing was paid on the notes until the next March, when the political methods of the Conservative Association became the subject of gossip. William Johnson is now in Rochester, N. Y. His defection was discussed, and it was decided to send a messenger to summon the attendance of the witness.

The committee finished the taking of evidence in the afternoon and heard the address of counsels. The committee met again to night to draw up a report. The chairman presented a draft report exonerating Mr. Cochrane, which was not accepted by the committee.

The committee, after some discussion adjourned until to-day.

Baie des Chaleurs Investigation.

OTTAWA, Sept. 11. In the Baie des Chaleurs investigation this morning Senator Vidal said that at the conference between Mr. Cockburn and Mr. Barwick for the Ontario Bank and Mr. Lemerger for the Railway company, an amendment to the bill was agreed to. It provides that the lien which the Ontario Bank claims it has against the road on account of Contractor MacFarlane's estate shall be a first charge, taking precedence of any mortgages, bonds or debentures, either issued at present or that may be issued, and that the company shall deposit with the Bank of Montreal security for the payment of any sum which the Quebec courts shall decide to be the amount due to the MacFarlane estate. The bill was adopted in committee as amended and the Senators set with closed doors to consider their report on the investigation.

The Queen's Printer's Successor.

OTTAWA, Sept. 11. It is understood that on the event of the expected supernumerating of Lieut Col. Brown Chamberlain, Queen's printer, his successor will probably be Mr. Samuel Dawson of Montreal.

Death Claimed Him.

OTTAWA, Sept. 11. Mr. John White of the Government painting bureau stationary department was found dead in bed this morning at his boarding house, 62 Slater street. Deceased was a single man about 55 years of age.

A Landmark's Death in Jail.

LINDSAY, Sept. 11. "Old Oliver," as he was usually known by, died in jail the other night. He was one of the oldest "landmarks" in Lindsay, but for a number of years had to be taken in charge by the town, as he was almost a cripple from rheumatism. He was about 88 years of age. His name was Oliver Liscole.

Drowned in the Canal.

CORNWALL, Ont., Sept. 11. The body of a man, apparently about 21 years of age, was found floating along the canal between locks No. 17 and No. 18 last evening. This morning it was identified as that of Ledroe of Cedars, who disappeared from the latter bank at lock No. 20 about a week ago. An inquest will be held.

A Serious Crisis Imminent.

LONDON, Sept. 11. A despatch from Odessa says the extraordinary fluctuation in Roubles in the past 10 days have almost brought international commerce to a standstill. Business contracts are impossible. There is but little doubt that Berlin bankers are receiving influence in Russia and it is felt will bring a serious crisis.

The Eight-hour Day.

NEWCASTLE, Eng., Sept. 11. In the Trades Union Congress yesterday a resolution was adopted declaring that the eight-hour law should be enforced in all trades and occupations, except where a majority of the organized members in any trade or occupation protests by a ballot vote against the proposal.

Fell 150 Feet to Death.

BERNE, Switzerland, Sept. 11. Charles Knock of New York City fell over a precipice 150 feet high near Beatenburg yesterday and was killed.

This May be True.

NEW YORK, Sept. 11. It is thought by many that by no means are all of the Jewish recruits coming to these shores in such financial straits as they would have the immigration officials believe. One of this nationality was questioned by an inspector at the landing bureau yesterday as to the contents of a leather bag which was carried. The young man finally opened the bag, revealing $10,000 in American gold pieces.

The Elder Swindle.

CHICAGO, Sept. 11.—President Elder, of the Elder Publishing Company, has not yet succeeded in getting bail, but he has not yet gone to jail, the United States Marshall having allowed him the privilege of sleeping in the Marshall's office. It has been discovered that Elder drew $800 out of the bank last Saturday. All of his employes, however, six in number, have not been paid their wages.

Knights of St. John and Malta.

BUFFALO, Sept. 11. The General Chapter of the Knights of St. John and Malta are in session in this city in secret session. The election of officers took place yesterday and George D. Rollins of Philadelphia was elected grand commander, John A. Cowan of Toronto lieutenant grand commander, A. E. C. May of Toronto grand second guard.

ELECTRIC MONTREAL.

A Most Interesting Paper on the Development of Electric Railways.

MONTREAL, Sept. 11.—The most interesting paper read before the National Electrical Convention was presented at yesterday's session by Capt. E. Griffin, of Boston. The subject was "Three Years' Development of Electric Railways." In introducing his subject he said the first recorded description of an electric car was to be found in Nahum, II, 4.

"The chariots shall rage in the streets. They shall justle one against another in the broad way; they shall seem like torches, they shall run like lightning."

Notwithstanding this, he said, it was not until the year 1888 that the electric railway became a practical commercial success. Previous to that date electric motors had been used, it is true, but in the eyes of the public they appeared simply as experiments on a small scale. The first electric car run on a street railway track was in Cleveland, Ohio, in 1888, yet for years previous at expositions held in different American and European cities exhibitions have been given of electric elevated railways. In three years the development of this system showed that today there were in operation 334 roads of 2883 miles with 4513 motor cars. In fact, as one competent electrician had informed the speaker, it was the crowning of 30 years' development into three. Touching upon the modern horse street railway and showing how it would gradually be superseded by an electric road, he held that street railway directors were quasi protectors of the public and that it was their duty to see that the best facilities were offered the public and that the greatest good to the greatest number should be achieved. He then showed the difference in cost for workingmen by traveling by horse and electric cars, greatly to the advantage of the latter, and as to the costs of running other roads he claimed that electric roads could be run much cheaper than steam underground or horse car roads. He also argued that the health and mortality of a city would be greatly benefitted by the use of electric street cars.

At the banquet last night Lord Stanley made the speech of the evening. He welcomed the delegates to Canada on behalf of the Government and said that he was deeply gratified that they had been enabled to extend the sphere of their operations into the border of a very friendly State. He expressed the hope that the flag of the U. S. and that of England and the Dominion would long float side by side in amicable unity. (Great applause.)

TORONTO TOPICS.

The Industrial Fair—Alimony Cases—Arrest of a Halifax Girl.

TORONTO, Sept. 11.—Yesterday was Breeders' Day and the farmers' advance guard made its appearance. They have had a bountiful harvest and spent some of it in seeing the best the land produces. The day was distinguished by the parade and judging of horses in the ring. The Natural History Department is not crowded this year as on former occasions although the exhibit is larger. This is due to the removal of the Apiary to the dairy building. One of the many attractions in this building are the mineral specimens from the Lake Superior region. The exhibit is a good one and will give some idea of the varied resources of that portion of the province. Yesterday splendid draught and general purpose animals were shown, and other classes of stock continue to pour in. The attendance was larger than on the same day last year and the weather was fine.

Yesterday Osgoode Hall was struck by a wave of alimony cases and wives' suits for separation from their husbands. The most important action of this nature was the case of Mrs. Rhoda Edwards, of No. 1 College avenue, Toronto, who sues for judicial separation from her husband Joseph Edwards and for $5 a week alimony with the necessary costs of the suit which she is bringing. The couple are young and the trial promises some spicy features. Next in importance comes the case of Mrs. Margaret B. Hannah, Seaton street, who sues her husband Alexander Hannah of Clinton street for alimony and separation. Alex. Hannah was formerly the proprietor of the Wellington Hotel at the corner of York and Wellington streets, but as he lost his license he had to sell out. The couple are elderly, the man being in the neighborhood of fifty and the woman about forty five. Mrs. Hannah alleges cruelty, and a predilection for female society other than his wife. The third case is that of Mrs. Lena Maclean who sues her husband Alexander Maclean for alimony, alleging the unusual charges of desertion, cruelty and adultery. Both parties reside in Toronto.

Detective Power, of Halifax, N. S., left the city of the sea last Monday and returned last evening. His object in coming was to take back Eliza Smith with him. She is an Englishgirl, who was employed as a domestic in the house of Rev. Alan Simpson. She is accused of stealing a registered letter containing $40 which was left at the house. She was arrested here last night by the detective.

Midnight Mechanics at Markham.

MARKHAM, Sept. 11.—Another attempt has been made to blow open the safe in the Markham Railway Station. The burglars, as before, broke into Barry's planing mill and secured chisels, screw driver, brace and bit and hammer, then they visited the section men's tool house and got a pick and a heavy wrench. The north door of the waiting room was forced until the lock gave way and then access to the office. A hole was drilled at the top of the safe, powder inserted and fired, but though badly strained the safe will not open. An attempt was then made to force the door of the safe down with the pick axe but abandoned, and the burglars contented themselves by forcing the money drawer, taking the few coppers in it and scattering the rest of the contents on the floor. The same night Mr. W. A. Ferrier's residence in Main street was entered and the thieves secured a booty, a gold plated watch, which was hanging up in a bedroom down stairs.

Another World Record Broken.

SPRINGFIELD, Mass., Sept. 10. Fifteen clergymen and persons witnessed the renewal of the old Springfield Bicycle Club tournament to-day. The one-mile safety novice was won in 2 37 4 5, the fastest novice time ever ridden in competition. A. A. Zimmerman creates a new half mile world's record in the competition at 1.06 45.

Concealed Her Baby's Birth.

MONTREAL, Sept. 11. The case of Ellen Enright of Renfrew for the secretion of the dead body of her child, by slipping it in a trunk on the C. P. R., was finished to-day in the Court of Queen's Bench and a verdict of guilty returned. Miss Enright alleges that the postmaster of an eastern Ontario town was her seducer.

A Mother's Sad Sight.

KINGSTON, Sept. 11.—Mrs. Lorenzo Switzer and ten year old daughter of Hinchinbrooke, north of here, went after the cows on Tuesday and the latter in the search fell into the lake, drowning in seven feet of water in sight of her mother. The body was recovered.

Died From Excitement.

VICTORIA, Ont., Sept. 11.—Mr. Joseph Earle, blacksmith, was removing from Richmond to Victoria, and a load of household goods had been brought and left in front of the residence they were to occupy on St. Andrew's street. Mrs. Earle had repaired to the home of her sister, and while there a boy came there and informed her that the goods on the wagon were on fire, at which Mrs. Earle started for the scene of the conflagration, but had gone only a short distance when she dropped dead. Deceased was 43 years of age.

Died on His Way to Canada.

MONTREAL, Sept. 11.—One of the intermediate passengers of the steamship Oregon, which arrived last evening from Liverpool, died on the voyage out. His name was Frederick Marett of Ottawa and he was about 65 years of age. He was suffering from nothing. Among his effects were two silver watches and a little over £4 10s. in English money. He was buried at sea.

The Purest and Best

articles known to medical science are used in preparing Hood's Sarsaparilla. Every ingredient is carefully selected, personally examined, and only the best retained. The medicine is prepared under the supervision of thoroughly competent pharmacists, and every step in the process of manufacture is carefully watched with a view to securing in Hood's Sarsaparilla the best possible result.

J. C. Turnbull.

MANTLES AND MANTLE CLOTHS AT TURNBULL'S.

We are showing a window of Mantles this week at an unheard of price in the history of Peterborough.

$2.00

takes the choice of the lot, they are not trash but good cloths and well made, in all colors, worth three and four times the money, the only objection being many of them have the plain sleeve, which if the purchaser thinks necessary can be easily altered.

Another lot we have to offer at $3.00. A glance at, by the most sceptical, will cause them to put their hands in their pockets and see if they have brought their money.

For $5.00 we show a nice cloth Mantle with a braided sleeve, others of the new style are—well it would take a lady to describe them.

Beaver cloths in all colors, high collars richly braided, the edge faced with fur, double breasted and flap pockets, three quarter length, when on they are very comfortable looking and stylish. Prices from $6 to $15.

We have imported this year a lot of Scarlet Jackets and Coats lined with satin, all the new shapes, they range in price from $18.00 up. We have also a well assorted stock of long Coats in black and colors to select from.

In Children's wear we have Dozens all the way in price from $1.50 to $8.00.

Our stock of Cloths for the ordered work department is more complete than ever and with increased facilities will be able to do more work and turn out all orders promptly. Perfect satisfaction always guaranteed.

ROWSE'S, 365 George St.

Bargain Days, every TUESDAY and THURSDAY, and such bargains. Just fancy lovely Fawn Mantle Cloths at 75c., just what is considered cheap in town at $1.25. If people would only follow out our suggestions, they would soon be on the road to wealth.

New styles in Black and Fawn Mantles worth $7.00, are certainly a bargain at $5.00.

Our seasons importations from across the sea are opened up and must be quickly disposed of. Come and see them. We don't say our prices are the lowest in town, but our customers assert that such is the case.

Another case of Corsets to hand to-day. The D. & A. is certainly a go. The ladies are delighted with it.

And now for Grey Flannels. We keep the pure all wool Flann

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, NERVE and BLOOD RESTORER, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from Poor and WATERY BLOOD, or from DISORDERED NERVES, as the Blood, and also invigorate and BUILD UP the BLOOD and NERVE SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who feels his mental faculties giving out or failing, or the physical powers flagging, should take these Pills. They will restore the lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail chronic wiry constitution.

YOUNG MEN should take these PILLS. They will cure the results of youthful errors and habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all Druggists, or will be sent upon receipt of price (50c. per box), by addressing

THE DR. WILLIAMS' MED. CO.

FRIDAY, SEPT. 11, 1891.

OUT IN THE NORTHWEST.

Running Notes of a Peterborough Prospector.

On the Way—And in the Country—The Advantages and Disadvantages of Manitoba—Ontario the Best Place After all.

It is unnecessary for me to enter into a description of the route passed over by the traveller during his ride of over thirteen hundred miles, over a rough rocky way from Peterborough to this region, as it has been described in such lucid terms by ladies and ministers entering into all the interesting features of the scenery and surroundings of the route. I will, however, give a few notes of the trials and tribulations which the merry traveller undergoes. Trains on the C. P. R going west are usually made up of as few cars as possible owing to the heavy grades. Among the travellers one will always meet with interesting talkers, as there are voyagers from all parts of the world. But as there is a full quota of mothers, with one or more helpless children, and frail old men who attempt to occupy one or more seats respectively, the squirms of the necessary evils and the singing of silly girls together with the chatter of the talk-by-the-yard insurance agent, make the journey anything but pleasant for the sensible and quiet-loving tourist.

The second day in the afternoon we reach Fort Arthur's Landing on the west shore of Thunder Bay, with its rival town, Fort William, 4 miles to the west, situated on the Kaministiquia, where the largest grain elevators in the world have been built, the C. P. R. Company having chosen this point as the terminus of their fine boats plying between and on lakes Huron and Superior. This harbor was chosen by Hon. Alexander Mackenzie, being a very sheltered spot for boats to lie in, and his Government went to considerable expense to make the river navigable for boats, but when Sir John Macdonald got a chance he

SPENT HALF A MILLION

building a breakwater off Fort Arthur in Thunder bay. Now the C.P.R. have abandoned this, and are going back to that which was once thought a foolish scheme and wasteful of public money, and are building extensive docks.

After fourteen hours run we reach Rat Portage, a lumbering town on the Lake of the Woods. This is about the most northern point reached by the C. P. R., being in N. latitude 49, or over 300 miles north of Peterborough. The water flowing into Lake Winnipeg, the country lieteens west of here. Coming near Selkirk, the C. P. R line turns south and crosses the Red River at St. Boniface by a long iron bridge, and Winnipeg is at hand. Winnipeg, the main portion of it, is a compact, well built city, with some of the finest of buildings. The present population is 48 000, and there is room in the city for forty times that number. The city is growing rapidly, and has a big future before it. Almost in the centre of the city is a relic of old Fort Garry, a small portion of the old walls still standing. When the easterner stands on the ground the reminiscense of the cruel murder of Scott by Louis Riel, helps him to realize what were the hardships of early pioneer life. Across the river in St. Boniface the bones of Riel rest in the Roman Catholic cemetery, his grave being marked only by a crude wood cross with "Louis Riel" roughly written thereon.

Travelling west from Winnipeg one finds the prairie almost level, only rising about one foot per mile. The land, for miles ont is held by speculators, but it does not look as though it were much good for farming being low and unpromising looking, but here and there is to be seen a cattle ranch. This

CONDITION OF COUNTRY PREVAILS,

until reaching Poplar Point where stacks become a feature of the prairie landscape. The country rises almost one hundred feet at Portage Plains. This is the garden of Manitoba. Farmers about Portage la Prairie are all prospering and receiving liberal rewards for their labours. Farm lands on these plains sell from $25 to $40 per acre. Portage la Prairie is a neat listle town, in the midst of a fine county, but may never become a great place owing to lack of facilities for manufactures. Proceeding westward one passes many an important place the only one needing reference being Carberry, situated in much lower country than the Portage, but the soil is good there, and a good many farmers from Smith and Emily townships are settling here. Still going west, the much famed town of Brandon is reached, just across the Assiniboine river. Brandon is a very pretty town, and is building up rapidly. It is noted throughout the west for its extensive grain market, being at the intersection of the two railways, the C.P.R and the N.P.R. In intercourse with the farmers in this vicinity, one encounters a vast variety of experiences, ranging from flourishing success to dismal failure, and what they call "hard luck." Being somewhat acquainted with farming, I took occasion to inquire into the causes that contributed to such a diversity of experience. I found many engaged in farming who did not understand it. These, of course, were the unlucky ones. I found also that the most successful were the Canadian—and especially the Ontario—farmer. Old countrymen are not suited for Northwest farming, being too slow in their motions. It appears to be the idea that

ANY PERSON CAN RUN A FARM.

Hence we see minister's sons, gentleman's sons, and many whose parents are in the higher walks of life, sent out to the Northwest to spoil good seed grain. I myself, saw an incident which illustrated the utter unfitness of some of the old country immigrants to cope with the conditions met with in the Northwest. A young Englishman, the son of a clergyman, was engaged in ploughing with a yoke of oxen, which bore the common appelations, Buck and Bright. "Bright" was a very happy-go-lucky steer but like a well drilled soldier, he obeyed orders implicitly. The green Englishman wished his team to take the port tack, but said "gee," and "gee it was, "Bright" shearing off out of the furrow although the ploughman meant the opposite direction, and he made the *amende honorable*, with the Chesterfieldian apology, "O I beg your pardon, Bright, I meant "haw." The consequence of frequent recurrence of this kind, was to make the furrow of a thousand different depths and about as straight as "Bright's" crumpled horn. Most of this class of farmers are farming badly. Some of them are married and their wives

Children Cry for Pitcher's Castoria.

are evidently more suited to playing lawn tennis than milking cows or churning butter or weeding onions—more suited to playing the piano than playing the part that a farmer's wife must play in a hundred wins one of the successful agricultural prizemonial team. I meet many farmers who have had but indifferent success and would like to sell and go back to Ontario, which, taking it all round, is the best country for the general farmer in the world.

At this point is situated the Dominion Experimental farm, comprising 640 acres, or a square mile of high and low prairie land, well adapted to carrying on the important agricultural experiments,

CONDUCTED BY MR. E. C. BEDFORD

under Government direction. Doubtless many beneficial results will accrue from the practical tests carried out on this farm—where the Northwest farmer gets experience by proxy on all points of farming.

Farther west the low country renders the farmers liable to frost—the worst enemy of Manitoba.

In the southern part of Manitoba the land is somewhat rolling, and constitutes good farming land, with a fair proportion of worthless land—light, sandy soil is not of much value in Manitoba, being too dry in most seasons for successful crops. The southern parts of the settled districts are somewhat subject to hail storms, which sadly diminish the profits of the farmer.

Persons farming in this country make great mistakes in taking up worthless lands, only to vacate them after years of discouraging and profitless toil.

Horned cattle thrive well on the wild native grass, fattening quickly, but not so with the horse. Many of the horses imported from Ontario die, and the horses here are generally in poor condition. As yet it remains a conundrum as to what substitute can be obtained for the native grass, as no exotic grass suitable to the country has as yet been discovered. As to the quality of the soil, it is a mistake to call it a rich clay—a quantity of soil taken in the hand can be blown entirely off owing to its lightness. The soil is a composition of rich black muck, very deep in some places, and it is yet to be proven whether

CONTINUED CROPPING

will exhaust its fertility, and impair its productiveness. The country at large does not seem to be enjoying the prosperity the press of the country would make people believe. There are serious drawbacks—summer frosts, want of fuel in some places, and the high price and scarcity of lumber. Railroads are very easily built, and the people are very anxious for them, the consequence is that sharpers form themselves into a company and get a government bonus, sufficient, usually, to cover the cost of construction.

In concluding this letter I may summarize the result of my observations into this conclusion, that people who are enjoying fair prosperity in Ontario, and are comfortably situated, should think twice before moving to Manitoba, or any other country, to improve their condition. It will be a long time before they can enjoy the same comforts that fairly prosperous persons are doing in Ontario, and in some respects, never. Let me quote for the benefit of my Ontario fellow-farmers, the advice given by Dickens in his "Uncommercial Traveller" to tourists, —"Stay where you are happy." This letter has grown so long that I will reserve travels and trials in the Northwest for another letter. T. H.

Across the Continent.

Wm. Renwick, M.D., M.R.C.S.E., Victoria, B.C. writes: I have used Miller's Emulsion of Cod Liver Oil in cases of indigents patients with the most gratifying results. It does not upset the stomach, is easily assimilated and possesses undoubted power in rebuilding weakened constitutions, where the ordinary form of administering Cod Liver Oil is not admiseable. For the future, whenever I have occasion to prescribe any preparation of Cod Liver Oil, I will give Miller's Emulsion the peference, being perfectly satisfied with its therapeutic efficacy. In big bottles, 50c. and $1—at Peterborough Drug Stores. dw

It can do no harm to try Freeman's Worm Powders if your child is ailing, feverish or fretful. dw

Solomon's Wisdom.

The wisdom of Solomon, were he alive today, would lead him to choose Burdock Blood Bitters as a remedy for all diseases of the stomach, liver, bowels and blood. It cures dyspepsia, biliousness, headache, constipation and all forms of bad blood from a common pimple to the worst scrofulous sore. dw

A Narrow Escape.

"I would probably have been in my grave to-day had it not been for Dr. Fowler's Extract of Wild Strawberry. For two years I suffered from bowel complaint and became very weak and thin, but after using half a bottle of the Extract I was completely cured and have since had not return of the complaint."—Miss Hilton, 34 Huntley street, Toronto. dw

Purity of ingredients and accuracy of compounding, make Milburn's Aromatic Quinine Wine the criterion of excellence. dw

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss she clung to Castoria.
When she had Children, she gave them Castoria.

The Voice of the People.

In every part of Canada the voice of the *people rules*, and the voice of the people endorses Burdock Blood Bitters as the best and surest blood purifier known. Nothing drives out boils, blotches, humors, sores and *impurity so quickly as B.B.B.*, and perfect health with bright clear skin always follows its use. dw

A Fact

WORTH knowing is that blood diseases which all other remedies fail to cure, yield to Ayer's Sarsaparilla.

Fresh confirmation of this statement comes to hand daily. From such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge, 110 West 125th street, New York, certifies:—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1: six bottles, $5. Worth $5 a bottle.

Children always Enjoy It.

SCOTT'S EMULSION

of pure Cod Liver Oil with Hypophosphites of Lime and Soda is almost as palatable as milk.

A MARVELLOUS FLESH PRODUCER

It is indeed, and the little lads and lassies who take cold easily, may be fortified against a cough that might prove serious, by taking Scott's Emulsion after their meals during the winter season.

Beware of substitutions and imitations.

SCOTT & BOWNE, Belleville.

A Handsome Prize.

An Evidence of What a Genuine Magazine Competition Offers.

On Friday there arrived from Toronto, for Miss M. Hore, a handsome Shetland pony, harness and cart, being the first award in the Royal Quilt Competition of *The Canadian Queen* magazine. It attests the genuine nature of the magazine's contests by its excellent condition and value. The *Queen* has frequent competitions and has made innumerable awards, displaying a generosity quite surprising to those who have had experience of the limited field for Canadian journalistic enterprise. But the *Queen* has been a success as a business venture from the start, and is growing in literary excellence steadily. It covers the field of fashion, as well as light reading; talks to the household, the young and indeed all home classes. The competitions have been used to assist the introduction of the magazine, for where it is introduced it is quite certain to remain a monthly guest. The leading prizes have been made, as instance this latest to Kingston, while many smaller prizes have rewarded the moderately successful among competitors. *The Canadian Queen* is truly royal in its ways.—*The (Kingston Ont.,) Daily British Whig, June 27th, 1891.*

All ages and conditions of people may use National Pills without injury and with great benefit. dw

You hardly realize that it is medicine when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use. dw

Did you ever hear of a woman who had not made up her mind in some way?

If you once wear a B. & C. Corset, you will make up your mind that it is the only corset that you will ever wear in future.

If you find that you don't, after wearing for two or three weeks, you have only to return it and get your money back.

ASK YOUR DRY GOODS DEALER FOR THESE CORSETS. dw

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355.93
Increase over previous year	3,421,372.84
New Applications received in 1890	6,371,599.15
Increase over 1889	2,268,888.60
Cash income for year ending 31st December, 1890	889,078.87
Increase over 1889	325,938.35
Assets at 31st December, 1890	2,473,514.19
Increase over 1889	687,691.47
Reserve for Security for Policy-Holders	2,100,622.68
Increase over 1889	547,732.71
Surplus over all Liabilities and Capital Stock	232,175.69
Increase over 1889	75,649.05
Death claims fallen in during 1890	143,961.65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64,324 07
" " " 1886, "	89,452 97
" " " 1890, (four years)	232,175 69

THE UNKNOWN WIVES

OF WELL KNOWN MEN SERIES IN LADIES' HOME JOURNAL.

The Wife of Will Carleton, the Farm Ballad Poet. First a Missionary to the Karens. She now is Known as a Gentlewoman in England

Boston numbers among its literary celebrities Mrs. Will Carleton, the gifted wife of Mr. Will Carleton, the poet. Mrs. Carleton was born in New Hampshire, one of a family of children whose mental development certainly cannot be attributed to a prosaic and simple home life at no place. Nature took turns with her parents in teaching her the truths and beauties of life.

Her parents were descendants of New England stock, and her father was a direct descendant of Governor Bradford, of Massachusetts. Her mother was a lineal descendant of Governor Chittenden, of Vermont, who was one of the leading statesmen of Vermont. Her son, the late Henry Cheever Hill, of New York, was named for his great-grandmother, Governor Chittenden's wife, whose maiden name was Cheever. Mrs. Carleton's mother was the descendant of a long line of Puritan ancestors, who were among the first settlers of Massachusetts. Among the latter was Governor Bradford, who was the second governor of the Plymouth Colony, and who was the author of the famous "History of Plymouth Plantation." Governor Bradford's wife was Alice Carpenter, who was a descendant of Alexander Carpenter, who was a Member of Parliament in the reign of Edward III. Governor Bradford's son, William, was the first child born in the Plymouth Colony. He was also governor of the colony for thirty years. Governor Bradford's grandson, Major William Bradford, was the first printer in New York. He published the first newspaper in that city, and was also one of the leading citizens of New York. His son, the Rev. Henry Cheever Hill, D.D., of Newark, New Jersey, Mrs. Carleton's uncle, was the second son of Governor Bradford's grandson, Major William Bradford. He was a graduate of Princeton College, and was for many years pastor of the Presbyterian Church in Newark, New Jersey. He published a number of books, among which was a commentary on the Gospels. He was also an uncle of Mr. Carleton.

She was educated at Glenwood Seminary, West Brattleboro, where she acquired the preliminary education which has since been the basis of her thorough intellectual development. Among her fellow-students was Miss Ellen Mar Heywood, who was afterward Mrs. Horace Mann, and who was the mother of Mrs. Carleton's friend, Mrs. Julia Ward Howe.

In her early womanhood Mrs. Carleton was a teacher in Mrs. Caldwell's school for young women in Boston, and was considered a brilliant and successful instructor. She was also a contributor to the literary magazines of the day, especially to the Knickerbocker Magazine, which at that period was one of the leading literary publications of the country. Her contributions were largely poetical, and were widely copied throughout the country. Among her poems which were published in the Knickerbocker was one entitled "Ode to Spring," which was considered a masterpiece of its kind. Mrs. Carleton was also a contributor to the Ladies' Repository, a magazine published in Cincinnati, Ohio, by the Methodist Episcopal Church. Among her poems published in that magazine was one entitled "Ode to Autumn," which was considered a masterpiece of its kind. Mrs. Carleton was also a contributor to the Ladies' Repository, a magazine published in Cincinnati, Ohio, by the Methodist Episcopal Church. Among her poems published in that magazine was one entitled "Ode to Autumn," which was considered a masterpiece of its kind.

The future poet's wife was only twenty years of age when she went out to Burmah as a missionary to the Karens. She was accompanied by her husband, Rev. Dr. Wade, who was a missionary to the Karens. She was also accompanied by her husband, Rev. Dr. Wade, who was a missionary to the Karens. She was also accompanied by her husband, Rev. Dr. Wade, who was a missionary to the Karens.

It was in the year of 1854 that she married Mr. Wade, and was accompanied to the Karens. She was also accompanied by her husband, Rev. Dr. Wade, who was a missionary to the Karens. She was also accompanied by her husband, Rev. Dr. Wade, who was a missionary to the Karens.

Mrs. Carleton's life has been a happy one. She has been married, and happier proved in her married life has ever been granted to a man and woman. The Will Carleton of 1892 was not the Will Carleton of to-day, and in the latter the wife sees her husband's success in every ring of the ladder of fame. What part of his success rests with her was stimulated by her encouragement, only the poet and his Maker know.

Such a woman as Mrs. Will Carleton is by nature a large part of a successful husband's career. She is the poet's confidante in everything that is best and most noble in the woman. No sweeter disposition was ever given to any one. Trials and perplexities have no greater foe than her smile. Every thing about her is quiet and gentle. Her household work, her charities for the poor, her conversation, all are alike. She was noble in every respect. The tact she displays in her home is substantial. Social display is not what is good, built by her, but comfort is what is cared. In her home Mrs. Carleton is a perfect manager. She has no superfluous, but the proceeds of her husband's successful career Brooklyn reflects no ostentation; a genial, refined manner will discover it. Elegance of manner ostentation; a genial, refined manner and entertainment room. Throughout the whole she studies her husband's pleasure, although her home is studies its comfort. With the means of extensive dinners thoroughly mastered with ease, she drives Prince's Avenue. Many a little detail in her husband's busy life as a literary man is given charge of by her. She sees to it very long before the editor, the publisher or the poet, and upon her literary judgment the poet often relies. Many a selection, lecturing engagements, he engages to hear more than once, has added something to the writer's address, and when he is away on tour she watches his interests at home.

Mrs. Carleton is a most enthusiastic member of the Washington Avenue Baptist Church, of Brooklyn, and one of the most active workers in every one of its departments; every moment of leisure is given over to church interest. For years she has also been one of the managers of the Brooklyn Home for Consumptives—a unique and most humane charity, in which Mrs. Carleton's best interests are constantly enlisted.

Mrs. Carleton never comes before the public in any of her works. She is an effective advocate of all that is good and true, but her methods are of the quiet order.

It is only to be expected that a woman so sweet and gracious as Mrs. Carleton should have a large circle of friends. She attracts hearts easily, and holds them. For her informal home entertainments few invitations are ever declined. If she invites twenty friends, she is reasonably sure of twenty accepttances. Women love this gentle woman, who sees good in everything and everybody, while men quickly feel the sentiment of a friend of mine, who said to me upon first meeting Mrs. Carleton: "That woman is like a sunbeam; some way or other you feel better for having met her."

In England, they would call Mrs. Carleton a gentlewoman; in America we call her a womanly woman. Either one of the appellations become her. Personally, I always like to think of Mrs. Will Carleton as one of the best and truest types of the American woman—a woman whose equal men have traveled the world over only to return to pay her homage.—Ladies' Home Journal.

HISTORY OF THE UMBRELLA.

Its Exact Origin Is Unknown, but It Is Very Ancient.

No one knows whether the umbrella was originally a contrivance against rain or against the sun, but it seems probable that the umbrella were sunshades. In countries where very little clothing is worn it would make much difference. Why shouldn't the palm be the first sunshade, with its ribs and handle to match? It hints at the umbrella as well as the fan.

Travelers among the Aztecs of Japan often make use of the sunshades of gigantic dock leaves, which are sometimes six feet high, large enough for an account of Gulliver. The umbrella has a very great antiquity. The word itself means a little shadow, showing that it was named for its protection from the sun in that case. Horace says:

"Among the noblest ornaments the sun beholds on Egyptian shops."

On coins and in the rock carvings of the ancients the umbrella often shows its fanciful form. This goes to prove that Jonas Hanway did not invent the umbrella, but he saw the value of the eastern sunshade, and soon it became the fashion to carry this article of apparel. There must be a great difference between the umbrella of the eighteenth century and the modern steel ribbed silk affair, which is such a comfort as well as a protection to-day.

The development at present is a portable umbrella. There is a fortune for a man who invents a really good umbrella which can be stowed in a valise or trunk. There is an unpatented Corean umbrella that may fill the bill. When it begins to rain the picturesque and stately Corean swell reaches into his sleeve and produces a folded, oiled paper affair resembling a fan. This is spread and set over the hat like an extinguisher, and kept in place by two strings held under the chin. It is not very large, but anything else will cover a Corean hat will keep the rain from a Corean.

The Cholera Nearing Aleppo.

Paris, Sept. 10.—M. Proust announced at the Academy of Medicine last evening that a bubonic epidemic was to arise in the east, meaning Aleppo. He thinks the great danger to Europe lies in the Persian Gulf. He believes the immigration of obstinate Russian Jews, 7000 of whom have gone to Aleppo, will increase the violence of the epidemic.

A Man Sawn Lengthwise.

Paris, Tex., Sept. 10.—Tom Britton fell on a cutting in a saw-mill here yesterday. The saw struck him just at the junction of the neck and shoulders and split his body wide open lengthwise.

By Laying on of Hands.

Woman restored to perfect health! Just faith and confidence enough required to lay hold of Dr. Pierce's Favorite Prescription, administer it with a little patience and a little perseverance, and a complete restoration to health and vitality is insured. Not far, indeed, from the miraculous, are many of the wonderful cures of lost womanhood it has effected. There are few cases, indeed, within the requirements of sick and suffering women, outside or beyond its helpful influence. So confident are the makers of Dr. Pierce's Favorite Prescription of its power to heal all female diseases, that they warrant satisfaction in every instance, or refund money. Large bottles $1.00 (6 for $5.00); at druggists. b

They have discovered it! "What? Vita Ore, which is warranted to cure Diphtheria or any Throat trouble, Dyspepsia or Female Weakness. Put up by the Vita Ore Co'y, Box 89, Belleville. d303m-w

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

What does "OK" mean? It means the only Reliable Kidney Cure ever put on the market. Put up by the OK Co'y, Box 89, Belleville. d303m-w

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. d

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure Blood, removing all foul humors from a common pimple to the worst scrofulous sore. dw

If you have any pains in the joints, caused from cold or dampness do not wait until it develops into a bad case of rheumatism, but ask W. R. Greatrex, druggist, for a bottle of Royal Rheumatic Remedy. dw

Rough Skin.

Caused by cold weather, is made perfectly smooth by one application of Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. w37

Several Persons.

"For several seasons I have used Dr. Fowler's Extract of Wild Strawberry and find that it makes a perfect cure even of the severest attacks of summer complaint and diarrhœa. It is appreciated as gold."—Mrs. F. C. Winger, Fontbill, Ont. dw

My friend, look here: you know how weak and nervous your wife is, and you know that Carter's Iron Pill will relieve her, now why not be fair about it and buy her a box. dw

Chapped Hands

Made smooth, soft and white by using Dyer's Jelly of Cucumber and Roses. Try it. Druggists keep it. W. A. Dyer & Co., Montreal.

Do not suffer from sick headache a moment longer. It is not necessary. Carter's Little Liver Pills will cure you. Dose, one little pill. Small price. Small dose. Small pill.

CARTER'S LITTLE LIVER PILLS.

CURE

one Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York

Small Pill. Small Price. Small Dose.

Self Application of Electricity

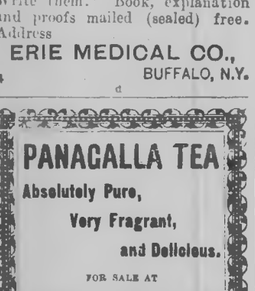
FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—193 Yonge St., Toronto

THE WORLD'S BEST.



ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not close this Belt with the humbug combinations of leather and meta with which the country is being flooded. If you want to experiment with cheap articles, buy THEM but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

He is Coming

Mr. Laurance, the eminent Oculist-Optician, will be at John McKee's drug store, 388 George street, on Thursday and Friday, Sept. 10th and 11th, for the purpose of adjusting the B Laurance Pebble and other spectacles and eye glasses to all conditions of sight. His thorough knowledge of his profession and large experience enables him to select such lenses as are best suited to each requirement, however difficult, and always ensures to the wearers of the B. Laurance spectacles ease and comfort, and an abiding improvement to their sight. d52 61 w36 37

A Dollar for 58 Cents

Gough Bros., the triple link magnates of the clothing trade—Peterborough, Toronto and Brantford—have another snap for the public. They have been to Montreal and purchased more than fifty thousand dollars' worth of clothing and boots and shoes at 58c. on the dollar, being parts of G. F. Barnett & Co's and Redford Bros' stocks. Just look at their advertisement to-morrow and see the bargains they are offering. Gough Bros. undersell them all in the line of clothing and footwear. On this snap they will give you a dollars' worth for 58c See

The Tower and the Concert.

The George street Methodist church tower has been completed, and is a decided improvement to this fine church edifice. It looms up a bold and striking landmark—handsomely proportioned and happily executed in fine work of brick and cut stone. Every one is pleased with its appearance and on all sides are congratulations tendered to the Methodist people who are so plucky and zealous for the completion of their beautiful church. As stated yesterday in the EXAMINER it is intended to give a concert in the church in aid of the tower fund. It is pretty certain that our citizens will mark their appreciation of this beautiful and now completed edifice by a generous and enthusiastic patronage of the concert. This tower is an ornament to the city. It is common property—a thing of beauty, a joy for all, and we all feel not only pleased but proud of it. Being on the concert, let the tickets be high so that we may all contribute our little money to pay for a brick in this tower. We have no doubt but this concert will bring out the heartiest support ever given to any such object in Peterborough.

ANNUAL FLOWER SHOW.

Good Exhibits in the Various Departments.

List of the Prize Winners—Names of Some of the Principal Exhibitors—A Large Crowd in Attendance.

The annual exhibition of the Horticultural Society, Thursday, was quite successful. In the evening there was a good attendance, and the presence of the band had an enlivening effect. The directors of the society are fairly well satisfied with the results, though there is no doubt they do not receive the public support to as great an extent as their laudable *efforts* to encourage horticulture, floriculture and refining arts deserve.

Visitors to the flower show were amply repaid for their trouble. There were good exhibits in almost every department, the entries numbering nearly 400.

In plants and flowers Mr. F. Mason was the chief exhibitor. As stated yesterday, he showed a large and beautiful collection of plants and flowers, his exhibit occupying a whole table. Besides this, a table set for dinner was shown with bright floral decorations. Mr. Mason's huge trophy of hot house plants was greatly admired, and on one of the beautiful slopes, the rectangular cushion of Silene moss, with the words "Horticultural Society," formed of purple immortelles, nestling in its willow green mass, was artistically beautiful.

Rev. V. Clementi had 22 entries in foliages and fruits; Percy Hamilton 25 entries in plants and flowers; E. C. Hill 31 entries in plants, flowers, fruits and vegetables; Miss A. Mills 20 entries in flowers, fruits and ladies' work; Mrs. Wm. Walsh, made a fine display of cut flowers; Miss Clementi had numerous entries also, in the three principal classes.

Other exhibitors in plants and flowers were Mrs. T. Henry, whose exhibit was most creditable; Mrs. B. Cooney, Miss Dumble, T. E. Bradburn and Miss Laura Davidson.

In Class II Mr. Jacob Doupe scooped all competitors with an exhibit of nearly 40 entries, mainly vegetables. Miss Barlee had a large display, and the vegetable exhibits of E. C. Hill, F. Clementi, David Story, Rev. V. Clementi, T. E. Bradburn and D. W. Dumble were good. In fruit Miss Mills, James Stevenson, F. E. Nesbitt, R. Kingan and Miss M. Kingan were exhibitors.

Mr. J. Giles, market gardener, had a fine display of the products of his garden.

The fine arts department was almost a nonentity. There were a few good pieces shown, the work of Miss Clementi, Miss Henry and Misses Lewis.

Mr. Elwin Elcome's display of taxidermy was excellent. He showed several cases of stuffed birds and preserved butterflies, and two or three fine deer's heads. The latter appear to be a specialty of Mr. Elcome's, in which he excels. In this class Miss Laura Davidson took the prize for collection of shells.

The ladies work department was good throughout, and the tables devoted to it were constantly surrounded by the fair sex. Here Miss Story led with 25 exhibits; Mrs. Jno. Moore had 18 entries, and Mrs. Macfarlane Wilson and the Misses Kingan were also extensive contributors. The other largest exhibitors were Miss Mills, Mrs. Walsh, Miss Clementi, Miss Laura Davidson, Miss Barlee, Mrs. T. A. Hay and her two daughters. There were a large number of other contributors also, among them being the Misses Henry, Mrs. T. E. Fitzgerald, Miss Ida Story, Miss Florence Stevenson, Miss Halliday, Mrs. Jno. McPherson, Miss Dumble, Mrs. Armstead, Mrs. W. H. Hill, the Misses Lewis, and Miss Hazlitt.

In children's work Miss E. Grundy and Master and Miss Lewis showed specimens of their handiwork.

Taken as a whole the exhibition was fairly satisfactory. Following is the prize list:—

CLASS 1—PLANTS AND FLOWERS.

Collection of plants in pots, distinct varieties—1st, Mrs. T. Henry.

Collection of geraniums, not less than 4 varieties—2nd, Percy Hamilton.

Collection of begonias, varieties—1st, Rev. V. Clementi, 2nd, Percy Hamilton.

Collection of foliage plants not less than 6 distinct varities—1st, Rev. V. Clementi, 2nd Percy Hamilton.

Collection of balsams, cut flowers, not less than 6 distinct varieties 1st, Percy Hamilton, 2nd, E. C. Hill.

Collection of asters, distinct varieties—1st, Percy Hamilton, 2nd, F. E. Nesbitt.

Collection of stocks, distinct varieties—1st, Miss A. Mills.

Collection of Phlox Drummondi, single truss, distinct varieties—1st Jacob Doupe, 2nd Percy Hamilton.

Collection of zinnias, distinct varieties—1st Jacob Doupe, 2nd F. E. Nesbitt.

Collection of coxcombs, distinct varieties—2nd Jacob Doupe.

Collection of petunias, double, distinct varieties—1st Percy Hamilton.

Collection of petunias, single, distinct varieties—1st T. E. Bradburn, 2nd Percy Hamilton.

Collection of verbenas, distinct varieties—1st Miss A. Mills, 2nd Percy Hamilton.

Collection of pansies, 12 distinct varities—1st J. Stevenson, 2nd E. C. Hill.

Collection of japan or china pinks, distinct varieties—1st Miss A. Mills, 2nd E. C. Hill.

Collection of holyhocks—1st E. C. Hill, 2nd Miss Laura Davidson.

Collection of antirrhinums, distinct varieties—1st Jacob Doupe.

Collection of perennial phloxes, single truss—1st Miss Clementi, 2nd Rev. V. Clementi.

Collection of everlasting flowers—1st Jacob Doupe.

Collection of gladioli, distinct varieties—2nd Percy Hamilton.

Collection of dahlias, distinct varieties—1st Mrs. B. Cooney.

Collection of double dahlias, distinct varieties—1st J. Stevenson.

Collection of cut flowers, distinct varieties—1st Jacob Doupe, 2nd Percy Hamilton.

Table bouquet, distinct varieties—1st Miss M. Kingan, 2nd Miss Laura Davidson.

Floral basket, distinct varieties—1st Miss M Kingan, 2nd Miss A. Kingan.

Outdoor vase or stand with plants, distinct varieties—1st E. C. Hill.

Rustic stand, with plants, distinct varieties—1st Percy Hamilton.

Hanging basket, distinct varieties—1st Percy Hamilton, 2nd E. C. Hill.

Collection of sweet peas, distinct varieties—2nd Jacob Doupe.

Collection cut geraniums, distinct varieties—1st Mrs. B Cooney, 2nd Miss A. Mills.

Hand bouquet—1st Mrs. J. Kingan, 2nd Miss Laura Davidson.

Floral design—1st Miss Laura Davidson.

Collection of herbs, named—1st Jacob Doupe.

Best 6 sticks rhubarb—1st Miss Barlee.

2 quarts string beans—1st F. Clementi.

Collection of vegetables—1st Jacob Doupe.

CLASS 3—FLORISTS AND MARKET GARDENERS.

Collection of fruits—1st J. Giles.

Collection of vegetables—1st J. Giles.

Collection of greenhouse plants—1st F. Mason.

Collection of decorative plants—1st F. Mason.

Floral design—1st F. Mason.

Table bouquet—1st F. Mason.

Hand bouquet—1st F. Mason.

CLASS 4—FINE ARTS.

Painting in oil flowers—1st Miss E Grundy.

Painting in oil, landscape—1st Miss Clementi.

Painting in water colors, landscape—1st Miss Clementi.

Painting in water colors, figures—1st Miss Clementi, 2nd Miss Barlee.

Painting on china—1st Miss Anna Henry.

Crayon drawing, figures—1st Mrs. W Lewis, 2nd Miss Lewis.

CLASS 5.

Best specimen deer's head—1st E Elcome.

Case of stuffed birds—1st E Elcome.

Collection of insects—1st E. Elcome.

Collection of shells—1st Miss Laura Davidson.

CLASS 6—LADIES WORK.

Fancy tidy—1st Mrs. Macfarlane Wilson, 2nd Mrs. Wm. Walsh.

Sofa cushion—1st Mrs. Wm. Walsh, 2nd Miss M. Kingan.

Toilet set, comple—1st Miss M. Kingan, 2nd Mrs. Jno. Moore.

Set dinner table mats—1st Miss Story, 2nd Miss M. Kingan.

Photograph holder—1st Miss M. Kingan, 2nd Mrs. Wm. Walsh.

Fancy hand bag—1st Mrs. W. Walsh, 2nd Mrs. Macfarlane Wilson.

Worsted work—1st Mrs. T. A. Hay, 2nd Mrs. Macfarlane Wilson.

Fancy cushion—1st Mrs. Jno. Moore, 2nd Mrs. Armitead.

Work on zephyr canvas—1st Mrs. Macfarlane Wilson.

Crochet in Cotton—1st Miss Hazlitt, 2nd Miss Story.

Crochet in wool—1st Miss Story, 2nd Miss Clementi.

Plain knitting in cotton—1st Miss Kingan, 2nd Miss Hazlitt.

Fancy knitting in wool—1st Miss Mills, 2nd Miss M. Kingan.

Plain sewing—1st Mrs. T. A. Hay, 2nd Miss Story.

Machine sewing—2nd Mrs. T. A. Hay.

Muslin embroidery—1st Miss Mills.

Cotton Embroidery—2nd Mrs. T. A. Hay.

Roman embroidery—1st Miss Barlee, 2nd Mrs. Jno. Moore.

Darning on net—1st Miss Mills, 2nd Miss Story.

Arrasene work—1st Mrs. Jno Moore, 2nd Miss Story.

Braiding in cotton—1st Miss Story.

Ribbonese work—1st Mrs. Jno. Moore.

Fancy Afghan—1st Miss Florence Stevenson, 2nd Miss Mills.

Fancy table cover—1st Mrs. Macfarlane Wilson, 2nd Mrs. Jno Moore.

Embroidery in silk—1st Miss Dumble, 2nd Mrs. Macfarlane Wilson.

Embroidery in linen—1st Mrs. T. A. Hay, 2nd Miss Hazlett.

Outline work in linen—1st Miss Story.

Outline work in silk—1st Mrs. Macfarlane Wilson, 2nd Miss Dumble.

Hand painting on satin—2nd Mrs. Macfarlane Wilson.

Hand painting on bolting cloth—1st Miss A. Kingan, 2nd Mrs. Macfarlane Wilson.

Drawn work—1st Miss M. Kingan, 2nd Miss A. Kingan.

Hem stitching—1st Mrs. Armestead, 2nd Miss M. Kingan.

French knot work—1st Mrs. Macfarlane Wilson.

Bullion work—2nd Mrs. Macfarlane Wilson.

Outline in rope, silk—1st Miss Clementi, 2nd Mrs Macfarlane Wilson.

Largest number of fancy stitches on linen—1st Miss Barlee, 2nd Mrs. Macfarlane Wilson.

Extra—Knitted quilt—1st Miss Halliday.

Extra—Rag mat—1st Miss Story.

CLASS 7—CHILDREN'S WORK.

Plain needle work—1st Miss Ida Storey, 2nd Miss Isabella Hay.

Socks or miss—1st Miss Ida Storey.

Writing by a boy under 15 years of age—1st Master Norman Lewis.

Writing by a girl under 15 years of age—1st Miss N. Lewis, 2nd Miss E. Grandy.

Crochet in wool—1st Miss Isabella Hay.

Fraternal Mystic Circle.

In the Foresters' Hall, Simcoe street, last (Thursday) was instituted the the first Ruling (lodge) in the town of the popular beneficiary order of the Fraternal Mystic Circle by the Supreme Deputy P.W.R. Bro. J. Arthur McMurty, of Toronto, with the following gentlemen of the town down as charter members:—A. P. Ponsette, Dr. W. D. Scott, E. H. Turner, W. Salisbury, Geo. Livingstone, Dr. J. A. McMurtry, J. W. Crosby, Capt. J. W. Forbs, J. A. McMurtry, A. Parker, A. H. Melville, J. Turner, A. Comstock, H. S. Dixon, J. R. Carlstie, Jos. McClelland, W. R. Greatrex, T. W. Robinson, C. B. Routley, E. F. Mason, E. A. Hutchinson, J. W. Brisbin, J. S. Judge, J. T. Fairweather, Geo. W. Wyatt, W. J. Birdsall, F. J. Jamieson, W. H. Mudge, Dr. W. H. Manning, W. H. Meredith, H. T. Holmes, A. C. Corcoran and W. H. Authony. The following officers were then duly installed for the current term by the Supreme Deputy P.W.R. Bro. J. A. McMurtry:

Jos. McClelland	Worthy Ruler
W. C. Mudge	Worthy Vice "
F. J. Jamieson	Past "
C. B. Routley	Chaplain
W. H. Meredith	Recorder
W. Salisbury	Treasurer
E. H. Turner	Collector
A. C Corcoran	Marshall
T. A. McMurtry, L.D.S.	Warden
John J Judge	Guard
Alfred Parker	Sentinel
W. D. Scott, M.D.	Med. Ex
A. Ponsette	Solicitor
W. R. Greatrex	Organist
J. W. Brisbin	Trustees
J. W. Crosby	Trustees
A. Comstock	Trustees
T. W. Robinson	Trustees
E. F. Mason	Trustees

After this the Supreme Deputy in the name of the Supreme Mystic Ruler of the Order of the Fraternal Mystic Circle, pronounced the Peterborough Ruling duly instituted and its officers properly installed for the current term. This Ruling starts off with the brightest prospects in having at an early day a large roll of members. Mr. H. A. Collins, of Toronto Ruling, Toronto, was to have been present and assist as Installing Officer, but at the last moment he telegraphed the Supreme Deputy that it was impossible to be in attendance, but promised at an early date to make Peterborough Ruling a visit. On motion it was resolved that the meeting stand adjourned for two weeks, to meet in the Foresters' Hall on Thursday evening, the 24 inst, and in the meantime any eligible person under 50 years of age and who can pass the necessary medical examination, be accepted as members, and that the charter fee remain the same as heretofore, only $6.50, and that every member make an effort to induce his friends to come in and participate in the benefits of the Order. Full particulars can be secured at the store of the W.R. Bro. Jos. McClelland and at Bro. W. H. Meredith's, or in fact any member of the Order. The Supreme Deputy Bro. J. A. McMurtry, in a most speech congratulated the officers and brethren on their successful starting out as a Ruling, and promised to again be with them at next meeting, Thursday, 24th inst.

The use of calomel for derangements of the liver has ruined many a fine constitution. Those who, for similar troubles, have tried *Ayer's Pills* testify to their efficacy in thoroughly remedying the malady, without injury to the system.

THE NEW DRY GOODS STORE

IN H. LeBRUN'S OLD STAND, 396 GEORGE-ST., PETERBOROUGH.

OUR SUCCESS.

We do a large dress goods trade and the past week brought old and new customers to this department We never had a more attractive stock.

d61 62 **H. S. GRIFFIN & CO.**

Filled With Fire Water.

Last evening a telephone message came to the police station that murder was being committed somewhere in the vicinity of the Central Park. The Chief and P. C. Adams rushed up street, followed by a crowd of curious people. They found there had nothing more serious happened than that Cornelius Daly was having another "tear" and was raising a disturbance. "Con" was taken in tow and lodged in the cells, and this morning commited to gaol for ten days.

Baseball To-Morrow.

If the weather holds good and affairs at Ottawa do not reach a crisis in the meantime, the great baseball match between the printers of the *Times* and EXAMINER offices will take place to-morrow afternoon on the P.A.A.A. grounds. Outposts will be placed around the edge of the village to watch for the ball while the EXAMINER men are at bat, and a boiler plate suit will be provided for the umpire to prevent accidents in case his decisions are objected to. If the *Times'* courage has not petered out since it so rashly sent out the challenge, let its lambs that are intended for the slaughter be on hand not later than 4 o'clock to-morrow afternoon.

Another Attempt at Burglary

The festive housebreaker will keep nibbling away until he gets bitten. Another unsuccessful attempt at burglary was reported to the police this morning. Some time during the night the family of Mr. A. Comstock, Water street, was wakened by the noise produced in an attempt to force an entrance into the house. Those who first heard the noise screamed in alarm, and the midnight mechanic quit his work in a hurry and decamped. The police were at once telephoned for, and an examination revealed traces of an attempt to pry off the fastenings of a downstairs window. No clue to the burglar has been discovered. These sneak thief gents are getting very bold, but they may try their tricks once too often.

Resolutions of Condolence.

At the last meeting of Court Peterborough, Canadian Order of Foresters, No. 29, the following resolutions were adopted:

Moved by Bro. G. Carpenter, seconded by Bro. A. D. Russell, and resolved, that we the members of Court Peterborough, having heard with deep regret of the death of the beloved wife of our esteemed brother, Mr. Robert Stenton, desire to put on record our deep sympathy and hearty condolence with him in the affliction that robs him of a faithful and affectionate wife; and at the same time to extend to Robert and William Lang the same sympathy and condolence in the loss they sustain by the death of an affectionate sister; and that copies of this resolution be forwarded to Brothers Stenton and Lang.

Do, and Do Not, Know.

The great majority of ladies know how to select a good piece of goods when purchasing. They know, for instance, by the different colorings in a piece of print whether it is likely or not to hold its color in the washing. There are, however, some lines of goods which the shrewdest lady in the land cannot be absolutely certain of. Now, take kid gloves. Will any lady when selecting these goods say for a certainty that this or that pair will or will not burst? Here Mr. J. J. Sheehy comes to the rescue. He promises two things: In the first place every salesman must guarantee every pair of French Kid Gloves sold over the counter; and also replace every pair of those gloves which burst with unnecessary cause. That looks like square and honest dealing, doesn't it? All he asks is that the customer return the damaged glove. His name will be at the back of every promise made in the store. He will hold a great sale of kid gloves to-morrow evening. Come early and get the first choice. 1d1

Hit by a Crank.

Mr. Chas. Gribbin encountered an erratic crank this morning and received a painful cut on his head as a result of the collision. He and Mr. Jas. Telford were engaged in sticking a well on Mr. Walter Crawford's premises, and while Mr. Gribbin was working the windlass to bring Mr. Telford from the bottom of the excavation to the surface, his hands slipped and the crank instantly reversed at lightning speed, the handle striking Mr. Gribbin on the top of the head, almost stunning him. Mr. Gribbon, notwithstanding, pluckily threw himself on the revolving crank as it came around again and saved Mr. Telford from falling back to the bottom. With blood streaming down his face and racked by pain, Mr. Gribbin heroically stuck to his task and brought the bucket the remainder of the distance to the surface, but immediately afterwards fell over in a partial faint. On reviving he walked with Mr. Telford to Dr. Pigeon's office, where his wound was dressed. The crank had cut a gash in his crown five inches long. Several stitched were required to close the gap.

Successful Chemical Engine Test

Last night on the market square there was a large crowd assembled to witness a practical test of the working of the Carr Chemical Fire Engine, conducted by the travelling agents. A structure of packing cases, fourteen feet high and twelve feet long, was built, the boxes being filled in with fine wood, and the whole thoroughly saturated with coal oil. A lighted match was applied and in an instant the whole pile was a mass of waving flame. When the fire had taken hold on the wood and fairly started the little nozzle of the Carr Chemical Engine was turned on, and as fast as the light streams struck the blaze it went out, and in much less than a minute the flames were entirely subdued. A chief stated the successful completion of the test and only a pint of the chemical contents of the engine was used. The test showed plainly that this little giant is a most reliable and effective agent in subduing fires, especially at the beginning of a blaze—the first few minutes being the critical ones in case of fire. A house provided with one of these handy little machines—which, fully charged, weighs only 20 lbs, and can be carried under the arm almost as conveniently as an umbrella—is comparatively safe from fire when the occupants are about. The same remark applies to shops, factories etc. The agents will offer this machine for sale to our citizens and last night it was publicly offered that any one purchasing a machine, can build a fire and make a test for himself and if the machine cannot do what is guaranteed it can be returned and will be taken back.

Meetings of Civic Committees.

To-night there will be meetings of the Fire, Water and Light, and Street and Bridge Committees, and possibly of the Manufactories Committee.

Ten Days to Sober Up.

Francis Tully was so full yesterday that he mistook the police station for a public house, and there being no one around when he staggered in, he went into one of the cells and lay down for a rest. When the Chief came in he turned the lock in the door and Francis was a prisoner. This morning he was sent up for ten days.

Dragged Under a Waggon.

A despatch from Millbrook last night reads:—"On the return of the mail from Bowdley to-day the clip bolt of the shaft broke, and Mr. Atkins and Mr. Pengelly and miraculously escaped being badly hurt. They were dragged for some distance underneath the box of the waggon. Mr. Atkins was unconscious for a couple of hours, and is very badly bruised; Mr. Pengelly escaped serious injury."

Charlotte Street Methodist Church Notes.

A special meeting of the teachers and officers of the Charlotte street Methodist Sunday school will be held this evening, also the Executive Committee of the Epworth League of Christian Endeavor will meet this evening in the church to transact very important business.

The many friends of Rev. Mr. Shorey the former pastor of Charlotte street Methodist church will be pleased to learn that he will occupy the pulpit of Charlotte street Methodist church on Sabbath, 20th inst. and give an address on the Monday evening at the opening of the new school room.

The Car Works Buildings.

There seems to be an impression abroad that Paterson & Corbin do not intend to come to Peterborough, but there are no grounds for such an idea. Last Saturday closed the time for tendering for the excavation and stonework for the building to be constructed for them by the town, and the delay in awarding the contract is due to the fact that there were some matters of detail to be settled between Paterson & Corbin and the town committee. These have been arranged to mutual satisfaction, and very probably the committee will meet to-night, or at any rate, at an early date, to open the eleven tenders that have been put in, and to award the contract.

They are Coming Five Hundred Strong.

The third Provincial Convention of the Y. P. S.C.E. will meet in Peterborough on Oct. 21, and will continue until the 23rd. The meetings will be held in St. Paul's Presbyterian and George street Methodist churches. Many notable speakers will be present, including such prominent workers as J. W. Baer, Esq., General Secretary of the united Societies; Rev. Dr. Wells, one of the most eloquent orators in Canada, pastor of one of the largest Methodist churches in Montreal; Rev. Jas. Kines, of Kingston; Rev. J. A. R. Dickson, of Galt, well known in Western Canada; Rev. Wm. Paterson, of Toronto, the eloquent pastor of Cooke's church, H. W. Frost, of the China Inland Mission and many others. The billeting committee are very actively engaged in providing places for the delegates and have met with very gratifying success. This will undoubtedly be the greatest convention ever held in this town.

More Ladies Molested.

Another flagrant case of a lady being followed and indecently accosted is reported to the EXAMINER. This was on Water street in the neighborhood of the George street Methodist church, where other crimes of this kind have been committed. The villain in this case had heavy dark whiskers. It would seem that there could be devised some means of putting a stop to this sort of thing, but the parties insulted generally fail to report the matter to the police, and the latter having no description of the rascal or rascals, committing the outrage, have no basis for beginning work on the case. Something should certainly be done to detect these miscreants, and when convicted some deterrent imprisonment should be inflicted. A brief term of punishment does no good, something more drastic, so to speak, should be done. A few years ago in the city of London there was a mania for garroting and for a time no man was safe in the streets from being strangled and robbed. All remedies failed to stop the practice till the magistrates hit upon the idea of giving the robbers a sound flogging on the bare back, and garrotting was at once thrashed out of existence. Should the blackguards who are insulting and assaulting the ladies of the town who happen to be abroad unattended, on conviction sentenced to be strung on a triangle and to receive a dozen or two blows of the cat on their naked backs, the remedy would doubtless be found as effectual in their cases as it proved to be in London in destroying garrotting. Our criminal law may not provide for flogging in cases which are too frequent in Peterborough, but public sentiment would uphold the local authorities in inflicting the punishment in the cases named.

Pale, drooping girls, worn weary with a burden of disease almost greater than they can bear, should take heart and suffer no longer. Dr. Williams Pink Pills are a certain cure for all those diseases peculiar to womankind. They restore the blood, build anew the nerves, and leave happiness and health when used. Sold by dealers or sent on receipt of price (50c. a box) by addressing Dr. Williams Med. Co., Brockville, Ont. dw

News Nuggets.

—Every tissue of the body, every nerve, bone and muscle is made stronger and more healthy by taking Hood's Sarsaparilla.

—In order to make necessary repairs to the pumping station, the waterworks service will be shut down Sunday from 7 a.m. to 8 p.m.

Personal

Mr. Geo. A. Schofield is away on a trip to Chicago and St. Paul.

Miss Burns, of New York, is visiting her sister, Mrs. D. Dawe, Gilmour street.

Mr. John Batcher, orchestra leader, is in Rochester enjoying a week's holidays.

Mr. C. S. Wallis is visiting at "Merino," the home of his father, Mr. Jas. Wallis.

The Best Advertising.

The most efficient advertising in behalf of Hood's Sarsaparilla is that which comes from the medicine itself. That is, those who are cured by it, speak to friends suffering similarly, who in turn derive benefit and urge others to try this successful medicine. Thus the circle of its popularity is rapidly widening from this cause alone, and more are becoming enthusiastic in behalf of Hood's Sarsaparilla as it actually demonstrates its absolute merit. All that is asked for Hood's Sarsaparilla is that it be given a fair trial. If you need a good blood purifier, or building up medicine, try Hood's Sarsaparilla.

PUREST, STRONGEST, BEST.

Contains no Alum, Ammonia, Lime, Phosphates, or any Injurious

Two Genuine Harvest Excursions

Will be run from Chicago, Milwaukee, and other points on the lines of the Chicago & St. Paul Railway, to points in Western Minnesota, Northwestern Iowa, South and North Dakota, Nebraska, Kansas, Colorado, Utah, Wyoming and Montana, at cheap excursion rates, on August 25 and September 29, 1891.

Campbellford's Fire Alarm System.

The Great Northwestern Telegraph and Telephone Co. have received the contract for putting in the electric fire alarm system in Campbellford. The work is to completed in two weeks from the time the tender was accepted.

VERY NEW.

Kid Gloves, Clasps, Buttoned and Laced. A full range of shades. Frillings and Veilings, latest novelties.

d61-61 **H. S. GRIFFIN & CO.**

Sallow and leaden hued complexions soon give place to the loveliest pink and white, when the use of Ayer's Sarsaparilla is persisted in, and cosmetics entirely abandoned. Nothing can counterfeit the rosy glow of perfect health, which lies in those who use this medicine. dw

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Intense Suffering 8 Years

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

Hood's Sarsaparilla

Sold by all druggists. Price $1; six for $5. Prepared only by C. I. HOOD & Co., Apothecaries, Lowell, Mass.

REVEREND JOHN M'NEILL.

Remarkable Career of the Famous Divine.

His Moving Eloquence—His Early Training—Railway Experience Wonderful Success.

The name of Rev. John M'Neill stands among the foremost of the names of the most popular and powerful living preachers. Therefore no apology is needed in presenting to our readers a short sketch of his life, which will be read with all the more interest on account of his presence in Canada on a visit. He will preach in the Mutual street rink, the largest available auditorium in Toronto, on Sunday, and several of Peterborough people we are informed will go to the city to hear this great divine.

Rev. John McNeill, although still a young man, has won for himself a place among the pulpit orators of to day, his power being attested by the freely bestowed title of the "Scottish Spurgeon." No more striking instance of a man born for the ministry reaching his natural sphere in spite of unpropitious circumstances has ever been recorded.

He was born at Houston, a village in Renfrewshire, in 1854. His father was a native of the County of Antrim, but came of Scottish stock. He had crossed the channel before his marriage and settled in Houston, where he gained his living by working in the quarries. A hearty and strong man he was, uniting in his nature the strong religious convictions of the Covenanter with the wit and humor of the Celt—qualities which have been inherited and used with wonderful effect by his son, the present famous divine. His mother, whose maiden name was McTaggart, died in 1882, leaving to her large family the precious memory of a noble Christian life.

When John McNeill was twelve years of age his father removed to Inverkip to take a position as foreman in a quarry. The boy received an education at the village school, consisting of the ordinary English branches, together with the rudiments of Latin and French.

RAILWAY EXPERIENCE.

On leaving school he entered the employment of the Caledonian Railway Company, as gate boy at the Inverkip station. He became a porter, and once had a narrow escape while coupling cars. He still bears the mark of a crushed finger "nipped" between the buffers. After three years in that occupation he was promoted to the booking office in Greenock. While spending every Sabbath at home, and worshiping with the family in the Free Church at Inverkip, his mind was awakened to a conception of his spiritual condition. His conversion was not preceded by a course of open sin. He afterwards described himself as a "converted decent man—a kind bard to convert." He was nineteen years of age when, with the courage that has always been a characteristic of his nature, he stood up and testified to his conversion.

In 1875 he was promoted to the position of manager of the company's office in Edinburgh, and a few weeks afterwards he resigned his post and obtained a clerkship in the office of the North-British Railway. Since his conversion he had been in the habit of addressing religious meetings, and he now threw himself heartily into the work of the Young Men's Christian Association. Then it was that the power of moving audiences, that has since carried his name around the world began to be manifested, and he was advised by many friends to study for the ministry.

Following their advice he resigned his clerkship and entered the University in 1877. It was a bold step, but was approved of by his mother, who was during her life his fast friend and counsellor. In a conversation which is fresh in his memory she said, on being told of his resolve, "I have never told you, but I meant you for that before I saw your face."

He attended the arts classes in Edinburgh for three years, supporting himself by missionary work, and was married during the last year of his curriculum. His next step was to attend the University of Glasgow for one year, and afterwards the Free Church College for four years.

On receiving the Presbyterial licence to preach the Gospel he declined the ministry of the Barony Free Church, Glasgow, thinking the charge too great for so young a minister.

HIS FIRST PASTORATE.

In 1886 he accepted a call to a small congregation in one of the poor districts in Edinburgh. His success was phenomenal. The many odd sayings that made his audience smile, the deep pathos that brought tears to listeners eyes, the fervent earnestness that moved all to feel and think in sympathy with himself, drew crowds from far and near. The church was soon found too small, and services were held in a drill hall. Great crowds assembled every Sabbath to hear the words of the gifted preacher. All classes were represented in the gatherings, the non churchgoing element forming a fair proportion. As the fame of the eloquent divine spread, calls came to him from many quarters. The Free Church offered him the post of their evangelist for Scotland at a large salary. This he declined, partly because he thought Scotland could be evangelized to a greater extent from Edinburgh. The High Free Presbyterian congregation also gave him a call, which was declined. Another call came from London, from a church with a history. Regent Square Church was erected for a celebrated divine, Edward Irving, after the little chapel in Hatton Garden had become too small for his increasing congregation. It was afterwards the scene of the ministry of Dr. James Hamilton, and Dr. Oswald Dykes. Early in 1889 Dykes became principal in a Presbyterian training school, and just seventeen years from the time when John M'Neill, the village railway porter, punched tickets on an obscure northern line, he stood in the pulpit before a large expectant congregation, the pastor of the historic church of Regent's Square.

Mr. McNeill's forte in the pulpit seems to be the illumination and revivification of the Bible narratives. He makes them stand out in lines of life as if they were the events of yesterday, and had been an eye witness. He possesses that mysterious magnetism which gives a man power over his fellows; and he unites in his character the shrewdness and humor of the Scot with the emotionalism and generous impulse of the Irishman.

The life of Mr. McNeill's father was spared just long enough to enable him to rejoice in the growing distinction of the son. The father was a man of much force of character and of strong individuality, as well as of earnest Christianity. He died on June 21, 1889 in the pleasant village on the Frith of Clyde, where his son commenced his railway career.

—Every tissue of the body, every nerve, bone and muscle is made stronger and more healthy by taking Hood's Sarsaparilla.

Children Cry for Pitcher's Castoria.

Connectian of the Mind With the Body.

The brain is the connecting link between the mind and the body. All the organs of the body may be said to be the agents of the mind, inasmuch as the mind manifests itself through them all. The mind controls, to a certain extent, the operations of the various functions of the body, to which it gives a shape and form in correspondence with itself. We may regard the entire body as an assemblage of organs for the manifestation of mind. But the influence of the mind upon the body is reciprocated by that of the body upon the mind. If the body can be made to suffer from the condition of the mind, the mind itself is not less affected by the condition of the body.

A single illustration will suffice to show this fact. Melancholy or depression of spirits, from any cause whatever, will often produce disease or derangement of the liver; and, on the other hand, a derangement of the liver will almost always induce melancholy, though no other cause exists.

Unfortunately for men and women, they too often lose sight of the fact that to enjoy life perfectly, and live happily, they require to be properly balanced, the whole physical frame and its various organs must be healthy—in short they must possess a sound mind in a sound body.

This is rarely found in our midst at present. We see our friends or relatives either ailing in body or in mind. They overwork and over task, it may be, the bodily powers, this is certain to more or less affect the mind. Again, others do too much brain work, which is sure to affect both mind and body.

This careless, suicidal manner of living is fast showing its evil results in Canada. It is productive of extreme nervousness, exhaustion, sleeplessness, irritability, morbidness and paralysis. These are all serious and dangerous ailments, and demand prompt attention.

For the benefit of the thousands who are thus afflicted, science has prepared a special remedy, far out-reaching all the efforts of physicians. This great discovery is Paine's Celery Compound, a scientifically prepared food for both body and brain.

Experience and tests have firmly established its value as a strengthener and tonic for the nervous system. It builds up the broken down and weakened constitution, clears the brain, and gives activity to the mind. It is the only real and genuine vitalizer known to the medical profession, and has become the popular remedy with our Canadian people.

To sufferers who have not tried its wondrous and marvellous powers we would say, give it a trial at once, and we feel certain you will ever afterwards recommend it to others.

You cannot be too particular about the medicines you use. When you get a blood purifier, be sure that you get Ayer's Sarsaparilla, and no other. It will mingle with, purify, and vitalize every drop of blood in your body. It makes the weak strong.

A single scratch may cause a festering sore. Victoria Carbolic Salve rapidly heals cuts, wounds, burns and all sores. dw

What Say They?

In popularity increasing. In reliability the standard. In merits the first. In fact, the best remedy for all summer complaints, diarrhœa, dysentery, cramps, colic, cholera, infantum, etc., is Dr. Fowler's Extract of Wild Strawberry. All medicine dealers sell it.

Across the Continent.

Wm. Renwick, M.D., M.R.C.S.E., Victoria, B.C. writes: I have used Miller's Emulsion of Cod Liver Oil in cases of indigent patients with the most gratifying results. It does not upset the stomach, is easily assimilated and possesses undoubted power in rebuilding weakened constitutions, where the ordinary form of administering Cod Liver Oil is not admissable. For the future, whenever I have occasion to prescribe any preparation of Cod Liver Oil, I will give Miller's Emulsion the preference, being perfectly satisfied with its therapeutic efficacy. In big bottles, 50c. and $1—at Peterborough Drug Stores. dw

It can do no harm to try Freeman's Worm Powders if your child is ailing, feverish or fretful. dw

Regina Ripples.

"I took six bottles of Burdock Blood Bitters for liver complaint, headache and dull stupid feeling, but now I am entirely well and healthy, having also a good appetite which I did not have previously."—Mrs. T. Davis, Regina, N.W.T.

Could Scarcely See.

Mrs. John Martin, of Montague Bridge, P. E. I., writes:—"I was troubled last summer with very bad headaches and constipation and sometimes could scarcely see. One bottle of Burdock Blood Bitters made a complete cure of my case, and I wish you every success.

Purity of ingredients and accuracy of compounding, make Milburn's Aromatic Quinine Wine the criterion of excellence. dw

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Clinton Clippings.

"I had for years been troubled with dyspepsia and sick headache and found but little relief until I got Burdock Blood Bitters which made a perfect cure. It is the best medicine I ever used in my life."—Hattie Davis, Mary street, Clinton, Ont.

A Fact

WORTH knowing is that Hood's Sarsaparilla cures when all others fail. It is the one true blood purifier. Remember this fact. Be sure to get Hood's Sarsaparilla. Remember the name and the fact that Hood's Sarsaparilla cures when all others fail

St. John's Young Men's Bible Class.

As was announced in St. John's last Sunday evening, the two Bible Classes in connection with the church will meet again after the summer vacation next Sunday. Rev C. B. Kenrick has taken for his subject in the young men's class during the present session, "The great characters of the Old Testament." In other words, each Sunday the life of one of the great men of Hebrew history, such as Abraham, Moses, Joshua, etc., will be taken up. The consideration of the lives of individuals is certainly the most attractive way of studying history and its lessons, and the young men of St. John's should make a point of attending this class.

Weddings at Norwood.

Tuesday afternoon the residence of Reeve Finley, says the Norwood *Register*, was the scene of an interesting social event. The Rev. J. Carmichael, M.A., assisted by the Rev. John McEwen, of Lakefield, united in marriage Mr. Albert J. H. Fitzgerald, hardware merchant of this place, and Miss Charlotte A. Finlay, daughter of J. Finlay, Esq., Reeve of Norwood. Mr. Walter Fitzgerald, of Smith, and Mr. A Finlay, brother of the bride acted as groomsmen, while the bride was supported by four bridesmaids—Miss Fitzgerald, of Smith; Miss Olive Graham, of Lakefield; and Misses E. and B. Finlay, of Norwood. The bride was beautifully attired in cream cashmere. There were a large number of wedding guests present to participate in the enjoyment of the occasion, to admire the beautiful and varied array of handsome bridal presents, and partake of the elaborate and sumptuous wedding repast provided and the social festivities that succeeded. The happy couple left on the 5 p.m. express on a wedding tour and will visit Toronto, Niagara Falls, and Buffalo.

The R. C. Church, at Norwood, was the scene of a very pleasant matrimonial event, *on Tuesday morning*. Mr. John O'Grady, of Otonabee, was united in the bonds of holy matrimony to Miss Elizabeth A. O'Shea, daughter of Thos. O'Shea, Esq., of Asphodel. The ceremony was performed by the Rev. Father Conway, and the young couple have the best wishes of a large circle of friends for their future prosperity.

Children Cry for Pitcher's Castoria.

Hymeneal.

Details of the Wedding of Miss Trayes of Port Hope and Mr. Painchand of Montreal.

The following account of the wedding of Miss Trayes daughter of Mr. J. B. Trayes, editor of the Port Hope *Times* is taken from the Montreal *Witness*." Port Hope society has been interested this week in the marriage of Mr. J. Endore Painchand, a young merchant of this city, to Miss Agnes E. Trayes, daughter of Mr. J. B Trayes, editor of the Port Hope *Times*. The ceremony was celebrated in that city on Tuesday, in the presence of the relatives of the bride and groom, the Rev. Mr. Lynch officiating. Miss E.m Gendrie, cousin of the bride, *initified* in a most charming manner the duties of bridesmaid, and the groom was supported by his cousin, Mr. E. M. Seymour, of Rochester, N. Y. The bride's brilliant beauty was increased by her rich and elegant costume—a gown of pearl blue Henrietta cloth and satin brocade. She carried a magnificent bouquet of white roses, the gift of the groom's mother. The bridesmaid, Miss Gendrie, wore a pretty costume of blue silk and also carried a superb bouquet. Mrs. J. B. Trayes, mother of the bride, wore a becoming costume of grey silk and black lace; Mrs. John Trayes, grandmother of the bride, was attired in black silk, Mrs. Painchand, the groom's aunt, wore a costume of rich black lace. The costumes of the other guests were handsome and appropriate to the occasion. After the ceremony the party returned to the residence of the bride's father, where the bridal banquet was partaken of, during the course of which many congratulatory speeches were made. At eight o'clock the happy young couple repaired to the depot, where a large number of friends had assembled to bid them farewell. They took the west-bound train for Buffalo, and will spend their honeymoon on a short American tour. Amongst the bridal gifts, which were all valuable and elegant, was an elaborate cabinet of silver, presented by the Montreal associates of the groom."

Y. M. C. A. Notes.

The junior branch resumed their meetings last evening. The attendance was fair. We purpose taking up the history of the Bible and its contents, which we are satisfied will be of great value to the lads in their future life, for it will strengthen and establish them.

Young men's rally to-night from 8 to 9 p. m. Topic, "I guess I am all right"—objections to being a Christian. Mr. Arthur Jolly will lead the meeting. All welcome.

Bible study and consecration service Sabbath morning at 9:15. Topic, S.S. lesson—"Christ and the Blind"—Jno. ix 1 11 35-38.

Open air service (D.V.) in Central Park at 4.15. Gospel address by Mr. J. C. Turnbull. Singing led by the Y. M. C. A. band.

Gospel and song service Sabbath evening at 8.30. Address by Rev. E. F. Torrance. Public invited.

We tender our sincere thanks to Misses Laundreville and Green for cat flowers for our parlour.

Bible study for young men men on Tuesday evening at 8 p m. All welcome.

Two Genuine Harvest Excursions

Will be run from Chicago, Milwaukee, and other points on the lines of the Chicago & St. Paul Railway, to points in Western Minnesota, Northwestern Iowa, South and North Dakota, Nebraska, Kansas, Colorado, Utah, Wyoming and Montana, at cheap excursion rates, on August 25 and September 29, 1891.

For further particulars apply to the nearest coupon ticket agent, or address

A. J. TAYLOR,
C. P. Agent, Toronto, Ont., or

First rehearsal next Tuesday evening in the "Y" hall George st. over Craig's confectionery store, at 8 p.m. Those wishing to take part are requested to be present.

J. H. KETCHUM.

VERY NEW.

Kid Gloves, Clasps, Buttoned and Laced. A full range of shades. Frillings and Veilings, latest novelties.

d61-61 **H. S. GRIFFIN & CO.**

Eniusmores Annual Outing.

This is a reminder of the fact that the annual Eniusmore picnic, under the management of Rev. Father O'Connell, will take place in Tara Grove, Eniusmore, on Sept. 15th. Don't forget the date, or let any minor matter prevent you having a great day's enjoyment.

Another Industry in View.

Several committees met at the town chambers last night and nearly all the councillors were present. Taking advantage of this a deputation of Montreal gentlemen waited on the civic representatives with proposals for the establishment of a new industry here. Terms and conditions were talked over, but no conditions arrived at for this present.

The Best Advertising

The most eminent advertising in behalf of Hood's Sarsaparilla is that which comes from the medicine itself. That is, those who are cured by it, speak to friends suffering similarly, who in turn derive benefit and urge others to try this successful medicine. Into the circle of its popularity is rapidly extending from this cause alone, and more are becoming enthusiastic in behalf of Hood's Sarsaparilla as it actually demonstrates its absolute merit. All that is asked for Hood's Sarsaparilla is that it be given a fair trial. If you need a good blood purifier, or building up medicine, try Hood's Sarsaparilla.

A Flourishing Lodge.

The members of Carswell Lodge, No. 312, I.O.G.T., held their regular meeting on Friday evening last, and a very pleasant time was spent. Three new members were initiated, and after recess the members of Ashburnham Lodge, Ashburnham, paid the lodge a fraternal visit. An excellent programme was gone through with, which was amusing and profitable. Carswell lodge is now in a very thriving condition, new members being added almost every meeting night. An open lodge will be held on Friday evening, Sept. 25th, in their lodge room, when an excellent evening's enjoyment is expected. Good programme; first class refreshments. Silver collection. Everybody come.

Bank Changes.

The death of Mr. J. L. Gower, manager of the Bank of Toronto branch at Peterborough, says the Cobourg *Sentinel-Star*, has caused quite a shuffle in the various branches throughout the province. Mr. Campbell, manager of the Petrolia branch, will take charge of the Peterborough office, Mr. Attwood accountant in the Montreal branch, succeeding to the management of the Petrolia branch, while Mr. J. Stewart Skeaff, accountant of the Port Hope branch, has been moved up to the same position in the Montreal branch. The following changes have been made in the managing staff of the Bank of Toronto. W. R. Wadsworth, manager at London, removed to Toronto; T. F. Bow, manager at Brockville, removed to London; John Pringle, manager at Ganaque, removed to Brockville; Peter Campbell, manager at Petrolia, removed to Peterborough; C. A. Attwood, accountant at Montreal, removed to Petrolia as manager; J. Godfrey Bird, inspectors' staff, Toronto, removed to Gananoque as manager.

A Magnificent Music Emporium.

Messrs Crosby & Turner's New Establishment.

Progress is the order of the day, and the *crescendo* movement in leading Messrs. Crosby & Turner to their splendid new music store, 404 George street. They have leased these centrally situated premises, which are one door north of Mr. H. S. McDonald's drug store. The whole three stories have been leased and are being fitted up for the use of the firm in a beautiful manner and in a manner the best adapted for their business. An hydraulic elevator has been placed for carrying pianos to the second floor when required. The basement is devoted to the storing of packing cases, and the first floor will constitute a most elegant warerooom for pianos and organs. One side of the shop will be given over to the smaller musical instruments, and

MUSICAL GOODS DEPARTMENT

of the business, such as violins, guitars, flutes, sheet music, music books, etc. In fact every kind of musical instrument required, from a Jew's harp to a grand piano, can be procured in the establishment.

The second floor is fitted up elegantly as a music hall for rental to choral societies, and other musical organizations, desiring a good place to practise in. The fine feature of this room will be that the use of the best of pianos can be had, as any piano desired can be sent up the elevators from the warerooms in a few minutes. This hall is well lighted and easily accessible, and will be a great convenience for society or choral singing, or for select concerts, or organ recitals. The hall is already engaged for one night by Mr. J. H. Kitchum. It will be seated with orchestra chairs, for the accommodation of about 150 persons, or more, on special occasions.

The third floor will be devoted to the repairing of instruments, and the tuning of pianos, the latter being sent up the elevator, and tuned of hearing of customers in the warerooms, or musicians practising or singing in the music hall.

Altogether the new music premises of Messrs. Crosby & Turner are the most complete of the kind outside of Toronto, and will be a great convenience to the public and will enlarge the large business which has been worked up by Mr. Crosby, the senior partner of the firm, during his six years' business career in Peterborough. He has been fifteen years in the business, and has gained a wide reputation for square, honest dealing, and he represent the best makers of pianos and organs and musical instruments in the Dominion. Within the past six years he has sold in this district over 600 organs and 200 pianos, and in every case he has given satisfaction, both in the quality of his goods and the honorable liberality of his dealings. The new premises will be occupied in about a week, which the EXAMINER hopes will mark the beginning of a new era of prosperity in the already prosperous career of Messrs. Crosby & Co., 404 George street, Peterborough.

The Y. M. C. A. Will Move

Into new Quarters—They Can't Wait Until Their new Building is Finished.

Acute congestion of available space has determined the directors of the Y. M. C. A. to take prompt steps towards relieving the plethora, and while the new building is under contemplation the need of more room and improved conveniences became so urgent that it was decided to seek more commodious temporary premises at once. The new building will not be begun before next spring as the earliest, and as a year or more would be required to fit it for occupation it was deemed undesirable to remain so long in the present quarters, where the association's operations are greatly hampered by lack of space and accommodation. So a lease of three years has been entered into with Mr. Geo. A. Cox for the rooms on the east side of George street, opposite the Golden Lion, and over the store of Geo. W. Wyatt, the Port Hope Knitting works and C. O. Rowse's old stand. A splendid suite of ten rooms will be fitted up for the lessees. The EXAMINER was shown through the premises and the proposed changes pointed out by Mr. Colville the indefatigable secretary.

Ascending the stairway next Long's Confectionery store, the new Y.M.C.A. rooms will be at the right hand on the first and second floors. There will be a commodious office and reception room, a reading room fronting on George street, and in the rear a boy's room fitted up with tub and shower baths, closets, etc. Passing on through the general office a hallway is reached, on the left hand of which will be the main hall, 50x25 feet and open to the roof. Folding doors may be opened, merging the hall and parlor in front into one great room about 75 feet long and capable of seating about 400 people. The above-mentioned parlor will be a capacious room and nicely furnished.

Overhead will be a gymnasium, band hall and kitchen. The "gym" is a large room and will be supplied with the best apparatus. The premises will be lighted with incandescent lamps.

The new quarters will be more central, more commodious and in every way more suited to association work.

They are expected to be ready for occupation early in November. Work is already proceeding on the alterations.

St. John's Harvest Social.

The annual harvest festival of St. John's will be held some day next week, to be announced later. On that occasion Rev. W. H. French, of Omemee, will preach the sermon.

Exhibition Tents.

Messrs. J. J. Turner & Son have received orders for two large tents—one for the Central Exhibition here and one for the Lindsay Central. They have also received enquiries for large tents from the secretary of the Western Fair, London, Ont.

Another Steam Laundry.

A new steam laundry company is being organized in Peterborough, and it is expected that operations will be begun in about two weeks. The new laundry will be known as the Excelsior Steam Laundry. It will be centrally situated and equipped with the most modern improved machinery, and managed by competent and experienced men. The now company will make their formal announcement later.

Toronto Bicyclists.

The Toronto *Mail* says:—The Wanderers will have their last long trip of the season, commencing to-day, the destination being Chemong lake, near Peterborough. The trip to Peterborough will be made by C. P. R., leaving the Union station at 5 15 and 5.45 p. m., thence by wheel to the lake. The return will be made early Monday morning, and it is expected that many members will take advantage of the trip.

Not a Desirable Citizen.

David Brown, the old, battered ex-bookkeeper, who has figured in police court circles before this, was before the magistrate this morning on a charge of vagrancy. David said he had no money, but he had numerous promises of work. The magistrate remarked that must leave town, work or no work, and the prisoner was discharged with the warning that if he remained here after to-day he must abide by the consequences.

News Nuggets.

—Cobourg's rate of taxation is 1½ mills.

—Mr. "Tuck" Mein met with his second accident at the Edison Works yesterday. His hand was caught in the machinery and badly injured.

—Mr. W. H. McElwain has been awarded the contract for the erection of the new "contagious diseases" addition to the Nicholls Hospital, a description of which appeared in the EXAMINER a few weeks ago. The annex will cost about $2,500, and will be finished Oct. 15th. Mr. Adam Hall has the contract for the plumbing and heating.

Personal.

The EXAMINER saw a telegram to-day to Mr. J. W. Fitzgerald, of this town, from Lincoln, Nebraska, announcing that the Hon. John Fitzgerald, of that city, president of the Irish National League in America, is recovering from his late serious illness.

Pale, drooping girls, worn weary with a burden of disease almost greater than they can bear, should take heart and suffer no longer. Dr. Williams Pink Pills are a certain cure for all those diseases peculiar to womankind. They restore the blood, build anew the nerves, and leave happiness and health when used. Sold by dealers or sent on receipt of price (50c. a box) by addressing Dr. Williams Med. Co., Brockville, Ont. dw

Rev. John McNeill.

The Great London Divine Visits Camp bellford.

Campbellford has been favored with a visit from this well known divine, who came here to make a short stay with his brother-in-law, the Rev. Mr. Scott, pastor of the Presbyterian church.

Mr. McNeill is one of the most powerful preachers in England, and has been instrumental in doing much for the furtherance of true religion during his short ministerial career. He began his ministry in Edinburgh only some six years ago, and moved to London in 1889 to fill the pulpit of Regent Square Presbyterian church.

During his visit here, Rev. Mr. Scott induced Mr. McNeill to preach for him, and the reverend gentleman occupied the pulpit four times, twice on Friday last, and morning and evening of Sunday. After the first sermon, hundreds of persons flocked to hear him, and the gatherings on Sunday packed the church to its utmost capacity, many having to sit in the aisles and stand at the doors. Mr. McNeill, who is known as the Scotch Spurgeon, has wonderful power in preaching. He presents his subject so clearly and plainly in a practical way that all may readily understand its meaning and be benefitted by what it teaches. He is fresh, original and practical, and intersperses his sermon with many witty remarks which call forth ripples of laughter. He is an easy speaker with a clear Scottish accent, has a pleasant manner and easy style of delivery. In preaching to the sinner he calls him the Bible truth without fear or favor, striking very hard sometimes, and in his denunciation of man's sinful course he grows warm and bursts it forth with great emotion. His sermons delighted his hearers.

Mr McNeil will preach in Montreal this evening, then he goes to Northfield, where Mr. Moody is at work, thence to New York to preach there the last Sunday in this month, and will afterwards take the first steamer for his return to England.—*Campbellford Herald, Sept. 10th.*

Church Chimes.

ST. PETER'S CATHEDRAL.—At St. Peter's Cathedral, Roman Catholic, there will be two masses celebrated, the first at 8 a.m., the second at 10:30 a.m. Vespers at 7 p.m.

All seats free and strangers are welcome. The annual harvest festival takes place on Thursday next at 8 p.m. The Rev. Edwin Daniel, Rector of St. John's, Port Hope, will be the preacher.

The use of calomel for derangements of the liver has ruined many a fine constitution. Those who, for similar troubles, have tried Ayer's Pills testify to their efficacy in thoroughly remedying the malady, without injury to the system.

A COIN NEARLY 1,800 YEARS OLD.

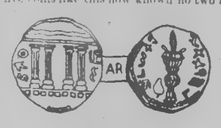
It has Shekel Struck by the Hebrews to Commemorate a Victory.

There is in New York a relic of the days when the Hebrews were oppressed in Palestine by the Romans. It is a shekel struck in the year 131 A. D., nearly 1,800 years ago in honor of the taking of Jerusalem and other places from the Romans by the Hebrews under the leader Simon Bar-Cochebas, who was then proclaimed ruler of the Hebrews.

The New York Coin and Stamp Company is the owner of this interesting antiquity. Manager Proskey interpreted its curious characters and symbols to a World reporter.

"On the obverse," he said, "is a conventional representation of the beautiful gate of Solomon's temple. It is, perhaps, the only picture of that edifice extant. The Hebrew characters signify Simon Simeon. Above as a star, alluding to Simon's surname, Bar-Cochebas, or Chebab, which signifies 'the son of a star.'

"The reverse bears the inscription, 'Second year of the deliverance of Israel.' The two emblems are the ethrog and lulab. The ethrog is a species of citron. The lulab, or bunch of palm branches, in olden times was used in the temple, in the house of prayer and in the Hallel psalms were recited, and was seldom out of people's hands in the days time. About the base of the lulab is a basket. It is the golden basket with which wealthy Israelites used to adorn their lulabs and also rich church goers now ornament their prayer books. Of the four or five coins like this now known no two are



THE SHEKEL.

exactly alike. Perhaps a separate die was used for each. No satisfactory explanation of the fact has yet been offered. This shekel was the last coin struck by the Hebrews as a nation."

On looking at the shekel closely a series of half effaced devices were found.

"That's another chapter of the coin's history," Mr. Proskey said. "These coins were struck to carry the news of victory. Here is a proof of the fact. Under the palm branches and Hebrew letters you will find the device of Antioch plainly outlined. The Israelites evidently had the money in their possession, but resolved it to spread the news. It was really the first type of the newspaper, bearing the tidings of victory and deliverance to the oppressed."

Vision Preserving Rules.

(1) Do not allow light to fall upon the face of a sleeping infant.

(2) Do not allow babies to gaze at a bright light.

(3) Do not send children to school before the age of 10.

(4) Do not allow children to keep their eyes too long on a near object at any one time.

(5) Do not allow them to study much by artificial light.

(6) Do not allow them to use books with small type.

(7) Do not allow boys to read in a railway carriage.

(8) Do not allow boys to smoke tobacco, especially cigarettes.

(9) Do not necessarily ascribe headaches to indigestion, the eyes may be the exciting cause.

(10) Do not allow the itinerant spectacle vender to prescribe glasses. Dr. L. Webster Fox, in Franklin Institute Journal.

E. W. GILLETT, Toronto.

Won by McAuliffe in Five Rounds at Hoboken, New Jersey.

HOBOKEN, N. J., Sept. 12.—There was a great throng at the Granite Association hall here last night, to witness the battle for lightweight championship of the world between Jack McAuliffe and Austin Gibbons.

The tickets were sold at $5 and $10 each, by half past 8 every five dollar seat was occupied.

A stampede was then made on the $10 seats and every one was taken long before the men entered the ring. The hall has a seating capacity of 4000—3000 people were shut out entirely. Many prominent sporting men were present from all the leading cities, but hundreds of sporting men who came from distant cities could not get in at all. The betting was rather spirited during the evening but it was in small amounts. The only big offer made was $1000 to $800 by Jimmy Wakeley but it went without a token. Steve Brodie bet $1000 to $800 on McAuliffe and it was taken by Jim Gibbons. Bets of $500 to $400 were frequent. Jim Gibbons bet every dollar he had on his brother. The small betting continued until nearly all the money in the building was in hands of stockholders.

McAuliffe was a favorite and it is estimated $30,000 changed hands on the result. There was no betting after the fight commenced, because McAuliffe showed great superiority over his opponent.

After the fight Jim Gibbons said: "It is not an outrage that this fight was stopped and McAuliffe given the decision," Austin then said: "It is a dirty deal I have only got one little cut over my left eye and am as strong as a bull and can stay there 40 more rounds if necessary." He did look as though he could stand 10 times the punishment he got.

Police Capt. Hayes stated that he stopped the fight because it was brutal as both men were bleeding freely. It was a great disappointment for the spectators, but the sore spot was paying the money at stake on the decision of the referee when a finish fight was called for.

THE FIGHT IN DETAIL.

McAuliffe weighed 135 pounds, Gibbons 130½. McAuliffe looked in best condition. There was a large attendance, including all the well-known sporting men in the vicinity. Jer Dunn was referee and Honest John Kelly timekeeper. The men entered the ring at 9.15 p.m.

First round.—McAuliff did the rushing but was met with several good counters on the jaw. Honors were about even.

Second round—McAuliffe drew first blood by a cut under Gibbons' left eye. McAuliffe had the best of the round.

Third round—McAuliffe was still doing the leading, but not as effective as before.

Fourth round—McAuliffe had the best of this round, Gibbons bleedly freely from the left eye.

Fifth round McAuliffe got in two solid right handers on his opponent's jaw, but was met with two facers from Gibbons, who appeared to be slightly dazed.

The police interfered and stopped the fight in the sixth round. Much excitement. The referee decided in favor of McAuliffe, Gibbons and his friends protested strenuously.

BRADSTREETS WEEKLY.

A Satisfactory Report on Trade, Prices and Collections.

NEW YORK, Sept. 12. Special telegrams to Bradstreet from the larger western and northwestern commercial centres, which have been reporting an enlargement of that volume of general trade within a fortnight or so indicate that the previously noted activity in demand for staple dry goods, foot-wear, hats; clothing, general produce, and fruit continues. Prices naturally are fairly well maintained.

General trade appears rather more satisfactory in Ontario than in the province of Quebec, with the volume in excess of that in like periods in previous years. Prices steady and collections more prompt. With the revival of Autumn trading throughout the Dominion a more general distribution of improvement in trade circles is expected. The Dominion reports 23 business failures this week, against 17 last week, and 22 this week last year. The total number, January 1 to date is 1,244, against 1,127 last year.

An Actor Arrested.

SAN FRANCISCO, Cal., Sept 12. Late last night officers at the southern police station were startled by a pistol shot just outside of the door. Running out they found Officer Grant lying dead on the pavement with a bullet hole in his head. A man was seen running away, and on being stopped Grant's handcuffs were found on his wrists. A discharged pistol was found on the pavement near the dead body. The man gave his name as Maurice Curtiss. He is in fact M. B. Curtiss, well known in theatrical circles as "Samuel of Posen." Curtiss had come over to this city from his home in Berkeley, and had been drinking all the evening with his theatrical friends. Why Grant arrested him is not known but it is supposed that the actor was creating a disturbance.

Hood's Sarsaparilla

Is a concentrated extract of Sarsaparilla, Yellow Dock, Pipsissewa, Juniper Berries, Mandrake, Dandelion, and other valuable vegetable remedies, prepared from the purest, strictly pure, and the best that it is possible to buy.

Scratched 28 Years

A Scaly, Itching, Skin Disease With Endless Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me $200.00 and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body, and got under my nails. The scales would drop off of me all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear as a baby's. All I used of them was $5 worth. If you had been here and said you would have cured me for $200.00, you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

DENNIS DOWNING, Waterbury, Vt.

Cuticura Resolvent

The new Blood and Skin Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), instantly an speedily cure every species of itching, burning, scaly, crusted, pimply, scrofulous, and hereditary diseases and humors of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scrofula.

FATAL G.T.R. ACCIDENT.

CATTLE DERAIL A FREIGHT AND THE FIREMAN IS KILLED.

The Niagara Falls Victims Still Unidentified. 29 Buildings are Burned Through a Quebec Anarchist Firing His Dwelling Missed the Cat and shot Himself.

Brighton, Ont., Sept. 14.—A narrow escape from a fatal accident was had here this morning. Just as the 6.30 express was passing about 9 o'clock on the Grand Trunk, which by-the-bye is being double tracked, a freight train broke in two, and started to follow him, and ran into the rear coach. Mr. Harrington drew a small 22 rifle to shoot. In passing the weapon from his pocket it was accidentally discharged. The bullet entering his leg, caused the wound from which he died. He was taken to the station and Mr. Harrington started for home, accompanied by Mr. Hall, who had been a fellow-traveller.

Champion Oarsmen in B. A.

New Westminster, B.C., Sept. 14.—Hanlan and O'Connor arrived here yesterday morning feeling well and both in good condition. Both took a long spin on the river in the afternoon. They are pleased with their quarters, course and arrangements for the great race on 24th inst. Dunn and Stephenson, Australian champions, arrive to-morrow. General opinion here is that the race will be a grand struggle.

Serious Scaffold Accident.

New Haven, Conn., Sept. 14.—While George H. M. Millard, Electrician to company with an assistant was engaged on a small platform putting the finishing work of the Hotel Hoadley, took a step on the platform to give way, and he fell to the pavement below, striking on his head. Mr. Millard broke his right arm and leg, and was also severely injured internally.

A Fatal Threshing Accident.

Ottawa, Sept. 14.—A young married farm hand named John Paul was engaged with others in attending a threshing machine at work about the Rideau ranges, when his left hand was caught in a cog wheel and his arm was drawn in almost completely off. Mortification afterwards set in and the young man died.

Cheese Factory Burned.

Dutton, Ont., Sept. 14.—Saturday night the George R. Gregg cheese factory, containing about $300 worth of cheese, was destroyed by fire. The loss on building and plant is $1000, insured for $700. The loss on cheese is insured for $1000. The cause of the fire is supposed to have been incendiary.

Bodies Found in the Cabin.

Halifax, N. S., Sept. 14.—A report received in the city last night states that the Yarmouth schooner Georgiana which was towed into Port Latour on Harbor capsized, has been righted and the dead bodies of four of the crew were found in the cabin.

Our High Commissioner.

London, Sept. 14.—Sir Charles Tupper says that the political reports of his intention to visit Canada immediately are a pure speculation. He has heard nothing from Ottawa on the subject. Of course the Government is under a pledge to renew the Washington negotiations on October 12. Sir Charles says his attendance might be desired in connection therewith but no intimation to that effect has yet been received.

ALMOST LYNCHED

Because He Kindled the Fire That Burned 29 Buildings.

Quebec, Sept. 14.—About 3 o'clock yesterday the looke out in the city tower observed a fire on Upper Ontario, 786 Cote-des-Neiges, running down towards the Cap Blanc. The Paris fire brigade, with its capacity for 20 hose and a Roman Catholic church were soon on the scene. The fire was extinguished, however, after 29 houses and sheds were destroyed. An attempted mob procured a rope, capturing Ouliett, were about to lynch him when the police with great difficulty rescued him and lodged him in prison.

A Wild Wildcat Shot.

Wiarton, Sept. 14.—M. E. Harrington was walking home from Hopewell along the county line lately when he met a wild cat. After passing the animal turned and started to follow him, and a fight ensued. Mr. Harrington drew a small 22 rifle to shoot. In passing the weapon from his pocket it was accidentally discharged, the bullet entering his leg, causing the wound from which he died. He was taken to the station and Mr. Harrington started for home, accompanied by Mr. Hall, who had been a fellow-traveller.

WAITING FOR THE WORD

THAT WILL KINDLE UNIVERSAL WAR IN EUROPE.

Germany's Kaiser Expects It, and Warns the Country to be Prepared for Trouble at any Moment—Suggestion of a Probable European Compact.

Berlin, Sept. 14.—There was a parade of all the troops stationed in the Cassel district yesterday which afforded a brilliant spectacle. The Emperor and Empress, King of Saxony, the Grand Duke of Hesse, Grand Duke of Saxe Weimar, the Duke of Meinburg, Prince and Princess Henry of Prussia, Prince Albrecht and others of high rank were present at the ceremony. Emperor William will now go to Erfurt, where he will review the Fourth army corps.

Some of the phrases used by His Majesty in his speech at the banquet at Cassel have added to the uneasiness which now prevails throughout the country. He recalled the time when, as a staff officer, he entered Cassel in 1871 with the victorious Hessian troops. He trusted, he said, that the Hessians in the event of foreign struggles would help him to fulfil his duty. Coming so soon after the allusions made at Munich to the future triumphs of the Bavarian troops, His Majesty's utterances at Cassel is felt to be a veiled menace to foreign enemies and as a warning for the country to courageously prepare for trouble. Still, the conviction remains unshaken in official circles that a prolonged period of diplomatic intrigue will precede a collision of the powers.

The leading political development of the week have been the practical adhesion of the Italian Prime Minister, the Marquis di Rundi, the policy of Lord Salisbury, the English premier. The Sultan of Turkey's new bias in the direction of favoring Russia, as instanced in the Dardanelles affair, will now have to bear the weight of the counter influence of Austria and Italy, and probably Germany, for it is stated that Herr von Radowitz, the German ambassador to the Porte, at an audience with the Sultan on Wednesday last, urged that a favorable hearing be given to the view of Great Britain and that through his representations, Sir William White, the British ambassador to Turkey, was given an audience by the Sultan yesterday. The gravity of the situation is indicated by the summons calling the envoys of the Porte at Vienna, Berlin, St. Petersburg and London to Constantinople. The French Ambassador, the Count of Montebello, who was on the eve of presenting his letters of recall to the Sultan, has been instructed by his government to remain at his post in order to prevent the Sultan, under the pressure of other diplomats, from weakening and breaking his resolutions.

The latest intelligence from Constantinople indicates the success of Franco-Russian diplomacy in Turkey. The Sultan has offered a place in the Ministry to Chakir Pacha, a declared partisan of Russian alliance, and known to be a foe of England and the dreibund.

The foreign office here regards England's relations with complacency. Lord Salisbury's exhortations for diplomatic and moral England into closer union with the triple alliance and thus tends in the direction of bringing about a formal compact between England and Germany, Austria and Italy. Hitherto Lord Salisbury has rejected all overtures looking to England's becoming a party to the dreibund compact.

Munich, Sept. 14.—Emperor William of Germany has conveyed very clearly in high Bavarian quarters his impression that war is to be expected and that all Germany should be prepared. At the same time he appeared to have no apprehension as to the result. In addition to notifying the reserves the German Government has ordered a careful inspection of horses subject to call for use in the army, and the order is being carried out everywhere. In fact, the whole empire seems on the watch, waiting for the word to be given.

A Berlin despatch states that communications have passed between the German and Swedish Courts relative to the attitude of Sweden in the event of a European war. The last half hour to attend the Swedes to the Triple Alliance is the prospect of recovering Finland.

A FRONTIER CONFLICT

Reported to Have Taken Place Between Afghans and Russians.

Vienna, Sept. 14.—Rumors have reached Vienna that conflicts have recently occurred on the Afghan frontier between Russian and Afghan troops.

[illegible] have some foundation, as [illegible] was known that when it is remembered [illegible] despatch from Cabul on Monday stated that General Alikhanoff had been ordered to the capital of Afghanistan. He is charged with being a spy in the employ of the Russian government.

General Alikhanoff, or, to give him his full name, General Alikhanoff Avarsky, was captured while disguised as a Mussulman devotee. It is claimed on his behalf that he is no longer in the employ of the Russian Government, and he was recently dismissed from the military post which he held in the Czar's service.

It is probable that stern measures will be taken by the Ameer of Afghanistan in the case of this important prisoner, who is considered by the British authorities to be one of the most daring, astute and dangerous men in the Russian service.

Alikhanoff worked up the sentiment which finally led to the annexation of Merv by Russia. The Russian general may have been at his old tricks again and by advice probably.

The present Ameer of Afghanistan is subsidized by the British Government, and there is also a British resident as his capital, Cabul, which is said to have been strongly fortified of recent years under the supervision of British officers.

A New Wrinkle in Getting War News.

Paris, Sept. 14.—An interesting telegraph [illegible] has been [illegible] made in connection with the [illegible] between the French and Italian [illegible] frontier. M. Willet, inspector of posts and telegraphs, recently presented to M. de Selves, director-general of posts, a large wagon of his own invention. The wagon is lightly but strongly constructed, and is fully equipped with the electrical and mechanical appliances of both the Morse and Hughes systems of telegraphy.

Mr. De Selves ordered this traveling telegraph office to accompany the army in its march, and directed the telegraph employes along the route to contribute in every way possible to the success of the proposed experiment.

The wagon moves with the supply and ammunition trains immediately behind the van guard of the army. By the employment of magnetic battery [illegible] and the [illegible] and ingenious method of detecting [illegible] from the nearest telegraph station on the battle-ing field [illegible] the new system of the marching troops can be kept in constant touch with the outside [illegible]

[illegible] of the Paris press and [illegible] which made it possible for them to communicate with their papers direct from the scene of operations.

Mrs. Germain Killed by Zulus.

London, Sept. 14.—The Berliner Tage blatt [illegible] publishes a despatch from Zanzibar, stating that Capt. Zelewsky's corps had a desperate fight with a large body of natives, and that the Germans were victorious. According to this despatch the battle referred to took place during the month of August and some distance in the interior. The natives who made the attack, were repulsed with heavy loss. During the engagement the Germans were killed, and many of the native allies of the Germans lost their lives.

The Bavarian Army.

Munich, Sept. 14.—At the close of the Bavarian manoeuvres yesterday Emperor William congratulated the regent, Prince Liutpold, upon the efficiency of the army, saying he was convinced the Bavarian army was capable of meeting any emergency, and that it would prove equal to its task at Weissenburg and Sedan.

General Mobilization of the Army.

London, Sept. 14.—A St. Petersburg despatch says preparations are being made for a two-year general mobilization of all forces in April, 1893.

Children Cry for Pitcher's Castoria.

A CHINAMAN'S TRICK.

One That Was Dark but Which Was Not in Vain.

Washington, Sept. 13.—It is learned at the office of the Commissioner of Internal Revenue that Wong Gee On, the Chinaman who has been released from custody at San Francisco after confessing to forging Revenue Officer Thomas' name to revenue labels, was promised immunity and induced to confess because it was believed that he would implicate others in his crime. The surprise was therefore very great when it was found that his confession implicated no one but himself. The confession was made to the Collector of Customs and two other persons connected with the Government, and although the District Attorney was not present it is presumed that he considered himself bound by the promise of immunity held out by the others, and accordingly gave his assent to the release of the prisoner.

Torn Limb from Limb by Sharks.

San Francisco, Sept. 14.—The schooner Gen. Banning arrived from Flint's Island yesterday with a cargo of cocoanuts. Her commander, Capt. Spring, reports that while loading the cargo his vessel was twice blown out to sea by severe storms. On each occasion about 100 natives were on board and they hastened ashore in canoes. The second time several canoes were capsized and the occupants thrown into the water. The water swarmed with sharks, and many of the natives were torn limb from limb before they could be picked up by other canoes. Several islanders were dragged down. One young fellow plunged into the water with a long knife to save his father. Both, however, were torn to pieces. One young girl had almost reached a canoe when a shark seized her by the middle and dragged her down.

Too Many Cooks For the Skipper.

Chicago, Sept. 14.—John W. Rabshaw, captain of the steam barge John C. Pringle, was held in $500 bail by Commissioner Hoyne yesterday on a charge preferred by Special Immigration Agent George E. Stitch, of violating the alien contract labor law. The two witnesses against Rabshaw were Lizzie Jacobs and Jennie Bulch, residents of Kingston, Ont. They claimed they were hired by the captain as cooks on the trip, but when they reached Chicago they were discharged without any pay. Captain Rabshaw declared that the women left the boat of their own accord. He will be compelled to take the women back to the port from whence they were hired.

A Volunteer Marker's Fate.

Newcastle, Sept. 14.—A man named George H. Burn, 31 years of age, residing at 71 Burt Terrace, Gateshead, died yesterday at the Newcastle Infirmary through injuries received at Blaydon rifle butts. It appears that on the 15th August, deceased was engaged as a marker at the butts for a rifle corps, when a splinter from either the target or a bullet caught him in the left arm. He received such injuries as necessitated his removal to the Infirmary, where he died as stated.

They Murdered Their Father.

Berlin, Sept. 14.—Two young men named Hoeffler, aged respectively 18 and 24, broke into the house of their parents in the Leder-Strasse last evening, believing it to be empty at the time, and proceeded to the bedroom of their father, intending to steal some money which was usually kept there. The elder Hoeffler was in the room, however, and grappled with the burglars. A fierce struggle followed, which ended in the old gentleman being beaten to death by his sons.

Foreign Money Market.

London, Sept. 14.—The abundance of money here was increased Saturday by the payment of £1,000,000 on treasury bills, which also added to the ease of discount, the rates closing 1½ for three months and 1½ for short. A hardening of rates is expected to set in soon as the German demand for gold has revived. On the other bourses business was good and prices firm.

A Peculiar Murder in Ireland.

Dublin, Sept. 14. Information has reached Newtownards that a caretaker named John Adams, who has been employed by Mr. Andrews of Belfast, as caretaker of a house belonging to him at Cunningham, near Newtownards, was murdered while on his way home last night. He was found with a stone tied to his neck.

Fatal Collapse of a House.

Berlin, Sept. 14. A house which had but recently been completed and occupied in Regensburg collapsed yesterday and eight of the occupants were killed and a number injured. The builder has been arrested, charged with manslaughter, and an official inquiry is in progress.

The Chilian Elections.

Paris, Sept. 14. Despatches received at the Chilian legation report that a decree has been proclaimed at Santiago de Chili, announcing that the coming elections for the presidency and members of Congress will proceed upon the plan of universal suffrage.

The Pope's Temporal Power.

Brussels, Sept. 14. The Mechlin Catholic congress has decided to convoke a special international congress to claim the restoration of the papal temporal power and to perpetuate the [illegible]. The congress also pronounced in favor of a stricter observance of the Sabbath.

Balmaceda's Boodle in Portugal.

Lisbon, Sept. 14. The steamship Moselle which has Balmaceda's silver aboard bound from Montevideo to Southampton, has arrived here.

Cable Chat.

Favorable reports have been received about the best crops throughout Europe. Germany, France and Austria promise good yields.

The Socialists in the Berlin Common Council have introduced a bill to establish a court of arbitration with jurisdiction in trade and labor disputes.

The Khedive has signed the decree of amnesty to all those who, being abroad, have refused to perform their military service from the class of 1848 to that of 1882.

Inquiries made in regard to the report that Prince Bismarck has had a slight attack of apoplexy, show there is no foundation for the statement. The Prince is enjoying fair health.

Cholera in a serious form has broken out on H.M.S. Blanche and H.M.S. Marathon, now at Bombay. There have been 28 cases of that disease on board the two ships with in 24 hours. Six deaths have already occurred.

The inhabitants of several towns in Galway have joined in an address to the Chief Secretary for Ireland, Right Hon. A. J. Balfour, expressing their gratitude to him for the timely measures of relief which he had inaugurated.

Returns show that there has been an immense apparent decrease in crime in Great Britain in the last quarter of a century. In 1864 there were 280.0 convicts in the various penal institutions. In 1890 there were but 729. Since 1862 eight prisons have been converted to other uses.

The Request Not Granted.

Washington, Sept. 14.—The Treasury Department has declined to grant the request of a Woodstock, Ont., firm, to here after import free horses used by them in lumber operations in Maine, notwithstanding that they have paid duty on the animals each year of the four they have brought them over.

A Canadian's Portrait of Gladstone.

London, Sept. 14.—Mr. Forbes, the Canadian artist, has nearly completed the portrait of Mr. Gladstone upon which he has been working for several months past. Mr. Gladstone last year expressed his willingness to do everything in his power to forward the matter, and at no little inconvenience gave Mr. Forbes special sittings at London and at Hawarden, his country seat. The picture will be presented to the National Liberal Club by Mr. Gladstone's Canadian admirers. A copy of the portrait will be taken and placed in the Canadian House of Commons.

"Just as Good."

Say some dealers who try to sell a substitute preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statements as this induce you to buy what you do not want. Remember that the only reason for making it is that a few cents more profit will be made on the substitute. Insist upon having the best medicine—Hood's Sarsaparilla. It is peculiar to itself.

J. C. Turnbull.

MANTLES AND MANTLE CLOTHS AT TURNBULL'S.

We are showing a window of Mantles this week at an unheard of price in the history of Peterborough.

$2.00

takes the choice of the lot, they are not trash but good cloths and well made, in all colors, worth three and four times the money, the only objection being many of them have the plain sleeve, which if the purchaser thinks necessary can be easily altered.

Another lot we have to offer at $3.00. A glance at, by the most sceptical, will cause them to put their hands in their pockets and see if they have brought their money.

For $5.00 we show a nice cloth Mantle with a braided sleeve, others of the new style are—well it would take a lady to describe them.

Beaver cloths in all colors, high collars richly braided, the edge faced with fur, double breasted and flap pockets, three quarter length, when on they are very comfortable looking and stylish. Prices from $6 to $15.

We have imported this year a lot of Scarlet Jackets and Coats lined with satin, all the new shapes, they range in price from $18.00 up. We have also a well assorted stock of long Coats in black and colors to select from.

In Children's wear we have Dozens all the way in price from $1.50 to $8.00.

Our stock of Cloths for the ordered work department is more complete than ever and with increased facilities will be able to do more work and turn out all orders promptly. Perfect satisfaction always guaranteed.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and BLOOD PURIFICTOR, as they supply in a condensed form all the substances actually needed to make the Blood rich and pure. They cure diseases coming from Poor and Watery Blood, or from VITIATED HUMORS in the BLOOD, and also regulate and BUILD UP the BLOOD and NERVOUS SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM, both men and women, restoring LOST VIGOR, curing all ENFEEBLING WEAKNESSES and SUPPRESSIONS. Unfailing in nervous headache, paralysis, partial or falling of the limbs, should take them. They cure all such troubles. Should take them for Rheumatism, Kidney Pains, Backache, Nervousness, Lack of energies. Should take them for Scrofula, Erysipelas, Eruptions of the Skin, Boils, Pimples, Blotches, Sores, Ulcers, Abscesses, Scurvy, Chronic Erysipelas, Salt Rheum, Fever Sores, Scaly or Itching Skin Diseases. They cure all such troubles, as they purify the blood and restore the glow of health to pale or sallow cheeks. They are an unfailing remedy in the troubles peculiar to females, such as Irregularities, Suppressions, Painful Periods, Nervousness, Headache, Backache, Dragging Pains, Hysteria, Dizziness, Nervous Prostration, Hot Flashes, Sleeplessness, Melancholy, Nervous Headache, Neuralgia, Palpitation of the Heart, Pale and Sallow Complexions. They are a specific for Troubles arising from Indiscretion in Youth, Nervous Debility, Premature Decay, Loss of Memory, Loss of Power, Impotency, Wasting Diseases, Spinal Diseases, Locomotor Ataxia, Partial Paralysis, St. Vitus' Dance, Sciatica, Neuralgia, Nervous Headache, Nervous Prostration caused by the use of Alcohol or Tobacco, Mental Anxiety, Overwork or Indiscretion. They should be taken by all who are run down, or in a condition of ill health or suffering, or when the blood is impure or poor, or deficient in the red life-giving corpuscles. They are never sold in bulk or by the hundred, or by weight, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. They are sold by all dealers, or may be had by mail from DR. WILLIAMS' MED. CO., Brockville, Ont. Pamphlet free.

The Daily Examiner is delivered to any part of the town for 10c a week, 35c. a month, $2 00 for six months.

Daily Examiner.

MONDAY, SEPT. 14 1891.

THE COCHRANE CASE IN NOR THUMBERLAND.

That usually impartial observer and commentator on matters political, the *Week*, thus reasons upon the disgraceful disclosures brought in out the Cochrane (East Northumberland) Committee of the House of Commons:—"Whatever view the Special Committee of the House Commons may take of Mr. Cochrane's relations to the Patronage Committee of the East Northumberland Conservative Association, the operations of that Committee, as clearly shown in evidence, are among the most shameful of the many transactions which have been uncovered at Ottawa during the present session. It is painful to think that the political principles of men who, it is fair to suppose, are neither ignorant nor unscrupulous, but are persons of local prominence and influence, can have become so debased, their views of right and wrong in public affairs so confused, that they could make a merchandise of the public service, and sell their influence, or that of their representative, conferred by the franchise of their fellow-citizens, for money. In the view of all whose moral vision has not been dimmed by the party spirit, the fact that the money taken out of the scanty wages of labouring men was used for partisan, not personal, purposes, does not affect the moral character of the action in the least. Either these poor men were to be overpaid for their services by the Government salaries, which will hardly be contended, or the Party Committee took advantage of their necessities and extorted from them wrongfully and basely a portion of their honest earnings, and even if they were thought to be overpaid and unable to afford bribes, that fact would confer upon the men of the committee no moral or legal right to lay toll upon them, and thus become sharers in their unjust gains. But that the thing is wholly indefensible goes without saying. The low state of political morality it discloses is a serious reflection not only upon the morals of the community in which it took place, but upon the leaders of the political party or parties, who have failed during their long years in office to educate their followers throughout the country to loftier views of the duties and obligations of citizenship. Not much unfairly prejudging the question to say that, with the evidence before us, it is extremely difficult to doubt that the sitting member, on whose nomination the appointments were made, was cognizant to a greater or less extent of the disgraceful transactions. Thus we have another object-lesson on the pernicious influence of the party patronage system."

Mr. Barron, the brisk and busy member for North Victoria at the last public session of the committee submitted similar conclusions contending that Cochrane knew of the acts of the so-called committee and was responsible for them. He argued that the $200 paid by Hedley Simpson for the light house was applied pro tanto in payment of a note endorsed by Edward Cochrane, M.P. and that no matter whether the note was given for a political debt or not Cochrane was personally liable for it and therefore received a personal benefit from the payment of the $200. Mr. Cochrane did not go into the box to contradict the evidence against him, and Mr. Barron remarked that the omission was extraordinary and significant. Mr. Osler, the counsel for the "prisoner," gave a peculiar explanation of it. He said that that his client was a politician who held a close constituency and did not wish to offend political friends by contradicting them. Mr. Barron's answer was crushing. What was the danger referred to by Mr. Cochrane's counsel compared with the danger of losing his political life which he incurred by refraining from going into the box and clearing himself?

A Dissertation on Dress Goods

Dame Fashion's Decrees for the Adornment of the Female Form Divine

To walk through the dress goods departments of the dry goods warehouses and to get merely a passing glance at the fabrics they contain, is much like passing down between the *rows* of millinery in one of the large show. As in the millinery branch and in the domain of dressing trimming, so here in the dress goods business one time pay attention to the prevailing colors. We name some of these, so that people who are not already familiar with them may the more easily become so. There is mahogany brown and golden brown and moss green and beaver grey and buttercup or cream goods pretty nearly worthy to look like. But then we have colors, a score of terra-cotta-purplish-pinks, Nasturtium, a grey green; geranium, a purplish magenta, orange, mauve and royal blue. Just listen to a catalogue of names of greens alone:—Nile green, serpent green, sage green, wattle green, mignonette green, myrtle green, Donegal green, and *reseda*, which last is only a fanciful French rendering of the English word green itself. All these shades and many more can be found in dress materials.

Among wool goods of the better class, camels hair cloths take a prominent place, their peculiar long-hair pattern and tufting of fibres make them piquant, while as for variety they are to be seen in many checks and stripes, darker colors prevailing. Mixtures termed "hum-spuns," though in fact spun a long way from home, are among the novelties of fashion in this direction; they are found in fawns, greys and white and black—if we may not use the phrase "pepper and salt." Herring bone twills made like an interpris ng attempt to give a semi-French name to a line of German goods. Tweed effects are numerous and favourable among costumes of this season are patterned serges. There are such mixtures in the new colors, all shades. Good rich Henriett a cloths, all wool as well as wool with a silk warp, are often asked for, and Bengalines.—*Monetary Times*

Children Cry for Pitcher's Castoria.

Improved Butter Packages.

Anything that will assist the more successful marketing of our butter deserves the widest publicity. Some dairymen on the other side of the lakes are advocating the use of tin packages, capacity 5 lbs. each, twenty tins to be packed in a crate, and claim that good results have followed the use of these. Such packages have been used in Ontario before this, but only experimentally, and never found favor with the trade; if used for a business direct between dairy, or creamery, and consumer, no objection can be taken to them, but where the ultimate market for the butter is uncertain, these tin boxes are undesirable. No exporter would look at them, no buyer for the Maritime Provinces would have anything to do with them. Commission men would frown on them for a variety of reasons, viz: the packages are too small; the experience here is that the smaller the package, the more rapidly do its contents go off in flavor; if the goods did not get immediate sale the tins would rust: the taxes are more difficult to adjust, and the crates would not store as well as tubs. Retail dealers prefer having butter they can turn out on their counters, and it is next to impossible to turn out the contents of a tin package.

Tin lined tubs have had a moderate degree of success, and some of our creameries would use no other package. But the average country storekeeper, who usually expects (and is seldom disappointed) to make a loss on his butter, cannot see the philosophy of increasing that loss by using a more expensive package than usual. The trouble is that the great bulk of our store butter, even when intelligently handled, can never grade above medium; the price of this grade does not advance by "leaps and bounds," and would, therefore, not warrant the use of an expensive package.

There is little reason to doubt that some other material will yet be discovered by our scientists which will have overcome the objections that can be made to the use of either wooden or tin packages to contain butter.—*Monetary Times.*

You cannot be too particular about the medicines you use. When you get a blood purifier, be sure that you get Ayer's Sarsaparilla, and no other. It will mingle with, purify, and vitalize every drop of blood in your body. It makes the weak strong.

Two Genuine Harvest Excursions

Will be run from Chicago, Milwaukee, and other points on the lines of the Chicago & St. Paul Railway, to points in Western Minnesota, Northwestern Iowa, South and North Dakota, Nebraska, Kansas, Colorado, Utah, Wyoming and Montana, at cheap excursion rates, on August 25 and September 29, 1891.

Purity of ingredients and accuracy of compounding, make Milburn's Aromatic Quinine Wine the criterion of excellence. dw

From the Jaws of Death

Some surprising cures have been recorded from the use of Miller's Emulsion of Cod Liver Oil in the most desperate cases of consumption. When all other remedies have failed Miller's Emulsion nearly always succeeds. It is the best kind of fish and cod liver, and has been used with marked success by the physicians in the Houses of Asylum, Penitentiary, Hotel Dieu, and the Hospital in Kingston, Ont. In big bottles, 50c and $1 at Peterborough drug stores. dw

Regina Ripples.

"I took six bottles of Burdock Blood Bitters for liver complaint, headache and dull stupid feeling, but now I am entirely well and healthy, having also a good appetite which I did not have previously." Mrs T. Davis, Regina, N.W.T.

Could Scarcely See.

Mrs. John Martin, of Montage Bridge, P. E. I., writes:—"I was troubled last summer with very bad headaches and constipation and sometimes could scarcely see. One bottle of Burdock Blood Bitters made a complete cure of my case, and I wish you every success.

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

When baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Clinton Clippings.

"I had for years been troubled with dyspepsia and sick headache and found but little relief until I got Burdock Blood Bitters which made a perfect cure. It is the best medicine I ever used in my life."—Hattie Davis, Mary street, Clinton, Ont.

A Fact

WORTH knowing is that the diseases which all other remedies fail to cure, yield to Ayer's Sarsaparilla. Fresh confirmation of this statement comes to hand almost daily. Such discouraging and intractable complaints as Rheumatism, Dyspepsia, Scrofula, and Kidney disease, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge, 110 West 125th street, New York, certifies:—"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

"Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

A Handsome Prize.

An Evidence of What a Genuine Magazine Competition Offers.

On Friday there arrived from Toronto, for Miss M. Hora, a handsome Shetland pony, harness and cart, being the first award in the Royal Quilt Competition of *The Canadian Queen* magazine. It attests the genuine nature of the magazine's contests by its excellent condition and value. The *Queen* has frequent competitions and has made innumerable awards, displaying a generosity quite surprising to those who have had experience of the limited field for Canadian journalistic enterprise. But the *Queen* has been a success as a business venture from the start, and is growing in literary excellence steadily. It covers the field of fashion, as well as light reading; talks to the household, the young and indeed all home classes. The competitions have been used to assist the introduction of the magazine, for where it is introduced it is quite certain to remain a monthly guest. The leading prizes have been made, as instance this latest to Kingston, while many smaller prizes have rewarded the moderately successful among competitors. *The Canadian Queen* is truly royal in the ways.—*The (Kingston Ont.,) Daily British Whig. June 27th, 1891.*

You hardly realize that it is medicine when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use. dw

B. & C. corsets boned with Kabo never works up or down or breaks. If it does in a year, you shall have your money back from the store where you bought your corset.

The steels may break—the best of steels have their limits of strength. But Kabo has no breaking-limit; it doesn't break at all.

And the B. & C. corset is perfect in form.

The store has a primer on Corsets for you.

—CELEBRATED ALE—
—IN WOOD AND BOTTLES—
—STAPLETON & ELCOMBE—

One on the Street Inspector.

On Saturday a block of wood that looked like the stump of a telegraph pole lay in the gutter on Water street, and some wag pinned on it a slip of paper in such a position that every passer by would be attracted by it at once, the slip bearing the legend "For sale, apply to Street Inspector." The log is not there to-day.

MANTLES AND CLOTHS.

We have a large Stock of Mantles and Jackets to select from; also a full range of Mantle Cloths at close prices. We invite inspection.

2163 **H. S. GRIFFIN & CO.**

Alvin Joslin.

When "Alvin Joslin" comes to town, he advertises so liberally and so ingeniously that all theatre-goers know it, and so there is but little for the newspapers to tell them about it. Besides he has appeared on so many previous occasions that the trials and triumphs of the honest old farmer are familiar to all. It is only necessary then to say he will be at Bradburn's Opera House on Friday evening next.

Philharmonic Society.

The members of the Philharmonic Society are requested to meet at the Y.M.C.A. hall, George street, at 8 p.m. sharp on Tuesday evening next, the 15th inst., for the first rehearsal of the Oratorio, "Emmanuel" (copies of which may be obtained from H. Thompson & Co., 406 George street). Ladies and gentlemen desirous of becoming members will kindly apply to the conductor, J. Churchill Arlidge. Subscriptions for the season for active members: gentlemen $1 50; ladies, $1 00. 2163

Children Cry for Pitcher's Castoria.

Y. M. C. A. Notes.

Mr. Arthur Jolly spoke to the young men at the rally on Saturday evening on the topic—"I guess I am all right." It was practical, thoughtful and helpful to all the young men present.

The Bible study and consecration service was a time of refreshment to all yesterday morning. It was good to be there and study the Word.

Mr. J. C. Tunbull gave a very earnest and profitable address at the open air service in Central Park yesterday afternoon which was largely attended. The Y.M.C.A. band led the singing in an efficient manner.

The Gospel and song service last night was well attended and listened to with much edification and profit to the thoughtful. An impressive address on the "New birth," was delivered by Rev. E. F. Torrance, which made a marked impression on all.

Bible study for young men on Tuesday evening at 8 p.m.

Mrs. B. Matthews has our sincere thanks for cut flowers for our parlor.

Church Chimes.

At vespers, in St. Peter's Cathedral Sunday evening, Miss D. McIlwain, a talented young vocalist of St. Catharines, sang H. Millard's *Ave Maria* with splendid effect. This young lady is possessed of a soprano voice of great strength and sweetness, and the manner in which she rendered this difficult composition was indeed charming.

At the morning service in St. John's Sunday morning there was an unusually large attendance. Rev. Mr. Kearick took the service, Rev. Mr. Loucks read the Litany and Rev. *Clementi-Smith*, rector of St. Andrews-by-the-Wardrobe, Doctor's Commons, London, England, read the lessons in a very impressive manner and Rev. Mr. Davidson preached the sermon.

Rev. Clementi-Smith conducted the service and preached the sermon in St. John's Mission School House in the evening.

It was announced yesterday in St. John's that the annual harvest Festival would be held on Friday evening. It was announced to take place on Thursday evening but St. Luke's having selected that date the festival of St John's was deferred till Friday. The rector urged all of the congregation of St. John's who could make it convenient to join St. Luke's on Tuesday night. St. Johns will be decorated with fruits, flowers and grains, which the congregation are requested to provide. Rev. W. H. French of Cmemee will preach the special sermon.

In all the other churches the pastors occupied their own pulpits and the regular services were conducted with, however, better congregations than the summer months supplied.

The use of calomel for derangements of the liver has ruined many a fine constitution. Those who, for similar troubles, have tried Ayer's Pills testify to their efficacy in thoroughly remedying the malady, without injury to the system.

News Nuggets.

—The Peterborough Workingmen's Building and Savings Society meets to-night.

—Merit wins, as the marvellous succes of Hood's Sarsaparilla shows. It possesses true medicinal merit. Sold by all druggists.

Personal.

The Denver *Hotel Bulletin* of Sept. 9th says:—"Mr. Robert B. McKee and Mr. Peter Hamilton, two prominent citizens of *Peterborough, Ontario*, are in the city. They are returning from a trip to the Coast."

Mr. Justice Ferguson arrived in town this morning, and like "The King of France with forty thousand men, went up the hill (to the Court House) and so came down again"—there was no business in the Chancery line.

Mr. and Mrs. P. LeBrun, of Montreal are in town *en route* to the Toronto Exhibition and are staying a day or two visiting with their son Mr. Harry LeBrun. Mr. LeBrun, the elder is a good looking and almost as young looking as his son, Mr. LeBrun jr. of the City Clothing Store.

The many friends of Rev. G. H. Davis will learn with regret of his sudden and serious illness. Mr. Davis was preparing to go to church last night when, without a moment's warning, he was stricken down with apoplexy. He is confined to bed, his one side being helpless and his brain somewhat affected. It is feared he cannot recover.

Death in the Dog Days.

Mr. Robt. Duncan, cutter, owned a dog which was accused of vicious habits, and the police condemned it to be killed. Mr. Duncan had not the heart to destroy its life, so he led the doomed dog to the public executioner, Chief Reazel, who put several shots into the brute, and finally ended its wretched existence with a club

A Queer Charge.

In the police court to-morrow morning J. Pollard will push an action against Geo. Hall and Wm. Job for entering the plaintiff's premises at the corner of Simcoe and Aylmer streets and taking forcible possession. The premises in question were burned out a few weeks ago, and peculiar circumstances have led up to this case.

A Severe Accident.

Mrs. Collins, wife of Mr. Wm. Collins, secretary of the Central Exhibition, met with a painful accident the other day. She slipped off the doorstep and fell on the scraper, her leg being cut so severely that she will be confined to bed for several weeks. Mrs. Collins' many friends will hope for her quick recovery.

A Soldier Injured.

The Belleville *Ontario* in its military camp notes, says:—The most serious accident that has yet occurred in the camp was that experienced by a cavalryman named Wm. Adams of Ashburnham, near Peterborough, when at drill yesterday morning. The unfortunate fellow was thrown heavily from his horse and had his leg broken. He was removed to the Belleville hospital.

Pale, drooping girls, worn weary with a burden of disease almost greater than they can bear, should take heart and suffer no longer. Dr. Williams Pink Pills are a certain cure for all those diseases peculiar to womankind. They restore the blood, build anew the nerves, and leave happiness and health when used. Sold by dealers or sent on receipt of price (50c. a box) by addressing Dr. Williams Med. Co., Brockville, Ont. dw

Social.

The young people of St. Luke's church will give a social at the rectory on Monday evening, commencing at 7.30. d62 63

The Exodus to the Exhibition.

There was a large begira of citizens this morning to Toronto to see the exhibition Elephant. It is safe to say that about 500 of Peterborough's citizens are in Toronto to-day. The C.P.R. two trains took up nearly 300 and at the two G.T.R trains fully 200.

Three Hours of Solid Fun

is the next thing on the bill of fare, theatrically speaking, served in proper courses by the public caterer "Uncle Alvin Joslin," who will produce his laugh provoking comedy drama. The play that has made more people laugh than any production of modern times. He will have a better company and better scenery than ever. There is a real treat in store for the amusement loving public. It is said the comedy will be mounted on a grander scale than ever and that the Brooklyn Bridge scene is a marvel of scenic beauty, and those who attend will receive by full measure, 180 laughs in 180 minutes. 1d63

Police Court.

There was a special session of the court on Saturday night. H. Caristmas was charged with assault, but the magistrate, after hearing the evidence, concluded that the complainant was not unjustly punished, and discharged the bearer of the festive cognomen.

An agriculturist brought a load of new oats to town on Saturday, and exchanged it for a load of old rye, and was ran in, but afterwards discharged by the magistrate.

This morning a charge of d. and d. against John Lawler was dismissed.

You cannot be too particular about the medicines you use. When you get a blood purifier, be sure that you get Ayer's Sarsaparilla, and no other. It will mingle with, purify, and vitalize every drop of blood in your body. It makes the weak strong.

SPORTS AND PASTIMES.

Mr. Duncan Cameron Wins the Riflemen's Medal

Baseball Games on Saturday—The Edison Team Wins and the "Examiner" Loses—Scores in the Rifle Matches.

The Dominion medal for the best marksman falls to Mr. Duncan Cameron's lot this year. Five monthly matches are held during the summer, the rifleman having the largest total for his three best scores, winning the medal offered by the Dominion Rifle Association, the second highest getting a medal presented by the Ontario Association Captain W. H. Hill wins the latter, being but three points behind Mr. Cameron. Last year the medal was won by Capt. Deenistoun.

Appended are the scores made at the different monthly matches during the summer. The Peterborough marksmen were particularly unfortunate this year, it always happening that their match days were attended either by rain, wind or a variable temperature. As a consequence the scores were not as high as usual. However, greater interest has been manifested in rifle shooting this year than ever before. There have been more marksmen at the ranges, and two teams were organized to enter the Military Rifle League. At Ottawa, also, six of the seven Peterborough riflemen who attended were successful in winning prizes, and the 57th Battalion team in the skirmishing match made 100 points more than it did last year, though not succeeding in getting a better place, the shooting all round being much better at Ottawa this year than previously.

The annual matches of the Peterborough Rifle Association will be held in about a month.

Following are the scores made during the summer:—

	May.	June	July.	Aug.	Sept.	Best three
D. Cameron	61	48	53	64	53	178
Capt. Hill	61	73	—	65	67	205
D. Relleghem	53	71	36	68	61	202
A. Blade	59	70	43	73	55	202
A. Stevenson	—	52	—	67	75	194
G. Fitzgerald	57	61	50	67	69	187
C. Curtis	—	48	49	78	58	185
Jno. Campbell	37	59	—	67	54	180
J. B. Pentland	57	—	17	65	54	176
S. Ray	61	48	—	54	—	166

Geo. Matthews	—	—	—	38	—	—

An Unfinished Waterloo

We are feeling well to-day, thank you. Our baseball nine was heartlessly taken into camp on Saturday, but they are still in the ring. And don't you forget it. They wouldn't be working on a Grit paper if they didn't have spunk enough to fight all the harder when they are down. The *Times* in the first place came after us; now we are after the *Times*. Our ball players are not satisfied with the result of Saturday's game. They feel unlimited possibilities cooped up within their seven dollar suits, and all they want is one more chance to let themselves loose on the diamond and toy a while with the *Times* staff. There is a consciousness within them that they can annihilate any other printer's nine between Omemee and Millbrook, and though the fates (assisted by *Times* sluggers) were against them on Saturday, they are not discouraged. Not a little bit. They hereby challenge the *Times* baseball club to another game next Saturday afternoon on Riverside Park, at four o'clock or as soon thereafter as they can get their faces washed so they can see the ball clearly, and they are further prepared to back up their challenge with a wager of $10 on the result. Or if the *Times* men are unable to pawn their Sunday clothes to that amount, the EXAMINER team will play for fun or revenge alone. Now do your shouting. *Times*.

With reference to Saturday's game, a few remarks are necessary. We don't wish to offer excuses for our defeat, and we have no more disposition to "kick" than has a trick mule; but our keen sense of duty to the public compels us to make some explanations. In the first place, the *Times* men put up a job on the EXAMINER linotypes and by skilful prevarication induced them to begin play without their pitcher, on whom they depended for salvation. The result showed that the *Times* wolverines had level heads. Secondly, as our ministerial brethren say, the *Times* pitcher was borrowed from the *Review* staff. He has not worked in the *Times* office for months, but the fact that he is now working at the *Times* in another way may appear to have justified them in placing him on the nine. Thirdly, the umpire was palpably a *Times* favorite, and if he was not rewarded with a big bootleg of beer after his soulless work the *Times* men did not do their duty. Fourthly, the *Times* team refused to play after the fifth innings, which alone is enough to decide the game against them. Fifthly—but what's the use of further remarks. For these and sundry other reasons the EXAMINER nine is not satisfied, and they want to meet a *bona fide Times* team on its Saturday. Then look out for squalls. The score on Saturday stood 30 to 11 against the EXAMINER staff, and no amount of talk can explain it away. The *Times* sluggers fairly knocked the cover off the ball. Both teams were a little shy of the sphere when it went out into the field, and there was more amusement than excitement in the game.

There will be whiskers on the moon next Saturday if the *Times* does not wilt.

Baseball—A Win for the Edisons.

The *Edison* baseball team have at last won a game from the Peterboroughs and they feel mighty proud of it. They caught their opponents napping, as it were, and they took advantage of the opportunity. There were only five of the regular Peterborough team on hand, and the remainder of the nine had to be picked up from amongst the spectators. "General" Tighe was pressed into service and placed behind the bat, there being no one else available who had ever attempted catcher's work. The game was lost to the Peterboroughs right there. Tighe could not hold McCabe, as his record of sixteen passed balls would indicate. He dropped six third strikes. However, the "General" did his best, which is all that a horse can do, and the Peterboroughs have only themselves to blame for not having one of their own catchers on the ground.

The Edison team put up a good game There were few fielding errors, and as a rule their play was sharp. A double play was made, Hunter catching a fly and cutting off a man at first. Hunter pitched a couple of innings, Pomfret catching him. Then Pomfret went into the box and Davis came in from left field and put on the mitt. Their battery work was excellent.

The Peterboroughs batted harder than their opponents, as the record of hits will show, but their fielding was not so clean, and the receiving end of their battery was lamentably weak, the consequence being they were defeated. Dr. Brennan hit a three-bagger, and nearly all the Peterboroughs found the ball freely.

Bert Cameron was umpire.

Following was the score:—

PETERBOROUGH.

	R.	H.	P.O.	A.	E.
Anderson, if	2	3	1	0	0

The Protest Against Mr. Barron to be Withdrawn.

A Bundled Petitioner and a Bogus Petition.

The following advertisement appeared in the last number of the Fenelon Falls *Gazette*:

IN THE HIGH COURT OF JUSTICE.

QUEEN'S BENCH DIVISION.

"THE DOMINION CONTROVERTED ELECTIONS ACT."

Election of a member for the House of Commons for the Electoral District of the North Riding of the County of Victoria, holden on the 26th day of February, 1891, and the 5th day of March, 1891.

Dominion of Canada, Province of Ontario, To Wit: } PETER MOFFATT, Petitioner, and JOHN AUGUSTUS BARRON, Respondent.

"Notice is hereby given that the above petitioner has, on the 8th day of September, 1891, lodged at the office of the Registrar of the Queen's Bench Division of the High Court of Justice for Ontario, notice of an application to withdraw the petition, of which notice the following is a copy:—

"The Petitioner proposes to apply to withdraw his petition upon the following grounds:

"He was induced to become the petitioner herein by corrupt promises having been made to him by one Samuel Hughes and one Hugh MacDougall.

"He had no knowledge at the time he signed said petition, nor has he any knowledge now, nor has he ever had any knowledge of any corrupt practices of the said John Augustus Barron, either by himself, by his agents, or by other persons on his behalf, before, during, or after said election.

"He knows of no reason why the said John Augustus Barron should not be and remain a member of the House of Commons for the said electoral district of North Victoria.

"And prays that a day may be appointed for hearing his application."

And take notice that, by the rule made by the Judges, any person who has been a petitioner in respect of the said election may, within five days after publication by the Returning Officer of this notice, give notice in writing of his intention on the hearing to apply for leave to be substituted as a petitioner.

Dated the 9th day of September, 1891.

D. E. ANDERSON, Solicitor for Petitioner

To JOHN AUGUSTUS BARRON, Esq., Respondent, and to MICHAEL BROWN, Esq., Returning Officer.

AN EDUCATED ECHO.

Surprise That Awaited Some Tourists in Scotland.

In the course of last Summer some strangers of distinction were induced to visit a wild and unfrequented retreat in a distant part of the Highlands, chiefly from the report they heard of an echo which was remarkable for the clear and distinct nature of its reverberation.

On reaching the spot whence the trial of its powers is usually made their guide put his hands to the side of his mouth and bawled out with the lungs of a Stentor a salutation in Gaelic, which was repeated with a precision that seemed beyond the expectations of the party.

One of the gentlemen, by way of trying the strength of his voice, put his hand to the side of his mouth in the same manner as his guide and called out:

"How far are we from home?"

These words, much to the surprise of their guide, were repeated, when poor Donald, with a simplicity which brought a smile over the faces of all present, exclaimed:

"You may think it strange, *gentlemen*, but this is the first time I ever heard our echo speak English."

"I have no doubt," said the gentleman, "but it can repeat other languages if you put it to the test," and instantly bawled out some brief question in French, Spanish and Italian.

Donald looked more dazed than ever.

"Well, I must say that's very queer. My own father and my own self have known that echo for more than seventy years, and we never knew it use any language but Gaelic before."

"Your echo is more learned, then, than you supposed!" said the gentleman, laughing, though at a loss whether to impute Donald's remarks to archness or simplicity.

"You may say that, sir," said the poor fellow, with an expression of earnestness that was highly amusing to those present, "but as the echo has never been out of the country, where can she have got all her education?"

Queen Victoria's Private Car.

An official of the Midland road took me into the Queen's carriage as it stood in St. Pancras station. The walls of the saloon are of satin-wood, highly polished. The cushions are of white silk, embroidered in gold thread. A garter containing her motto, "Honi soit qui mal y pense," surrounds her initials, V. R. Her large chair and it takes a large one, too—is at the back of the carriage and faces the engine. At her hand is a silver plate, in which are electric annunciators, pressing which she can call her different attendants, who occupy another compartment. Three other easy chairs are in her compartment, besides a satinwood table about six feet long and three feet wide, upon which were piled the latest English, French, German and American periodicals. The carpet is of velvet, and in a good state of preservation, considering it has been in use over fifteen years. The curtains at the windows and a portiere are hung on silver poles. The door-handles are solid silver, and the whole saloon has the appearance of solid luxury. Victoria herself selected the furnishings, which are said to pattern after the white drawing room at Windsor Castle. The whole saloon, with fittings, cost between $30,000 and $35,000. Frank Leslie's Weekly.

A Tongue-Twister.

There is a sign in front of a New York cigar store which reads:

DON'T USE BIG WORDS.

In promulgating esoteric cogitations or articulating superficial sentimentalities and philosophical or psychological observations, beware of platitudinous ponderosity. Let your statements possess a clarified conciseness, compacted comprehensibleness, coalescent consistency and a concentrated cogency. Eschew all conglomerations of flatulent garrulity, jejune babblement and asinine affectations. Let your extemporaneous descantings and unpremeditated expatiations have intelligibility and veracious vivacity without rhodomontade or thrasonical bombast; sedulously avoid all polysyllabic profundity, pettifogging precocity, ventriloquial verbosity and vaniloquent vapidity; shun double entendres, prurient jocosity and pestiferous profanity, whether obscurent or apparent.

In other words, talk plainly, sensibly and truthfully.

Not many people who start to read it finish the job, but those who do are grateful to the last line, which gives them the meaning intended and also tells them that the cigar is the best made.

Chili's Fugitive ex-President.

VALPARAISO, Chili, Sept. 12.—Rumors continue to spread concerning the whereabouts of the fugitive President of Chili, Balmaceda. It is now claimed that, not daring just at the present time to make an attempt to escape from the country, he has concealed dhimself in a monastery. The Junta will undoubtedly cause all the monasteries to be searched for him if they put any faith in the report.

The Murdered Woman Identified.

LOCKPORT, N. Y., Sept. 12.—The body of Kathrin Saad, the murdered woman, was exhumed from the Shawnee cemetery yesterday, that her sister might view her remains with a clue to identity. The body was in a decomposed state, but was recognized by Mrs. Rosanna Kaurf as that of her sister, Kathrin Saad.

Trade's Congress.

NEWCASTLE, Eng., Sept. 14.—The composition of the Trades Union Parliamentary Committee, balloted for Saturday, was announced to-day. John Wilson, M.P. for the Government division of Lanarkshire, head of the firm of Wilson & Co., iron tube manufacturers, and a large employer of labor, an old Unionist of the moderate class, headed the list. A majority of the other members are new Unionists. Resolutions were approved in favor of increased representation of the labor classes in Parliament and advocating the appointment of railway workmen as railway inspectors. A motion favoring a State Board of Arbitration was negatived by a vote of 129 to 107.

PUREST, STRONGEST, BEST.

SIXTY-FOUR LIVES LOST

By the Sinking of the Italian Steamship Taormina off Cape Colonna.

ATHENS, Sept. 14.—The corrected estimate of the number of persons drowned by the sinking of the Italian steamship *Taormina*, as a result of the collision off Cape Colonna between that vessel and the Greek steamship Thessalia, shows that 64 lives were lost. Previous estimates received placed the number of drowned at over 100.

The Taormina had 48 passengers, among whom was an American named John C. Oliphant. Her crew numbered 49 persons. Of the whole number on board the steamer only the second officer and 30 others were saved.

The captain of the *Taormina* remained on the bridge with the greatest coolness and sank with the vessel. All the mails and a quantity of bullion were lost. Several Englishmen were drowned. A Greek sailing vessel passing at the time saved sixteen persons.

In an interview Captain Pimas of the Thessalia said: "The Taormina's captain must have mistaken his course. I did everything possible, but could not avoid running into the Taormina. We abandoned the Taormina after launching a boat, which was swamped by a drowning sailor, because the Thessalia was leaking and threatened to sink."

The crew of the Thessalia gave a different statement, to the effect that the pumps were not started until three hours after the collision; but they agree that the Taormina's people had no chance as she sank immediately. The General Navigation Company's report says that the Thessalia came at full steam and ignored the Taormina's repeated whistlings. A terrible scene of panic followed the collision. Many passengers were pitched into the hold through open hatches by the shock. Some leaped aboard the Thessalia, which resumed her course five minutes afterwards, heedless of the signals of distress.

Cape Colonna, or Kolonnaes, is the Cape Sunion of ancient history, at the highest point of which stood a temple of Athena. According to the opinion of Lord Byron, expressed in a note to "Childe Harold," there is "in all Attica, if we except Athens itself and Marathon, no scene more interesting than Cape Colonna."

THE PERILS OF THE SEA.

The Guion Line Arizona Run into by a Coasting Schooner.

QUEENSTOWN, Sept. 14. The Guion line steamer Arizona from New York Sept. 5 for Liverpool, arrived here yesterday in a battered condition. Early Sunday morning, Sept. 6, while the vessel was in a fog but steaming rapidly, an unknown sailing vessel believed to be a large coasting schooner struck stern on the Arizona's port quarter. The passengers who were in bed at the time of the accident were awakened by the shock and rushed on deck. It was seen that 30 feet of rails and a life boat had been smashed, that the deck was damaged and that several plates had been bent, but otherwise the Arizona escaped injury. The Arizona for a long time searched in vain for the unfortunate sailing vessel. Part of her bowsprit was left on the Arizona's deck. From wreckage seen it is feared she foundered.

Pleuro-Pneumonia in Cumberland.

NEWCASTLE, Sept. 14. The Board of Agriculture are still continuing the slaughter of cattle which were exposed to infection on the farm of Mr. Walker, at Sellafield, and up to Saturday no fewer than 700 had been killed. A suspicious case has also occurred on another farm, from which it is feared serious results may proceed.

BIRTH.

TURNER On Friday, Sept. 11th, 1891, the wife of Mr. W. R. Turner, of the son.

DIED.

CURTIS—In Peterborough, on Sunday, 13th Sept., 1891, George Arthur, infant son of Mr. Wm. Curtis, aged 13 months and 14 days. Funeral on Tuesday afternoon at 2 o'clock from the residence on Boundary Line at end of Gilmour street.

Purity Your **Blood**

importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is hereditated and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

Scratched 28 Years

A Scaly, Itching, Skin Disease With Endless Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me $300.00 and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body, and got under my nails. The scales would drop off and all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was $5 worth. If you had been here and said you would have cured me for $300.00, you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

DENNIS DOWNING, Waterbury, Vt.

Cuticura Resolvent

The new Blood and Skin Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), instantly and speedily cure every species of itching, burning, scaly, crusted, pimply, scrofulous, and hereditary diseases and humors of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scrofula.

2,000 PEOPLE PERISH.

TERRIBLE FLOODS DEVASTATING THE PROVINCE OF TOLEDO, SPAIN.

Floods Also Reported From Alicante Valencia and Bodago Many Persons Dying of Hunger The Queen Gives $10,000 The News Growing More Appalling Hourly.

MADRID, Sept. 15. Official information has been received from the scene of the terrible floods now devastating the Province of Toledo. According to the news received 2,000 people have already perished, and an immense amount of damage has been done by the swollen waters. At present it is utterly impossible to render assistance to the survivors, as all roads and railway communication with the scene of the disaster have been cut off.

Official telegrams report that 1500 persons perished in the destruction of Consuegra by the overflow of the Anaranjuillo. Hundreds of others were injured by falling buildings, and emotions minutes of death prevailed. At other places many persons were drowned and much property was destroyed.

The Cabinet has decided to take measures for the relief of the destitute.

News comes in slowly from the flooded districts, each succeeding telegram adding to the public sadness.

The strongest efforts are being made to repair railways and telegraph lines, but the work is necessarily somewhat slow while the rain continues.

Fresh floods are reported in Almeria, Valencia and Bodago.

Four hundred houses have been ruined in Almeria and many families are left homeless. Five hundred houses are in ruins at Consuegra and the occupants are buried under the debris. Two hundred lives have already been recovered. Many more are dying of hunger.

The Queen has sent the superintendent of the palace her own private account money, clothes and provisions for the sufferers. The Queen gave 5000 pesetas to start a relief fund. A national relief fund will be opened.

Troops will assist in carrying away the ruins and burying the dead.

Toledo.

A central province of Spain, in New Castile, bordering on Avila, Madrid, Cuenca, Ciudad Real, and Caceres; area, 5,047 sq. m.; pop. in 1870, 349,272. The surface is generally mountainous, and there are elevated plains near the centre. The Tagus flows W. through the middle of the province. The city of the same name stands on a rocky, height, around which the river in horseshoe shape flows in a deep and narrow channel, crossed by two stone bridges 160 feet in height, one of which, built by the Moors, consists of a single arch. The town is encircled by two walls, originally Roman, but repaired and extended by Goths, Moors, and Spaniards, and entered by nine gates. The streets are steep, crooked and narrow. The principal manufactures are woollen and silk goods, oil, leather, and the celebrated Toledo blades, made in the royal sword manufactory two miles from the town.

Keeping Jews Out of Palestine

ODESSA, Sept. 15. Under the orders of the Sultan the Turkish authorities are trying by executing the edict against the Jews who are emigrating from Russia to Palestine. Over 1,000 Russian Jews were refused permission to land at Jaffa last week, and were sent back to Odessa. The Porte will allow a fixed number of Russian Jews in Palestine on return for the payment of a certain head money. Baron Hirsch, driven by the necessity of the situation, and eager to help the Jews at any cost, will probably assent to the Sultan's cutting conditions.

Cable Chat

The Strikers in Mulhouse have been ended.

The village of Redl, in the Tyrol, was destroyed by fire yesterday during the absence of the inhabitants at a religious festivity.

The Paris Temps says Henry M. Stanley is planning a new congo expedition for King Leopold.

The steamer Sorata at Plymouth from South America, reports the yellow fever is raging at Rio Janeiro, and that two Portuguese died of the fever on the voyage.

It is stated that the Feader has taken up the new Russian loan. This is regarded as important news. The credit former being the first to take part in the issue of the loan.

Yesterday was a trying day on the London Stock Exchange. The settlement was heavy, but it progressed favorably. The general tendency of business was towards realizations.

An Austrian spy named Krasnicki, has been sentenced at Kieff to be transported to Siberia, and three Russians who were his accomplices, have been sentenced to eight years penal servitude. Krasnicki studied a map attached to the staff of the 12th army corps to purloin military documents.

An Italian Tragedy

AVELLINO, Sept. 15. A tragic event took place here yesterday resulting in the death of a leading member of the Italian nobility. Baron Enrico Brescamertra, a married man, 30 years of age, had been arrested on a charge of wronging his cousin. He had a preliminary hearing in court this morning, and after some of the testimony had been taken the case was adjourned and the accused admitted to bail. As he was leaving the court room a brother of the young girl stepped forward and drawing a revolver shot him two on the head, causing instant death.

Generous Contributors.

ST. PETERSBURG, Sept. 15. Enormous sacks have been placed in the Kazan Cathedral for the receipt of scraps of food, which will be sent to the famine districts and distributed. Some pieces of bread not larger than a rabbit, which had been toasted by the contributors, were found among the donations.

A Big Swim.

LONDON, Sept. 15. Dalton, who claims to be an American champion swimmer, and two expert English swimmers, Fisher and Albert, start together Monday next from Cape Gresnez, near Boulogne Sur Mer, France, in an attempt to swim across the English Channel to Dover.

CANADIAN CURRENCY.

CHINESE AND INDIAN WEDDING—A MARRIAGE IN THE ARCTIC CIRCLE.

Cardinal Taschereau Says the Girl Who Cures is a Fraud—An Ottawa Lumber Strike Killed for a Burglar—Capital Notes Frank Risch Acquitted.

VICTORIA, B.C., Sept. 15.—The first marriage that has ever occurred between North American Indians and Chinese took place the other day in the north of this province, when Quong Yo Lok, a highly educated Chinaman, was married to a woman of the Songhies tribe by a Methodist minister at Alert Bay. Both are converts to the Methodist Church and will enter the field as missionaries.

Rev. Mr. Somerfield, Church of England missionary, in Yukon River, has just performed the first Christian marriage ceremony that ever took place in the Arctic circle.

Thirty-nine miles above that place is a small log cabin where Rev. Archer Hosse, a young missionary, has lived alone for two years. Four months ago he went to England and returned a few weeks after. In the end of June last a young lady from Maidstone, in Kent, reached the mouth of the Yukon River under the guidance of two other missionaries, who escorted her over snow and ice to the rough cabin that was built years ago to mark as near as possible the boundary of the Arctic Circle. Here she was met by her betrothed and in the presence of three Indians and two other persons the ceremony was performed.

SAYS SHE IS A FRAUD.

Cardinal Taschereau Condemns the Faith Placed in the Girl Who Cures.

QUEBEC, Que., Sept. 15. A mandament from Cardinal Taschereau was read in the Catholic churches Sunday condemning *the faith manifested in a little girl, who has* exhibited herself to the credulous French Canadian population as endowed with supernatural curative powers. The mandament says that it is not only ridiculous but also a sin, on the part of the girl, and on the part of believers. It will be hard on his eminence to extirpate this belief from the people here, as the girl, who, by the way, is only eight years old, has performed some very remarkable cures in *Quebec, among which, is that of cancer,* two years old, which was eating the life out of a woman. The cancer decayed under the magic touch of the child and the woman is now in a fair way of recovery. The fame of the child has grown to such an extent that a Protestant minister of Ottawa city has made a special trip to Quebec to secure the little wonder, and actually brought her to Ottawa to try to cure his wife, who has been given up by some of the most renowned specialists.

A FATAL MISTAKE.

An Employer Kills an Employee Thinking Him a Burglar.

MONTREAL, Sept. 15.—A blacksmith named Edward Lee residing at St. David's road in his employ a young man named Cothour, aged 23. The latter boarded with his employer and slept at night in a room adjoining that occupied by the latter and his wife. To reach his room Cothour had to pass through his employer's bedroom. On Friday evening Cothour passed through the room as usual and, hearing a noise, his employer seized a shotgun and fired, killing Cothour instantly. A coroner's jury justified the homicide.

Capital Chat.

Prorogation is now placed for two weeks from to-day or probably a week from Saturday next.

The Empress of Russia is confined. Speaks some of the time, but has not yet appeared.

OTTAWA, Sept. 15.—Senator Lacoste, Speaker of the Senate, is arranging to leave for Quebec, where he accepts the position of Chief Justice of the Province.

Mr. Bunting and Organizer Preston are authorities for the statement that the Opposition at Ottawa will spring their bigness' scandal to-day in connection with section B of the C.P.R. construction, already notorious in Parliament and the law courts.

In the Senate yesterday Hon. Mr. Miller moved for all correspondence between His Excellency the Governor-General and the Lieut. Governor of Quebec in connection with the Baie des Chaleurs Railway, whose affairs created the recent scandal.

In the Senate Hon. Mr. Reesor gave notice that he will call the attention of the Government to the great disparity of the charges per head on cattle shipped to Liverpool from Canadian and American ports respectively, the former charging 70 shillings per head while the latter charges 20 shillings per head.

Civil War, Etc.

QUEBEC, Sept. 15. Le Canadien, (Mr. Tarte's paper), had an article yesterday, on the political crisis, headed "Civil War, Oppression and Military Intervention. It says: "We appeal to the citizens who have something to protect in the province to keep within the bounds of order the hotheads, the disorderly element, and the exalted of all shades. We entreat the Senate not to push things further. It is an irresponsible body, enjoying but little influence for the place. Let it not try to interfere in the present crisis. It will provoke tempests whose ravages cannot easily be forestalled.

$2,000,000 Worth of Seal Skins.

VICTORIA, B. C., Sept. 15. Part of the seal skins brought in by the sealing fleet of this port will be shipped this evening by the steamer City of Kingston for Tacoma, going thence to Montreal on a special train of ten cars. The whole is valued at the present price of skins at upward of two million dollars.

This is the most valuable cargo that has crossed the continent from this country.

Major Edwards' Successor.

KINGSTON, Sept. 15. It is rumored that Captain English of the Imperial forces has been appointed instructor of artillery, etc., at the Royal Military College, caused by the resignation of Major Edwards. It is said that Major Edwards, on his way to England, told a friend that he intended petitioning the Queen to have his rank in the army restored to him. The position capitalized was worth £15,000.

BRITAIN TAKES A STEP

IN SECURING MITYLENE, AN IMPORTANT STRATEGETIC POINT.

Which Stamps Premier Salisbury as a Worthy Foreign Successor of the Late Lord Beaconsfield—Intense Excitement in Great Britain and France.

PARIS, Sept. 15.—A decided feeling of uneasiness has been caused in diplomatic and financial circles here by the receipt of a despatch announcing that Sigri, on the west coast of Mitylene, an island belonging to Turkey, near the coast of Asia Minor and within easy steaming distance of the Dardanelles, has been occupied by a detachment of British troops or marines landed there *from a British ironclad. No details have* been received and the report lacks confirmation.

Upon the opening of the Bourse here yesterday there was a general weakening of prices due to the reported action of Great Britain in landing troops at Sigri. The Frankfort Bourse was also weak owing to the same cause.

CONFIRMATION OF THE REPORT.

CONSTANTINOPLE, Sept. 15.—A detachment of the blue jackets and marines from a British ironclad, accompanied by a battery of light field pieces and several Gatling guns, was landed Friday morning at Sigri, on the Island of Mitylene, formally occupying that place in the name of the Queen of England. There is a good harbor at Sigri, and it is supposed the British naval officers at Mitylene intend to fortify the island and make it a coaling station and rendezvous for the British Mediterranean fleet. Sigri is on the east coast of Mitylene and about sixty miles from the mouth of the Dardanelles.

EXCITEMENT IN LONDON.

LONDON, Sept. 15. As soon as the report of the occupation of Mitylene by a British force was received here there was considerable excitement. Up to 5:30 p. m. yesterday there has been no official utterance upon the subject.

Officials at the Foreign Office decline to confirm the report that Great Britain had taken action in the Dardanelles question.

A despatch from Constantinople states that the occupation of Mitylene is an accomplished fact and it has found an echo on the continental bourses.

The St. James Gazette says the startling news obviously possesses political significance of the first importance.

It adds that Mitylene has a position of considerable strategic importance although possessing little in the way of fortification.

STILL MORE STARTLING.

LONDON, Sept. 15.—Government officials who have been questioned upon the Mitylene incident deny to having any knowledge of the landing of British forces at Sigri. They say, however, that a detachment of blue jackets may possibly have landed there for drill purposes.

Later this morning a still more startling despatch comes from Athens. It says that the Greek consuls at Mitylene and at Smyrna have wired the Greek Government that *thirteen British men-of-war* landed troops and guns and Sigri Friday, and that they have already strongly fortified that place. Lord Salisbury's chief private secretary has returned unexpectedly to London and is busy at the foreign office.

FOREIGN CONFIRMATION.

CONSTANTINOPLE, Sept. 15.—*It is stated* that the French and Russian ambassadors here have received telegrams from their respective consuls in Mitylene announcing the occupation of Tigri, and stating that guns have been landed and that the islet has been surrounded with torpedoes.

THE ISLAND OF MITYLENE,

on the west coast of which is Syri, seized by the British, is one of the group of the Grecian Archipelago, is the most productive of those islands; is one of the largest and has a splendid harbor capable of floating a dozen of the largest ironclads in the British navy. The island is only about 50 knots from the eastern entrance of the Bosphorous, and if fortified the power holding it would command that important straight. Most of the people on the island are, or were, Greeks, but the Turks are numerous. The centre of the island is mountainous, sloping to the sea on all sides and producing excellent wine and figs. Thirty years ago half a dozen British men of war, vessels of the old type, anchored there under the command of Sir George Seymour, and were well received by the inhabitants, both Greek and Turkish. It was on that the great importance of the place *(natural strength)*, commanding as it does the eastern entrance to the Bosphorous, was apparent. In seizing Mitylene, Lord Salisbury has made a move worthy of the late Lord Beaconsfield. Lesbos, the ancient name of an island in the Grecian Archipelago, belonging to Turkey, called during the Middle Ages Mitylene from its capital city and hence by the modern Greeks, Mitylen or Melino, and by the Turks, Midilli. It lies 40 miles south-west of Lemnos q. v.), near the coast of Asia Minor, from which it is distant only ten miles; area, about 600 square miles; population about 40,000, of whom from 15,000 to 18,000 are Turks, the rest are Greeks. Lesbos is rather mountainous, but only one of the mountains attains to an elevation of 3,000 feet. The climate is salubrious beyond any other island in the Ægean, and the soil is fertile. Anciently it was famous for it wines. Horace celebrates the innocentis pocula Lesbii; but the modern produce is indifferent. Its figs, however, are excellent; but its principal exports are oil, timber, and gall nuts. The chief towns is Castro, or Mitylene, on the site of the place of Terpander, Arion, Alcæus, Sappho, Pittacus, Theophrastus and Cratippus.

THE SNEAKING SULTAN

Opens the Front Door to Russia and Lets England in by the Back Way.

LONDON, Sept. 15. Anxiety as to the position of the British Government to-day is based growing a point of vantage near the Dardanelles was first heard of in the inner diplomatic circles of Vienna and Berlin soon after Sir William White's audience with the Sultan on Friday last. No thing about it, however, appeared in European newspapers till the Constantinople cables startled the bourses and the public yesterday.

The reports were at first treated as mere rumor, but the absence of a Foreign Office statement on of the reports and until the details of the action of the British warships are known the full significance of the movement cannot be revealed. It can be stated on high authority, however, that Sir William White asked the Sultan to assent to the British occupation of some point within striking distance of the Straits and offering a good harborage for the fleet. Penelonsa at Besika Bay, where the fleet rendezvoused from 1876 to 1878, have been surveyed recently and were reported to the admiralty favorably. The offer made to the Sultan revived the request which the British Government made in 1877, prior to the acquisition of Cyprus to purchase an island near the Dardanelles. This request was long the subject of negotiations and was abandoned on the signing of the Anglo-Turkish convention in June, 1878. The seizing of Sigri, therefore cannot have occurred without the connivance of the sultan an official announcement issued in Constantinople yesterday stated that a complete entente has been arranged between Sir William White and the Sultan, but the terms of the restored harmony were not mentioned. The intimation that a measure of the island would be followed by its fortification is modified by a Berlin report to night that Lord Salisbury does not contemplate a permanent occupation of the island, but has designed the movement rather as a demonstration to checkmate the Franco-Russian game. The movement accentuates the diplomatic crisis.

Admiral Hoskins in command of the British Mediterranean squadron, is about to be replaced by Admiral Tryon, who hoisted his flag in 1857 on the Nile and who sailed from Portsmouth for Gibraltar on Friday to take over the command.

A Boy Maimed for Life.

BELLEVILLE, Sept. 15.—Saturday afternoon a boy named Summers, 15 years of age, was working a derrick at Point Anne quarries when his left leg got caught in a cog wheel and sustained injuries so serious that when he was taken to the hospital it was found that amputation was necessary.

Children Cry for Pitcher's Castoria

TORONTO TOPICS.

Events of More Than Passing Interest in the Queen City.

TORONTO, Sept. 15.—Yesterday was Citizen's Day at the Industrial Fair, but still thousands of outsiders flocked to the city to take in the sights of the great show. The fact that the council had declared a half holiday contributed materially to swell the crowd, and it was immense. The weather was delightful, and the exhibits and the various events were inspected and viewed with interest. The show of horses and cattle was particularly good, both being larger and better than was ever before seen at any exhibition in Canada. There were 1100 horses and between 600 and 700 cattle exhibited, and magnificent specimens were common in each class. The receipts for the year, so far, and last two years, are shown in the following table:

	1889.	1890.	1891.
First day	$ 590	890	635
Second day	1010	1174	891
Third day	3214	631	2810
Fourth day	3985	4084	4938
Fifth day	4665	4080	3834
Sixth day	12,194	15,488	14,226
Total	25,648	26,327	25,334

Another accident happened at the new Parliament buildings in Queen's Park yesterday. The scaffold, forty feet high, on which John Bell and Wm. Shackell were working gave way, and they were precipitated to the ground below. Both men were seriously injured and they were removed to the hospital in an ambulance. Shackell suffers more than his companion but it is thought Bell's injuries are the more serious.

Mr. Hodgins, Q. C., the Master-in-Ordinary, yesterday sold the remaining $850,000 Central Bank assets to Geo. A. Hogaboon *for $44,500.* This will enable the liquidators to declare another dividend of 6 per cent., making 99½ already paid. The liquidation proceedings were opened on July 4, 1888, and the liquidators yet hope something may turn up by which they will be able to pay an even 100 cents on the dollar.

There were over nineteen millions of gallons of water pumped daily by the water engines during the past seven days, or a total of 134,349,858 gallons. The week started with 16 feet 3 inches of water in the reservoir, and to-day there are only 17 feet 3 inches. The excessive use of water for street watering and Exhibition purposes explain the deficiency.

Ann Unsworth, who resides on Poucher street, was removed to the general hospital yesterday. She is terribly burned about the lower limbs, the injuries being received from her burning dress, which caught fire from hot ashes from the stove.

Notwithstanding the screw put on by the U. S. coal combine, the executive of the local combine has decided not to put up the price at this time.

THE AMBITIOUS CITY.

A Yacht Sunk—Hamilton Musicians to Star the Continent.

HAMILTON, Sept. 15.—The small yachts of the Royal Hamilton yacht club sailed for the Marguerite and Greening cups on Saturday afternoon. The wind was fresh, but was very puffy. Unfortunately Eclipse was sunk, and the race for the twenty-one footers will have to be sailed over again.

Arrangements are nearly completed for Mrs. F. Mackeican's concert tour in the Northwest. Mrs. George Hamilton and Miss Nora Clench will accompany her, and Paul Ambrose will probably be the accompanist. The western manager has accepted their terms, and will advance expenses. The first concert will be held in Winnipeg on Oct. 7, and the tour will last about a month. *The engagement is for twenty concerts.*

ST. KITTS.

Frank Risch Discharged Found Dead in Bed.

ST. CATHARINES, Sept. 15.—Yesterday morning Mrs. Nancy Munro, mother of Dr. Leitch, was found dead at the latter's residence in King-street. The deceased lady, although in her 73rd year, was in the best of health on Sunday and attended Divine service. At the usual hour she retired apparently in better health than usual.

At the assizes yesterday Frank Risch was placed on trial charged with the abduction of Miss Rolls. The jury, after a short absence, returned a verdict of not guilty. It is understood a charge of perjury regarding the marriage license is to be brought against Risch for prosecution.

Suicide by Poisoning.

TORONTO, Sept. 15.—Martin Farrell of Jane-street, Toronto Junction, was found dead in Carroll's Inn, near the Humber on Sunday morning last. It was a case of suicide by poisoning. Farrell, who formerly lived in Etobicoke township, was a man advanced in years.

The Telegraph Tapper Acquitted.

MONTREAL, Sept. 15.—James McGinnis, charged with tapping the telegraph wires of the G. N. W. Tel. Co., was yesterday discharged by a jury at the assizes court.

CURTIS MAY BE INNOCENT.

A Candy Butcher Met a Man who Heard Another Man Say So.

CHICAGO, Ill., Sept. 15.—A special to the Inter Ocean from San Francisco, says: There has developed a remarkable change of public sentiment, and half the people now believe that W. R. Curtis, the Canadian, is an innocent man. There is much mystery surrounding the whole affair. The theory of Curtis friends that another hand than his fired the shot which killed Officer Grant gains support from a story told by Eli Denison who has charge of the news matter distributed on trains of the Southern Pacific Co. Denison makes the following statement:

"On the ferry boat to-day (Sunday) I met a man I knew by sight but not by name. We were discussing various subjects, and the conversation naturally drifted to the murder. This talk about Curtis having done the killing is all a mistake, and the stranger. The whole truth will come out in a few days and probably at the examination. I met a man to-day who says he saw the tragedy, and he is ready to take oath that Grant and Curtis were accompanied by a third man who did the shooting and then ran away. Even when I met him he was on the way to Capt. Lees, to whom he said he intended to give the story.

Nickel Plates All Right.

WASHINGTON, Sept. 15.—Further tests of nickel and steel plates were made Saturday, the result being a further demonstration of the superiority of nickel steel over all steel plates as a defiec. The steel target was perforated and the sub-structure supporting it wrecked, while the projectile glanced off the nickel target and was itself smashed to pieces.

Terrible Diphtheria Epidemic.

SHELBYVILLE, Ind., Sept. 14.—Diptheria is epidemic here. The Public Schools have been closed. Thirty deaths have occurred within the past 48 hours. Adults are being attacted as well as children, and the disease is in every portion of the city.

Shot a Sheriff.

LOUISVILLE, Ky., Sept. 15. John McCargue, a sheriff at Somerset, Ky., was shot dead last night. He had been out of town and having returned was putting his horse in the stable, when he was fired upon. His wife and daughter heard the shot and ran out to the stable. They saw Joe and Jno. Gilland, brothers, standing outside the stable with pistols in their hands. One of the men snapped a pistol at the women but it failed to fire and the assassins ran away. The Gillands are under arrest and there are threats of lynching.

Two Days Longer Than the C.P.R.

SAN FRANCISCO, Cal., Sept. 15.—The Pacific mail steamer China, which arrived yesterday morning, broke the record between Yokahama and San Francisco. She made the voyage in twelve days, eleven hours and fifty-five minutes, which, if proper connections be made, will land Chinese mails in Queenstown in twenty-two days.

"Just as Good."

Say some dealers who try to sell a substitute preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statements as this induce you to buy what you do not want. Remember that the only reason for making it is that a few cents more profit will be made on the substitute. Insist upon having the best medicine—Hood's Sarsaparilla. It is peculiar to itself.

MANTLES AND MANTLE CLOTHS AT TURNBULL'S.

We are showing a window of Mantles this week at an unheard of price in the history of Peterborough.

$2.00

takes the choice of the lot, they are not trash but good cloths and well made, in all colors, worth three and four times the money, the only objection being many of them have the plain sleeve, which if the purchaser thinks necessary can be easily altered.

Another lot we have to offer at $3.00. A glance at, by the most sceptical, will cause them to put their hands in their pockets and see if they have brought their money.

For $5.00 we show a nice cloth Mantle with a braided sleeve, others of the new style are—well it would take a lady to describe them.

Beaver cloths in all colors, high collars richly braided, the edge faced with fur, double breasted and flap pockets, three quarter length, when on they are very comfortable looking and stylish. Prices from $6 to $15.

We have imported this year a lot of Scarlet Jackets and Coats lined with satin, all the new shapes, they range in price from $18.00 up. We have also a well assorted stock of long Coats in black and colors to select from.

In Children's wear we have Dozens all the way in price from $1.50 to $8.00.

Our stock of Cloths for the ordered work department is more complete than ever and with increased facilities will be able to do more work and turn out all orders promptly. Perfect satisfaction always guaranteed.

Bargain Days, every TUESDAY and THURSDAY, and such bargains. Just fancy lovely Fawn Mantle Cloths at 75c., just what is considered cheap in town at $1.25. If people would only follow out our suggestions, they would soon be on the road to wealth.

New styles in Black and Fawn Mantles worth $7.00, are certainly a bargain at $5.00.

Our

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, Nerve and Brain RESTORER, as they supply in a condensed form the substances actually needed to enrich the blood, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR, correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY GIRL who is ailing, from whatever cause, should take them. They cure all suppressions and irregularities, which inevitably result in disease.

YOUNG MEN should take these PILLS. They will cure the results of overwork, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will bring the glow of health to the cheek.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing

16 MILLS ON THE DOLLAR.

That is the Rate for Protestants This Year.

Roman Catholics Pay Four fifths of a Mill More—An Increase of one Mill all Round—The Estimates in Detail—An Addition to the Fire Alarm System—Railway Crossing Gates Needed.

At the meeting of the town council Monday night the estimates for the year were presented and the rate struck—16 mills for Protestants and 16 4/5 for Roman Catholics. The Finance Minister's remarks below and the estimates in detail will furnish ratepayers with all available information on the subject.

There were present at the meeting Mayor Stevenson and Councillors Kendry, Langford, Moore, Dawson, Kelly, Hall, Wilson, Davidson and Cahill.

COMMUNICATIONS.

Mr. Jas. H. Chatten, sr. applied for a position on the police force—Referred to the Committee on appointments.

A communication was read from the Provincial Treasurer, stating that there was $400 in the Treasury to the credit of the town on account of Scott Act fines, which would be refunded to the town when a formal resolution was passed—Received.

Mr. Chas. B. Robinson asked that the sidewalk on Stewart street south of Townsend, which had been torn up when the Edison siding was built, be laid down again between the rails—Referred to the Street and Bridge Committee.

Mr. Jno. Corkery stated that an electric light pole interfered with the entrance to his yard, and called on the council to remove it—Referred to the Street and Bridge Committee.

The Secretary of the Fire Brigade applied for new rubber outfits for the firemen to use during fires.

Mr John Finlay, Reeve of Norwood, sent the Mayor a letter explaining his action in moving at the last meeting of the county council, that $150 be granted to each of the West and East Riding Agricultural Societies, on condition that the town granted $300 to the West Riding Society. The town council having objected to this dictation of terms to them by the county, Mr. Finlay begged to assure the town councillors that his motion was made in the best interests of the societies, and he hoped the explanation would be satisfactory. The clerk was instructed to acknowledge the communication.

Children Cry for Pitcher's Castoria.

Sproule's Superb Studio.

The Perfection of Equipment and Adaptation to the Highest Products of the Photographic Art.

Two years ago in the DAILY EXAMINER a brief description was given of Sproule's ground floor studio, on the occasion of his removal from Hunter street where he had been in business for a period of twenty years. Now, so great has been the growth of business consequent upon the production of the highest grade of photographic work at a reasonable price, two more stories, not counting the basement, are added to Sproule's studio, making it the most complete and the best equipped, as it is the best manned, photographic establishment in the Dominion. It has a wide range of capacity, and can turn out a photograph from the size of one that can be worn in a finger ring to one six feet square—life size or larger if desired. The finest and largest lenses in the market and the best of fine scenery, new scenery every six months, painted to Mr. Sproule's order by the best artist on the continent; and all the rest of the equipment is on the same first class scale.

There have been added the second and third stories, so that now from basement to roof, No. 170 Charlotte street is exclusively devoted to the different departments of Sproule's spreading and rising business. The first floor contains the operating room, and the light and adaptability have proved it to be the best than can be produced: and its accessibility will make it a favourite to mothers who wish to have portraits of their children, which Sproule has made his most successful specialty.

The second floor is fitted up in the best style as an artist's studio, and for the special production of large work which Sproule has made so grand a feature of his business, as good as the best produced in the cities, and infinitely better than the itinerant agents can produce. The public will find permanent satisfaction in dealing with a first class artist and responsible citizen whom they know where to find, every day (except Sunday.) The third story contains the framing rooms where the large photos are mounted and framed. A great stock of mouldings from the commonest to the most expensive, suitable for framing high art works, engravings, etchings, etc, which also form a feature of Sproule's studio is kept on hand.

Another of Sproule's great specialties is his landscape photos, including residences, grounds, etc. He has the best of cameras and in spite of amateur photography he does a large business in landscapes. He does not object to amateurs—their efforts serve to emphasize the excellence of Sproule's work.

To sum up the best equipped studio, the best light, the best operators, the best finishers in the district, must produce the best work in the district, and remember that Sproule's prices are extremely moderate and his business methods are square, prompt and satisfactory.

Pale, drooping girls, worn weary with a burden of disease almost greater than they can bear, should take heart and suffer no longer. Dr. Williams Pink Pills are a certain cure for all those diseases peculiar to womankind. They restore the blood, build anew the nerves, and leave happiness and health when used. Sold by dealers or sent on receipt of price (50c. a box) by addressing Dr. Williams Med. Co., Brockville, Ont. dw

All ages and conditions of people may use National Pills without injury and with great benefit. dw

They have discovered it! "What?" Vita Ore, which is warranted to cure Diphtheria or any Throat trouble, Dyspepsia or Female Weaknesses. Put up by the Vita Ore Co'y, Box 89, Belleville. d303m-w

Purity of ingredients and accuracy of compounding, make Milburn's Aromatic Quinine Wine the criterion of excellence. dw

Regina Rippies.

"I took six bottles of Burdock Blood Bitters for liver complaint, headache and dull stupid feeling, but now I am entirely well and healthy, having also a good appetite which I did not have previously."—Mrs. T. Davis, Regina, N.W.T.

From the Jaws of Death.

Some surprising effects have been recorded from the use of Miller's Emulsion of Cod Liver Oil in the most desperate cases of consumption. When all other remedies have failed Miller's Emulsion nearly always succeeds. It is the best kind of flesh and blood maker, and has been used with marked success by the physicians in the Insane Asylum, Penitentiary, Hotel Dieu, and General Hospital in Kingston, Ont. In big bottles, 50c and $1 at Peterborough drug stores. dw

Could Scarcely See.

Mrs. John Martin, of Montage Bridge, P. E. I., writes:—"I was troubled last summer with very bad headaches and constipation and sometimes could scarcely see. One bottle of Burdock Blood Bitters made a complete cure of my case, and I wish you every success.

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Clinton Clippings.

"I had for years been troubled with dyspepsia and sick headache and found but little relief until I got Burdock Blood Bitters which made a perfect cure. It is the best medicine I ever used in my life."—Hattie Davis, Mary street, Clinton, Ont.

A Fact

WORTH knowing is that Blood Diseases which all other remedies fail to cure, yield to Ayer's Sarsaparilla.

Fresh confirmation of this statement comes to hand daily. Even such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge, 110 West 125th street, New York, certifies:—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

"Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1: six bottles, $5. Worth $5 a bottle.

The Cod That Helps to Cure The Cold.

The disagreeable taste of the COD LIVER OIL is dissipated in

SCOTT'S EMULSION

Of Pure Cod Liver Oil with HYPOPHOSPHITES OF LIME AND SODA.

The patient suffering from CONSUMPTION, BRONCHITIS, COUGH, COLD, OR WASTING DISEASES, takes the remedy as he would take milk. A perfect emulsion, and a wonderful flesh producer. Take no other. All Druggists, 50c., $1.00.

SCOTT & BOWNE, Belleville.

A Handsome Prize.

An Evidence of What a Genuine Magazine Competition Offers.

On Friday there arrived from Toronto, for Miss M. Hora, a handsome Shetland pony, harness and cart, being the first award in the Royal Quilt Competition of *The Canadian Queen* magazine. It attests the genuine nature of the magazine's contests by its excellent condition and value. The *Queen* has frequent competitions and has made innumerable awards, displaying a generosity quite surprising to those who have had experience of the limited field for Canadian journalistic enterprise. But the *Queen* has been a success as a business venture from the start, and is growing in literary excellence steadily. It covers the field of fashion, as well as light reading; talks to the household, the young and indeed all home classes. The competitions have been used to assist the introduction of the magazine, for where it is introduced it is quite certain to remain a monthly guest. The leading prizes have been made, as instance this latest to Kingston, while many smaller prizes have rewarded the moderately successful among competitors. *The Canadian Queen* is truly royal in its ways.—*The (Kingston Ont.,) Daily British Whig, June 27th, 1891.*

You hardly realize that it is medicine when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use. dw

B. & C. corsets boned with Kabo never works up or down or breaks. If it does in a year, you shall have your money back from the store where you bought your corset.

The steels may break—the best of steels have their limits of strength. But Kabo has no breaking-limit; it doesn't break at all.

And the B. & C. corset is perfect in form.

The store has a primer on Corsets for you.

THE OWNER OF NIAGARA

GEN. PETER BUELL PORTER ALMOST PASSED BEYOND MEMORY.

An Interesting Figure Among the Leaders of His Time—Prospects of Niagara Falls—Will One of the Largest Cities of the Continent be Built Upon Its Banks?

Many believe that on the banks of the Niagara River will grow up a city as large as Chicago within the next twenty-five years. The belief is due to an idea that the water power of the Niagara River can be transformed into electricity and become as limitless in utility as it is now in waste, and to the notion that the lakes are going to be, possibly, of more importance than the Atlantic Ocean for trade and navigation, that the whole terminal base of Lake Erie will become circle, and this as a consequence of the Niagara River joining the harbor of prime consequence with natural power unequalled in the world.

The Canadians and the Americans have built a park around Niagara Falls in time to forestall the enclosing of those falls by mills, dynamos, and city sewer. At this moment the tunnel which is to use the rapids and carry their power around the Falls is in the hands of the builders. Three railroad bridges now span the Niagara River about the falls, and the fourth is to be commenced at once. Yet, who knows anything about the proprietary history of Niagara Falls?

We do know that two Presidents of the United States have come out of Buffalo, and that Seward and several other important men came from extreme western New York, but how many of us are aware that the original owners of Niagara Falls filled high places in the American Government? Gen. Peter Buell Porter, who died in Niagara Falls forty-seven years ago was offered the command of the entire American army in 1815, was the first soldier to make a specialty of the volunteers as opposed to the regular army soldiers, and, having been a projector, Commissioner, and executor of the Erie Canal and the establisher of our boundary with Canada, became the Secretary of War under President John Quincy Adams, and one of the founders of the Whig party in New York, as he had been among the most effective spirits of the Democratic party in the war of 1812. He had a grandson, Peter Augustus Porter, born about Niagara Falls in 1827.

GEN. PETER BUELL PORTER.

brilliant as a young man, and a graduate of Harvard, who was killed in Virginia in 1864. Having refused to leave the army to run for Secretary of State on the Republican ticket he died on a breast work at Cold Harbor. Few know also that the first cannon balls of home manufacture used in the Revolutionary war were made at Salmon by Joshua Porter, father of the owner of Niagara Falls, and a Colonel, although a physician, of that Augustus S. Porter, the nephew of Gen. Peter B. Porter, who died in Niagara Falls in 1872, was a United States Senator from Michigan. It is asserted that this family had greatness in numerous lenses, mixed with lawlessness to it more than passing consideration, and one thinks as feels repaid in walking in the cemetery of Niagara Falls, which is rather near to Suspension Bridge than the falls, to examine the almost stately tombs of these unique people.

There served in the Legislature of Connecticut from Salisbury before the Revolutionary war a member named Joshua Porter. For half a century he was one of those trusted men of Connecticut who begot and disciplined their sons for New York. At Salisbury was born Peter B. Porter a year before the Continental Congress met at Philadelphia, and he lived until 1844, when Texas had almost come into the American Union. Peter B. was graduated at Yale in Washington's term. He took his course of the Litchfield Law School, removed to Canandaigua, N.Y., in 1795, and remained there a good many years while surveying and platting large sections of territory of western New York and northern Ohio, and he finally removed to Black Rock in 1810 in time to see and share all the hazards of the war on that border with the British. He lived at Black Rock till 1835, when he removed to Niagara Falls. His brother Judge Augustus Porter, it is said, was an abler man by nature.

THE PURCHASE OF NIAGARA FALLS.

The brothers joined others in 1806 to buy the mile strip above and below Niagara Falls. They bought out their associates and subsequently added more land to the tract, and in 1814 they obtained a "grant, as it was called, or a State warrant, authorizing the bearer to locate 200 acres of any land unsold or unappropriated belonging to the State. The brothers placed that patent on Goat Island and the islands adjacent thereto. Goat Island got its name, it is said, from a goat that had to winter on the island during the Revolution and died there. When Gen. Porter was Commissioner to put down the boundary line he called the island Iris Island, and the boundary ran through the Canadian fall, setting all the islands over to the American side. The people urged to adopt the names Iris, perhaps not knowing what it meant and preferring the Indian name, as in the case of the beautiful dogwood blossoms and other plants which received them names from pioneers. In 1818 Augustus Porter made the first ground count Goat Island, and found it comprising then being to 1765. It was a about seventy acres, and in the course of the State of New York, acquiring for a park the border of the falls very properly paid to the owners what they so acquired, quite conveniently, and were to bring a good considerable income from. In 1817 Augustus Porter built the first bridge to Goat Island, which was carried away the next winter, but his connection pluck was equaled by [illegible] and he chose a better site. His second bridge was put up on the Indian Chief Red Jacket saw the bridge while being constructed by the sons of Porter. He saw the bulkhead built in shallow water near the shore rollers put on the flooring, and hewn logs, balanced by these rollers over the staircase, which logs being let down upon pikestaffs, piers were built around these staves and the work thus protected was carried to the [illegible] Red Jacket [illegible] Damned Yankee! Damned Yankee!" and walked away surely indignant.

Children Cry for Pitcher's Castoria!

and probably drunk. The Porters built a tower in 1825 on Goat Island forty-five feet in height and twelve feet in diameter at the base, which withstood all the energies of nature, and was removed by the State. Nicholas Biddle of Philadelphia, a liberal man, although Gen. Jackson fought him, contributed to erect the stairs at Niagara in 1829 from which Sam Patch made his leaps afterward. The first hotel at Niagara Falls was opened after the war, in 1815, and opposite at Judge Porter put up a small boarding house, in which were entertained President Monroe, Marshal Grouchy, Lafayette, and others. A carriage road was established on the Canadian side in 1829, previous to which the principal hotel at the falls had been on that side. It was named the Pavilion, but the Cataract House, put up in 1829, replaced that hotel, and half of the present house was finished in 1833. The International, next to the Cataract, now forms nearly a continuous block with its neighbor.

Fight Between Penitentiary Birds.

Boise City, Idaho, Sept. 14. For some month past numerous fist encounters have been had between convicts in the penitentiary here, and finally they concluded to have a fight to finish. The contestants were convicts Dunlap and Braithwaite.

After a week spent in training they met, with guards as spectators and another convict as referee, and had a most bloody fight. It is reliably reported that this was done with the full knowledge and consent of Warden W. S. Mack, and that he witnessed the fight, and had money bet on the result.

Guard Alexander Roberts, son of Prison Commissioner Roberts, was bottle holder for one of the combatants. All the officials of the prison were present exept Deputy Warden Kohney, who was away on leave of absence. The fight was a particularly savage one, Convict Dunlap being pounded until covered with blood and almost unable to stand, when his second (a guard) threw up the sponge.

The affair has caused a sensation and there is a clamor for an investigation. The attention of the State Prison Board has been called to the matter.

A Millionairess Missing.

Chicago, Sept. 14. Miss Ava, an English woman supposed to be worth over $1,000,000, who for some time has been carrying on a crusade against the slums of Chicago, is missing, and it is believed by her friends that she had been abducted. Recently she has received anonymous letters threatening her life.

Last evening Miss Ava entered the Jesuit Church to see a priest. She has not been seen since. The priest says she talked with him about 15 minutes and then left the church.

So to Speak.

Woman is wonderfully made! Such beauty, grace, delicacy and purity are alone her possessions. So has she weaknesses, irregularities, functional derangements, peculiar only to herself. To correct these and restore to health, her wonderful organism requires a restorative especially adapted to that purpose. Such an one is Dr. Pierce's Favorite Prescription—possessing curative and regulative properties to a remarkable degree. Made for this purpose *alone—recommended for no other!* Continually growing in favor, and numbering as its staunch friends thousands of the most intelligent and refined ladies of the land. A positive guarantee accompanies each bottle—at your druggists. Sold *on trial!* b

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

Off in Peril.

Lives of children are often endangered by sudden and violent attacks of cholera, cholera morbus, diarrhœa, dysentery and bowel complaints. A reasonable and certain precaution is to keep Dr. Fowler's Extract of Wild Strawberry always at hand.

To be free from sick headache, Biliousness, constipation, etc., use Carter's Little Liver Pills. Strictly vegetable. They gently stimulate the liver and free the stomach from bile. dw

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

A single scratch may cause a festering sore. Victoria Carbolic Salve rapidly heals cuts, wounds, burns and all sores. dw

What does "OR" mean? It means the only Reliable Kidney Cure ever put on the market. Put up by the OR Co'y, Box 89, Belleville. d303m-w

What Say They?

In popularity increasing. In reliability the standard. In merits the first. In fact, the best remedy for all summer complaints, diarrhœa, dysentery, cramps, colic, cholera, infantum, etc., is Dr. Fowler's Extract of Wild Strawberry. All medicine dealers sell it.

It can do no harm to try Freeman's Worm Powders if your child is ailing, feverish or fretful. dw

Every Lady Uses it.

Dyer's Jelly of Cucumber and Roses for chapped hands or lips as it effectually cures in every instance. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6d63

Why Suffer With Chapped Hands.

One tube of Dyer's Jelly of Cucumber and Roses will make them soft and white. Druggists keep it. W. A. Dyer & Co., Montreal. 6d63

Timely Wisdom.

Great and timely wisdom is shown by keeping Dr. Fowler's Extract of Wild Strawberry on hand. It has no equal for cholera, cholera morbus, diarrhœa, dysentery, colic, cramps and all summer complaints or looseness of the bowels.

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness and give strength and rest. dw

For overcoats and Russian circulars of first-class articles to keep you warm, but they will not prevent the pains of rheumatism. Ask W. R. Greatrex, Druggist, for a bottle of Royal Rheumatic Remedy. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge but by their gentle action please all who use them. In vials at 25 cents five for $1. Sold everywhere or sent by mail.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—168 Yonge St., Toronto

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT OF QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASES, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM, but if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

PERFECTLY RESTORED!

"I intended to let you know results of treatment, but thought I'd best wait, and after five months I must say, that I am thoroughly satisfied that I was perfectly restored to health, both as regards physical and nervous vigor, and I may also say, that I am engaged at work for the last five months, which I never could have stood but for your treatment."

The original of above letter is on file in our office. It is No. 81 in a collection of over 2,000 similar letters from actual patients. We have a

MONEY can be earned at our NEW line of work, readily and honorably, by those of either sex, young or old, and in their own localities, wherever they live. Any one can do the work. Easy to learn. We furnish everything. We start you. You can devote your spare moments, or all your time to the work. This is an entirely new kind, and brings a wonderful success to every worker. Beginners are earning from $25 to $50 per week and upwards, and no one who is industrious remains long without doing much better. Women do nearly as well as men. Many boys and girls are making handsome wages. Any one can become an expert and learn how to earn much money by reading and following the directions. It costs nothing to try the business. Nothing like it for those who want employment. Reader, if you want profitable work, send us your address and we will explain the whole matter, mail you FREE, a sample box of goods that will put you in the way of making more money than you ever thought possible at any business. Write to-day. Address, TRUE & CO., AUGUSTA, MAINE.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355.92
Increase over previous year	2,451,378.94
New Applications received in 1890	6,371,599.15
Increase over 1889	2,245,588.00
Cash income for year ending 31st December, 1890	859,078.87
Increase over 1889	325,938.35
Assets at 31st December, 1890	2,473,514.19
Increase over 1889	657,691.47
Reserve for Security for Policy-Holders	2,109,282.65
Increase over 1889	567,732.71
Surplus over all Liabilities and Capital Stock	253,175.69
Increase over 1889	75,649.08
Death claims fallen in during 1890	143,961.65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus,	1st Dec., 1881, (five years)	$64,824 07
"	" " " 1886, "	99,452 97
"	" " " 1890, (four years)	253,175 69

Philharmonic Society.

The members of the Philharmonic Society are requested to meet at the Y.M.C.A. hall, George street, at 8 p.m. sharp on Tuesday evening next, the 15th inst., for the first rehearsal of the Oratorio, "Emmanuel" (copies of which may be obtained from H. Thompson & Co., 406 George street). Ladies and gentlemen desirous of becoming members will kindly apply to the conductor, J. Churchill Arlidge. Subscriptions for the season for active members: gentlemen $1 50; ladies, $1.00. 2463

A Farmer on the Stage.

The unique characterization that has made "Alvin Joslin" so popular with the theatre goers, will entertain the patrons of Peterborough at Bradburn's Opera House, Friday evening next. The story of the play is doubtless familiar to all. It is a well told account of a few of the adventures in the life of "Alvin Joslin," an honest farmer of the "Old Homestead" pattern, who affords opportunities for mirth and pathos alike in recurring this season is said to be exceptionally good, the Brooklyn Bridge scene deserving particular mention. 1d64

The C. E. Convention.

The work of preparing for this great meeting of the Christian Endeavor workers of the Province is progressing very favorable. After the regular young peoples meeting last night the various committees met in the Charlotte street church to compare notes and report progress. We hope the homes of our people will be opened where at all possible to receive and entertain delegates. Much profit must surely result from the Convention if all enter heartly into the spirit of the work. The best speakers in the country available will address the different meetings. Watch for the programme.

Police Court Items.

Hector Baker, accused of the larceny of a bunch of bananas from F. Anthony's refreshment stand, was remanded till Thursday.

The case of Jos. Pollard vs. Geo. Hall and Wm. Job, for illegally and "with strong hand" entering and taking possession of the premises at the corner of Aylmer and Simcoe streets, was dismissed. Mr. Pollard was a tenant of Mr. Hall when the place was damaged by fire, and the question was whether the lease was nullified by that event or not. At any rate Mr. Hall took possession against the plaintiff's will, the latter having moved most of his household goods away. The case was dismissed without costs. Mr. Sawers for plaintiff; Mr. Stone for defendants.

Children Cry for Pitcher's Castoria.

SERIOUS STABBING AFFRAY

Walter Kerr Lies At Death's Door From a Knife Wound

A Farm Labourer Named McIlwaine, From Pontypool Committed the Crime—Kerr's Deposition Taken—The Stabber Promptly Arrested—Remanded for a Week.

"Help! For God's sake, help!" Mr. Baptiste Lefort, of the Grand Central Hotel, was on his way home about half an hour after midnight this morning, when this startling cry, accompanied by a dismal groan, came to his ear through the dark night. He hastened in the direction from whence the sound came, and in front of the new Customs House building stumbled across the prostrate form of a man evidently in mortal agony, and rapidly growing weaker. Previous to this two printers from the *Times* office while on their way for a pail of water had first made the discovery and they at once ran to notify the police, Constables Adams and McGinty, who were on night duty. The officers procured a stretcher, and placing the wounded and now almost lifeless body upon it, returned to the police station. Then it was discovered that the wounded man was Walter Kerr, stable boy at the Cavanagh House. He was bleeding profusely from a gash in his breast, and he was unable to speak.

Several physicians were hastily summoned, the first to arrive being Dr. Goldsmith, and shortly afterwards Doctors Caldwell and Brennan appeared. The sufferer's wounds were dressed in the police station, and it was found there was

A CUT IN HIS BREAST,

on the right side just below the first rib, about an inch long and very deep, the blade of the knife with which the deed was done penetrating the lung to a considerable depth. The doctors found their patient pulseless and with very little evidence of life, and they worked for some time before he partially revived. A piece of the shirt was cut away from around the wound to facilitate surgical operations, and the rag, saturated with blood, and combining the cut made by the knife, was left hanging on one of the tree boxes in front of the police station, where the ghastly relic was examined this morning by scores of the morbidly curious crowd.

Meanwhile Chief Rozzel had arrived, and the hospitals being too far distant the wounded man was conveyed to the Little Windsor hotel, where his mother is employed as cook. He lies bandaged up and under the influence of morphine to keep him quiet and prevent further bleeding. He is in a very low condition, and the physicians are doubtful of his recovery. There is great danger of pleurisy setting in, and also from blood poisoning on account of the accumulation of blood within. To-day the wounded man is resting comparatively easy.

THE STABBER ARRESTED.

When Kerr revived sufficiently he gave a description of his assailant, and Chief Rozzel took prompt steps to arrest the criminal. With Constables Adams and McGinty a systematic search was begun, the hotel yards and premises in the vicinity of the Cavanagh House being thoroughly examined, and the cars and yards at the two stations as well. A watch was also set upon all outgoing trains, and shortly after the passing of the five o'clock train this morning Kerr's assailant was captured. Mr. Armstrong, night baggeman at the C. P. R. station, who had a description of the man wanted, observed him coming down Wolfe street just as a special train bound for Toronto pulled into the station. McIlwaine was boarding the train when Mr. Armstrong interfered and kept the man on the platform until P. C. McGinty, who was on his track, arrived and placed him under arrest.

The prisoner gave his name as Matthew McIlwaine, and said he lived near Pontypool. He did not deny the crime, but seemed to be confused and apparently did not realize the seriousness of his position. He was probably under the influence of liquor, but as this passed away he came to a better understanding of his dilemma and appeared to feel very badly.

ANTE MORTEM STATEMENT.

Walter Kerr, the wounded man, made a deposition to Police Magistrate Dumble. Kerr is quite well known around town. He has not a very bright mind, and some years ago conducted a peanut stand on the streets. He was generally regarded as a simple, harmless young man whose worst enemy was drink.

About three o'clock this morning Police Magistrate Dumble was aroused for the purpose of taking a sworn statement from Kerr, who was believed to be in danger of death. When Mr. Dumble arrived at the Little Windsor Kerr was too much under the influence of morphine to make a clear statement, but the second time the magistrate was summoned about five o'clock he was fluid enough to give a concise story. While his deposition was being made, the prisoner, who had just been arrested, was brought in.

Walter Kerr, being duly sworn, deposes and says that he does not know the man who stabbed him. He says:—I was going into the yard. The man was walking. I did nothing to him. He was a little man.

Resumed at 5.55 a.m.—The man arrested is the man who stabbed me. The Chief of Police brought him here and I saw him. I was going to the stables as he was coming out of one of the box stalls. He stabbed me saying, 'you robbed me.' I had seen him that day before. Tom Trenoum took him out of the house and put him in the box stall. I did not know his name. He is a short, well-built man with dark whiskers, beard and moustache. I had not robbed him. I said nothing to him before he stabbed me. I did not know I was stabbed until I went to run after him. He had a big, a common farmer's bag in his hand. I saw him lying on the bag in Cavanagh's hotel in one of the stalls about 4 o'clock that afternoon. He had vomited on it. He said nothing more than "you robbed me." The moon was shining. I recognize him. I was going out to sleep in the barn, or stable. I don't know whether I am going to live or die. I could not be mistaken about the man. I only saw him once that afternoon. He had vomited all over the room and I noticed him particularly.

(The man Mcilwaine is here brought in to the room.)

Walter Kerr resumes: The prisoner Michael McIlwaine is the man who stabbed me.

Taken and sworn before me at Peterborough this 13 day of Sept., 1891.

D. W. DUMBLE, P.M. his
WALTER X KERR,
mark.

STABBED HIM AND RAN.

Mr. Tim. Patient, night clerk at the Cavanagh House, says that during the afternoon McIlwaine was found drunk in one of the rooms, where he had vomited all round. McIlwaine was taken out to the stable by Freeman and left there to sleep off the effects of the drunk. Mr. Patient did not see the man again. Last night about twelve o'clock he ordered Walter Kerr off to his bed in the stables. Kerr was quite drunk at the time. A few minutes afterwards Mr. Patient went to bolt the back door, and looking out he saw a man sling something like a bag over his shoulder and run away. Mr. Patient asked Kerr what he was doing there, and Walter replied: "the —— lodger has stabbed me," and started out the gate after him. There was no one else around, and thinking Kerr could not be very badly hurt Mr. Patient went back into the hotel. Nothing afterwards he heard of the finding of Kerr in front of the Customs House building. Kerr had evidently obtained his assistant down Water street and over to George until he lost sight of him, and was returning to the hotel when he fell in his tracks from weakness.

THE PRISONER'S STORY.

McIlwaine, the prisoner, gave the EXAMINER his side of the story. McIlwaine is a man about 40 years of age, small of stature and having a full beard. He gave his name as Matthew McIlwaine, and says he lives near Pontypool, where he works on a farm. He is unmarried, but has relatives in that neighborhood. The poor fellow seemed to be dazed and talked incoherently and in so low a tone that it was with difficulty he could be understood. He was poorly dressed in rough working clothes.

McIlwaine says he came to town yesterday morning and during the day got drunk. He was at Cavanagh's hotel in one of the box stalls when, he says, he felt Kerr searching his pockets. Kerr, he claims, took all his money, about $25, and would have stolen his watch also but that it was shoved down down inside his trousers. McIlwaine maintains that it was Kerr who robbed him, as says there were two men who kicked him in the side, knocked him down and threatened to kill him. "I was so frightened they would kill me," McIlwaine said, "that I had to take out my knife to defend myself." The prisoner spoke very earnestly and re-iterated his statements positively. He was evidently suffering keen anguish, and moaned continually as if palliating his crime, "they robbed me and tried to kill me." He could not say who the other man was.

THE WEAPON.

When McIlwaine was arrested, the knife with which he had stabbed Kerr, was found in his pocket. It is a large jackknife with a blade four inches long. The blade was red to the hilt with blood. Chief Rozzel has the weapon locked up.

REMANDED FOR A WEEK.

There was a large crowd at the police station this morning anxious to catch a glimpse of the man who may yet be called a murderer. Yet he did not appear very fierce and bloodthirsty. The poor fellow hung his head, cowed and bewildered by the awfulness of his position, and when requested to stand up he acted as if completely dazed.

He was charged with felonious wounding, but the Crown Attorney not being ready to proceed, the prisoner was not asked to plead but was remanded for a week.

Kerr's condition then will determine whether the charge shall be altered or not.

In connection with this case Chief Rozzel is deserving of credit for his promptness and vigilance in securing the arrest of McIlwaine, who was preparing to board the train when captured.

You cannot be too particular about the medicines you use. When you get a blood purifier, be sure that you get Ayer's Sarsaparilla, and no other. It will mingle with, purify, and vitalize every drop of blood in your body. It makes the weak strong.

The Pupils' Goal.

Three Main Objects for Which Institute Pupils are Striving.

Very many people are interested in the school examinations which recently took place in all the High schools in the country, but very few have a clear understanding of the nature of these examinations or the effect of them, and many of the students at the Collegiate Institute here have no definite goal in view except a suitable preparation for the actual duties of life, by developing the power to think for themselves. The great majority, however, are preparing for one or other of the following examinations.

One—Primary, or that which qualifies for a 3rd class certificate. It is the purpose to so arrange the work of the school that hereafter any pupil may take this examination two years after passing the entrance.

Two—Junior Leaving, which includes 2nd class certificates, pass Matriculation into any Canadian University; entrance to any of the Learned Societies, e.g. Law, Medicine, Civil Engineering, etc.

Three—Senior Leaving, embracing 1st class certificates; Junior Matriculation with honors, Senior Matriculation, or first year at any Canadian University.

Personal.

Mr. and Mrs. C. A. Abrahm, of Belleville, the former at one time editor of the Woodstock *Review* and the Stratford *Beacon*, are in town on a brief visit.

Mr. D. Belleghem went to Toronto this morning to do the exhibition and attend the annual meeting of that cheerful body, the Undertakers' Association.

A telegram received to-day announces the death in Michigan of Mr. Alex. McNeil, sr., one of Peterborough's pioneers, who removed across the lines a few years ago to live with his son, Mr. J. R. McNeil, in West Bay City, Mich.

Yesterday Mr. Wm. Cardwell, of the Cardwell House, was made happy. His wife, four children and mother-in-law, Mrs. Cowan, arrived in town from Coal Island, County Tyrone, Ireland having come out by steamer Sardinian. Coal Island was the home of Mr Cardwell for twenty years before coming to Canada.

The use of calomel for derangements of the liver has ruined many a fine constitution. Those who, for similar troubles, have tried Ayer's Pills testify to their efficacy in thoroughly remedying the malady, without injury to the system.

Auburn Mission.

Cottage prayer meeting service at 8 p.m. this evening at the residence of Mr. Godfrey. Mr. James Sutherland will conduct the service.

Dining Booth.

The W.C.T.U. will have a dining booth on Monday, Tuesday and Wednesday. Anyone wishing to send in contributions will please leave same at W. J. Mason & Sons.

Many Thanks.

The editor of the EXAMINER has to thank the thoughtful and energetic secretary of the Central Exhibition for a complimentary admission card to the great show on Sept. 21-25.

A New Way to Tell It.

A modest young lady, who felt too diffident to tell in plain terms of a coming matrimonial union in which she is to form a leading element, delicately suggested the fact of two hearts beating as one, by laying on "our table" two plums with but a single stem, that is, twin plums—genuine Siamese twins, and luscious Lombards at that. May the maiden and her mate be as well worth "preserving" as the plums.

A Wedding To-day.

A happy matrimonial event took place this afternoon at the residence of Mr. James Fuller, 123 Chamberlen street, his daughter, Miss Nellie Fuller, being married to Mr. Albert E. Meisheral, a young man well and favourably known in town. Rev. Mr. Edwards, pastor of the Charlotte Street Methodist church, performed the ceremony, to which the bride was assisted by Miss Grace Fuller and the groom by Mr. Jas. A. Tully. The young couple leave for the west this evening. They begin their married life under most happy auspices, the fine array of gifts to the bride testifying in a practical way to the high esteem in which she and her husband are held by their host of friends.

—Merit wins, as the marvellous success of Hood's Sarsaparilla shows. It possesses true medicinal merit. Sold by all druggists.

THE SEXTON'S CRIME.

Shocking Case of Sacrilege and Immorality in New York City.

NEW YORK, Sept. 15. One of the worst cases that was ever presented in a police court in this city was produced at the Yorkville court yesterday by the agent of the Society for the Prevention of Cruelty to Children. They arraigned Robert Bell, the assistant sexton of Calvary church, Protestant Episcopal, corner of 21st street and 4th avenue, on charges of having abducted and criminally assaulted six Jewish girls, ranging from 14 to 16 years of age. Bell was caught by the agents with two of the girls in the church yesterday afternoon. The other girls came along at 6 o'clock in the evening.

The whole six girls confessed and said Bell had been dishonoring the church for almost a year. Two of the girls he made drunk with communion wine to accomplish his purpose. To the other girls he had betrayed he gave presents of money, ribbons, pieces of silk, etc. Bell refused to answer questions and the case was adjourned until to-morrow.

Captured By Brigands.

CONSTANTINOPLE, Sept. 15.—Brigands recently attacked and captured the railroad station at Pavolkini, sixty-seven kilometres east of Adrianople. The outlaws shot two gendarmes who attempted to oppose them.

The New Rajah of Manipur.

CALCUTTA, Sept. 15.—The Government has chosen a five-year-old relative of the ex-Maharajat as the new rajah of Manipur. A British officer will administer affairs during his minority.

Women to Vote in New Zealand.

WELLINGTON, N. Z., Sept. 15.—The Legislative Council has rejected a bill passed by the House of Representatives giving females the right to vote.

All ages and conditions of people may use National Pills without injury and with great benefit. dw

THE BUDGET SPEECH.

Mr. Davidson in his budget speech said: You will see by the figures there are two or three material changes from last year. There is also one mill more required to be raised, made up principally of a deficit from last year of $2,000. This was caused by the new market building overrunning the estimates about $1 000, and the other $1 000 was through streets and bridges caused obiefly by extra expenditure in connection with the Edison Works. Another account this year is our interest account, which amounts to $1,100 over and above our ordinary expenditure. You will understand that of this amount we are carrying the expenditure of the Edison Works and the $6 000 in the Carbon Works bylaw, the debentures for which have not been issued, and we must pay the interest on them. The other item is demand for interest by the Town Commissioners of $2 000; and the schools make an extra demand of $900. We have also on ordinary expenses $600 more for hydrants. The Roman Catholic Separate schools make a demand of $600 more, and there is $800 more wanted for streets and bridges. Against these there is $1,100 less on the Nicholls Hospital; and we have also built a powder magazine for $600, which leaves about $4,100 extra to be raised all round. This is satisfactory to me, and I think it will be to the ratepayers, who generally expected the rate would be a great deal higher this year than last. The rapid natural growth of the town is always greater than the growth of the assessment. I don't see how the town can be run on less than this, except, perhaps, Mr. Winch might run the charity department on less than is now being done. We find that up to date already this year there has been more spent for charity than during the whole of last year. I understand in some cases charity has been given where charity was not needed. Perhaps Mr. Winch could explain matters.

Mr. E. H. D. HALL—How much greater is the High and Public schools demand this year than last?

Mr. DAVIDSON—$900 extra demand, besides $1,000 in interest.

Mr. KENDRY explained that there had been necessary increases in the staff of the schools on account of rapid growth of the schools.

Mr. DAVIDSON said he individually did not grumble at the expense in connection with the schools, and he believed so long as they were doing good work, as they were now, the ratepayers would not grumble either.

Mr. WINCH said the charity in No. 1 Ward was no larger than last year.

Mr. MOORE asked when the Nicholls Hospital would be self-sustaining.

Mr. DAVIDSON replied that he could not just say. There was a big decrease from last year, and next year their revenue would be larger. The hospital demand would soon be so small it would not be worth telling about.

There was some further discussion on the question of charity expenditure, Mr. Moore claiming that it should be curtailed. Messrs. Dawson and Langford justified the expenditures in their wards by stating that they were as economical as it is possible to be.

A bylaw was then passed fixing the rate of taxation as per the above estimates.

TOWN COLLECTOR APPOINTED

Mr. Davidson introduced a bylaw appointing Miss Cumming collector of taxes for 1891 at a salary of $600. The bylaw was passed.

EVERYONE WILL HEAR IT.

Mr. CAHILL presented this report:—

GENTLEMEN,—*Your Fire, Water and Light Committee* begs leave to recommend that fire alarm bells be placed in the engine rooms of the Edison Company's and the Auburn Woolen Company's boiler rooms, (and also the Wm. Hamilton Co.'s if they consent) for the purpose of sounding a general alarm in case of fire, the said companies having kindly consented to this arrangement.

Mr. Cahill said there were a great many complaints regarding the town bell not being heard, but with these big whistles giving out the alarm every one in town would know if a fire was in progress.

The report was adopted.

THE TOWN PROPERTY

Moved by Mr. Moore, seconded by Mr. Langford, that the Property committee be directed to examine into the condition of the clerk's office and vault, with the object of having the same put and kept in better order, with authority to procure proper appliances for the care of the town's records and property.—Carried.

THE PARK STREET DRAIN.

Moved by Mr. Cahill, seconded by Mr. Winch, that the Street and Bridge Inspector be instructed to find the drain on Park street from Townsend street west to the north side of Sherbrooke street under the supervision of the Street and Bridge Committee.

There was considerable discussion on this resolution, which was finally left over as a notice of motion till next meeting.

GETTING BACK THEIR OWN.

Moved by Coun. DAVIDSON, seconded by Coun. CAHILL, Whereas the sum of $400 or thereabouts remains in the hands of the Treasurer of the Province of Ontario to the credit of the corporation of the town of Peterborough, the same having been received on account of fines levied in the said town under the Canada Temperance Act, and having been retained to meet any claims which might arise under the said Act;

And whereas the said treasurer has offered to pay the said sum to the said corporation upon the said corporation assuming liability for all claims which may arise under the said Act, and be payable out of said moneys;

Be it therefore resolved that the corporation of the town of Peterborough, in pursuance of the premises, hereby to the extent of the said sum of four hundred dollars so to be paid as aforesaid, assumes the liability for all claims which may arise under the said Act and be payable out of said money.—Carried.

THE CAR WORKS BUILDINGS.

Mr. CAHILL moved, seconded by Mr. DAVIDSON,—That the time for receiving tenders for the masonry and excavation required in connection with the Peterson-Corbin Car Works be extended until Wednesday next at four o'clock p.m.; and that the Finance Committee be authorized to open said tenders and award contracts.—Carried.

RAILWAY CROSSING GATES.

Mr. E. H. D. HALL said that about two years ago the Mayor and other members of the council had gained a promise from the Grand Trunk Railway Company that they would put gates on their crossings at the principal streets in Peterborough. But nothing has ever been done. He understood that the Grand Trunk had refused to do so until the town paid half the expense, according to the recent law. He thought some action should be taken to compel the railway to put up these gates at their own expense.

There was some discussion as to whether this law applied to all towns and villages, or merely to the city of Toronto, and the Mayor undertook to ascertain the intention of the law while in Ottawa this week.

SELLING TOWN PROPERTY.

Moved by Mr. Moore, seconded by Mr. Dawson, that the Finance Committee settle the conditions of sale and reserve bids for the disposal of the two brick houses to be sold on the evening of the 15th instant at the market building.—Carried.

The council then adjourned.

Two Genuine Harvest Excursions

Will be run from Chicago, Milwaukee, and other points on the lines of the Chicago & St. Paul Railway, to points in Western Minnesota, Northwestern Iowa, South and North Dakota, Nebraska, Kansas, Colorado, Utah, Wyoming and Montana, at cheap excursion rates, on August 25 and September 29, 1891.

P. S.—It will do your heart good to see the magnificent crops in South Dakota. They are simply immense. d57-65

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. BEGOLE, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." MRS. ELIZA MOSHER, 90 Brooks Street, East Boston, Mass.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy anything else instead. Insist upon having

Scratched 28 Years

A Scaly, Itching, Skin Disease With Endless Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me $100 and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a quarter. It spread rapidly all over my body, and got under my nails. The scales would drop out of me all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have it all come over again. I am a poor man, but feel rich to be relieved (if what some of the doctors said was leprosy, some ringworm, psoriasis, etc. cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was $5 worth. If you had been here and said you would have cured me for $100.00, you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

DENNIS DOWNING, Waterbury, Vt.

Cuticura Resolvent

The new Blood and Skin Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), instantly and speedily cure every species of itching, burning, scaly, crusted, pimply, scrofulous, and hereditary diseases and humors of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scrofula.

Sold everywhere. Price CUTICURA, 75c; SOAP, 35; RESOLVENT, $1.50. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Disease," 64 pages, 50 illustrations and 100 testimonials.

PIMPLES, blackheads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

DICKSON'S.

Next Door to T. Dolan & Co.

NIGHT SCHOOL

At the BUSINESS COLLEGE, 368 and 370 Water Street. A grand opportunity for young men and women to advance and improve themselves in any practical subject.

TARTE REPORTS.

The Majority One Exonerates Sir Hectór Langevin,

BUT BLAMES M'GREEVY.

The Minority Report Declares the Late Minister of Public Works to Have Been Culpably Negligent--Canada's Trade Relations With the Empire--An Important Resolution by Premier Abbott--The Cochrane Committee Reports Hungry.--Senecal Again.

OTTAWA, Sept. 15. The reports of the sub committee appointed by the Privileges and Elections Committee were distributed to-day. The majority report signed by Sir John Thompson and Messrs. Girouard and Adams completely exonerates Langevin, but blames McGreevy and some officials of the Public Works Department and recommends prosecutions.

The report first deals with the charges against Thomas McGreevy in connection with the Quebec contract. It finds that Mr. McGreevy's brother Robert was made a partner with the contractors for the purpose of securing Thomas's influence. Thomas knew of his brother's interest in the contract and aided in getting Jones' tender set aside.

A similar finding is made with respect to the Levis wall contract, for which, it says, Mr. McGreevy was to receive $8,000 from the contractors, and the report states that he did receive at least $5,000 of that sum, the majority of the sub-committee being of opinion that a portion of the moneys and of her sums said to have been paid to Thomas McGreevy was retained by Robert McGreevy and Murphy.

The report states that Mr. McGreevy obtained advance information from E. F. Leblanc, clerk of the Public Works Department as to the cross wall contract, which information assisted Larkin, Connolly & Co. in securing the contract, and that in this service Mr. McGreevy received $4,000.

With respect to the Levis dredging, Beck and the majority report point out that Thomas McGreevy admits having received $10,000 from the contractors for that work, which sum he gave Le Monde, Langevin's newspaper, while Murphy swears the amount paid him was $22,000, and Robert McGreevy says the sum was $11,000.

The report says the amount he actually received cannot be determined satisfactorily respecting the Esquimalt contract.

The majority report also finds that before that contract was awarded, Mr. McGreevy interested himself in it, procuring advance information from engineers for the benefit of the contractors, and that Thomas McGreevy was aware from the beginning that his brother, Robert, had been given 30 per cent. interest in the affair without being required to furnish any capital for the purpose of securing Thomas's influence.

The report says Thomas McGreevy made more money out of this contract, and though the amounts cannot definitely be determined but were charged to expense account in connection with the work.

Coming to the contract for dredging in west basin at Quebec the majority report admits that Mr. Tarte's charge in connection with that job has been proved. The price for dredging was increased from 27 to 35 cents per yard, in accordance with an agreement by which the contractors were to pay three cents per yard for political purposes.

The report says the amount he actually received cannot be determined satisfactorily respecting the Esquimalt contract.

The majority report also finds that before that contract was awarded, Mr. McGreevy interested himself in it, procuring advance information from engineers for the benefit of the contractors, and that Thomas McGreevy was aware from the beginning that his brother, Robert, had been given 30 per cent. interest in the affair without being required to furnish any capital for the purpose of securing Thomas's influence.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as they supply in a condensed form the substances actually needed to enrich the Blood, cure all diseases coming from Poor and Watery Blood, or from VITIATED HUMORS in the BLOOD, and also invigorate and Build up the BLOOD and NERVE SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN ... in his mental faculties, will or feeling ... should take these Pills ... their energies.

EVERY ... should take them ... They cure all suppressions ... which inevitably ...

YOUNG MEN ... take these PILLS ... will cure the results of youthful indiscretions and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make ...

For sale by all druggists, or will be sent upon receipt of price (50c. per box, or six boxes for $2.50) by addressing THE DR. WILLIAMS' MED. CO., Brockville, Ont.

"THOROUGH PURIFICATION" DEMANDED.

If one took the *Empire* as a standard of morals of the Conservative party one would be hopelessly despondent about the future of that party and conclude that it was composed chiefly of rascals who could feel for their pals who have been proved guilty of being public robbers. But happily there are tens of thousands of honest Conservatives who feel a just and proper indignation at the political rascality that has disgraced the country and who are honestly desirous of seeing the justice done and the rascals rooted out. The Hamilton *Spectator*, to its credit as a party paper, be it said does not sympathise with the whitewashing policy of the Dominion Government towards the detected boodlers both great and small. Referring to this matter the *Spectator* says:—

"The reports which the two parties in the committee of Privileges and Elections desire to make are not yet known. Consequently, it is impossible to say on the one hand that the Conservative members have endeavored to palliate offences committed and to save offenders from the consequence of their acts; or that, on the other hand, Reformers have sought to exaggerate the facts, to impose punishment out of proportion to the offences and to make party capital. The antecedents of the two parties and the character of the leaders of the two parties give probability to the latter theory. At the same time no harm will be done by pointing out to Mr. Abbott and to Sir John Thompson that the time is one in which they will be expected to render strict justice, "without fear, favor or affection." So far as wrong has been done, the evil must be removed, let the consequences be what they may—the guilty must be punished no matter what their station. The Conservative party continues to trust its leaders because the rank and file have confidence that justice will be done. That confidence will be withdrawn if it shall appear that there is any disposition at headquarters to compound with crime, to tolerate corrupt practices or to screen wrongdoers from the consequences of their acts. To put the matter on the lowest level, the welfare of the party demands a thorough purification of the civil service from the messenger in the office to the minister who sits at the council board. If ministers give evidence of their faith by their works they will retain the confidence of the electorate—not otherwise. But higher considerations than those of party must now be entertained. It is better that the Conservative party should go out of power, great as that calamity would be, than that it should retain control of the government by countenancing corruption and shielding crime. In the present emergency there is but one thing to do, which is to expose every offence fearlessly and punish it remorselessly. Nothing more is asked—nothing less will be accepted by the people."

The Travelling Dairy.

The sending of a travelling dairy throughout the Province was an experiment undertaken by Hon. John Dryden, Minister of Agriculture, but its unprecedented success has clearly proven that it was a most practical and profitable experiment. Mr. Dryden has always been known as an enthusiastic and successful farmer, and since his promotion to the position of Minister the wider field for work has enabled him to put into fuller operation some of the principles of his own practice and experience. The Ontario Agricultural College and Experimental Farm at Guelph, which are under his direction and supervision, have been for the past few years growing in the good opinion of the farmers of the Province, and establishing a name for sound and progressive work. The professors have mingled with the farmers in their institutes, and the intercourse and exchange of ideas has resulted in mutual confidence and respect; the valuable experiments in feeding, grain growing, dairying and the various scientific investigations have been scattered broadcast by means of bulletins and reports; thousands of farmers have visited the college and farm, and made personal inspection of the methods and conveniences; and now practical instruction in one of its most important branches has been brought to the very door of the farmer, his wife and his family. Mr. Dryden conceived the idea that in this matter if the farmer could not go to the dairyman—to observe, to inquire, to be taught—the dairyman could go to the farmer; and the results has been that since the beginning of summer Prof. Dean and his assistants have been lecturing upon the theories of butter-making to the farmers and their wives, and have been putting these theories into practice before the eyes of a very large number of keenly interested people. This is an improved method of teaching; it is the method which has developed Denmark into the first dairy country of the world and put her at the head of the butter markets of the United Kingdom; it is the method that is being tested in England and a few of the States in the country just south of us, and it is the method now proposed in some of the Australian colonies. According to the Dominion trade and navigation returns the export of butter to Great Britain amounted to the following:

	Made in Canada.	Not made in Canada.
1889	902,057	170,214
1890	1,029,346	948,045

These figures are lower than the Old Country returns. A noticeable feature and one worth considering is that the product not made in Canada exported to Great Britain and of course recognized there as Canadian butter increased from 16 per cent. to 48 per cent. of the entire quantity. The amount of butter manufactured in Ontario in creameries, according to returns taken from the report of the Bureau of Industries, increased from 876,003 pounds in 1889, to 1,147,55. in 1890. The total amount of butter produced in the Province in dairy and creamery has not been as yet ascertained. To give our readers an idea of the quality of Canadian butter and its status in the Old Country markets, we give here the imports into the United Kingdom for 1889:—

	Cwt.	Value per lb. Cents.
Denmark	677,491	24
Germany	110,027	23
Holland	131,073	22 3
France	666,524	23.6
Canada	22,634	18.3
United States	110,187	18
Other countries	288,533	23
Total	1,927,469	23.1

From this it will be seen that in quality Canadian butter must be very much inferior to that produced upon the European continent; and having both a superior article and the expense and inconvenience of long transportation to compete against we must rapidly improve the product of our dairies and creameries if we are to have any fair share in the butter trade of the Mother Country. Even if none were exported the production of a superior article for home consumption is greatly to be desired. The unexpectedly hearty manner in which the proposal of the Minister of Agriculture has been received the unflagging interest manifested in the operations of the travelling dairy, and the requests pouring in from all parts of the Province for a share in its benefits, indicate that Mr. Dryden has inaugurated a most promising work that will doubtless be greatly improved and extended during the coming year. It also proves that the Agricultural Department is alive to the needs and improvement of the farmer, and that no mistake was made by the Premier when he introduced into his Cabinet an agriculturist so enthusiastic and withal so practical in his methods as the member for South Ontario.—*Globe.*

Two Genuine Harvest Excursions

Will be run from Chicago, Milwaukee, and other points on the lines of the Chicago & St. Paul Railway, to points in Western Minnesota, Northwestern Iowa, South and North Dakota, Nebraska, Kansas, Colorado, Utah, Wyoming and Montana, at cheap excursion rates, on August 25 and September 29, 1891.

Pale, drooping girls, worn weary with a burden of disease almost greater than they can bear, should take heart and suffer no longer. Dr. Williams Pink Pills are a certain cure for all those diseases peculiar to womankind. They restore the blood, build anew the nerves, and leave happiness and health when used. Sold by dealers or sent on receipt of price (50c. a box) by addressing Dr. Williams Med. Co., Brockville, Ont. dw

Mrs. Chas. Smith, of Jimes, Ohio, writes: "I have tried every remedy for sick headache I could hear of for the past fifteen years, but Carter's Little Liver Pills did me more good than all the rest. dw

All ages and conditions of people may use National Pills without injury and with great benefit. dw

They have discovered it! "What?" Vita Ore, which is warranted to cure Diphtheria or any Throat trouble, Dyspepsia or Female Weaknesses. Put up by the Vita Ore Co'y, Box 89, Belleville. d303m-w

Purity of ingredients and accuracy of compounding, make Milburn's Aromatic Quinine Wine the criterion of excellence. dw

Regina Ripples.

"I took six bottles of Burdock Blood Bitters for liver complaint, headache and dull stupid feeling, but now I am entirely well and healthy, having also a good appetite which I did not have previously."—Mrs. T. Davis, Regina, N.W.T.

From the Jaws of Death.

Some surprising effects have been recorded from the use of Miller's Emulsion of Cod Liver Oil in the most desperate cases of consumption. When all other remedies have failed Miller's Emulsion nearly always succeeds. It is the best kind of flesh and blood maker, and has been used with marked success by the physicians in the Insane Asylum, Penitentiary, Hotel Dieu, and General Hospital in Kingston, Ont. In big bottles, 50c and $1 at Peterborough drug stores. dw

Could Scarcely See.

Mrs. John Martin, of Montage Bridge, P. E. I., writes:—"I was troubled last summer with very bad headaches and constipation and sometimes could scarcely see. One bottle of Burdock Blood Bitters made a complete cure of my case, and I wish you every success.

Do You Cough?

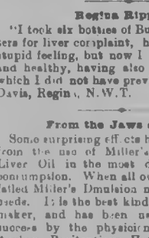
Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Clinton Clippings.

"I had for years been troubled with dyspepsia and sick headache and found but little relief until I got Burdock Blood Bitters which made a perfect cure. It is the best medicine I ever used in my life."—Hattie Davis, Mary street, Clinton, Ont.

A Fact



WORTH knowing is that blood diseases which all other remedies fail to cure, yield to Ayer's Sarsaparilla. Fresh confirmation of this statement comes to hand daily. Even such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge, 110 West 125th street, New York, certifies:—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

"Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

Ayer's Sarsaparilla,

PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Price $1: six bottles, $5. Worth $5 a bottle.

The Cod That Helps to Cure The Cold.

The disagreeable taste of the COD LIVER OIL is dissipated in

The patient suffering from CONSUMPTION, BRONCHITIS, COUGH, COLD, OR WASTING DISEASES, takes the remedy as he would take milk. A perfect emulsion, and a wonderful flesh producer. Take no other. All Druggists, 50c., $1.00. SCOTT & BOWNE, Belleville.

A Handsome Prize,

An Evidence of What a Genuine Magazine Competition Offers.

On Friday there arrived from Toronto, for Miss M. Hora, a handsome Shetland pony, harness and cart, being the first award in the Royal Quilt Competition of *The Canadian Queen* magazine. It attests the genuine nature of the magazine's contests by its excellent condition and value. The *Queen* has frequent competitions and has made innumerable awards, displaying a generosity quite surprising to those who have had experience of the limited field for Canadian journalistic enterprise. But the *Queen* has been a success as a business venture from the start, and is growing in literary excellence steadily. It covers the field of fashion, as well as light reading; talks to the household, the young and indeed all home classes. The competitions have been used to assist the introduction of the magazine, for where it is introduced it is quite certain to remain a monthly guest. The leading prizes have been made, as instance this latest to Kingston, while many smaller prizes have rewarded the moderately successful among competitors. *The Canadian Queen* is truly royal in its ways.—*The (Kingston Ont.,) Daily British Whig, June 27th, 1891.*

You hardly realize that it is medicine when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use. dw

B. & C. corsets boned with Kabo never works up or down or breaks. If it does in a year, you shall have your money back from the store where you bought your corset.

The steels may break—the best of steels have their limits of strength. But Kabo has no breaking-limit; it doesn't break at all.

And the B. & C. corset is perfect in form.

The store has a primer on Corsets for you.

MEN AND WOMEN

WHO HAVE ACHIEVED SUCCESS IN DIFFERENT SPHERES.

An Editor Whom Five Million Dollars Could not Bribe or Silence. America's Distinguished Poet, Critic and Scholar.

Two notable men passed away last week James Russell Lowell, the poet and essayist, and George Jones, the newspaper editor, and both of them at a green old age.

JAMES R. LOWELL.

Their achievements are their monuments, as lasting as brass. A half a century ago Lowell began his literary career. Whatever he wrote was on the side of freedom, of justice, of humanity. He trained thousands to hate slavery and to love the Union, to believe in progress and to strive after a high ideal of citizenship. Whatever may be thought of his political course in later years, his services to his country will be kept in enduring remembrance.

As Lowell showed what a litterateur with a conscience and a purpose can do for public welfare, so George Jones showed in his assault on the Tweed extortionists in New York City and State what an editor with a conscience and a purpose can do. Few men have done more than he to establish the respect due to honest journalism. He made relentless foes, to be sure, and exposed himself to innumerable venomous shafts, which is the sure fate of every man who has a will and idea of his own and a determination to follow his own judgment in rendering the service which he owes to the cause of good government; but the shafts were harmless. He respected himself and his own intelligence, and in the end the world respected him.

James Russell Lowell was born in Cambridge, Mass., Feb. 22, 1819. He was the son of the Rev. Charles Lowell. He graduated at Harvard in 1838, entered the law school of that institution where he remained two years and was admitted to the bar in 1841; but he soon abandoned the profession that he might devote himself wholly to literature.

GEORGE JONES.

In 1844 he published his first volume of poems and in 1848 a second one, also a poem separately, The Vision of Sir Launfal. His early fame rests, however, on The Biglow Papers, a witty and humorous satire written in the Yankee dialect on the events of the Mexican war. Another remarkable work was a Fable for Critics, which was described as a "very witty review set to doggerel into rhyme." The best parts of this poem are scarcely surpassed, either in wit or felicity of expression by anything of a similar kind in the English language. Mr. Lowell made his first visit to Europe in 1851. He returned after an absence of a year, and began lecturing in 1854 resigned the chair of the modern languages and belles-lettres at Harvard, Lowell was appointed his successor in January, 1855. In 1857 he became editor of the Atlantic Monthly, which post he held about five years. The magazine during this period attained a world wide popularity. Some of his other poetical works are Under the Willows and Other Poems and Fireside Travels. Among Mine Books and My Study Windows are among his prose works. Lowell is distinguished in the great range as well as by the versatility of his powers. In 1877 he was appointed United States minister to Spain, in 1879 minister to England and in 1883 lord rector of St. Andrew's university, Scotland.

George Jones was born in Pelham, N. Y., in 1900. He was a little man, with a large heart, a large brain and a quiet tongue. He was a generous man and his acts of charity were many. Mr. Jones and the New York Times achieved undying fame in the war on the Tweed ring, which led to the crushing of that infamous organization. Gilbert Jones, George Jones' son, is the business manager of the Times. Mr. Jones was offered $5,000,000 by the Tweed ring to suppress the evidence he had collected against them, but he refused in spite of the great pressure brought to bear upon him.

WHAT THE EXPERIMENTS WILL SHOW

The Scientific Test of Producing Rainfall by Atmospheric Concussions.

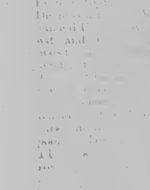
The result of the practical scientific test that the Agricultural Department is about to give to the popular theory that atmospheric concussion tends to produce condensation of suspended vapor and its precipitation in the form of rain will probably be known within a few weeks. Gen. Dyrenforth sets forth, with his corps of assistants and an elaborate equipment, left Washington Aug 1 for some point not designated in the arid regions of the South west to try the experiment. The day before the departure of the expedition Gen. Dyrenforth said

GEN. DYRENFORTH

"I hope the experiments will be successful, but have no idea whether they will or not. We will give the best possible trial and test of the theory." The experiment will at least have some beneficial results, should it fail, it will serve to suppress a popular fallacy, and this, even though it be in a negative form only, add to the scientific knowledge of the world. It may be that we can be caused to fall by a terrific and concerted bombardment of the atmosphere, if so it may also be that no conclusive effects will result of such importance as to make the method intellectual itself and that the cure will be worth the powder. Chicago Inter-Ocean.

A QUEEN OF THE CHASE

The Duchess d'Uzes a Woman of Varied Accomplishments.



Children Cry for Pitcher's Castoria.

CAPT. PALMER.

Captain Palmer, the newly elected Commander-in-chief of the Grand Army, was born on Staten Island, March 22, 1842, and has an excellent war record. He enlisted in the Ninety-first New York Volunteers, September 10, 1861, and was constantly with that regiment until it was mustered out, July 3, 1865, taking part in all its engagements. He was seriously injured at the battle of Five Forks in the combined charge of cavalry and infantry. By force of his soldierly qualities, he attained successively the grades of corporal, sergeant, sergeant major, second lieutenant, first lieutenant, adjutant, and captain. Since the war he has been engaged in the fresco painting and decorating business at Albany, New York. He is one of the best-known and most popular members of the order of his State, is a charter member of Low Benedict Post No. 5, Department of New York, and was for several terms commander of this post, which, with headquarters at Albany, is one of the largest and most influential posts in the country. He was twice elected Commander of the Department of New York, and in 1879 was chosen Senior Vice-Commander-in-chief, acquitting himself with credit in all those important positions. He is a forcible speaker, a good presiding officer at Department and National Conventions, and has frequently been placed at the head of important committees by both State and National encampments.

Men that Jump

at conclusions are generally "of their base." Because there are numberless patent medicines of questionable virtue, it doesn't follow that all are worthless. Don't class Dr. Sage's Catarrh Remedy with the usual run of such remedies. It is way above and beyond them! It is doing what others failed to do! It is curing the worst cases of Chronic Nasal Catarrh. If you doubt it, try it. If you make a thorough trial, you'll be cured. $500 forfeit for an incurable case. This offer by World's Dispensary Medical Association, Buffalo, N.Y. At all druggists. 50 cents. o

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

Oft in Peril.

Lives of children are often endangered by sudden and violent attacks of cholera, cholera morbus, diarrhœa, dysentery and bowel complaints. A reasonable and certain precaution is to keep Dr. Fowler's Extract of Wild Strawberry always at hand.

To be free from sick headache, biliousness, constipation, etc., use Carter's Little Liver Pills. Strictly vegetable. They gently stimulate the liver and free the stomach from bile. dw

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

A single scratch may cause a festering sore. Victoria Carbolic Salve rapidly heals cuts, wounds, burns and all sores. dw

What does "OR" mean? It means the only Reliable Kidney Cure ever put on the market. Put up by the OR Co'y, Box 89, Belleville. d303m-w

What Say They?

In popularity increasing. In reliability the standard. In merits the first. In fact, the best remedy for all summer complaints, diarrhœa, dysentery, cramps, colic, cholera, infantum, etc., is Dr. Fowler's Extract of Wild Strawberry. All medicine dealers sell it.

It can do no harm to try Freeman's Worm Powders if your child is ailing, feverish or fretful. dw

Every Lady Uses It.

Dyer's Jelly of Cucumber and Roses for chapped hands or lips as it effectually cures in every instance. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6'63

Why Suffer With Chapped Hands.

One tube of Dyer's Jelly of Cucumber and Roses will make them soft and white. Druggists keep it. W. A. Dyer & Co., Montreal. 6d63

Timely Wisdom.

Great and timely wisdom is shown by keeping Dr. Fowler's Extract of Wild Strawberry on hand. It has no equal for cholera, cholera morbus, diarrhœa, dysentery, colic, cramps and all summer complaints or looseness of the bowels.

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness and give strength and rest. dw

For overcoats and Russian circulars a first-class article to keep you warm, but they will not prevent the pains of rheumatism. Ask W. R. Greatrex, Druggist, for a bottle of Royal Rheumatic Remedy. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness Nausea Drowsiness, Distress after eating, Pain in the Side &c. While their most remarkable success has been shown in curing

SICK

Headache yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents five for $1. Sold everywhere, or sent by mail.

FOR FLAX-SEED EMULSION COMPOUND

BRONCHITIS

138 Lexington Ave., New York City, Sept. 19, 1888.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis and the early stages of Phthisis, and have been well pleased with the results.

JAMES K. CROOK, M.D.

CONSUMPTION

Freeville, N. Y., Feb. 14th, 1889.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where I cannot could not use Cod Liver oil in any form.

J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.

JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.

D. A. GORTON, M. D.

WASTING DISEASES

127 West 84th St., New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Malnutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—109 Yonge St., Toronto

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and meta with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough ecod-w

I FEEL BUOYANT

"Am happy to say that results so far are as satisfactory as I could expect, indeed much more so than I did expect. I am enjoying excellent health, appetite good, sleep sweet and refreshing, gaining flesh; am less nervous than I have been for years; feel bright and bouyant * * * It is almost miraculous, making a young man out of one of seventy, for that is just what your treatment is doing for me. I wish the community to know in as modest a way as we can get at it."

The above is No. 54 in a collection of over 2,000 similar letters on file in our office. We have a

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355.92
Increase over previous year	2,421,372.84
New Applications received in 1890	6,371,599.15
Increase over 1889	2,265,588.60
Cash income for year ending 31st December, 1890	889,678.97
Increase over 1889	325,938.25
Assets at 31st December, 1890	2,473,514.19
Increase over 1889	687,691.47
Reserve for Security for Policy-Holders	2,109,222.68
Increase over 1889	567,732.71
Surplus over all Liabilities and Capital Stock	232,175.69
Increase over 1889	75,649.05
Death claims fallen in during 1890	143,961.65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec.,	1881, (five years)	$64,824 07
" " " "	1886, "	89,452 97
" " " "	1890, (four years)	232,175 69

Waltor is Doing Nicely.

Walter Kerr, the young man stabbed in the breast on Monday midnight, is at present doing well. He has passed the danger of death from shock, and the present indications are that he will survive the dangers of inflammation and blood poisoning from the accumulated blood resulting from internal hemorrhage.

Sons of Canada.

A special session of the Supreme Lodge of the Sons of Canada is being held in Richmond Hall, Toronto, to-day. A complete change is being made in the Society. A new Constitution and new Ritual will be adopted and three new degrees will be added. With these new features the Sons of Canada will be placed far in advance of any other national Society. Bros. F. Mason, J. W. Crosby, W. C. Mudge and H. H. Robinson are the delegates from Peterborough Lodge, No. 13.

St. Luke's Harvest Festival.

The Harvest Festival takes place at St. Luke's church to morrow evening. The decorations have been commenced and bid fair to be as least as beautiful as usual. The Rev. Edwin Daniel will arrive from Port Hope to-morrow, the clergy from the town are expected and a few of the neighboring clergy have also been invited. Service at 8 p.m. The Rector yesterday visited Ireed and preached a harvest sermon to a congregation that was very large notwithstanding the rain.

St Luke's Young People.

A successful garden party was given by the young people of St. Luke's on the rectory grounds on Monday night. A very interesting programme was presented in the rectory, Miss F. Burnham gave a well sung solo, Mr. Clarke, organist, contributed an excellent pianoforte solo, and Mrs. F. A. Peck also gave a beautiful pianoforte solo. The Y.M.C.A. band was present and gave three or four well played selections. Capital refreshments were served by the ladies, and altogether a very pleasant evening was spent and a very respectable sum was added to the fund for purchasing a piano for the school room.

The use of calomel for derangements of the liver has ruined many a fine constitution. Those who, for similar troubles, have tried Ayer's Pills testify to their efficacy in thoroughly remedying the malady, without injury to the system.

Children Cry for Pitcher's Castoria

Committed for Trial.

Wm. Hall, Charged With Housebreaking and Burglary, Sent Up.

At the police court this morning Wm. Hall was brought up on remand and charged with breaking into the house of Mr. Robt. Thompson, corner of Bethune and McDonel streets, on Wednesday, Sept. 9th, and stealing a sum of money and a gold watch. The prisoner at his first examination elected to be tried summarily but this morning he amended his plea and elected to be tried by jury. Mr. Wood, C.C.A., appeared for the Crown, and Mr. E. B. Stone defended the prisoner.

Mrs. Thompson testified that she returned home, having left her house locked. She tried the front door and found it opened. She then entered the back door and found the dining room disturbed, and an open purse empty, from which 55 cents had been taken. She also heard two distinct footsteps and saw the dining room door open. She then went out and told somebody that there was a burglar in the house. She returned and heard two steps on the verandah and saw a man on the walk with his clothing soiled by dirt. There had been no man there before. The man went east and she followed him, and pointed him out to Miss Spence, a neighbour, as the man who had robbed her house, and Miss Spence said she knew him and his name was Hull. The man disappeared. She got no fair view of his face. The man she saw was empty-handed. She had not discovered her watch yet.

JOHN GIBBS, who lives in the vicinity, saw the prisoner pass his house going west about half past four on the evening of the robbery. Saw Mrs. Thompson some five or ten minutes after seeking the man who had robbed her house.

MISS SPENCE saw the man Mrs. Thompson said had robbed her house. He was going north on Aylmer street. At the corner of London and Aylmer he looked back. She said, "That's the man," and recognized him as the prisoner, who ran across Bellegheim's lumber yard. She had no doubt that the man she saw running was the prisoner. She saw his face and had no doubts of his identity.

At the conclusion of the evidence the prisoner was committed for trial.

The Christian Alliance Convention.

The Coming Session in Peterborough.

The third annual Ontario Provincial Convention of the Young People's Society of Christian Endeavor will convene here on Oct. 21-23. It promises to be a great success in numbers and spiritual power. It is expected that there will be about 500 delegates present from all parts of Ontario. The most eloquent pastors and and laymen of all denominations will take part in the programme now about completed, which promises of unusual intellectual excellence.

Rev. Geo. H. Wells, D.D., the brilliant and accomplished pastor of the American Presbyterian church, Montreal, will (D.V.) be present to add to the success of the gathering.

Mr. J. W. Baer, Boston, Mass., General Secretary of the United Society, will also be present. Mr. Baer is acknowledged to be one of the most eloquent and entertaining speakers across the line, and is in much request at conventions. This will be his first visit to Ontario, and we are very fortunate in securing him for this great convention, which promises to be the largest Christian gathering ever held in Peterborough.

A large and energetic committee, with Mr. A. E. Scott, president of the local Union, as chairman, are hard at work preparing for the convention.

The meetings will be held in the St. Paul's Presbyterian Church and George Street Methodist Church, which are spacious and well suited for large gatherings.

The entertainment committee are now preparing billets for all who come and it is hoped that our citizens will show their hospitality by opening their homes for these consecrated workers for Christ and the church, and maintain the good name Peterborough has gained, for those coming from all over Ontario will be able to help us by the reports they will carry home.

The music will be a marked feature. A trained choir of over 100 voices will lead the praise service. Prof. Ketcham will be conductor, Miss Wrighton organist, and Mr. John Miller cornetist.

The press will be well looked after, special arrangements will be made for their comfort, in fact no pains will be spared to make this convention of 91 an unqualified success in every particular.

Selwyn.

Successful Opening of a New Baptist Church.

On Sunday the beautiful new Baptist church was formally opened for public worship in a most successful manner. The new church is a fine structure, built in Gothic style, of red brick, resting on a substantial stone foundation. The interior is elegantly finished. The ceiling is coved and finished in wood, imitating cherry, while the seats, which accommodate about 250, are of a neat design of lighter colored wood. The seats are arranged in amphitheatrical, shape and the whole interior is bright and comfortable. The windows are of ground glass and the building is heated by a hot air furnace, put in by Mr. Geo. Hutchinson, Peterborough. A commodious school room is attached to the church building proper, so arranged that the school room space can be added to the church by means of folding doors, on occasions when special seating accommodation is needed. The building was designed by the pastor, and the work was well carried out by Mr. Jopling, the contractor.

There were very large congregations at the opening services on Sunday. In the morning excellent sermons were preached by Rev. Jas. Barker, Ingersoll, and at three in the afternoon Rev. J. E. Trotter, of Peterborough, preached on an eloquent and practical discourse. At the congregation are delighted with the beauty and adaptability of the new building to the needs of church work.

On Monday evening a highly successful tea was given in the "Temple" adjacent to the church. The building was inadequate to contain the crowds which gathered, many failing to gain admission. After an excellent tea had been partaken of the people adjourned to the church where the intellectual feast was enjoyed. Mr. R. J. Colville, Y.M.C.A. secretary, Peterborough, occupied the chair and capital and *ad expandum* addresses were delivered by Rev. Jas. Barker, Ingersoll, Rev. J. E. Trotter, Peterborough, Rev. Mr. Patterman Lakefield, Rev. Mr. Ratcliffe, Scoutville and Rev. Mr. Raley, of the Methodist Mission, Indian Village. The combined choirs of the Gilmour Memorial Baptist church and the Peterborough Baptist church furnished excellent music. The Misses Barker contributed a very pleasing duet and Mr. Geo. Matthews of Peterborough gave a very acceptable solo. The proceeds of collections and tea amounted to over $300 leaving a sum of about $500 to be provided for in the future, but the zeal and energy of the congregation as shown in the construction of the new church will not allow this sum to be a long encumbrance. The cost of the church was $2,000 in addition to the large amount of voluntary work prepared by members of the congregation, who deserve the greatest praise for the energy with which they seconded the efforts of the pastor. The contractor Mr. Jopling came in for a good share of praise, a hearty and unanimous vote of thanks proposed by the pastor, having been passed to him for the satisfactory manner in which he had carried out the contract that has resulted in the village of Selwyn being ornamented with a beautiful new church.

Mount Pleasant.

(From Our Own Correspondent.)

Dr. W. Bat came back last week from his pedagogical visit to Manitoba. He seems to have developed with the country and enjoyed his short sojourn there.

Mr. Geo. Maddis has returned from the domains of "the Eagle."

Mr. and Mrs. Denny were visiting friends in the south of Cavan, on the 12th and 13th inst.

Some farmers are complaining that their potatoes are rotting in the ground.

Messrs. John Handley and John Bloxom are at Toronto Exhibition this week as also, are Messrs. James and A. P. McLean.

There was no preaching in the Presbyterian church on Sunday last. Quite a number took the opportunity to drive out to Omemee and hear the Rev. Johnson of Lindsay.

Ashburnham Village Council.

The Financial Meeting—The Rate Struck at 15 1-10 Mills on the Dollar.

At a special meeting of the village council held on Monday night there were present Messrs. Burnham, Craig, Throop and Wand.

A number of accounts were presented.

In response to the application of the Templars' lodge for the use of the council room, it was decided to allow them the use of the room at a nominal rental of twenty-five cents per night.

Leave was also given Mr. Wand to remove earth from the north side of Maria street to bring it to the regulation grade.

THE ESTIMATES FOR THE YEAR.

These were presented as follows:—

Expenditures.

County rate	$ 923 28

SEPARATE SCHOOL ESTIMATES.

Requisition of school board	$ 263 00
By 5 mills on $ on $52,470	262 35

An application of the parties interested reduction of license fees was considered and dealt with. It was decided to retain the licenses at the present figure, $260.

A loan of $800, to meet current expenditures, was authorized, and the council adjourned.

Ennismore's Annual Picnic

A Successful and Enjoyable Outing.

The annual picnic of St. Martin's Roman Catholic church was held at Mr. Kelly's grove near the church on Tuesday. Although late in the season it was a fine success, up to the mark, in enjoyment especially, with its predecessors.

There was a good attendance of visitors, who entered into the spirit of enjoyment that prevaded the gathering. Among the clergy who honoured the gathering with their presence were, Rev. Father Kelly, Douro; Rev. Father Scollard, of the Cathedral; Very Rev. Father Browne, V. G., Donro, and Rev. Father Conley, Emily.

The elders of the gathering enjoyed themselves exchanging crop notes, and the youngsters took full advantage of the splendid dancing platform provided, and of the Galvin Bros.' orchestra, which furnished first class music for dancing, Mr. M. Harrington, master of ceremonies.

THE SPORTS AND GAMES,

were conducted under the direction of Mr. M. C. Collins, the popular Hunter street grocer, town. The competition for the beautiful prizes kindly presented, principally by Peterborough merchants was keen. The following is the list of successful competitors for the several events:—

Standing Broad Jump—1st J. F. Sullivan, 2nd M. C. Collins.

Three Broad Jumps—1st J. F. Sullivan, 2nd M. C. Collins.

Standing Broad Jump—1st M. C. Collins, 2nd J. F. Sullivan.

Hop, Step and Jump—1st J. F. Sullivan, 2nd M. C. Collins.

Putting Heavy Weight—1st D. Kennedy, 2nd T. F. Lyon.

The tug-of-war contest between teams representing Emily and Ennismore was an exciting event. The teams were composed as follows:—

EMILY—M.C.Collins, captain, and Messrs. P. O'Connor, T. Crough, J. Young, M. Perdue, R. Donoghue, J. McGuire, J. Collins and J. McJoney.

ENNISMORE—P. Doran, captain, and Messrs. J. Murphy, P. Twomey, J. Sullivan, N. Corkery, W. Scollard, M. Shanahan and J. Mahoney.

The pulling were the struggles of Sampsons, but at last Emily muscle and skill won the day.

Rev. Father O'Connel, the respected pastor, exercised a paternal oversight, striving with great success to make everybody at home and happy.

The net financial outcome of the picnic was about $500, and the picnic was in all respects a very pleasant success.

Woman's Counsel.

In allusion to women, an Eastern author says: "Consult them, and do the contrary of what they advise."

"It is desirable for a man," says a learned Arab writer, "before he enters upon any important undertaking, to consult ten intelligent persons among his particular friends; or, if he have not more than five such friends let him consult each of them twice; or, if he have not more than one friend, he should consult him ten times at ten different visits; if he have not one to consult, let him return to his wife and consult her; and whatever she advises him to do; let him do the contrary; so shall he proceed rightly in his affairs and attain his object."

In Christian and civilized communities, the man who is blessed with a good wife must, if he desires prosperity and happiness, consult her before any important undertaking is entered upon.

Woman's counsel and judgment is at all times valuable and highly desirable. Women judge better by instinct than men, and their first judgment is invariably correct.

Woman's counsel and advice has done much of late in the field of suffering and disease. Blessed with quickness of perception, she has noticed the remarkable cures effected by Paine's Celery Compound, and has never ceased to advocate its use and sound its praises. In her circle of friends she has seen some dear companion, once healthy and and strong, laid low by the strong hand of disease. The lady friend or beloved sister has perchance become nervous and irritable; she is weak, listless and worn out; perhaps sleepless, languid and morbid; or headach and dyspepsia may make her existence miserable. The observant woman has seen this dear friend or relative restored to health vigor and strength; she sees rosy cheeks, bright clear eyes, and a healthful expression takes the place of suffering; her heart is joyous, and she is satisfied that nothing else but Paine's Celery Compound could accomplish such great results. For the future her counsel is earnestly used to guide and direct sufferers to the great remedy.

It is in this way that Paine's Celery Compound has become the favorite home preparation. Woman's counsel has done much to advertise and make it known. In this way thousands of our Canadian women owe their existence and present good health to the kind efforts of their sisters.

Emily.

Obituary—The Late Harry Mitchell.

(From Our Own Correspondent.)

It is our sad and painful duty to chronicle the death of Master Harry Mitchell of Emily, eldest son of Mr. J. J. Mitchell. After a lingering illness, death relieved his sufferings on the 9th inst. A very large cortege of relatives and friends followed the remains to the Omemee cemetery on the 11th morning, Harry was held in high esteem by the young and old of his neighborhood, and his early death is most lamentable. He had reached the age of 21 years, and was a member of the I.O.G.T. of Mount Pleasant. When he became ill his physician was almost certain of his speedy recovery, unless the initial sickness should fan up a pulmonary affection, and unfortunately this proved to be the result, and Harry declined with consumption. The parents, brother and sisters of the deceased have the heartfelt sympathy of the entire community in their sad hour of affliction.

Jos. Armstrong & Co.

Their New Dry Goods Establishment Open and Doing Brisk Business.

An important addition to the mercantile establishments is the dry goods store of Jos. Armstrong & Co., which is situated in the stand formerly occupied by H. LeBrun & Co., 396 George street. The premises have been splendidly fitted up for the special business, being repainted and elegantly papered, and it is a neat, tidy business place, worthy of the large and excellent stock which its shelves contain. A feature of the stock is that it is entirely new, of the latest styles, and purchased at very favourable rates in the best markets, by Mr. Jos. Armstrong, whose wide experience eminently qualifies him for the work. He is personally well known in town as a young man of excellent character, thoroughly acquainted with the business and possessing every quality to win and retain public confidence. while making a specialty of dress goods he keeps a large stock of staples, and the curtain department in the rear of the shop proper will be found stocked with a beautiful array of beautiful curtains and allied goods. The EXAMINER gives the new establishment its best wishes for a prosperous business career.

A Good Suggestion.

PETERBOROUGH, Sept. 16th, 1891.

To the Editor of the Examiner:

DEAR SIR—For some years there has been so regularly organized Musical Society in Peterborough; this season we are threatened with an inundation of them, three having commenced rehearsals, viz: The St. Cecilia Society, under the direction of Dr. Davies; the Philharmonic under Mr. Arlidge, and the cantata chorus under Mr. Ketcham. Each society is doing good work, and it would be a great pity for any one of them to fail for lack of material, but Peterborough is not large enough to supply singers for so many separate societies. I have a suggestion to offer, which, if accepted by those concerned, would I think, solve a problem. Let all combine, take up the work of one of the societies, under its own conductor, and rehearse until the public performance, after which, let the other societies take up their work in like manner. In this way we should have three good concerts, each under a different conductor, with a glorious chorus to back him. It would be interesting to have the opinions of some of the lovers of music of whom there are so many in Peterborough.

Yours truly,
KEY NOTE.

The EXAMINER thinks this a capital suggestion, and will gladly give space for further expression of opinion on the subject. —[ED. EXAMINER.

You cannot be too particular about the medicines you use. When you get a blood purifier, be sure that you get Ayer's Sarsaparilla, and no other. It will mingle with, purify, and vitalize every drop of blood in your body. It makes the weak strong.

South Monaghan.

(from Our Own Correspondent)

OBITUARY.—It is with feelings of profound sorrow that it becomes our painful duty to record the death, on Sept. 11th, of Mr. Stevenson, an aged gentleman who was very highly respected. The deceased has been ailing for some time. Our kindest sympathy go out to his beloved wife, in whose bereavement we share, and the only bright cloud in which is our assurance that our loss is his eternal gain.

"We see but dimly through the mist and vapors;
Amid these earthly damps
What seem to us but sad funeral tapers
May be heaven's distant lamps."

L.O.L. No. 46, will run their annual excursion to Idyl Wild on Friday, Sept. 18th. They expect, as usual, a large crowd. Good music will be provided.

Personal.

Mr. Peter Hamilton, Mr. R. B. McKee, and Mr. and Mrs. J. R. Stratton arrived home last evening from their visit to the Pacific Coast.

A Lost Baby.

A two year old girl baby who strayed from her parents is at Mr. Elgoomba's grocery corner of Edinburgh and Antrim streets.

A Long Lost Watch.

Six months ago a citizen put a gold hunting case Waltham watch, No. 19584850, in a drawer. Three weeks ago he missed it, and three hours ago he reported his loss to the police.

Town Houses Sold.

The town houses situated at the railway sidings, were sold by auction last night. No. 1, north side of the track, was knocked down to Mr. T. Hurley for $800, and No. 2, to Mr. John Corkery for $675.

—That tired feeling now so often heard of, is entirely overcome by Hood's Sarsaparilla, which gives mental and bodily strength.

DIED.

MCNEIL.—In Bay City, Michigan, on Tuesday, September 15th, 1891, Mr. Alexander McNeil, Senior, in his 87th year.

The funeral will leave the residence of his son in law Mr. Wm. Hudson, No. 634 Rubidge street, Peterborough, to-morrow (Thursday) afternoon at 4 o'clock.

Is Mitylene Occupied?

LONDON, Sept. 16.—The News and Chronicle are both of the opinion that the occupation of Mitylene is a helliose action.

The Standard's Odessa correspondent says that during the coming five weeks 40,000 troops will be moved by the Russian volunteer fleet.

BOSTON, Sept. 16.—An official despatch received here from Constantinople denies that Sigri has been occupied by a British force.

PARIS, Sept. 16.—M. Ribot, Minister of Foreign Affairs has received a despatch from the French consul at Smyrna stating that a British naval divisor, which has been manœuvring near Mitylene, has left that island.

Sealers Again Shot At.

VICTORIA, B. C., Sept. 16.—The San Francisco schooner City of San Diego, reached here last night with 600 skins from Copper Island, on the Russian side of Behring Sea. She reports that they exchanged volleys with the crew of a Russian man-of-war resulting in casualties on both sides. The schooner Hamilton Lewis, to cover the retreat of her consorts, engaged the Russian and was captured. The hunters of the San Diego express grave fears as to the probable fate of her crew, as they say that several shots were fired at the Russians in the skirmish that morning and probably some soldiers were killed.

Stabbing Affray at Peterboro.

PETERBORO, Sept. 16. About 1 o'clock yesterday morning a man named Walter Kerr was found lying in the yard of the Custom house by two compositors on The Times. He had been stabbed in the lung and was seriously wounded. He was enabled to give a description of his assailant, and within two hours the man was in custody. When questioned he claimed that he was robbed of $50, and mistaking Kerr for one of the robbers plunged the knife into him at sight.

Fourteen Lives Lost.

HALIFAX, N.S., Sept. 16. A special from Lockeport says: Captain McAlpin, schooner Glenora, reports having passed schooner Eureka of Lunenburg on the middle banks on the 11th inst. with the schooner Morris Wilson on her beam ends in tow. It is supposed all the Wilson's crew are lost. The Morris Wilson belonged to Lunenburg. She had a crew of 12 men and two boys.

Letters from Jeddah state the death rate from cholera among the pilgrims to Mecca has been unprecedented. The authorities estimate that 11,000 pilgrims died during the season. At the date the letters were sent, Aug. 24, all signs of the epidemic had disappeared.

France "Completely Recuperated."

PARIS, Sept. 15.—M. Constans, Minister of the Interior, speaking at Carpentras yesterday referred to the "complete recuperation" of France, and asked "all good citizens and patriots to support the Government." M. Constans added: "Frenchmen ought to be united at this time when France is receiving the highest tokens of friendship from abroad, the significance of which would be weakened by any comment, while exaggeration would diminish their import."

ALL AROUND THE WORLD

THE TROOPS CALLED OUT TO SUPPRESS THE OTTAWA STRIKERS.

Alleged Agrarian Outrages in Haldimand —The Spanish Floods—The Mitylene Sensation Another Vessel Disaster— Sealers Shot At Sundry Subjects.

OTTAWA, Sept. 16.—The strike of mill hands here assumed a new phase yesterday morning. About 1,500 strikers held a meeting at the Chaudiere and after listening to inflammatory speeches moved across the Suspension bridge towards the Hull side, sweeping like an angry torrent. 1,500 men and boys swearing and gesticulating, swarming through E. B. Eddy's pail factory, compelling 250 operatives to stop work. Mr. E. B. Eddy, who is as fearless as he is loquacious, attempted to stem the tide, but all to no avail. In a rush he was pushed aside and roughly handled. His manager, Mr. Rowley, and Mr. Millan, another official, also received ugly treatment. Encouraged by their success, the strikers, now augmented, visited the lime and cement works of C. B. Wright, also on the Hull side of the river. There they achieved equal success. The hands quit work. Mr. C. B. Wright, the proprietor, was also somewhat roughly handled by the strikers. Then upon the requisition of two magistrates including Mayor Eddy of Hull the companies of the 43rd and 2nd of the Governor General's Foot Guards have been called out to preserve the mill owners property. A conflict is feared.

A deputation of strikers waited on Sir John Thompson last night to urge him to cancel the order calling out the militia tomorrow.

Sir John replied that he had nothing to say in the matter, that the magistrates were simply following the statutes on the matter in acting as they did, and that the militia department could not interfere.

CANADIAN AGRARIANISM.

An Arrest in Haldimand and Committed for Trial.

HAGERSVILLE, Ont., Sept. 16.—Government Detective Murray of Toronto, who arrived here Saturday, yesterday arrested Charles O'Hara and his wife of the township of Rainham, for malicious injury of property. William J. Dougherty, a shoemaker of Hagersville, owns a farm adjoining O'Hara's which he has rented to Walter Moulton for farming purposes. O'Hara wanted to rent a portion of the farm from Moulton for pasture which was refused because of the lack of French protection. O'Hara then swore that nothing would be allowed to grow on the farm and had made several threats. It appears that he once owned this farm and that the circumstances connected with his losing possession have made him desirous of revenge. On one occasion the plow and harrows belonging to Moulton were placed upon a pile of rails and set on fire and destroyed. On another occasion, 11 or 12 of the best apple trees were girdled, and again later on in the season a field of barley about heading was cut and slashed with a scythe irregularly and in different places and destroyed much of the crops. On other occasions fencing was thrown down, set fire to and burned. Things became so bad that the Government was requested to send a detective.

The accused were arranged before Justices Stewart and Howard and committed to Cayuga jail.

The Terrible Floods in Spain.

MADRID, Sept. 16.—The floods have been general in the south of Spain. The damage done is simply terrible in its extent. Several trains have been derailed and railroad tracks, and roads are everywhere washed away. In the province of Toledo the rush of water from the Consuegra River was so sudden that hundreds of people were drowned in their beds. The aspect of the town is frightful. Four hundred bodies have already been recovered and a hundred corpses can be seen floating in the river.

Scratched 28 Years

A Scaly, Itching, Skin Disease With Sudden Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago, it would have saved me $200.00 and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body, and got under my nails. The scales would drop off of me all the time, and my suffering was endless, and without relief. One thousand dollars would not induce me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was $5 worth. If you had been here and said you would have cured me for $200.00, you would have had the money. I looked like the picture (No. 2, page 47) in your book, "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty-eight years, and it got to be a kind of second nature to me. I thank you a thousand times.
DENNIS DOWNING, Waterbury, Vt.

Cuticura Resolvent

The new Blood and Skin Purifier internally (to cleanse the blood of all impurities and poisons), and CUTICURA the great skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally (to clear the skin and scalp, and restore the hair), instantly and speedily cure every species of itching, burning, scaly, crusted, pimply, scrofulous, and hereditary diseases and humors of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scrofula.

Sold everywhere. Price CUTICURA, 75c; SOAP, 35c; RESOLVENT, $1.50. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

THE CRISIS IN QUEBEC.

LIEUT.-GOV. ANGERS TELLS THE GOVERNOR-GENERAL ALL ABOUT IT.

A Royal Commission of Judges Demanded

Revocation of the Paying Powers of the Deputy Governor The Filth and Marrow of the Correspondence.

OTTAWA, Sept. 17. Premier Abbott yesterday laid on the table of the Senate the correspondence between Lieut. Governor Angers of Quebec and His Excellency the Governor General. It consists of one letter from the Lieut. Governor to the Governor General and a copy of a letter addressed by the Lieut. Governor to the Prime Minister of Quebec. The documents are a translation from the original French.

The letter to His Excellency read as follows:

Govt. House, Quebec, 9th Sept., 1891.

LIEUT. GOV. ANGERS TO THE GOVERNOR GENERAL.

My Lord,—Before the railways, telegraph and canals committee of the Senate which had charge of examining a bill presented before the Parliament of Canada by the Baie des Chaleurs Railway Co., certain disclosures with respect to acts of the administration of my advisers have been made by witnesses under oath. The said disclosures have caused alarm and created a great sensation in the public mind. In so grave a situation I think it my duty to inform your Excellency of the line of conduct I have adopted and those disclosures have been made by transmitting to your Excellency a copy of the letter I have addressed to the Hon. Honore Mercier, First Minister of Quebec, on the subject thereof.

I have the honour to be your obedient servant,

A. R. ANGERS,
Lieut.-Gov. of Quebec.

LIEUT. GOV. ANGERS TO PREMIER MERCIER.

A letter of the Lieut. Gov., which is a very lengthy document, reviews the whole history of the negotiations in reference to the transfer of the Baie des Chaleurs Railway to the Cooper Thom syndicate, quoting extensively from Mr. Mercier's speeches in the Legislature and pointing out the safe guards laid down by the legislators for the protection of the privileged creditors. Then there is a short history of the negotiations between Mr. Garneau and the new syndicate, the general course of which has become public before the Senate Committee. The most significant paragraphs of the Governor's remarks in this connection are these:

THE MOST SIGNIFICANT PARAGRAPH.

"From the 23rd to the 26th April, Hon. Mr. Garneau again called to discuss with me the Baie des Chaleurs Railway matter. He told me he was subjected to strong pressure, that he was asked to do things he objected to, that they threaten ed to send a telegraphic message to Mr. Mercier, and he added he felt like resigning. I told him: These threats are futile. In the circumstances I think that being the First Minister credited in the absence of the Hon. Mr. Mercier you can not leave me without advice. You ought not to resist and to act wholly in conformity with the law. He seemed more decided and left.

"Before the 24th July, 1891, Hon. Mr. Garneau called again with reference to the same matter, and informed me that he had received a letter from the First Ministe, then in Europe, stating he was satisfied with the transaction respecting the Baie des Chaleurs Railway Co. From the above, I had reason to believe, until certain disclosures mentioned were made, that the Government would act in conformity with the law in settling this matter.

"Then the Governor quotes at length from the evidence and the proceedings before the senate committee, and concludes in these words:

"Sir, It was not my intention in the foregoing precis to present a complete precis of the facts revealed before the Senate Committee, having charge of examining the bill presented by the Baie des Chaleurs Railway Co., to the Parliament of Canada. I have wished merely to draw attention to the most important of these disclosures, which have caused me great alarm. I beg to draw your attention to the fact that the mode of issuing bonds by letters of credit without the sanction of the representatives of the Crown is not recognized by law. In this manner, in the present case, the Government has drawn on the treasury the sum of $175,000 without having recourse to the sanction of the Lieut. Governor required by law. It must be noted that in this instance no order in Council was ever passed authorizing the Provincial Treasurer to draw any sum on the treasury. The Order in Council, No. 237, is but a conditional acceptance with amendment of the proposals of Mr. Tim and others with a promise to eventually pay, first, the balance of the subsidy voted by the Act 45 Vic. Cap. 23 and amendments and 51 & 52 Vic. Cap. 91; second, the subsidy granted for the bridge over the Grand Cascapédia River; third, the subsidy of 500,000 acres. I had never invested myself and to appoint a commissioner to effect the payment with the approval of Mr. Tim, or upon judgment or arbitration of certain debts of the railroad. I find that the system of drawing on the finances of the province by the means of letters of credit, without the sanction of the representative of the Crown, is prejudicial to the public credit. It appears that the above clearly shows by the several steps that had to be taken to utilize the letters of credit issued by the Government and the cheques given by their representative. The Union Bank refused to discount the letter of credit of $500,000 and only consented to undertake to collect it. At the Banque du Peuple a note from Mr. Valliere had to be attached to the cheque of the Government Commissioner as a promise had to be made by Charles Langelier that the deposit of $50,000 would be made out of the loan of ten million dollars (Dunoulin witness), in order to obtain the discount of the sum of $20,000 at the Banque Nationale, a note made by Mr. Pacaud endorsed by Mr. Philippe Valliere had to be annexed to the cheque out of the Government Commissioner in order to obtain the discount of a further sum of $20,000. It seems that the Government in paying the sum of $175,000 to Mr. Armstrong has made a payment to a person to whom the Government owed nothing, and to whom the Baie des Chaleurs Railway Co. owed nothing but debentures. That, knowing the intention of the Act 54, Vic. Cap. 88, paragraph J, and according to your declarations to the Government even with the consent of the reorganized Company should have paid to Mr. Armstrong no part of the $280,000 before the company could have exacted the payment thereof by the works to be done. Mr. Armstrong's pretensions not being of the category of the debts, the settlement of which the statute did not authorize before the works had earned the subsidy. That in paying Mr. Armstrong the sum of $175,000, the Government has paid it to the one against whom the creditors of the railways mentioned in the statute, should have been protected and that in any event the $100,000, which went to Mr. Pacaud—if acquitted to that amount a public entity of its settlement voted by the Legislature, it would seem that there exists between the government and the creditors of the Province a gate where tribute must be paid before doing justice to the claimants. Under these circumstances, it is my duty, first, to demand explanations about the Baie des Chaleurs railway affair; second, to disband your co-operation so that a Royal Commission, composed of three judges, be appointed and authorized to enquire into and make a report on the facts and circumstances which have preceded, accompanied, caused and followed the transactions made in consequence of the Act 54 Vic. Cap. 88, in so far as relates to the Baie des Chaleurs railway company. As members of that commission I propose the Hon. Louis A. Jetty, judge of the Superior Court; the Hon. Mr. Louis Francois Georges Baby, Judge of the Court of Queen's Bench, and the Hon. Charles Peers Davidson, Judge of the Superior Court. Until further orders, I also call on you to limit the action of the Government to urgent acts of administration and I revoke the nomination of the Deputy Lieut. Governor made by virtue of treasury act, to sign the orders on the consolidated revenue fund of the province of the 1877 of the Revised Statutes of the Province of Quebec, and I beg you to give notice of this revocation to whom it concerns.

"I have the honour to be,

"Sir, your obedient servant,

"A. R. ANGERS,
"Lieut. Governor."

SUPPLEMENTARY ESTIMATES.

$5,000 Granted for the Expenses of the Prohibition Commission.

OTTAWA, Sept. 17. The supplementary estimates were laid on the table to night. They include $8000 for expenses in connection with the formation and drill of a new kilted regiment in Toronto, $5000 for the erection of a building at Toronto in connection with the meteorological service; $7000 for the funeral expenses of the late Sir John A. Macdonald; $533 for the balance of his salary and $1000 for his indemnity; $5000 for expenses of prohibition commission.

PRIVILEGES AND ELECTIONS.

OTTAWA, Sept. 17. The Committee on Privileges and Elections sat yesterday and decided to postpone the discussion of the two reports on the McGreevy affair until they shall have been presented to the House. *The report of the majority* of the sub committee was adopted on a straight party vote, 18 to 9. Both reports will go to the House this afternoon, but it is not likely that the debate in the House will be commenced before next week.

A Victim of Niagara.

NIAGARA FALLS, Sept. 17. Manager Devereux of the Cataract House received a letter last evening from the musical director of the "The Spider and the Fly" company, dated Boston, asking that the satchel and effects belonging to a woman who committed suicide here on Saturday last be forwarded to him, as he claims the woman was his wife.

Reservation Superintendent Welch says that at times during yesterday afternoon a garment like a woman's dress skirt could be seen through the mist under the edge of the

ONE MAN BADLY HURT.

A VALUABLE TROTTING HORSE GETS HIS BACK BROKEN.

And a Heavy Loss is Incurred in Freight and Rolling Stock by a Grand Trunk Railway Accident Near Stony Creek Yesterday.

HAMILTON, Sept. 17.—Another bad accident occurred on the Grand Trunk yesterday about five o'clock a mile east of Stony Creek station, resulting in a serious wreck and the wounding of one man. The track was not cleared until this afternoon, and all the trains east and west were delayed and had to transfer passengers, express and mails.

A regular freight left Hamilton for the east at 4.30 in charge of Conductor Thomas Smith, and just after leaving Stony Creek switch it collided with special freight 179, bound west. The trains were drawn by powerful mogul engines 222 and 227, and the wreck was a big one. The crash occurred just opposite to the house of sectionman John Coughlin, and the cars nearly climbed over the building, which had a narrow escape from being totally wrecked. The moguls were so heavy that they never left the track, but just crashed into each other and remained locked, while the cars behind telescoped and leaped over each other until an immense heap of wreckage was piled up. The enginemen on both trains jumped and escaped unhurt, but Cecil Winter, a breakeman on the special, was not so lucky. He was on the top of the fourth car from the engine, and as it collapsed beneath him he was buried in the wreck piled up against Coughlin's house.

John Coughlin and his wife were awakened by the crash of the collision, and thought the world had come to an end. When they got outside they heard a man groaning under the wreck, and on investigating found poor Winter lying in their dooryard. His right leg was broken at the thigh and ankle, the bone protruding from the latter, and his left foot badly crushed. He was carried into the house and Dr. Carr, of Stony Creek, was sent for and temporarily dressed the wounds. Winter was brought to the city hospital and had his right leg amputated six inches below the knee. He is doing well and will recover. He lives on George street, Toronto.

AN EXTENSIVE WRECK.

The train from the west was in charge of Conductor Thomas Smith and Driver Hushing. The special was in charge of Conductor Diamond. As far as can be learned Conductor Smith failed to go to the station for an order telling him to cross the special at Stony Creek. He ran on past Stony Creek, and met the special on a straight piece of track. Driver Hushing had his train well under control before the collision, but the west bound special was running at a great rate of speed. Both engines are badly used up. The train behind the special ran up on the engine, tearing off the cab, and shoving the tender almost on the boiler. The cars piled in a great heap and toppled toward the section house, almost burying it in their fall. They were loaded with wheat, household furniture and glassware packed in crates, and great was the smash thereof. The wheat was a fine brand of red seed going west. The loss will be very heavy. About twelve cars were wrecked.

A VALUABLE HORSE MAIMED.

On the east-bound train was a valuable trotting stallion, Henry R, owned by Geo. Robertson, of St. Catharines. He was thrown down by the shock and had his spine badly injured, probably broken. His hindquarters are paralyzed. He was one of the finest trotting horses on the Canadian turf, and the groom stated that Mr. Robertson had refused $3,500 for him. The horse was being brought back from the Detroit and Cleveland races by its colored groom, Oliver Smith, who was in the car with him. After the accident Smith cried like a child over the poor animal an could scarcely speak of him afterwards with dry eyes. The horse had a record of 2:26 and was fresh from new triumphs in the west where he won $600 in the open trot at Detroit against some of the American cracks.

A Light Sentence.

HAMILTON, Sept. 17. The trial of Robert McDonald, the letter carrier, charged with seducing Lydia Gale, aged 15 years, on Aug. 3rd last, took place yesterday before Judge Sinclair. It will be remembered that according to the evidence produced in the Police Court, McDonald met Lydia Gale in company with another girl about her own age on the evening of Aug. 3rd and took them for a drive to the Beach. The prisoner kept the two girls there until an early hour in the morning and while at the Beach committed the crime with which he was charged. He was arrested two days after the crime. He pleaded guilty, and was sentenced to jail till Nov. 1, making the time of his incarceration three months in all.

ALL QUIET AT HULL.

The Men Go Home Quietly After Listening to a Speech.

OTTAWA, Sept. 17. Last night a mass meeting was held in front of Booth's mill, which was attended by a large number of people besides the strikers. Messrs. Fauteux and J. W. Patterson, president of the Ottawa trades and labor council, were the speakers. Mr. Patterson counselled them to remain firm, but to keep quiet and not to interfere with the militia who were to be present in the morning. Their cause was a just one, and they had the sympathy of the working classes. The committee who had waited on the mill owners would go so again, and they hoped to end the strike to the satisfaction of all concerned. In conclusion he advised them to go to their homes and stay there. After three cheers for the Queen the men dispersed. A large number of city police were present at the meeting, but their services were not required, as the meeting was a very orderly one. Mr. Rowley, manager for the E. B. Eddy company, speaking last night to a reporter, said that their men were not on strike, and that none of the firm had anything to do with it. Their men were satisfied, and in thirty nine and one-half years Eddy had never had a strike.

E. B. EDDY ALL RIGHT.

TORONTO, Sept. 17.—The following telegram was received here yesterday by Mr Weldon, manager of the branch office here.

HULL, P. Q., Sept. 16, 1891.

Thanks for enquiry. No serious personal injury to Mr. Eddy or others of us. Every department and all work running full to-day ready to fill all orders promptly as usual. Signed, THE E. B. EDDY CO.

A Well-Known Wheelman Killed.

WINDSOR, Sept. 17.—Gilbert Douglas, a well-known wheelman on the lakes, fell from the gang plank of the propeller Jim Fisk at the dock yesterday into the river. He was hauled out and walked to a saloon a few blocks distant where he was taken ill and soon died. It was discovered he had a bad bruise on the back of the head where he struck a plank in falling.

Cholera in Bombay.

BOMBAY, Sept. 17. Thirty-five cases of cholera and eighteen deaths are reported on the British men-of war, Marathon and Redbreast. The epidemic has subsided here, there being no case either in the town or in the harbor.

Cattle Dehorning Recommended.

GLASGOW, Sept. 17. Mr Graham, Canadian agent here, strongly urges Canadian farmers to dishorn cattle at an early age. They would thus, he says, secure a much better price.

A Significant Item.

SHANGHAI, Sept. 17.—The customs authorities here have seized a large quantity of arms and ammunition intended for a secret society at Chin Kiang. Foreigners are implicated.

Buried in a Tunnel.

ROME, Sept. 17.—A railway tunnel in course of construction near Messina, collapsed yesterday, burying a number of workmen in the ruins.

A Cardinal Dead.

LONDON, Sept. 17.—Cardinal Bocelli, papal nuncio at Paris, is dead. The Pope is deeply affected over the news of the cardinal's death.

Children Cry for Pitcher's Castoria

SPAIN'S AWFUL FLOODS.

THOUSANDS AND THOUSANDS OF PEOPLE DROWNED.

Appalling Scenes in Consugura—The Town a Heap of Ruins Filled With Corpses—Frightful Loss of Human Life and Property—The Death Carts Busy.

MADRID, Sept. 17.—Accounts from Consugura are appalling in the extreme. The town is a heap of ruins, surrounded by a vast expanse of water, leaving visible here and there tree tops, chimneys and floating wreckage of all kinds. Some of the streets have been partially cleared and made passable, but they are almost deserted. Here and there may be seen groups of destitute and weary people gazing in a torpor at their wrecked homes. With unceasing exertions the authorities are restoring something like order. The police have suppressed pillage. Food is arriving for the sufferers. The burial of victims proceeds, and with the constant discovery of fresh corpses, it will be long before the mournful task is ended. It is estimated that 5,000 head of horses and stock have been drowned. The flood at Almeria has plunged the city into absolute darkness, having stopped operations at the electric light establishments and gas works. The river Andaray has overflowed its banks and converted the valley into a vast lake. The Queen has subscribed $20,000 more to start a national relief. The Bank of Spain has subscribed $6,000, and other contributions are coming from all quarters. The members of the editorial staffs of all the newspapers will on Thursday and Friday make personal collections in the streets of money, clothing and food. Many gloomy scenes are witnessed at Consugura. Carts are kept going from house to house collecting the dead. The dead bodies are laid in the carts reverently, but rapidly, the carters being compelled to be callous to the wailings of the relatives. Survivors give harrowing accounts of the flood. Many mothers were seen struggling in the water to hold up children and finally succumbing to the rush of the torrent. Others were confined in rooms, with no hope of escape until the collapse of the walls opened a refuge. One man who was caught on a wooden bridge saw hundreds of persons float past crying piteously for help, which he was unable to give. The bodies of sixty persons were found in a public hall, where they had been overtaken by the flood in the midst of a wedding feast.

At Amargville, the flood destroyed four stone bridges and twenty mills, besides an enormous number of houses. Wreckage and corpses were carried forty miles. The mayor of Consugura puts the fatality there at 3,000. In some places limbs have been found separated from the bodies. The officials have telegraphed for lime to prevent an outbreak of disease. Large numbers of passengers en route to the south are detained here on account of the floods. Passengers coming to this city from Sevelle, Cadiz, Corva, Granada, Valencia and Alicante are obliged to journey by way of Barcelona. A terrible storm, which set in near Valencia Tuesday morning, has destroyed the rice crop. The rivers Turia and Jucar are rising rapidly and threaten further disaster. The government has set apart $100,000 for relief measures and has asked the Bank of Spain to grant credits to the governors of the suffering provinces.

Correspondents who have been able to reach Consuegue describe it as a "city of the dead," while the monetary loss exceeds 2,500,000.

THE HORRIBLE STORY IN DETAIL.

A gendarme at Consuegra, who was an eyewitness of the disaster, says: The storm was accompanied by terrific thunder and lightning. While I was standing near the town hall I was startled by hearing the Mayor shouting from the balcony of his residence to the guards to run to the river as the water was flooding the houses. I hurried with several companions to the lower part of the town. We found the water already in many places neckhigh. With much difficulty we saved thirty persons. The Mayor presently arrived on the scene and appealed to all possessing carts to assist in transferring people to the upper part of the town. Only three persons responded, although two hundred possessed conveyances.

The same difficulty was experienced in obtaining the ropes, ladders, pickaxes, etc., necessary for receiving people in danger. The callous indifference of those in safety contributed to a great extent to the enormous fatality. Even those whose houses were flooded seemed incapable of realizing their danger. In vain we begged them to abandon their doomed dwellings. The storm having abated, they believed all danger past and stolidly refused to budge. Torrents speedily commenced to run from the mountain gorges in all directions into the valley. Thus the day passed and at night many people, in spite of warnings, retired to sleep in their threatened dwellings. Soon the storm commenced with redoubled violence. The river rose by leaps and bounds and carried everything before it with resistless fury. It was an awful night to see the now thoroughly terrified people climbing to the roofs of their houses and shrieking vainly for help, which it was impossible any longer to render. The houses collapsed one after another and were swallowed up in the seething torrent. Daybreak saw hundreds of men and beasts struggling in the water, clinging in despair to wreckage, and whirled along so rapidly that they were in a moment lost to sight.

The misery existing at Consuegra is intense. The inhabitants are compelled to sleep in the open air and the food supply is of the meagrest description.

The gendarmes are often obliged to resort to force to compel men to assist in recovering bodies. Sixteen robbers have been caught rifling bodies. So far 945 corpses have been recovered.

The national relief fund has reached $100,000. Students are collecting money for the sufferers in the streets of Madrid.

The town of Temploque has been converted into an island by the flood, and communication with the town is almost impossible.

The storm wrought immense damage in Murica, Saragossa and Malaga. The railway works at Ronda were greatly damaged, three persons were drowned and many cattle perished. The consigners of goods delayed on the railways are heavy losers.

The Gazette publishes by Royal authority a request to Spanish agents abroad to receive contributions for the flood sufferers.

China Comes to Time.

PARIS, Sept. 17.—The Chinese Charge D'Affaires visited Foreign Minister Ribot yesterday and after informing him that China recognized that the measures hitherto taken to protect Europeans in China were insufficient, assured him that the negligent mandarines would be dismissed and the rioters punished. He added that six of the latter have already been hanged. It is feared that these promises will remain a dead letter.

Spurgeon Has Another Relapse.

LONDON, Sept. 17.—Mr. Spurgeon has had a relapse.

Some Loose German Soldiers.

BERLIN, Sept. 17.—Two months ago the captain of the first company of the Thirty-seventh fusiliers, stationed at Kotochin, found a sentinel asleep. On the following Sunday, determined to pull the men together, the captain paraded them four times in succession. Twenty-one men were absent at the fourth parade, and were afterwards found walking about the streets. They were arrested, tried by court martial and sentenced to imprisonment in a fortress for terms varying from eighteen to twenty-one months.

Peculiar Death From Drowning.

SHELBURNE, Ont., Sept. 15.—The 9-year old son of Thomas Neely was sent to a spring near the house for a pail of water, and in stooping over to raise the pail he fell head long into the narrow box which was used as a curb for the spring. The box was so narrow he could not extricate himself and he was drowned in less than one foot of water.

What Does it Mean?

"100 doses one dollar" means simply that Hood's Sarsaparilla is the most economical medicine to buy, because it gives more for the money than any other preparation. Each bottle contains 100 doses and will average to last a month, while other preparations, taken according to directions, are gone in a week Therefore, be sure to get Hood's Sarsaparilla, the best blood purifier.

MILLINERY AND MANTLE DISPLAY AT TURNBULL'S

On Tuesday and Wednesday, the 22nd and 23rd Sept.

Our Millinery Showrooms will be open for the Fall Trade, when all the new fall patterns will be on display. As there is considerable change in the styles this season, ladies may expect to see novelties with us. We willl also show an extensive range of Pattern Mantles, and keep a well selected stock of Cloths and Trimmings, so that ladies preferring to leave their order for anything in the Mantle Line will find everything desirable with us.

Our stock of Dress Goods is now complete. We are showing some novelties in Camel's Hair Cloths, Polka-dot and Check Robes, Cheviot Cloths and Fancy Serges. MISS MERCIER, our dressmaker, has returned from a trip to Rochester, Buffalo and Toronto, and is well posted on all the latest styles. We feel we owe an apology to some of our customers for the unpardonable time their dresses were kept before made in the past, but, as with any first-class dressmaker, Miss Mercier got overcrowded. We have made a rule not to take any orders but what can be filled in a reasonable time, so that this will be avoided in the future.

Our stock of Men's Suitings and Overcoatings are well bought and cheaper than ever. We claim to be the best house in town for Ordered Clothing.

Arrived to-day, seven shades of Ladies' Diagonal Suitings (wide) at 15c.; three-quarter Table Napkins, 100 doz; all the leading makes of Corsets at the lowest prices in the trade.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as they supply in a condensed form the substances actually needed to enrich the BLOOD, curing all diseases arising from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these Pills. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail chaos when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c per box), by addressing THE DR. WILLIAMS' MED. CO. Brockville, Ont.

THURSDAY, SEPT. 17, 1891.

The Minority Report.

While Sir John Thompson and Messrs. Adams and Girouard have spent about two weeks endeavoring to find excuses for Sir Hector Langevin's conduct in connection with the several matters referred to in Mr. Tarte's charges, Messrs. Mills and Davies the Liberal members of the sub-committee appointed to prepare a draft report to be submitted to the main committee on Privileges and Elections, have presented a report which deals with the case in accordance with the facts as stated in evidence. The draft report presented by the Conservative members of the sub-committee sets forth, in brief, that Thomas McGreevy is a very bad man, while Sir Hector Langevin was a simply tool in his hands; that Sir Hector was more fool than rogue, and pronounces mild censure upon Mr. Greevy and Mr. Perley while exonerating the late minister of public works from all personal blame. It is safe to predict that twaddle of that sort will not satisfy the country, though the supporters of the government in Parliament may compromise with their consciences to such an extent as to accept it. The analysis of the testimony presented by Messrs. Mills and Davies, is sufficient to convince any intelligent man that the facts given in evidence are wholly inconsistent with the theory that Sir Hector is innocent. Let us take the proposal to lengthen the Esquimalt dock, for instance. While Michael Connolly, one of the contractors, was in British Columbia he wrote to his partners, Murphy and Robert McGreevy, stating that the firm could afford "to give $50,000 for some charitable purpose" provided the dock was lengthened by one hundred feet. Murphy and Robt. McGreevy swear that they bargained with Thos. McGreevy to procure the passage of an order-in-council lengthening the dock by one hundred feet. Shortly after this arrangement was made between the contractors and Thos. McGreevy, Sir Hector is found making a report to council recommending that the dock be lengthened by one hundred feet. His report was adopted by the cabinet, but as the Esquimault dock was partly an Imperial work the assent of the British admiralty authorities had to be obtained, and such assent not being given—the admiralty authorities considering the dock large enough—the extension project was not carried out. But for this obstacle Sir Hector's recommendation would have been duly carried into effect, and the taxpayers would have had to pay for 100 feet of useless dock, simply because the contractors agreed to pay $50 000 out of their profits provided this change was effected. It is taxing public credulity too far to expect the people of Canada to believe that Sir Hector Langevin did not know why Mr. McGreevy wanted the dock extended. The circumstances under which the contract for the Esquimault dock was awarded to Larkin, Connolly & Co., also discredit the theory of Sir Hector's innocence. The tender of Larkin, Connolly & Co. was not the lowest. Messrs. Starrs & O'Hanly who were the lowest tenderers, swear that they were ready to accept the contract. They were frightened into withdrawing their tender by Sir Hector Langevin himself—who pretended that their tender was altogether too low and that no extras or charges would be allowed or paid for. But the report of the expert accountants employed by the committee shows that the dock was actually built for $50,000 less than the tender of Messrs. Starrs & O'Hanly, and that changes and extras were allowed to Larkin, Connolly & Co., their profits upon the work being something enormous; notwithstanding the amounts paid out as "donations" to Thomas McGreevy and others. Why was Sir Hector so anxious to have the contract undertaken by Mr. McGreevy's favorites instead of by Starrs & O'Hanly? Every advantage which Mr. McGreevy agreed to procure for the contractors was duly obtained. In every case where he agreed to obtain changes, extras, etc., for so much cash, the goods were duly delivered; being in every case obtained through the late minister of public works. It is utterly absurd to condemn Mr. McGreevy and exonerate Sir Hector, because the latter was the chief sinner. Without the influence and active co-operation of Sir Hector, Mr. McGreevy would have been utterly powerless, and could not have carried out any of his arrangements with the contractors. No doubt the ministerial majority will accept the whitewashing report, but their so doing will simply convince the public that Mr. Abbott's pretended anxiety to purify public life and punish boodlers is all sham and humbug, and that he is really anxious to save the plunderers from punishment. Mr. Abbott thinks he can satisfy public opinion by punishing a few minor officials, who have been merely misled by the bad example of their superiors, while allowing the chief offenders to escape. How utterly absurd it is to suppose that Sir Hector Langevin did not know the source from whence Mr McGreevy obtained the $45 000 which he gave to support *Le Monde*. —*Ottawa Free Press.*

A Change of System.

Wheat Raising Gives Place to Stock and Dairy Produce—Some Contradictory Figures—Land Values go Down and Rents Go Up—Increase in Number of Stock, but Reported Decrease in Values.

An interesting collection of agricultural statistics relating to Ontario has just been issued by the Bureau of Industries. This report clearly indicates that an industrial revolution is slowly but surely taking place in this Province. Ontario is changing from a wheat raising to a stock and dairy country. For instance, during the past year, the number of horned cattle has increased by 3,000 head, and the quantity of factory cheese by nearly 7,000,000 pounds. But during the same time the value of farm lands in the Province has fallen nearly nine and a half million dollars. The only reason that can be assigned for the drop in land values is a decrease in the wheat acreage of over 100,000 acres. True, the area devoted to root crops and coarse grain has increased proportionately in the same time, but while farmers are changing the whole system, the value of land must go down. What seems strange, however, is that while land values have fallen rents have gone up. Between 1889 and 1890 the value of land is reported to have dropped from $28 86 to $27.79, a decrease of 57c, but during the same period rents are said to have increased from $1.96 to $1.98 per acre.

The following table shows the value of farm lands, buildings, implements and live stock in Ontario in 1889 and 1890, together with the increases and decreases in values in each item:

	1889.	1890.
Value, farm land	$632,320,433	$622,886,000
" farm buildings	192,464,237	193,438,926
" farm implements	51,685,706	50,515,583
" farm live stock	105,731,288	104,066 036
	$982,210,664	$970,927,035

NOTE.—It is singular that while the value of live stock has decreased the number of cattle has increased by 3,000, of horses by 41,000, and of hogs by 306,000. This must indicate a great fall in prices.

The next table gives the acreage devoted to various kinds of crop in the Province in each year from 1886 to 1890. From this return it will be seen that the acreage of wheat has decreased 142,000 acres and barley 34,000. During the same period there has been an increase in the acreage devoted to oats of 261,000; to peas of 78,000; to roots of 40,000 and to hay of 167,000. This means as before stated, that wheat-raising is going out, and stock-raising, for which the coarser grains, hay and roots are intended, coming in. The effect of the additions made to the acreage devoted to roots and hay will be made clearer by the statement that the yield of roots in 1890 exceeded the yield of 1886 by about 5,000,000 bushels, and the yield of hay last year exceeded that of five years previous by 1,310,000 tons while during the same period the area of pasture lands increased by 34,000 acres. From 1886 to 1890 the number increased by 90,000, and hogs by 280,000. In the same period the number of sheep has decreased by 271,000, and cattle by 124,000. It is strange, however, that while the number of cattle has decreased in five years, the quantity of cheese produced has increased by 16,000,000 lbs. The number of farmers' chattel mortgages and renewals on record and discharged increased between Jan. 1 and Dec. 30, 1890, from 8,542 to 10,163, and their amount $2,493,659 to $3,090,664.

In closing his address before the Privileges and Election Committee, Mr. Fitzpatrick, counsel for Thomas McGreevy, appealed to the members not to make a scapegoat of his client, or to saddle upon him the sins of others. But that is exactly what the Minister of Justice is going to ask the committee and the House of Commons to do.

Mrs. Chas. Smith, of Jimes, Ohio, writes: "I have tried every remedy for sick headache I could hear of for the past fifteen years, but Carter's Little Liver Pills did me more good than all the rest. dw

They have discovered it! "What?" Vita Ore, which is warranted to cure Diphtheria or any Throat trouble, Dyspepsia or Female Weaknesses, Put up by the Vita Ore Co'y, Box 89, Belleville. d303m-w

Purity of ingredients and accuracy of compounding, make Milburn's Aromatic Quinine Wine the criterion of excellence. dw

Regina Ripples.

"I took six bottles of Burdock Blood Bitters for liver complaint, headache and dull stupid feeling, but now I am entirely well and healthy, having also a good appetite which I did not have previously."—Mrs. T. Davis, Regina, N.W.T.

You hardly realize that it is medicine when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use. dw

From the Jaws of Death.

Some surprising effects have been recorded from the use of Miller's Emulsion of Cod Liver Oil in the most desperate cases of consumption. When all other remedies have failed Miller's Emulsion nearly always succeeds. It is the best kind of flesh and blood maker, and has been used with marked success by the physicians in the Insane Asylum, Penitentiary, Hotel Dieu, and General Hospital in Kingston, Ont. In big bottles, 50c. and $1 at Peterborough drug stores. dw

Could Scarcely See.

Mrs. John Martin, of Montage Bridge, P. E. I., writes:—"I was troubled last summer with very bad headaches and constipation and sometimes could scarcely see. One bottle of Burdock Blood Bitters made a complete cure of my case, and I wish you every success.

A single scratch may cause a festering sore. Victoria Carbolic Salve rapidly heals cuts, wounds, burns and all sores. dw

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

Clinton Clippings.

"I had for years been troubled with dyspepsia and sick headache and found but little relief until I got Burdock Blood Bitters which made a perfect cure. It is the best medicine I ever used in my life."—Hattie Davis, Mary street, Clinton, Ont.

Ayer's Hair Vigor

Is the "ideal" Hair-dressing. It restores the color to gray hair; promotes a fresh and vigorous growth; prevents the formation of dandruff; makes the hair soft and silken; and imparts a delicate but lasting perfume.

"Several months ago my hair commenced falling out, and in a few weeks my head was almost bald. I tried many remedies, but they did no good. I finally bought a bottle of Ayer's Hair Vigor, and, after using only a part of the contents, my head was covered with a heavy growth of hair. I recommend your preparation as the best in the world."—T. Munday, Sharon Grove, Ky.

"I have used Ayer's Hair Vigor for a number of years, and it has always given me satisfaction. It is an excellent dressing, prevents the hair from turning gray, insures its vigorous growth, and keeps the scalp white and clean."—Mary A. Jackson, Salem, Mass.

"I have used Ayer's Hair Vigor for promoting the growth of the hair, and think it unequaled. For restoring the hair to its original color, and for a dressing, it cannot be surpassed."—Mrs. Geo. La Fever, Eaton Rapids, Mich.

"Ayer's Hair Vigor is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair and makes it glossy and soft. The Vigor is also a cure for dandruff."—J. W. Bowen, Editor "Enquirer," McArthur, Ohio.

"I have used Ayer's Hair Vigor for the past two years, and found it all it is represented to be. It restores the natural color to gray hair, causes the hair to grow freely, and keeps it soft and pliant."—Mrs. M. V. Day, Cohoes, N. Y.

"My father, at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Cullen, Saratoga Springs, N. Y.

A Handsome Prize.

An Evidence of What a Genuine Magazine Competition Offers.

On Friday there arrived from Toronto, for Miss M. Hore, a handsome Shetland pony, harness and cart, being the first award in the Royal Quill Competition of *The Canadian Queen* magazine. It attests the genuine nature of the magazine's contests by its excellent condition and value. The *Queen* has frequent competitions and has made innumerable awards, displaying a generosity quite surprising to those who have had experience of the limited field for Canadian journalistic enterprise. But the *Queen* has been a success as a business venture from the start, and is growing in literary excellence steadily. It covers the field of fashion, as well as light reading; talks to the household, the young and indeed all home classes. The competitions have been used to assist the introduction of the magazine, for where it is introduced it is quite certain to remain a monthly guest. The leading prizes have been made, as instance this latest to Kingston, while many smaller prizes have rewarded the moderately successful among competitors. *The Canadian Queen* is truly royal in its ways.—*The (Kingston Ont.,) Daily British Whig. June 27th, 1891.*

"Wear it a week or two of three, till you make up your mind about it, and then go back to the store where you bought it and get your money back.

"Wear it a year; and, if a bone is broken or kinked or slipped or shifted, go back to the store where you bought it and get your money back."

What do you think of the B. & C. corset when it is sold with such guarantees as those two?

There's a primer on Corsets for you at the store.

LOG OF THE WHISKER.

HOW IT STARTED, GREW, CHANGED AND THRIVES TODAY.

Also How Women View It Styles of the Olden Time and Some in Vogue Now—The Patriarchal, Military, Dudish, and "Beard of Formal Cut."

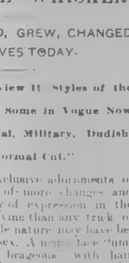
Whiskers, those exclusive adornments of man, are susceptible of more changes and create more diversity of expression in the human face (male) divine than any trick of countenance or dimple nature may have bestowed on the other sex. A negro face "sun bragging" with hair becomes inscrutable, while hers, bare, reflects each passing emotion. In that men have a great advantage for many of them without this protection would never be able to convince the other sex of their immense superiority. Nothing reassures a woman so much as the sight of retreating chin, which thanks to his whiskers, was unsuspected.

49 ER.

It is only within the last fifty years men in this country have paid much attention to their whiskers. Before that the Puritan spirit dictated razors in the matter, and men shaved. Strangely enough this change came about through events which have become historical. The discovery of gold had much influence on the fashion of men's faces.

Hundreds of men flocked to the gold field, customs and personal habits went to the wall. Whiskers sprouted luxuriously and unrestrained.

The exquisite had no time to curl and perfume his locks, and, as the clean-shaven man in his excitement had forgotten his razor and couldn't shave Indian fashion, he let his beard grow. The barber was absent, or, like himself, "diggin." Under these circumstances what wonder it he soon realized the ideal barbarian of the Greeks. This was the introduction of the full beard in this country, though one always associates that particular style with Abraham surrounded by his family and flocks. After this time men began rightly to appreciate the capabilities of "whiskers." Which, by the way, is a misnomer, for by "whiskers" we generally mean the most unsightly scrubbed because it "whiskered about." Now we use it to include the entire growth.

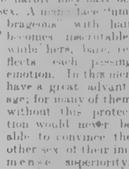


MINISTERIAL

Up to half a century ago but two or three styles prevailed, prominently among which is that hideous one, said to be peculiarly American, of wearing chin whiskers and no mustache. Uncle Sam is always so portrayed. How it originated no one knows, but probably through some malicious English caricaturist.

The American civil war furnished us a new style known as Burnsides, and so called because the gallant general of that name wore his beard so. It is merely a modification of the English "mutton chop," but not so plentiful.

For many years the last Napoleon dominated the style in whiskers. Then his mantle seems to have fallen on the Prince of Wales. But it is high is probable, since the vagrom pulling his have lately had, the Wales style will go. In fact, his supremacy in this matter had already been encroached on by a younger man, a soldier, and BARBE GRECQUE ladies pet. To him we owe the mustache curled on an iron, the acme of cocoonery. No doubt many a complacent youth who wears his mustache in two large "cheat catchers" at the corners of his mouth is ignorant of the fact that he is imitating so illustrious a person. And, no doubt, he will take deeper satisfaction than ever in his style.

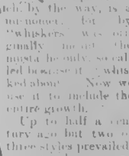


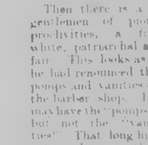
It is a singular fact that one can almost at a glance determine the status of a man by the way he wears his beard. While there are certainly exceptions to the rule, as a general thing the second and third decade rather leans toward the short beard, slightly parted.

The sentimental young lady—who bids fair to become as extinct as the Dodo—yearns for the smooth cheek and "clean and hungry" look of the modern Greek.

Grandmother considers "father's silvery beard" the most beautiful thing in the world.

But, in the majority of cases, a woman likes "neither poverty nor riches" in this matter, and a nice, smooth, white, black, tan, brown, drab, yellow, or even red mustache or the happens to wear it, guiltless of cutting, on, is most pleasing to Her.





Gallant Rufus Choate.

On a pretty girl saying to Rufus Choate, "I am very *sad you see*," he replied, "O, no; you belong to the old Jewish sect; you are very *fair-I-see*."

Nothing adds so much to the beauty of a fair girl, as a clear, bright, healthy, complexion, and to secure this pure blood is indispensable. So many of the so called blood purifiers sold to improve a rough, pimply, muddy skin, only drive the scrofulous humors from the surface to some internal vital organ, and disease and death is the inevitable result. On the contrary, Dr. Pierce's Golden Medical Discovery strikes directly at the root of the evil, by driving the impurities entirely out of the system, and with a fresh stream of pure blood flowing through the veins, nothing but the softest and fairest of complexions can result. a

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

Oft in Peril.

Lives of children are often endangered by sudden and violent attacks of cholera, cholera morbus, diarrhœa, dysentery and bowel complaints. A reasonable and certain precaution is to keep Dr. Fowler's Extract of Wild Strawberry always at hand.

What Say They?

In popularity increasing. In reliability the standard. In merits the first. In fact, the best remedy for all summer complaints, diarrhœa, dysentery, cramps, colic, cholera, infantum, etc., is Dr. Fowler's Extract of Wild Strawberry. All medicine dealers sell it.

It can do no harm to try Freeman's Worm Powders if your child is ailing, feverish or fretful. dw

Every Lady Uses It.

Dyer's Jelly of Cucumber and Roses for chapped hands or lips as it effectually cures in every instance. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6d63

Why Suffer With Chapped Hands.

One tube of Dyer's Jelly of Cucumber and Roses will make them soft and white. Druggists keep it. W. A. Dyer & Co., Montreal. 6d63

Timely Wisdom.

Great and timely wisdom is shown by keeping Dr. Fowler's Extract of Wild Strawberry on hand. It has no equal for cholera, cholera morbus, diarrhœa, dysentery, colic, cramps and all summer complaints or looseness of the bowels.

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness and give strength and rest. dw

For overcoats and Russian circulars a first-class articles to keep you warm, but they will not prevent the pains of rheumatism. Ask W. R. Greatrex, Druggist, for a bottle of Royal Rheumatic Remedy. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troublesome ident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT And Attachments.

HEAD OFFICE—103 Yonge St., Toronto

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy them but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

I HAVE GAINED STRENGTH!

"I could have reported a month or two sooner, but I wanted to see if the cure was permanent, and can safely say that I believe it is. I weigh fifteen pounds more than I did when I commenced. I have gained strength and that general enervation has disappeared. I will always remember you as my benefactor."

The original of above is on file in our office. It is No. 56 in a collection of over 2,000 similar letters from patients. We have a

A Serious Accident.

Yesterday a little two-year old child belonging to Mr. Jos. Craig, Ashburnham was seriously and possibly fatally injured. It was playing about in the vicinity of an ice wagon when the horses becoming uneasy backed the wagon and the heavy wheel passed over the child's abdomen, producing very serious injuries the result of which it will take some days to determine.

Smith, Ennismore and Lakefield, Lakefield, Sept. 29th and 30th.

Another Narrow Escape.

Yesterday a gentlemen crossing the Grand Trunk track on Hunter street, had just time to get over safely as the mid day express came bowling round the corner and down the track. Just as he crossed the track, he saw a little boy aged three or four years, running full tilt to cross the track to join a playmate. Seeing the danger of the child, the gentleman caught the youngster, who screamed vigorously in protest against his programme for suicide being interfered with, for he was no more than caught when the express whirled past the spot of track where the child would have been had he not been stopped. Otherwise he would have certainly been killed. The lesson is obvious. If there had been crossing gates, no person could have had access to the track till all danger from passing trains was over. Will our city Solons take the hint?

New Clothing Store.

Another firm of clothiers will make their bow to the public next Saturday. The Big Star Clothing Syndicate of Montreal will open out a branch business in the vacant store in the opera house block. Being backed up by $50,000 capital, and having successful branches in Philadelphia, Boston and Toronto, the new firm proposes to make a big hustle in the clothing trade here. Their extended connection throughout Canada and the United States enables them to outbuy and outsell merely local dealers, and the public may therefore expect unheard of bargains in clothing after next Saturday. The Big Star people only want you to inspect their stock and prices to prove what they say in their advertisement which appears in another column. They are interested in Peterborough and the business opportunities the town offers, and they are going to get the public patronage by selling them the best goods at prices away below all other local dealers. They will carry a large and first class stock of clothing, and their advent will mean thousands of dollars in the pockets of the people. Save up your orders till Saturday, and when you come to the Exhibition go straight to the Big Star Clothing House, secure some of the bargains they offer, and be happy.

Children Cry for Pitcher's Castoria.

Died Alone and Far Away.

Sudden Death in a Lumbering Camp, Byng Inlet.

The William Hamilton Manufacturing Company this morning received the following letter from Byng Inlet, Parry Sound District:—

The William Hamilton Manufacturing Co.:

GENTLEMEN,—I enclose a notice of the death of Wm. Fitzsimmons, who was found dead at Bad River camp. The deceased, when in life, had charge of the camp and raised what he could in the garden during the summer. He was between 60 and 70 years, and has a sister living near Peterborough, at a place called Norland.

Yours, etc.,
BURTON & BROS.

The following is the notice referred to in the foregoing letter:

BYNG INLET, Sept. 12.—William Fitzsimmons was found dead on September 8th at Bad River camp, where he had been working the last three or four years. The cause of death is supposed to have been a paralytic stroke. The body was buried at Byng Inlet on Sept. 12th, Rev. Mr. Drennan, Presbyterian minister, conducting the funeral ceremonies.

Fire! Fire!

The representatives of the Carr Chemical Fire Extinguisher will give their last exhibition this evening at 7:15 on the market square.

Salvation Army Farewell.

On Sunday evening next a member of the local Salvation Army corps will "farewell" on the eve of departure to Toronto. Those interested are requested to come and see who is leaving.

Steamer Golden Eye

will ran a cheap Excursion to Jubilee and return, Saturday afternoon. Steamer will leave the Peterborough wharf at 1.30 p.m., leave Jubilee at 6 p.m. Return tickets gents, 50 cts; Ladies 25 cts. Mr. Butcher's orchestra on board. d66 67

A Broken Leg.

On Monday at Campbellford Mr. Thomas Callahan, foreman of the Rathbun company's lumbering operations in this district and well known in all these parts, met with a serious accident. He was driving to the station to catch a train, when the wheel came off throwing Mr. Callahan out and breaking his leg.

Booming the Northwest.

The Northwest exhibit at the Toronto Exposition attracts the admiration and attention of agriculturists who visit the great fair. It is one of the most interesting exhibits to farmers in the whole show. The exhibit will be moved down to Peterborough on Saturday or Monday and placed in the Central Exhibition here.

A Fancy Dog.

Among the attractions at the Toronto Exhibition this year is the International dog show. There are about 400 dogs on exhibition from famous kennels in Canada and the United States, and competition is keen in every class. Peterborough is represented by Mr. H. P. Mullen's cocker spaniel bitch, "I Guess," C.K.C. 1143, 11½ months old, bred by G. Bill, by Champion *ex* Daisy. The little pup is placed in the catalogue at a value of $500. She won first prizes in the three classes in which she was entered—the novice, open and puppy classes.

A New Professional Citizen.

Mr. Fred. W. Wilkins, Dominion Topographical Surveyor, has permanently located in Peterborough, and, by card in another column, makes his professional announcement to the public. His office will be found on Water street, a few doors north of Mr. Stevenson's office. Mr. Wilkins is a land surveyor of wide and varied experience, his practice having extended from Ottawa on the one side to tide water at the west on the other, and comes to Peterborough highly recommended as an expert in his calling and thoroughly competent to undertake surveys of any description. His extensive experience has included the execution of surveys and the preparation of maps and plans in many difficult cases, that have appeared before the courts; and in this latter capacity his work has been attended with more than ordinary success. He has also during a number of years past successfully executed many surveys of a high class character for the Dominion Government in the Canadian North-West, and stands in the front rank of his profession. Mr. Wilkins with his large experience combines a courteous and business like manner, and will be found a gentleman with whom it will be a pleasure to do business. As a citizen Mr. Wilkins will be welcome to a place in our thriving town; and as a professional man, it is safe to predict for him a marked success.

Their Funeral's (Day After) To-Morrow

The *Times* has had three full September days to ponder carefully over the EXAMINER'S challenge to play a game of baseball next Saturday for a purse of $20, ten dollars a side, and it is reported strenuous efforts have been made by the *Times* employes to hypothecate their year's wages in order to raise the wherewithal. Failing in this, they propose that the stakes shall be a barrel of flour for the Protestant Home. Charity covers a multitude of errors, without a doubt, even in a baseball match, but this pretext of the *Times* is too flimsy altogether. A blind man could see that it is a scheme of the *Times* to get even with some impecunious advertiser in the flour and feed business, who is chronically hard up and the only means of getting his account settled is by taking it out in trade. The professed object is a worthy one, no doubt, but in the interests of the journalistic profession we must protest against this practice of trading out accounts, and here is a chance to do it. When one of our delinquent subscribers in Apsley last winter pleaded with tears in his big gazelle-like eyes for us to accept a load of farm fruit—turnips, cabbages, etc., in exchange for a receipted bill for the amount of his account, we refused though our stomach was clinging to our backbone at the time. The principal is wrong, and we cannot encourage the *Times* in such a bad practice. Money or amusement must be the stakes. If the *Times* cannot afford to lose a tenner just now, we will play simply for what little fun we would have in toying with the *Times* type for a couple of hours on the dismond. If the fate in store for the nine deluded ball-tossers from the *Times* office is not too appalling even for "Dutch courage" to contemplate, let them bring their shrouds (their old clothes will do) to the baseball burial on Riverside Park next Saturday. The funeral will begin shortly after four o'clock. The *Times* will be feelingly referred to as the "dear departed" after that hour.

—That tired feeling now so often heard of, is entirely overcome by Hood's Sarsaparilla, which gives mental and bodily strength.

Hymeneal.

Marriage of Mr. E. B. Loucks and Miss Davis at Kingston.

Yesterday, at the Limestone City, Mr. E. B. Loucks, manager of the hardware establishment of Muckleston & Co., was united in marriage to Miss Hattie Davis, daughter of Mr. R. Davis, of Sheldon & Davis, photographers, Kingston. The ceremony was celebrated at 10.45 at the residence of the bride's father, 232 King street, by Rev. Rural Dean Loucks, rector of Picton, in the presence of only the immediate relatives of the contracting parties, Rev. C. B. Kenrick, of Peterborough, being the only exception. The wedding was described as a very pretty one, exceptionally charming in all respects. The handsome bride was beautifully clad in the conventional wedding attire, a robe of rich white faille, trimmed with sea foam lace, with the regulation veil and orange blossoms. The bridesmaids, who were also charmingly attired in keeping with the occasion, were Miss Hattie Hamilton, Miss Grace Davis, sister of the bride, and Miss May Loucks, sister of the bridegroom, who was supported by Rev. Walter Loucks and Mr. R. J. Hooper, Kingston. Though the wedding was private and quiet the rooms were charmingly decorated, and everything combined to make the occasion, as such occasions go, a delightful success. There was an unusually fine array of elegant wedding presents. The bridal pair retreated in good order under a fervent fusilade of rice and old shoes, retiring on Montreal, whence they will proceed to New York and other eastern points. They will return in about three weeks and take up temporary residence at the Oriental Hotel.

The Central Exhibition.

Big Promises of a Big Show.

Everything is booming in the direction of making ready for the Central Exhibition which opens on Monday, Sept. 21st. The entries are pouring in and are far ahead of the corresponding date last year.

The trotting events are filling up fast, and a large field of fast horses is sure to be on hand.

All the special attractions are sure to be on hand, and everything promises grandly for a splendidly successful exhibition. Let everybody come out in force on Sept. 21, 22 and 23.

The Bill of the Play.

Theatrical Amusements Booked for the Rest of this Year.

The following is a list of the theatrical amusements, comedies, melordamas, etc., booked with Manager Bradburn of the opera house:—

Sept. 18th—"Alvin Joslin."
Sept. 28th, 29th, 30th—Marlanda Clarke Company.
Oct. 2nd and 3rd—Annie Abbot, "The Little Georgian Magnet."
Oct. 8th—McKee Rankin Comedy Company.
Oct. 12th—Guy Bro.'s Minstrels.
Oct. 13th—"One of the Finest," melodrama with special scenery.
Oct. 23rd.—The Two John's Comedy Company.
Nov. 3rd—Dan McCarthy's "True Irish Hearts."
Nov. 18th—The McGibney Family.
Nov. 19th—Harrison's Percival T. Green Comedy Company.
Dec. 2—Sadie Scanlan Company.

The Grand Opening

Of the New Charlotte Street Methodist Sunday School Building.

The many friends of the Rev. Mr. Shorey will be pleased to see him again occupy the pulpit of the Charlotte street Methodist church on Sunday next, both morning and evening. In the afternoon, commencing at 2:30, a very interesting service will be held. All are invited to attend the services of the day. The special collections on Sunday at all the services will be applied to the building fund.

The following is the order of service for the afternoon, which has been appropriately called "Rallying day," as all the teachers and scholars have now returned from their vacation:

RALLYING DAY.

Hymn 277, "Father, bless our school to-day" By the School
Prayer.....By the Pastor
23rd Psalm in Concert.....By the School
Solo, "The Lord's Prayer".....Lola Pettit
Words of Greeting...By the Superintendent
Address.....Rev. S. J. Shorey of Napanee
Hymn, "Homes there are of want and sorrow"...The Misses Stephens and choir
The Children's Day.....May Redman
Address.....By the Pastor of the church
Selection..."Many souls on life's dark ocean"
Special collection in aid of the Building Fund of the new school room. Benediction.

The Nicholls Scholarships.

Notice has been received from the Minister of Education that the Nicholls Scholarships at the Peterborough Collegiate Institute have been won as follows:—Primary examination, ($20) E. J. Bolton; Junior Leaving or Matriculation, ($30) Alfred Carveth. J. T. A. Smithson stands second at the primary, and Miss Lillian Clarke stands second at the Junior Leaving.

Munificent Grant for the Canal.

In the supplementary estimates passed at Ottawa yesterday, the customs building is awarded $9,000, and this extravagant sum of 1 250 is devoted to the completion of the Trent Valley Canal—at least the completion of the dam at Bobcaygeon. If the government goes on at this rate it will find that "damns" will be built in any quantity without the help of money at all.

The Late Mrs. Rutherford.

This morning one of the oldest residents of Peterborough passed away in the person of Mrs. Robieson Rutherford, who died at the family residence 210 Edinburgh street, after a brief illness. The deceased lady was well known and much respected in town having been a resident for nearly the past half century. She was of Scottish descent but was born on the border line between England and Scotland. The funeral takes place on Friday at 2 30 o'clock from the family residence 310 Edinburgh street.

Miss Delaney's Fall Millinery Opening.

The ladies of Peterborough are urged to remember that Miss Delaney will hold her annual millinery opening on Monday, Tuesday and Wednesday next. On this occasion she will have on display the finest stock of fashionable and stylish millinery ever brought together in Peterborough. She has just returned from the great millinery emporiums in Montreal and Toronto, and has personally selected her stock with great care from the cream of the metropolitan markets. This millinery opening will be the event of the season. Be sure and call on the above dates. d66 68

North Monaghan.

Young Simon the Poet, in a Spirit of Emulation, Treats out His Gay Muse for Spirited Canter.

Again kind readers, I would draw your attention,
To the Monaghan people I herein will mention.
I'll commence with my neighbor and friend Jas. Fowler,
For he won't be vexed, as Jim is no growler.
He's grand select councillor of Springville R. T.,
And he's proud of his office, as well he might be;
But I hope he will prove in his everyday life,
As faithful to his counsell, as he is to his wife.
But now I'll come on, to his good brother John,
Whom I played with at school, in years now long gone.
He's of quiet disposition, and beloved by us all—
He always has a smile, for the great and the small,
He has four gallant sons, in our famous brass band;
Which is now so well known all over the land.
But I'll have to be brief, so I'll just take my hat,
And call on Mrs. Huston and her nice pussy cat.
Mrs Huston is a widow, with a nice little farm,
And four lovely daughters the young men to charm.
While over the fence is her neighbour A. Young,
A good honest farmer who bridles his tongue,
And with him you'll find my friend Robert Graham,
Who, I honestly believe, is seeking a dame—
I wish you success, dear Robert, my boy,
And I hope when you get her she'll bring comfort and joy.
Then Mr. R. Lillico, next neighbour to the east
Is noted for his kindness to both man and beast,
Then coming on farther we have jolly Tom Fry,
Whose nice curly hair make the ladies all sigh;
While Mr. Dave Galloway is well knewn to you all,
You should on his neighbour Billy Robinson call."
Then there's Atkinson the butcher and Gusty Dundas,
And Bullean the Frenchman; but on we must pass;
We come to Mrs. Burney and her good daughter Belle,
Also R. and A. Dobbin, who are looking quite well.
But now I'll go up the quarter line a short piece,
And see if I. Clarke has any hallow'en geese.
You know I'm a lover of fowl Mr. Clarke,
And I wouldn't mind calling some night after dark.
But back down the quarter line I go now once more,
To see Jonny Fatten, as I missed him before;
He is agent in Monaghan for the elastic bed spring,
And I know if you buy one you'll find it the thing—
It will put you to sleep, with nice gentle shake,
And you'll feel quite refreshed in the morn when you wake.
But I see Mr. Spillsbury, another old resident,
And Mr. Joe Green who looks like a president.
Joe's good, open countenance and off handed way,
Have won for him friends, who by him will stay.
And soldier Dick Lillico will always take a crack,
In defence of our country and the old Union Jack;
While his neighbor, Mr. Forster, here also may be classed,
As he'd fight for our Queen, e'en till the very last.
Hello! Mr. Stinson, how's potatoes this fall?
"Oh, not so bad, friend, not so bad at, all."
Is it true, Mr. Stinson, you've got in eight acres?
It is; but you know potatoes are fakirs;
When you think you have a crop, that's the time that you miss,
Then you wish yourself in heaven, or some place of bliss.
But say, Mr. Mr. Stinson, have you seen Webber's sheep?
Sure they or every one clipped, just come and take a peep;
And he's got a field of oats, all grown up green,
And forty yoke of oxen, and better never seen.
But I'll have to go on and see Peter Grady,
And Mr. Jaak Harper and his little lady;
And Tommy McGee, just over the way,
I also must notice while passing to day;
And his friend Mr. Armstrong who's a gardener I think,
And to judge from his smiles he makes lots of chink;
And right at the bridge there's another you all know,
Its Mr. T. Allum, whom I'll call on also.
And Mr. Sam. Carver; now ladies take heed,
He's a bachelor of means and a wife he must need,
So take out your teeth and clean them up nice,
And fix up your breath with some kind of spice;
For Sam is a fellow that's rather hard to suit,
And won't fancy everything that before him may shoot;
His now aged father was a lieutenant once,
As well as postmaster, so you bet he's no dunce,
He was first to take charge of an office in town,
And now he is known as a man of renown;
In the '66 raid he took a brisk band,
Leading boldly to the front those under his command;
Though his once sable locks are now turned to grey,
He would fight for his country if called on to-day.
Then there's Mr. O. Carver, a framer and dairyman,
Who gets around his customers like a little fairyman;
And Mr. Wm. Goodfellow is well liked in this part
For his square, honest dealing and goodness of heart,
While Mr. Robt. Eastland is another good neighbour,
Always singing right merrily as he goes to his labour,
But now for a change, I'll walk down the grass
To the toll gate school and see Mr. Glass.
Mr. Glass is a teacher well liked in the section,
And has succeeded in winning his pupils' affection,
But I'm weary, dear readers, from coming so far,
So I'll drop into Morgan's and have a cigar.
You see I have come from Scott's Corners to town,
And now that I'm here, I'll take a lie down.
But I say to you all, please be not offended.
For to give any offence I never intended.
I have wrote in the this way just simply to amuse,
As the EXAMINER is renowned for Monaghan news.

SIMON THE POET.

Personal.

Mr. W. E. McCausea is in Toronto taking a course in the College of Pharmacy.

Miss Ella Kennedy, of Bobcaygeon is pursuing a full course in bookkeeping at the Business College.

Rev. Mr. Edwards, of Winston, is visiting his brother, Rev. Geo. Edwards, pastor of Charlotte street Methodist church.

Miss Katie Cavanagh has returned to her home, the Balmoral Hotel, after spending a few weeks with friends in Belleville.

Mrs. Desmiteaux, the Misses Desmiteaux and Mr. R. Max Desmiteaux have returned from Europe, where they spent the summer in touring.

There is important news waiting at the EXAMINER office for Mr. Charles Dresher, of Pakenham, who formerly worked for Mr. Boyd at Bobcaygeon.

The condition of Rev. G. H. Davis shows some improvement. He takes nourishment more freely, and there are other encouraging symptoms, though he is still in a semi-conscious state.

Mr. P. Campbell, late of Petrolia, whose appointment to the management of the Bank of Toronto here was announced by the EXAMINER some days ago, has arrived in town and assumed his new duties.

Mr. D. Belleghem has been honoured by being elected President of the Ontario Undertaker's Association, which is now holding its sittings in Toronto. The Association shows good judgment in selecting as its presiding officer one of the leading representatives of Peterborough's enterprising citizens.

You cannot be too particular about the medicines you use. When you get a blood purifier, be sure that you get Ayer's Sarsaparilla, and no other. It will mingle with, purify, and vitalize every drop of blood in your body. It makes the weak strong.

He Will Likely Die.

Walter Kerr, who was stabbed Monday night, is still wavering between life and death, with the odds against his ever recovering. This afternoon two doctors performed an operation to relieve the punctured lung of coagulated blood. Kerr's condition is extremely critical.

Another Burglary.

Last night entrance was forced by the front door of Coughlins grocery corner of Aylmer and Charlotte streets and a quantity of sardines, canned salmon, tobacco, ginger snaps, honey and a few cents contained in the till, taken. At the same time Grady's butcher shop was opened from the rear and a roast of beef, a butcher's knife a towel and soap stolen.

John McGarrity, butcher, George street, this morning missed ten pounds of sausages from the counter and 8c. from the till. The thieves had entered by a back window.

Pale, drooping girls, worn weary with a burden of disease almost greater than they can bear, should take heart and *suffer no longer*. Dr. Williams Pink Pills are a certain cure for all those diseases peculiar to womankind. They restore the blood, build anew the nerves, and leave happiness and health when used. Sold by dealers or sent on receipt of price (50c. a box) by addressing Dr. Williams Med. Co., Brockville, Ont. dw

Two Genuine Harvest Excursions

Will be run from Chicago, Milwaukee, and other points on the lines of the Chicago & St. Paul Railway, to points in Western Minnesota, Northwestern Iowa, South and North Dakota, Nebraska, Kansas, Colorado, Utah, Wyoming and Montana, at cheap excursion rates, on August 25 and September 29, 1891.

For further particulars apply to the nearest coupon ticket agent, or address

A. J. TAYLOR,
C. P. Agent, Toronto. Ont., or
GEO. H. HEAFFORD,
Gen'l Pass. Ag't, Chicago, Ill.

P. S.—It will do your heart good to see the magnificent crops in South Dakota. They are simply immense. d57 65

The use of calomel for derangements of the liver has ruined many a fine constitution. Those who, for similar troubles, have tried Ayer's Pills testify to their efficacy in thoroughly remedying the malady, without injury to the system.

MARRIED.

LOUCKS—DAVIS.—On Wednesday, Sept. 16th, 1891, at the residence of the bride's father, Kingston, by Rev. Rural Dean Loucks Rector of Picton, Edwyn Burritt Loucks, of Peterborough, to Harriet Frances, third daughter of R. F. Adams, Esq., Kingston.

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. BEGOLE, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." MRS. PIERRE MOSHER, 90 Brooks Street, East Boston, Mass.

N.B. If you decide to take Hood's Sarsaparilla do not be induced to buy anything else instead. Insist upon having

Hood's Sarsaparilla

Sold by all druggists; $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

BRITISH AND FOREIGN.

THE CHINESE RIOT WHILE THE AUTHORITIES ARE HELPLESS

A Brutal Child Murder at Liverpool. The Effect of the Smokeless Powder. 22,000,000 Roubles Provided by the Russian Government to Relieve Distress.

SHANGHAI, Sept. 18. The Ichang riot was planned at Kaukiang and excited by disgruntled Hunan soldiers. Catholic and Protestant missions, and property of members of the foreign settlement have been looted and burned. The stone houses and Chinese property inside the city were protected by the populace. The civil and military authorities are helplessly inactive; they fear to seize the leaders of the outbreak. A detachment of British sailors has gone to Ichang on a chartered steamer. The situation is very grave.

LONDON, Sept. 18. The Berlin correspondent of the Standard telegraphs that the German Foreign Office has been receiving despatches containing not very quieting news from China within the last few days. China, according to these advices, is unable to fulfil her promises made to the representatives of the Powers, that she would punish those who were implicated in the recent outrages upon foreigners and their property, and that she would in future protect foreigners residing from injury. Germany will increase the number of her warships in Chinese waters, and will be prepared to take strong measures should they be needed to protect German subjects or their property, or should she be called upon to take an active part in the naval demonstration against China.

Two Liverpool Boys Commit Murder.

LIVERPOOL, Sept. 18. The details of a horrible murder committed by two boys, both of them about 8 years old, have just come to light in this city. Two lads named Crawford and Sheaton were arrested here to-day, charge with murdering one of their comrades a week ago, also about 8 years old. The boys were last seen with Crawford pulling the clothes of the murdered boy, and so pushed him into the water, intending to drown him. When the poor little fellow managed to scramble out Crawford and Sheaton pushed him in again, and then Crawford went down on his knees, and kneeling on the drowning boy's head, held him under the water until he finally ceased struggling.

The young murderers then watched the dead boy for a considerable length of time to see if he stirred and then they stripped the body of the clothes, dried them, and afterward obtained some money upon them at a pawn shop. This led to their identification and eventual arrest.

The Effect of Smokeless Powder.

MARIENBURG, Sept. 18. The eleventh army corps encountered the fourth army corps yesterday. A battle of several hours duration was fought in the presence of the Emperor. The fourth corps had its artillery in position on the summit of Kalkhof Hill, the main body occupying Grossgrabe, a village at the foot of the hill, commanded by General Haensch. The eleventh corps, under Baron Leithman, first made a front against Kalkhof Hill, and then made a real attack on Grossgrabe in the face of a heavy fire, but failed to dislodge General Haensch. The Emperor galloped from point to point with indefatigable activity throughout the battle. Sixty thousand men were engaged. The firing was incessant, yet owing to the use of smokeless powder the atmosphere was perfectly clear.

22,000,000 Roubles for Relief.

ST PETERSBURG, Sept. 18. The Government has provided the sum of 22,000,000 roubles to be used as a fund for the relief of the distresses existing among the poorer classes in consequence of the failure of the grain crops and from other reasons. This money will also be used to purchase and distribute a supply of seed for winter sowing. Official reports show that the harvests have failed utterly in 14 Russian provinces, and partially in eight other provinces.

The distress in the Volga provinces is increasing. In Penza women and children wander about, almost utterly exhausted, shrieking for food in the market place.

Was General Saussier Caught Napping?

PARIS, Sept. 18. The Temps yesterday says that General Saussier, the commander in chief of the French army of manœuvres and the general who was looked upon as the man to take the supreme command of the French forces in case a war with Germany, allowed himself to be surprised and hemmed in by the enemy's cavalry on Sunday last. The Temps adds that General Boisdeffre, who was in command of the forces representing the enemy, not being desirous of capturing General Saussier, allowed his cavalry to be put to flight by General Saussier's escorts.

The Holy Coat.

TREVES, Sept. 18. Among the miracles asserted to be authentic, as resulting from the exhibition of the Holy Coat are the curing of the withered arm of an abbess, the restoring of the sight of blind persons and the curing of cripples. Each case is declared to be supported by medical testimony, but the details will not be published until the exhumation of the relics is finished.

A Forger Soon to Be Set Free.

LONDON, Sept. 18. It was announced today that the Home Secretary, Mr Matthews, had remitted 18 months of the sentence of imprisonment imposed upon Austin Bidwell, the American forger, in 1872, for the frauds perpetrated in that year upon the Bank of England. Bidwell will be liberated in February.

Horrible Death of a Lineman.

CLEVELAND, Ohio, Sept. 18. John McCafferty was out upon a wire yesterday. He fastened his climbers securely into the pole, just above the cross-arms, when his right leg touched a bare electric light wire. With a sickening groan McCafferty loosened his hold on the pole and fell head downward. The hold of the climbers was firm, however, and he was held in this position fully ten minutes before the man who rushed to his assistance released his dead body. A search revealed just below the hip two small spots where the deadly fluid had entered the body.

ESCAPE OF A MURDERER

FITZSIMMONS LEAVES PITTSBURG JAIL THROUGH A 6-INCH CRACK.

With Steel Saws this Notorious Canadian Cuts His Way out of His Cell, and, After Climbing Thirty Feet, Finds Himself at Liberty.

PITTSBURG, Pa., Sept. 18.—Frederick C. Fitzsimmons of Brockville, Ont., the all-around Canadian crook who last March murdered Detective David Gilkinson, was spirited from the Allegheny County Jail some time last night. A reward of $1000 has been offered for his recapture. Fitzsimmons was to have been placed on trial next week for murder.

The escape was as daring as the killing of Gilkinson was cold-blooded and desperate. The prisoner first sawed out two of the iron bars of his cell window opening out in the corridor. This gave him a space of 6 by 12 inches, through which he drew his thin and snake like body.

His next feat was to crawl hand over hand to the ledge of a window three feet above by means of the long sash cord. Once there, he devoted at least an hour's time to sawing off a bar of the window. This done he bent the iron cross-bar, weakened by the cutting away of the upright, until it left room enough to get through. Then he pulled up the rope that had already served him so well, crept out on the roof of the jail, fastened the rope again and lowered himself to the ground in Diamond street, outside the prison walls. His subsequent movements have not been ascertained.

All night long the corridors of the prison are supposed to be as bright as day, in the glare of electric lights. There is also a night watchman on duty and on each tier a guard. How Fitzsimmons could have operated in the light with the guards around and nobody knowing about it is not quite clear to the average layman. The generally accepted theory is that he was aided by some one on the inside of the jail. He did his work with four small steel saws, such as are used in all orthodox prison escapes when bar cutting is necessary.

Fitzsimmons is an educated crook. He began life in Brockville, Ont., forty-three years ago. Drifting away from his family, who are people of wealth and respectability, he went south and eloped to Europe with a wealthy planter's daughter. There he pursued his crooked ways, and after several years of crime and adventure the pair returned to America. For several years they have been operating in Western Pennsylvania. One of Fitzsimmon's accomplices was a young divorced woman named Laura Snowden. She made her room a fence and a rendezvous, but Detective Gilkinson ran across her one day and she gave the whole gang away.

Gilkinson, on March 27, went to Fitzsimmon's house, several miles back of McKees port, the county, to arrest him. The moment the thief set eyes on the detective he opened fire and killed Gilkinson in his tracks. Detective Murphy, who was with Gilkinson, blazed away at Fitzsimmons and the two grappled. Then the crook's wife handed her husband a fresh revolver, and told him to finish Murphy. Fitzsimmons put another bullet into the officer and then fled. He was captured next day a few miles away.

At the last term of court Fitzsimmons and his wife and two accomplices were committed on two charges of burglary, and his conviction of murder was a foregone conclusion.

A LETTER FROM THE FUGITIVE.

Thomas M. Marshall, attorney for Fitzsimmons, says: "I received a letter to-day from Fitzsimmons, who is now in Canada, and he says that he is all right. He says he has been offered $1,000 to go to Pittsburg to testify, but will not do so. I saw the letter to-day and asked if it was genuine. Mr. Marshall compared it with letters he had received from the murderer and pronounced it genuine. The letter:

"HOTEL BISSELL, Sept. 8.

"I have been confined here for some time, charged with murder. Not liking the fare, it not being equal to that of the Hotel Anderson, I have concluded to change my hotel and seek better quarters. I do not like only having two hours breathing time, and have concluded to leave and secure better quarters. If Police Officer Paddy Murphy or any other officers come after me I will be pleased to meet them.

F. C. FITZSIMMONS."

While the letter is dated September 8, it was not received until yesterday morning, and had evidently been mailed by Fitzsimmons after his escape.

TEN HEADLESS BODIES.

Attest the Ferocity of the Savages of Formosa.

SAN FRANCISCO, Sept. 18. "A correspondent in Kelong, Formosa, writes: "A tribe of savages known as the Camphar men occupy two villages near here and are armed with short swords, bows, arrows and spears. A few days since a native chief of another tribe named Tingling went past the village of the Camphor men on his way to Takoham. He had with him a couple of hundred of our soldiers from the garrison. Suddenly a band of savages from the village broke in upon them from the thick woodland and began a slaughter. The soldiers were taken completely by surprise, and before they recovered their presence of mind ten men were beheaded. The savages disappeared as quickly as they came, leaving ten headless bodies as ghastly mementoes of their hurried visit. In most of these savage tribes the old custom prevails that a young man is not allowed to marry before he brings to his village the head of a Chinaman."

That Rarely A Fatal Duel.

PITTSBURG, Minn., Sept. 18. A probably fatal duel occurred yesterday in the northern end of Pipestone County. Tim Allerton and James Arrowsmith have been enemies for years. Saturday they had a personal encounter, and yesterday they met again and fought a duel with swords. They are both expert swordsmen and fought fiercely. Suddenly Allerton dropped his sword, when Arrowsmith sprang forward, cleaving the left side of his antagonist's head open. Allerton is not expected to live.

AN INTERNATIONAL TIE.

THE FORMAL OPENING OF THE SARNIA TUNNEL BY A BANQUET.

The Printing Bureau Enquiry. Benoit Got $1500.—The Sherbrooke Murder.—The Jury Says Beaulieu Killed Bouchard With the Latter's Wife as Accessory.

SARNIA, Sept. 18.—Sir Henry Tyler, L. J. Seargeant, Charles Stiff, Joseph Hobson, H. J. Lanning and other officials of the Grand Trunk are here making all necessary arrangements for the opening of the tunnel to-morrow. The arrangements are partly complete and the tunnel approaches are in first-class shape.

The opening will be a very much quieter and more modest affair than was at one time anticipated. There will be no general celebration in either Sarnia or Port Huron, and the main feature of the day will be the banquet to be given jointly by the Grand Trunk and Tunnel Companies in the freight shed here, in recognition of the approaching opening of the tunnel route for public traffic.

The guests invited to the banquet will pass through the tunnel on special trains from Sarnia to Port Huron and return before 2 o'clock. Before the start through the tunnel is made, it is anticipated that the address from the Sarnia Town Council to Sir Henry Tyler, expressing their appreciation of the great work now so happily completed, will be read by the Mayor and presented to the distinguished recipient. On the arrival of Sir Henry Tyler at Sixteenth-street, in Port Huron, it is anticipated that he will be met and welcomed to the city by Mayor Mellwain, who, in a brief address, will tender to the directors and officers of the Grand Trunk and St. Clair Tunnel Companies the freedom of the city, and present him with a testimonial expressing the appreciation of the people of Port Huron of the great work he conceived and pushed to completion. After this presentation Sir Henry Tyler and his guests will return to Sarnia, and the banquet will take place in the freight shed, which will be appropriately decorated for the purpose. It is not anticipated that the speeches at this banquet will be numerous or lengthy. The toasts will probably be limited to six or eight, and will have special reference to the tunnel and the international interests which it represents.

The invitations to the banquet numbered about 300 in all, the lists of guests including the leading political personages of both countries, the Mayors of the leading cities on the route between New York and Chicago, prominent railway men, and the officers of the Grand Trunk and Tunnel Companies.

After the special trains have returned to Sarnia the tunnel will be thrown open for the passage through it of the people of the two towns.

Chief Engineer Hobson says it will be quite impossible to throw the tunnel open to the public during the week of September 22d. Much work will remain to be done to complete the tunnel and approaches, and the company cannot afford to lose an hour's time.

THE PUBLIC ACCOUNTS.

Continuation of the Enquiry Into Senecal's Commission Transactions.

OTTAWA, Sept. 18. The Public Accounts committee met again yesterday, when Mr T. A. Scott, bookkeeper of the Dominion Type Founding Company, was recalled. He stated that the check for $5,500 was given to Francois Benoit, president of the Conservative Association, Montreal, but for what reason he did not know. Francois Benoit swore that he got the money and that he used it for the benefit of the Conservative party.

George Holland, stenographer, who took report of the proceedings in the case of the New England Paper Co. against Berthiaume, of La Presse in Montreal, was next called. Mr. Lister asked him to read his notes on the case, more particularly that in regard to the letter written by Mr. Chapleau to the New England Paper Co., ratifying the agreement with La Presse that 10 per cent. was to be given to that newspaper on all contracts secured to the New England Paper from the Government.

Mr. Holland read the letter over this matter, Mr. Foster, Mr. Chapleau and other Ministers resume the testimony. Finally it was decided to let the matter lie over.

Mr. A. Beaudreau of Montreal, made a few sale to the Government, amounting to about $3500 or $600. The goods, which were for the book bindery, were purchased by Senecal, who received commissions to the amount of from $50 to $100. He did not pay over these to pay any commission, and sold at the lowest price.

Allan foreman of the bindery of the Printing Bureau, said the price paid for this leather was unusually cheap. He had paid 45 cents or some class of leather.

Mr John Lovell, publisher, of Montreal, said he had been in business since 1835. He had inspected various departments of the Government Printing Bureau and never in his life saw anything equal to the Bureau here. As a publisher of directories, he did not think that the quantity of type kept in the bureau was too great. Witness said that he did not consider that 10,000 lbs. of nonpareil type was too great.

Mr. Somerville said that any practical printer would admit that the Government was a great establishment.

The committee adjourned until Monday, when the Nelson postoffice will be enquired into and other public works. On Thursday the Printing Bureau matter, will be concluded.

BEAULIEU KILLED BOUCHARD.

So Say the Jury, Which Adds That the Latter's Wife Was an Accessory.

SHERBROOKE, Sept. 18. The jury which has been investigating the recent tragedy here, brought in a verdict that Philip Bouchard came by his death on the 11th September, in the house occupied by him, by means of blows and wounds inflicted upon by William Beaulieu, in connivance with Albina Carbonneau, wife of deceased Bouchard, in the course of a drunken quarrel in the said house."

The principal testimony against the accused was furnished by Albina, the 9-year-old daughter of the victim. In clear, unfaltering voice she gave the following very damaging evidence: "Thursday evening Beaulieu came to our place and asked my father if it would make any difference if he went and got a bottle of liquor. Papa said it would not, and he did go, and all three commenced drinking. I went to bed and fell asleep. When I awoke again papa was taking a mouse; he wanted to strike mamma and she ran away. He followed her downstairs and once again, and mamma came up and he wanted to strike her, and Beaulieu struck him. Papa was standing when Beaulieu first wanted to strike him on the forehead; after that he threw a spittoon down on the floor. He was on the floor in the middle room, where he was afterwards found dead, when Beaulieu picked him. Then I ran down stairs to Mrs. M Keevers room below our place, which was not locked. When I went up again papa was lying on the floor, his face covered with blood. Mamma and I washed papa. Mamma washed his head and I his hands. We thought he was only unconscious, but he did not recover consciousness. We also washed the floor a little where there was blood."

Saad Pleads Not Guilty.

LEWISTON, N. Y., Sept. 18. The grand jury appeared in court yesterday with its prisoners. Habib Saad, the supposed murderer of his cousin, Kathrin Saad, who was arrested at Guelph, Ont., was among them. Habib told the court he could not understand English, so nothing could be got out of him. When the indictment was read a plea of not guilty was entered by the court and Hon. Richard Crowley was appointed to defend Saad.

A Duel Between Editors.

SULPHUR SPRINGS, Texas, Sept. 18. E. W. Tate and Everett Moore, respectively, editors of The Echo and The Alliance Vindicator, who have been attacking each other for some time, met in the streets and began a fist fight which terminated in both drawing pistols. Moore received five bullet wounds and lived but a few hours. Tate received one slight wound. Tate was arrested.

Children Cry for Pitcher's Castoria.

TORONTO TOPICS.

Events of More Than Passing Interest in the Queen City.

TORONTO, Sept. 18.—The Chancery Divisional Court sat yesterday for a short time and fixed the dates of the trials of the election petitions in that division. Mr. Justice Robertson will try the cases as follows:

London—At London, Oct. 8.
Peel—At Brampton, Oct. 10.
West Northumberland—At Cobourg, Oct. 12.
West Huron—At Goderich, Oct. 22.
Welland—At Welland, Oct. 24.
Monk—At Dunville, Oct. 24.
Bothwell—At Bothwell, Oct. 26.
North Norfolk—At Tilsonburg, Oct. 28.

There are three other petitions in this division, but they are not yet ready for trial. This provision for the trials has been made in compliance with the Act that the date of trial shall be fixed within six months.

Yesterday morning in the General Sessions Judge Macdougall sentenced James Albert and Edward Rowland, the two boys found guilty of larceny, to nine months in the Central Prison. The father, Eli Rowland, found guilty of receiving, got one year in the same place. It appears it was he who had instigated the boys to the commission of the crime. As His Honor remarked, the sentences were heavier because the crime was committed in this country, where property cannot be well protected.

Chief Justice Galt yesterday delivered judgment in the case of Cribben v. the City of Toronto, sustaining the Park Sunday By-law. In his judgment His Lordship says "that no question as to the legality of the by-law was raised. Objections to its being unreasonable and unconstitutional were strongly urged, the contention being that all persons have the right to hold meetings and make speeches in public parks and that the council have no power to interfere with such rights. I cannot assent to this view."

The splendid weather which has graced this year's Industrial Fair reached its maximum yesterday. It was like a day in June, and more people attended the show than on the corresponding day last year. All departments being completely filled visitors were delighted, especially with the horse and cattle exhibit. Among the spectators in the horse ring was Lord Stanley, who appeared to take great interest in the carriage class.

A Reminder of an 1887 Burglary.

SHELBURNE, Ont., Sept. 18.—John Piggott, foreman of the bush gang engaged in clearing the railway grounds of bushes, found a small iron box in the left style of a safe in the ditch near the tank, about three miles from Shelburne. Mr. Piggott informed Darkenford, section foreman. Telford had read about the Smith murder case in Amaranth in 1882, and he at once thought it was the missing box about which so much evidence was involved at the inquest. The door is quite a heavy one, with a key hole, but the lock is broken off. The box was filled with papers. The murdered man Smith had a brother-in-law named Colean, who lived in Osprey, and as this name appeared on some of the papers it appeared at first that it was really the box in question.

It was subsequently ascertained that the box was stolen from the safe of J. R. Sproule of Flesherton in 1887.

A Farmer Frightfully Maimed.

TORONTO, Sept. 18. Thomas Windross, a farmer residing near Newton Robinson P. O., Simcoe County, met with an accident last evening which will maim him for life, if it does not indeed result fatally. Windross, who has been in town since Tuesday, boarded King-street car No. 15 at the Exhibition Grounds about 9 o'clock. He was standing on the front platform, and when the car was passing Spadina-ave. faint-ed and fell directly in front of the moving car, which passed over both legs and one arm, crushing the three limbs in a terrible manner. The injured man was conveyed to the hospital, where it was found that it would be necessary to amputate both the right leg and arm. Windross was, however, suffering so severely from shock that the operation had to be postponed.

Canadian Shipments to Germany.

MONTREAL, Sept. 18. The shipment of a cargo of live stock to Germany is an innovation in the live stock trade, but the first cargo ever to leave Canada for that place went in the steamship Brema. There were 31 head of choice fat cattle, the property of Mr. John Crowe, who thus becomes a pioneer in what may turn out to be a very important trade, notwithstanding the restrictions. When the cattle reach the other side they have to pay $7.50 per head duty and be guaranteed for five days, but it is expected that the shipment will prove remunerative.

An Infant Dies in a Train.

STRATFORD, Sept. 18.—A baby about 13 months old died on board train at the station yesterday afternoon. The parents, whose name is Matthews, were on their way from New York State, where they had been visiting, to their home in Dublin. The child had been ailing for about a week previous. This is the second death of the sort that has occurred in Stratford this week, the first fatality occurring on an emigrant train on Sunday night last.

A Body Found at Bowmanville.

BOWMANVILLE, Sept. 18. Messrs. F. Hovey and Hall have noticed an object float in on the beach between the dock and Sleeps here. Investigation showed that it was the body of the unfortunate man Gilby of Oshawa, drowned last week. The corpse was perfectly nude, showing that the drowning man had stripped off his clothes so as not to impede his swimming movements.

Another Canadian Coal Deposit.

WINNIPEG, Sept. 18. Peter McCarthy, J. P., reports while prospecting he discovered valuable anthracite coal deposits on Red Deer River, north of Banff. The coal crops out in broad seams and is easily mined. Hitherto it has been supposed that the only anthracite coal in Canada was at Anthracite Station, near Banff.

Canadian Medical Association.

MONTREAL, Sept. 18. At the meeting of the Canadian Medical Association yesterday, Ottawa was chosen as the next place of meeting. Dr. Bray, Ottawa, was elected president, and Dr. W. H. B. Aiken, Toronto, secretary.

Horrible Murder By a Demented Farmer.

WINNIPEG, Sept. 18. A Whitewood special says a settler named Westerlund of Wewstockholm, chopped the head off his three year-old daughter with a broad axe. He was insane at the time.

An Adopted Son's Gratitude.

KINGSTON, Sept. 18. Albert Richardson an immigrant lad adopted by A. McDonald, Bagot, is missing with several hundred dollars collected from customers.

Tragic Death of Lovers.

WOODLAND, Cal., Sept. 18.—The lifeless bodies of Miss May Adam and J. Montgomery were discovered yesterday in the rear yard of a small unoccupied residence. A vial labelled "poison" and a revolver were found beside them. Investigation showed that Montgomery first shot Miss Adams in the left temple and then fired a shot through his own brain. Miss Adams was a daughter of Hon. L. R. Adams, who represented the county two terms in the Legislature. Montgomery was a son of Judge Montgomery of Stockton. It is supposed the tragedy is the result of the refusal of the lady's parents so permit their marriage.

A Bloody Fight With Highwaymen.

NEVADA, Col., Sept. 18. S. Galiaretti, superintendent of the Derbec Drift Mine, was murdered by highwaymen yesterday while coming to the city with $5000 in gold bars just cleaned up at the mine. A companion named Ostrom who accompanied him soon took the team out of range of the shooters. Ostrom forced the team up the grade, holding his companion's dead body in the vehicle and being soaked from head to foot with his life blood. Reaching the Mount Vernon House Ostrum left Galiaretti's body, rode to this city to notify the officers. Several squads of armed men are starting for the scene of the murder.

What Does it Mean?

"100 doses one dollar" means simply that Hood's Sarsaparilla is the most economical medicine to buy, because it gives more for the money than any other preparation. Each bottle contains 100 doses and will average to last a month, while other preparations, taken according to directions, are gone in a week. Therefore, be sure to get Hood's Sarsaparilla, the best blood purifier.

J. C. Turnbull.

MILLINERY AND MANTLE DISPLAY AT TURNBULL'S

On Tuesday and Wednesday, the 22nd and 23rd Sept.

Our Millinery Showrooms will be open for the Fall Trade, when all the new fall patterns will be on display. As there is considerable change in the styles this season, ladies may expect to see novelties with us. We willl also show an extensive range of Pattern Mantles, and keep a well selected stock of Cloths and Trimmings, so that ladies preferring to leave their order for anything in the Mantle Line will find everything desirable with us.

Our stock of Dress Goods is now complete. We are showing some novelties in Camel's Hair Cloths, Polka-dot and Check Robes, Cheviot Cloths and Fancy Serges. MISS MERCIER, our dressmaker, has returned from a trip to Rochester, Buffalo and Toronto, and is well posted on all the latest styles. We feel we owe an apology to some of our customers for the unpardonable time their dresses were kept before made in the past, but, as with any first-class dressmaker, Miss Mercier got overcrowded. We have made a rule not to take any orders but what can be filled in a reasonable time, so that this will be avoided in the future.

Our stock of Men's Suitings and Overcoatings are well bought and cheaper than ever. We claim to be the best house in town for Ordered Clothing.

Arrived to-day, seven shades of Ladies' Diagonal Suitings (wide) at 15c.; three-quarter Table Napkins, 100 doz.; all the leading makes of Corsets at the lowest prices in the trade.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, NERVE and BRAIN RESTORER, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN who finds his mental faculties weakened or failing, or EVERY WOMAN should take them. They will restore lost energies, both physical and [illegible]

YOUNG MEN should take these PILLS. They will cure the [illegible] habits, and strengthen the [illegible]

YOUNG WOMEN should take them. These PILLS will make [illegible]

Daily Examiner.

FRIDAY, SEPT. 18, 1891.

The New York *Daily News*, referring to Dansereau's confession, says "the Canucks are free traders in the matter of boodle." Yes, indeed, remarks the *Globe* We tax a press from Hoe or Potter 10 per cent, but when contributed to save the Old Flag and British connection Hoe's "commissions" are strictly on the free list. We are thorough cosmopolitans in this line. Anyone who has "stuff" to give to officials, Ministers or campaign funds is a man and a brother, even if fresh from Tammany. Citizens of every race and color, without regard to any previous condition of slavery or involuntary servitude, are welcome if they but bring boodle. Whitewash artistically applied in case of discovery. Fine air and scenery for fugitives down the Gulf. Yankee money taken at par by all the Tory associations. God save the Queen!

THE graduates of arts of Victoria University will this year have the right of electing five members to the senate of the University of Toronto, this being one of the consequences of federation. The names of the candidates who have been nominated in accordance with the provisions of the Federation Act, and who alone are eligible for election, are as follws:—Rev. B. F. Austin, M. A., B.D., N. C. Bigelow, Q.C., Rev. Dr. Burns, Rev. Dr. Carman, Judge Dean, Rev. W. P. Dwyer, M.A., W. I. Ellis, B.A., B.S.C., Rev. Dr Hare, H. Hough, M.A., Rev. Dr. Johnston, Wm. Kerr, Q.C., Dr. B. E. McKenzie, J. J. Maclaren, Q.C., C. A. Masten, Q.C., F. W. Merchant, M.A., Rev. Dr. Parker, J. W. St. John, M.A., Rev. Dr. Stafford, Rev. Dr. D. G. Sutherland, Dr. G. R. Watson, Ph. D. The list is so strong and has so many good names in it that Victoria's graduates will be inclined to regret that they can only elect five of them. Voting closes on the first Wednesday of October.

THE TRENT VALLEY CANAL

In the House of Commons on Wednesday, as mentioned in a paragraph of yesterday's issue, the Supplementary Estimates passed, contained the munificent appropriation of $1,250 to complete the dam at Boboaygeon This sum, after commissions and steslings are deducted, won't build any great stretch of canal. At this rate of progress, the last spike will be driven into the Trent Valley Canal (to coffin) about the beginning of the twentieth century. Yet we are told it is the settled policy of the Government to build the canal. The respected, sanguine and hopeful member of West Peterborough seems to have perennial faith in the *bona fides* of the government's intent on of construcing the canal—a faith of such elastic toughness that it refuses to be knocked out and comes up smiling even after such a facer as $1 250, of an appropriation as the fulfilment of Sir John's election promise wired to Murphy of Trenton. At the last time the subject of the canal was brought up for discussion in the house, Mr. Stevenson, in reply to a speech by Mr. Barron of North Victoria who gave the government an ungloved handling on account of its broken promises, spoke as reported in *Hansard* as follws:

MR. STEVENSON.—The people whom I have the honor to represent expect me to lay before the House the claims of the work which has been referred to by the hon. member for North Victoria (Mr. Barron). Upon this subject I claim to know as much of the intentions of the present Government as that gentleman does, and, perhaps, a little more. I claim to know that the gentleman who compose the present Government have no intention of shifting or throwing over this great work. I claim to know that the promises which have been made were not merely electioneering dodges. Hon. gentlemen opposite and their newspapers have constantly declared that the promises of the Government to go on with this work were mere electioneering dodges, but I am able to tell the hon. gentlemen that those promises were the honest and fair intentions of the Government, and it was really the intention of the late Minister of Railways to construct this work and carry it on to completion The hon. gentleman has referred to a speech of mine made in Peterborough, wherein I said that the Minister of Public Works had given me an assurance that the contract between Peterborough and Lakefield would be let during the ensuing summer. I may have made a mistake on that occasion, because it was not the Minister of Public Works, but it was the late Minister of Railways and Canals who gave me that information. It will be remembered that during the second session of the late Parliament deputation after deputation came here from the Trent Valley district, all the way from the Georgian Bay being the largest deputation that ever appeared before the House, to urge upon the Government the necessity of the construction of this work. I can assure the hon. gentleman that if he will take the trouble to go over the route and examine the chain of lakes, with only short stretches of land or small waterways between them, he will see at once the enormous advantages that would be derived by that section of the country from the construction of this canal, with a comparatively small expenditure.

The Government evidently thinks, judging by the last appropriation, that a "comparatively small expenditure" is needed. It is well to have faith in the Government, but the practical politician will find it hard to keep the people of this district under the delusion that the Dominion Government honestly intend to build the Trent Valley Canal, unless he can administer a more powerful soporific than a one thousand two hundred and fifty dollar grant to construct a five million dollar work.

Children Cry for Pitcher's Castoria.

Russia Can't Afford to Fight.

The critical condition of Russian finances stands in the way of a European war. The value of the rouble is falling At the end of last year it was worth about 30d. of English money. Now it is worth less than 24d., a fall in about three quarters of a year of more than 20 per cent.; and the depreciation is likely to continue. Russia, it is to be recollected, owes very large sums every year to the rest of Europe. A very considerable proportion of its debt is held abroad. In spite, too, of its protectionist tariff, it imports a vast quantity of goods from other countries. And the Government not only carries on a propaganda in Southeastern Europe which costs much money, but it is in the habit likewise of operating upon the Stock Exchange so as to maintain its own credit. Hitherto it has been able to defray its large expenditure because its exports of all kinds, and more particularly of wheat and rye, were very large. This year it has to suspend altogether the export of rye, and will have little or no wheat to sell to other countries. How, then, will Russia be able to fulfil her obligations to her foreign creditors? It is true that she still has large sums in gold standing to her credit in London, Paris and Berlin. But a portion of these has already been allcoated to redeem certain old loans which are chiefly held in Holland. Another large portion will be required to pay the interest upon the foreign debt held abond. Therefore it is probable that before many months pass away the gold which the Russian Finance Minister has been accumulating abroad for years past will all have been paid out. It is not probable that Russia will be able to borrow even in France. On the other hand, her expenditure at home will be very large, both for keeping the people alive and for providing seed for the peasants.

Pale, drooping girls, worn weary with a burden of disease almost greater than they can bear, should take heart and suffer no longer. Dr. Williams Pink Pills are a certain cure for all those diseases peculiar to womankind. They restore the blood, build anew the nerves, and leave happiness and health when used. Sold by dealers or sent on receipt of price (50c. a box) by addressing Dr. Williams Med. Co., Brockville, Ont. dw

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

Mrs. Chas. Smith, of Jimes, Ohio, writes: "I have tried every remedy for sick headache I could hear of for the past fifteen years, but Carter's Little Liver Pills did me more good than all the rest. dw

They have discovered it! "What? Vita Ore, which is warranted to cure Diphtheria or any Throat trouble, Dyspepsia or Female Weaknesses. Put up by the Vita Ore Co'y, Box 89, Belleville. d303m w

Purity of ingredients and accuracy of compounding, make Milburn's Aromatic Quinine Wine the criterion of excellence. dw

Regina Ripples.

"I took six bottles of Burdock Blood Bitters for liver complaint, headache and dull stupid feeling, but now I am entirely well and healthy, having also a good appetite which I did not have previously."—Mrs. T. Davis, Regina, N.W.T.

You hardly realize that it is medicine when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use. dw

From the Jaws of Death.

Some surprising effects have been recorded from the use of Miller's Emulsion of Cod Liver Oil in the most desperate cases of consumption. When all other remedies have failed Miller's Emulsion nearly always succeeds. It is the best kind of flesh and blood maker, and has been used with marked success by the physicians in the Insane Asylum, Penitentiary, Hotel Dieu, and General Hospital in Kingston, Ont. In big bottles, 50c and $1 at Peterborough drug stores. dw

Could Scarcely See,

Mrs. John Martin, of Montage Bridge, P. E. I., writes:—"I was troubled last summer with very bad headaches and constipation and sometimes could scarcely see. One bottle of Burdock Blood Bitters made a complete cure of my case, and I wish you every success.

A single scratch may cause a festering sore. Victoria Carbolic Salve rapidly heals cuts, wounds, burns and all sores. dw

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

When Baby was sick, we gave her Castoria
When she was a Child, she cried for Castoria.
When she became Miss and clung to Castoria.
When she had Children, she gave them Castoria.

Clinton Clippings.

"I had for years been troubled with dyspepsia and sick headache and found but little relief until I got Burdock Blood Bitters which made a perfect cure. It is the best medicine I ever used in my life."—Hattie Davis, Mary street, Clinton, Ont.

Ayer's Hair Vigor

Is the "Ideal" Hair-dressing. It restores the color to gray hair; promotes a fresh and vigorous growth: prevents the formation of dandruff; makes the hair soft and silken; and imparts a delicate but lasting perfume.

"Several months ago my hair commenced falling out, and in a few weeks my head was almost bald. I tried many remedies, but they did no good. I finally bought a bottle of Ayer's Hair Vigor, and, after using only a part of the contents, my head was covered with a heavy growth of hair. I recommend your preparation as the best in the world."—T. Munday, Sharon Grove, Ky.

"I have used Ayer's Hair Vigor for a number of years, and it has always given me satisfaction. It is an excellent dressing, prevents the hair from turning gray, insures its vigorous growth, and keeps the scalp white and clean."—Mary A. Jackson, Salem, Mass.

"I have used Ayer's Hair Vigor for promoting the growth of the hair, and think it unequaled. For restoring the hair to its original color, and for a dressing, it cannot be surpassed."—Mrs. Geo. La Fever, Eaton Rapids, Mich.

"Ayer's Hair Vigor is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair and makes it glossy and soft. The Vigor is also a cure for dandruff."—J. W. Bowen, Editor "Enquirer," McArthur, Ohio.

"I have used Ayer's Hair Vigor for the past two years, and found it all it is represented to be. It restores the natural color to gray hair, causes the hair to grow freely, and keeps it soft and pliant."—Mrs. M. V. Day, Cohoes, N. Y.

"My father, at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Cullen, Saratoga Springs, N. Y.

SCOTT & BOWNE, Belleville.

A Handsome Prize.

An Evidence of What a Genuine Magazine Competition Offers.

On Friday there arrived from Toronto, for Miss M. Hora, a handsome Shetland pony, harness and cart, being the first award in the Royal Quilt Competition of *The Canadian Queen* magazine. It attests the genuine nature of the magazine's contests by its excellent condition and value. The *Queen* has frequent competitions and has made innumerable awards, displaying a generosity quite surprising to those who have had experience of the limited field for Canadian journalistic enterprise. But the *Queen* has been a success as a business venture from the start, and is growing in literary excellence steadily. It covers the field of fashion, as well as light reading; talks to the household, the young and indeed all home classes. The competitions have been used to assist the introduction of the magazine, for where it is introduced it is quite certain to remain a monthly guest. The leading prizes have been made, as instance this latest to Kingston, while many smaller prizes have rewarded the moderately successful among competitors. *The Canadian Queen* is truly royal in its ways.—*The (Kingston Ont.,) Daily British Whig. June 27th, 1891.*

This is the way with the B. & C. corset: if you want ease and shapeliness, you buy it—but you don't keep it unless you like it.

After two or three weeks' wear, you can return it and have your money.

ASK YOUR DRY GOODS DEALER FOR THESE CORSETS. dw

A NOVEL WINGED BOAT.

THE NEW FLYING MACHINE OF A BROOKLYN INVENTOR.

He Claims to Be Able to Float and Propel in the Air a Body of Any Weight—And It Will go at the Rate of 300 Miles an Hour Too.

Flying machines and air ships are now absorbing the attention of inventors to the exclusion of almost everything else. Unlike most other experimenters, Mr. Loeber has discarded the idea that in order to float in the air a vessel must be lighter than the air it displaces. He claims to be able to float a body of any weight in the air and also to be able to propel it at any speed.

"I have discovered," said he "a new property in the air which has hitherto been unobserved by all scientists. Anthexis, I call it. Anthexis is really the energy of resistance. It cannot be used as a motive power, but merely as a power of support. By means of anthexis I can raise my own body into the air, and by using the ordinary means of locomotion move around in it at will."

"What is anthexis?" asked the reporter.

"It is a hard thing to explain," replied Mr. Loeber. "You might as well ask what gravity is. We know it exists and we have learned how to apply it, but we do not know just what it is. The birds know how to use anthexis. Have you never seen a swallow or a seagull floating in the air without moving its wings? It is supported by that energy of resistance in the air that I call anthexis."

Mr. Loeber came to have discovered how to put this anthexis to practical use. Just how he does it is his secret, and the secret he declines to divulge at present.

His air ship, of which several drawings are given herewith, may be constructed of any size large enough to hold the powerful machinery which is necessary to applying the anthexis in order to obtain support in the air and to propel the vessel at a high speed.

AS IT WILL APPEAR IN MID-AIR.

Boiler plate or steel plate is the material to be used. In form the ship is an elongated oval. The prow is edge shaped and the stern almost flat. The base is formed of two hollow cylinders, upon which it may rest evenly on the earth.

THE AIR-SHIP'S WINGS.

The principal feature of the ship is the wings. These wings are to be made of thin steel plates and extend out on either side just like the wings of a beetle. They are not to be used as a motive power, but merely to give support to the ship in its flight. They are so placed as nearly similar to that of the wings of a seagull when floating through the air, its wings extended motionless on each side. Just how the vessel is raised in the air and how it is prevented from falling to the ground by its own weight, the inventor will not explain, further than by saying that anthexis supports it.

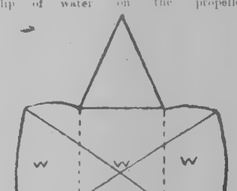
These wings are movable. When the ship is rising they are lowered to a slight degree and when the ship is descending they are raised, so as to afford the least possible resistance to the air, while still serving to maintain the ship's equilibrium.

The motive power is another secret of Mr. Loeber.

"When you disturb the equilibrium of the air," said he, "you cause motion. Now, I have found out how to apply that motion to leverage and so obtain motive power for my ship. Steam engines are necessary for this purpose. I place them in the wings of my air ship, and by working them properly I disturb the equilibrium of a sufficient amount of air to run the ship at a rate of 300 miles an hour. Leverage is all I need, and I have discovered how to obtain it from the disturbed equilibrium of the air. My motive power is entirely pneumatic, but steam engines are needed to produce it."

THE PROPELLERS.

In the perspective drawing of the air-ship three holes will be noticed at the rear of stern. These holes are the location of the propellers. Mr. Loeber refers to the holes themselves as the propellers, so it may be surmised that the way he obtains his motive power is this. The steam engines pump air from the sides of the ship and force it out in a powerful stream behind. This would probably give a more effective means of motion than an ordinary propeller, as all the slip of the air on the blades of the screw propeller would be overcome. Engineers recognize the fact that a greater speed would be attained by ships at sea if there was no slip of water on the propeller



PLAN OF MR. LOEBER'S PROPOSED AIRSHIP.

W W—Wings. P P—Propellers. R—Rudder.

blades. Mr. Loeber, recognizing this, has evidently discarded the screw and adopted the principle of forcing a current of air out behind the ship, so as to propel it forward. The resistance of the air in which the ship is supposed to be floating to the current driven out from the stern would produce a leverage against the stern of the ship that would drive it forward.

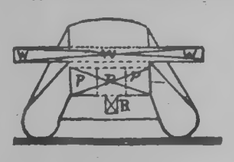
This principle of locomotion is seen most prominently in the skyrocket, which is made to soar by the leverage produced by the discharge of a quantity of gas from its base. It is a principle that looks feasible, and, if properly carried out, may be the solution to the problem of aerial navigation.

The ship is provided with an ordinary rudder.

IN THE CYCLONE.

In the great body of my ship," says Mr. Loeber, "is its perfect security. It can go in the face of the strongest cyclone that ever blew and be not moved from its course. Anthexis will support a vessel all circumstances. By increasing the wings a little and leverage can be gained for doing the atmospheric equilibrium in a pitchy manner the course may be kept without diverging one point of the compass, or the ship can soar over the top of a cyclone if the captain prefers it. The possibilities are illimitable. As an engine of destruction in time of war, just think of it. It would revolutionize warfare. I believe it would put an end to it. I intend it as a ship of peace and not an engine of destruction."

Mr. Loeber has made no models yet, as he says it would cost as much to make a working model on a small scale as it would to construct a ship. Neither has he patented it, as he says that in order to do that he would have to give his discoveries with regard to anthexis, and the means of using it for support, to the world, which he does



CROSS SECTION OF AIRSHIP.

W. W.—Wings. P. P.—Propellers. R.—Rudder.

not care to do until he has reaped the harvest sown by his discovery.

In the plans given herewith, W. W. indicates the wings of the airship; P. P. indicates the propellers, or the holes that will take their place; R. is the rudder. The cross section and plan are both outline designs, merely showing the idea and not pretending to go into any details.—N. Y. Journal.

RESTLESS NORWAY.

Talk of a Republic Excitement Over the Coming Elections.

London, Sept. 17.—The general elections in Norway, which have been fixed for December, are of unusual importance, as determining the fate of the Liberal Cabinet under Steen, with its policy of internal reforms and greater autonomy for Norway. It will be recalled that the conservative Ministry under Stang was forced from office by a coalition vote which gave a majority, enabling Steen to form a Cabinet.

The Steen party, relying upon popular support and Conservative defections, calculate that in the new Storthing they will have a majority of about forty, pledged both to suffrage extension and enlarged privileges for Norway in the guidance of foreign affairs.

King Oscar and his government consider this claim of the Norwegian national leaders as tending toward an early dissolution of the union. The Government papers do not hesitate to accuse the Norwegian national leaders of aiming at the eventual establishment of a republic, and predictions are indulged in that should the Stockholm government veto the resolutions of the Storthing, the radicals, led by Steen, will not hesitate to declare Norwegian independence, even at the risk of war with Sweden. The official view taken at Stockholm is that King Oscar will not at first accept the Steen reforms, but will resort to another dissolution of the Storthing and await its issue.

The First Body Found.

New York, Sept. 17. The first body was found in the ruins of the old Commercial Advertiser building about midnight yesterday. The trunk was all that could be seen, as it was almost buried beneath bricks and rubbish. A large force of workmen are at work removing the debris.

So to Speak,

Woman is wonderfully made! Such beauty, grace, delicacy and purity are alone her possession. So has she weaknesses, irregularities, functional derangements, peculiar only to herself. To correct these and restore to health, her wonderful organism requires a restorative especially adapted to that purpose. Such an one is Dr. Pierce's Favorite Prescription—possessing curative and regulative properties to a remarkable degree. Made for this purpose *alone—recommended for no other.* Continually growing in favor, and numbering as its staunch friends thousands of the most intelligent and refined ladies of the land. A positive guarantee accompanies each bottle—at your druggists. Sold *on trial.* b

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

Oft in Peril.

Lives of children are often endangered by sudden and violent attacks of cholera, cholera morbus, diarrhœa, dysentery and bowel complaints. A reasonable and certain precaution is to keep Dr. Fowler's Extract of Wild Strawberry always at hand.

What Say They?

In popularity increasing. In reliability the standard. In merits the first. In fact, the best remedy for all summer complaints, diarrhœa, dysentery, cramps, colic, cholera, infantum, etc., is Dr. Fowler's Extract of Wild Strawberry. All medicine dealers sell it.

It can do no harm to try Freeman's Worm Powders if your child is ailing, feverish or fretful. dw

Every Lady Uses It.

Dyer's Jelly of Cucumber and Roses for chapped hands or lips as it effectually cures in every instance. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6163

Why Suffer With Chapped Hands.

One tube of Dyer's Jelly of Cucumber and Roses will make them soft and white. Druggists keep it. W. A. Dyer & Co., Montreal. 6163

Timely Wisdom.

Great and timely wisdom is shown by keeping Dr. Fowler's Extract of Wild Strawberry on hand. It has no equal for cholera, cholera morbus, diarrhœa, dysentery, colic, cramps and all summer complaints or looseness of the bowels.

A woman who is weak, nervous and sleepless, and who has cold hands and feet, cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness and give strength and rest. dw

For overcoats and Russian circulars or first-class articles to keep you warm, but they will not prevent the pains of rheumatism. Ask W. R. Greatrex, Druggist, for a bottle of Royal Rheumatic Remedy. dw

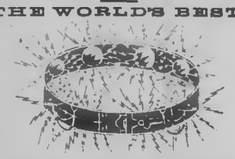
Self Application of Electricity FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto

THE WORLD'S BEST.



ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D TULLY, Agent, Peterborough. cod-w

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,255.92
Increase over previous year	3,421,372.84
New Applications received in 1890	6 371.599.13
Increase over 1889	2 268.588.60
Cash income for year ending 31st December, 1890	889 078 87
Increase over 1889	325 938.35
Assets at 31st December, 1890	2,473 514.19
Increase over 1889	647.691.47
Reserve for Security for Policy-Holders	2,109 222 68
Increase over 1889	567 732.71
Surplus over all Liabilities and Capital Stock	232 175.69
Increase over 1889	75.649 95
Death claims fallen in during 1890	143.961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2 000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 5.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)		$64 824 07
" " " "	1886, "	89.452 97
" " " "	1890, (four years)	232,175 69

Miss Delaney's Fall Millinery Opening.

The ladies of Peterborough are urged to remember that Miss Delaney will hold her annual millinery opening on Monday, Tuesday and Wednesday next. On this occasion she will have on display the finest stock of fashionable and stylish millinery ever brought together in Peterborough. She has just returned from the great millinery emporiums in Montreal and Toronto, and has personally selected her stock with great care from the cream of the metropolitan markets. This millinery opening will be the event of the season. Be sure and call on the above dates. d66-68

The Promise Fulfilled.

In the advertisement which J. J. Sheeby, had in this paper on last Friday he stated that to any customer who would bring back to the store a pair of gloves which would not stand the test he would give a new pair. That promise has been fulfilled already. Out of several pairs of gloves sold on last Saturday evening just one pair was returned and Mr. Sheeby according to promise, presented the lady with a new pair. Once more he begs to announce that on to morrow evening he will hold another sale in the Kid Glove department. Another beautiful lot just to hand. Glance over the following prices: Ladies black undressed kid gloves, 6 buttons 50c; nice tan colored kid gloves, 4 buttons, 50c; lovely Austrian kids with the very latest style of stitching on backs, 75c. Let it be repeated once more, *no trouble to show the goods*, even if you don't wish to buy.

Children Cry for Pitcher's Castoria.

Harvest Festivals.

St. Luke's Last Night—St. John's To-night—Hearty Thanksgiving Service at St. Luke's.

Sheaves of wheat and oats, festoons of fruit and wreaths of flowers displayed in profusion in St. Luke's church last night, betokened the bountiful harvest with which our land has been blest. The ladies of the congregation had with skilful hand arranged the trophies in pleasing decorative designs throughout the church, the chancel being especially handsome in its dressing of potted plants, flowers and variegated autumn leaves. The pulpit and font were also resplendent with floral beauty. The effect of the decorations was very pretty and reflected the highest credit upon those whose handiwork it was.

There was a good congregation present in spite of the oppressive heat.

The special harvest thanksgiving service was said, Rev. J. C Davidson, Rector of St. John's, taking the first part, and Rev. J. W. McCleary, Rector of St. Luke's, the latter. The sermon was preached by Rev. E Daniel, Rector of St. John's Church, Port Hope, who took for his text II Sam., xxi, 1:—

"Then there was a famine in the days of David three years, year after year."

The preacher began by speaking of the abundant crops of the present year, and the small danger there was of a famine in this country. There were twenty million bushels of grain in the North-West more than they could use. But the failure of the crop for one year alone would not create a famine. As the text stated, famine was caused by several consecutive years of crop failure. The speaker then compared the material famine to the spiritual famine and destitution of such countries as China and Japan. There were also people in this land of plenty dying of spiritual famine and never accepting Christ's word, "I am the Bread of Life." It might be there were some in the congregation who hungered and thirsted and were not satisfied, and for these he had the Gospel message.

A collection was taken up for the building fund.

The choir sang a well prepared anthem in addition to the other appropriate music of the service, and Mr. E. Knowles sang a bass solo in fine voice at the offertory.

To-night St. John's will hold its annual Thanksgiving Harvest Festival. This time is a most appropriate one for the occasion. One of the most bountiful harvests that has blessed the country for years has been safely gathered in. Every right minded Christian will feel it a sacred duty and a sacred pleasure to join with other Christians in returning thanks to the Lord of the harvest, for the blessings he has so freely given. The Christian Harvest Festival corresponds in character to the Jewish feast of weeks, one of the three great festivals of the Jewish year. This festival is a most popular one in England. It is celebrated in every parish, and, even in little dingy churches in the heart of London, where hundreds never saw a green blade or the golden glory of a harvest field or even an acre of clear sky, the people assemble and give thanks to the divine Bounty, which means so much to all, whether dwellers in country or city.

The service at St. John's, which has been beautifully decorated for the occasion, will be brief, bright and hearty, and will be followed by a special sermon preached by Rev. W. H. French of Omemee. All seats are free at the services to-night and members of other congregations will be made heartily welcome.

Millinery Opening.

Miss Somers announces her fall opening for Monday, Sept. 21st. Ladies should not fail to see the excellent patterns in hats and bonnets, opposite the Oriental, Hunter street.

To the Ladies.

We are offering a line of all silk surahs in different shades, suitable for dress fronts, or fancy work for 25c. worth 50. Jos. Armstrong & Co. Bell telephone No. 287. LeBrun's old stand 396 George street. 1d

Must Learn to Behave.

Carman Masters, a sixteen year old youth, was arrested by P. C. Stewart last night for disorderly conduct on the streets. The officer testified that young Masters ran against a girl who was passing and knocked her off the sidewalk. He was fined $2.

The Right One This Time.

Fred Baker, a brother of the boy who was arraigned the other day on a charge of stealing a bunch of bananas from F. Anthony's refreshment stand, this morning pleaded guilty to the above charge and was sentenced to pay a fine of $10 or go to gaol for three months. Justice A. V. R. Young occupied a seat on the magisterial bench with P. M. Dumble while the case was being disposed of.

Results of "Ringers."

The Port Hope lacrosse club is in financial difficulty. The "promoters" of the club advanced the money to run it during the season, and now find themselves considerably out of pocket. A public concert is proposed to recoup them. This is the direct result of the system of paying professional players. If Port Hope had played a purely local team, and either won or lost on their merits, there would be no deficit now. But the Port Hope players were bound to win by fair means or foul; let them bear the consequences.

A Young and Vigorous Vag.

"Sweeny" Wilson's acquaintances will rejoice to learn that he has at last found a place where he will no longer be able to pose as one of the "lillies of the field, that toil not, neither do they spin." Some men look for work and others have work thrust upon them. The latter is Jack Wilson's case. He was committed to gaol for three months this morning as a vagrant. Chief Roezel testified that Wilson had been loafing around the streets all summer without any visible means of support. Jack will now be compelled to work if his constitution can stand the shock.

A Fine Show it was

The Alvin Joslin Company are in town and appear at the opera house to night. Of their performance in Kingston Tuesday night the *Whig* says:—"The announcement on the posters that those who attended the "Alvin Joslin" performance would have 180 laughs in as many minutes was a truthful statement. The opera house was packed, last evening, and the spectators laughed heartily all evening. Some laughed too much and do not feel well to-day in consequence. Charles Willard did great credit to the role of "Alvin Joslin." The story of the play is a well told account of a few of the adventures in the life of Alvin Joslin, an honest old farmer, who gave opportunity for mirth and pathos alike.

What does "OR" mean? It means the only Reliable Kidney Cure ever put on the market. Put up by the OR Co'y, Box 89, Belleville. d303m-w

Beneficiary Societies.

A Fraternal Association for the Dominion Organized.

Representatives of various beneficiary societies met at the Rossin House, Toronto, a recent afternoon to consider the advisability of forming a Fraternal Association of Beneficiary Societies for the Dominion of Canada.

The following were present:—F.G Inwood, gr. foreman, and M. D. Carder, gr. recorder, for the A.O.U.W.; J. R. Miller, president A.O.U.W. Rel. Soc; Edward Towe, high chief ranger, and Thos. White, bro. sec. of the C.O.F.; John Kay, supreme leader, and Capt. R. Brunt, of the Can. Home Circles; J. A. McMurtry, sup. dep. of the Fra. M. Cir.; Dr. Oronhyatekha, supreme chief ranger, and John A. McGillivray, supreme secretary of the I.O.F.; P. E. Fitzpatrick, grand master, and J. B. King, grand secretary of the I.O.O.F., R. Meek, secretary, and E. Callaghan, treasurer of the I.O.O.F. Relief Association; J. L. Robertson, grand chief templar; John E. Wilson, P.G.C.T., and Thos. Lawless, grand secretary of the I.O.G.T.; B. J. Leubsdorf, grand recorder of the S.K. of Canada, and B. Blaine, secretary of the Sons of Canada.

Dr. Oronhyatekha and F. F. Inwood were respectively elected chairman and secretary pro tem. Letters from D. Spry, of Barrie, past G. M. of the A.O.U.W., and Judge Reynolds, of Brockville, grand regent of the Royal Arcanum, were read expressing approval of the object of the gathering.

After discussion the convention decided to take steps to form a fraternal association, and the following committee was appointed to prepare a constitution and report at the next meeting of this convention, to be called by the chairman or on about November 10th, 1891.

Dr. Oronhyatekha and F. F. Inwood, as chairman and secretary of this convention, to be ex-officio members of the committee; A. O.U.W., Jno. Milne; A.O.U.W. Rel. Soc., J. R. Miller; C.O.F., Ed. Towe; Can. H. Cir., A. J. Pattison; Fra. M. Cir., J. A. McMurtry; C.O.F., H. A. Collins; I.O.F., John A. McGillivray; I.O.O.F., J. B. King; I.O.O.F. Rel. Association, R. Meek; I.O.G.T., Thos. Lawless; Royal Arcanum, Judge Reynolds; S.K. of Canada, B. J. Leubsdorf, and Sons of Canada, B. Blaine.

Bridgenorth.

Foresters' Entertainment.

A very successful entertainment was held under the auspices of Court Bridgenorth, C. O. F., No. 315, last night. The programme included some good music, and an able address on the benefits of the Order by W. A. Stratton, barrister, town, but the *piece de resistance* of the evening was the reading of a poem on "The Life of Birchall," by the author, Mr. Telford, the venerable bard of Smith. This poem is a grand effort, and, though somewhat lengthy, held the wrapt attention of the large audience to the close. It is to be hoped that Mr. Telford will find it in his power to give this thrilling poem to the public at an early opportunity in a prominent form. The entertainment was a fine success. Mr. Mitchell, Chief Ranger, occupied the chair.

The Central Exhibition.

Distinguished Visitors.

Mr. Collins informs the EXAMINER that he has received positive information that Prof. Robertson, of the dairying department of the Dominion Experimental Farm, will be present at the opening of the Central Exhibition next week. He also received information that Hon. John Carling, Minister of Agriculture, would also in all probability be present on the same occasion.

News Nuggets.

—That tired feeling now so often heard of, is entirely overcome by Hood's Sarsaparilla, which gives mental and bodily strength.

—There is no change to report in the condition of Walter Kerr. He was somewhat easier this morning, but the physicians cannot say whether he will live or die.

—"H. LeBrun & Co., 381," have put a handsome sign over their doorway, the work of Mr. W. S. Cooke. The letters are of gold against a blue background. Mr. Cooke did himself credit.

Personal.

Rev. Father Lynch, of Port Hope, was in town to-day.

Mrs. Wm. Ferguson, Water street, has returned from a six weeks' visit to Cleveland, Ohio.

Mr. Will Smith, Ashburnham, is, we are sorry to say, still very low, and his ultimate recovery is doubtful.

Mr. and Mrs. Geo. Dunsford have returned after a protracted tour in Great Britain and on the continent. Their many friends heartily welcome them home.

Misses E Clifford and G. Mallwain, who have been spending their holidays with friends in town left on the 7.10 C. P. R. express this morning for their home in St. Catharines.

Mr. John McNeil of West Bay City, Michigan, is in town attending the funeral of his father, the late Alex. McNeil, which took place yesterday. Mr. McNeil returns home this evening.

The Carr Chemical Fire Engine.

Last night another most successful test of this splendid apparatus was made on the market square in the presence of a large number of citizens. A big pile of packing cases, 16 feet long and 15 feet high, filled with light wood and saturated with coal oil was fired and when in full blaze, the engine was applied and in 13 seconds it was put out. This extinguisher is meeting with great favor from the public. In Lindsay 150 of them were disposed of and during the past few days in town Mr. Patton, the managing member of the company, has sold a large number of these useful and effective little fire fighters, the purchasers including Messrs. Geo. Matthews & Sons, Geo. Hilliard, A. Comstock, J. R. Donel, W. Paterson & Son, E. B. Wilson, P. H. Green, W. Faint, T. Fitzgerald, the Otonabee Canoe Company, F. Madill, druggist, Ashburnham, etc. Mr. J. D. Thornton is agent for the town. The Carr chemical fire engine is deserving of the attention of all owners of property. It is cheap in price, light to handle, weighing when fully charged only twenty pounds, and can be re-charged for a trifle. It is simply invaluable in the early stages of a fire, and has been instrumental in saving thousands of dollars' worth of property by means of its effective working and by virtue of being always on hand when needed and always ready for use.

The use of calomel for derangements of the liver has ruined many a fine constitution. Those who, for similar troubles, have tried Ayer's Pills testify to their efficacy in thoroughly remedying the malady, without injury to the system.

A "Bar" From Double-Bar.

To the Editor of the Examiner:

I beat time with the proposal of "Key-note" in reference to the consolidation of the musical societies of the town. While I am in complete "unison" with "Key-note's" proposal, I foresee difficulties in "harmonizing" the several "scores," so to speak. We have three societies and that means three concerts during the season. The first two may fare fairly well but the third will be necessarily late in the season, and will appeal to a public jaded with the winter's round of entertainments and social dissipation. No. 1 and No. 2 might pay fairly well, financially, but I'm afraid that with the third there would be a very much "augmented interval" between receipts and outlay. Now, supposing we have overcome all other difficulties in the fusion of the three societies, let me propose a solution of the financial problem. Let the three societies unite in the production of their three several programmes, pool their receipts, and at the end of the season, divide, share and share alike.

I may be told by the promoters of these several societies that I am giving gratuitous and unsolicited advice. But I submit that, as a contributor to the success of the three concerts, and as one that has the musical credit of the town much at heart, and has for many years done his little best to practically foster a musical spirit and promote the musical interests of the town, I may claim some right to have a say in the matter, and to try to promote the substitution of musical success for the musical failure, that must, it seems to me, result from the division of our choral forces. Thanking you for space, Mr. Editor, I sign myself, so far as this matter is at present concerned,

DOUBLE BAR.

"Key Note" Endorsed.

To the Editor of the Examiner:

DEAR SIR,—I notice a letter in your issue Wednesday introducing a very worthy suggestion and I gladly express my sympathy with it. It is contemplated by three of the musical directors of the town, each to give the public during the coming season, a musical entertainment in the form of a light opera, in which the choruses must necessarily be an important feature. To be effective, a chorus, besides being well trained, should be *full* in all its parts and this result is obtainable only from a large number of voices. In Peterborough we are not overblessed with vocal talent, whether from lack of opportunity to learn or lack of desire to develop a natural ability which is apparent in many of both sexes amongst us, I know not, but I feel obliged to say I have never known any town the size of this, so lamentably poor in this respect. Still their is sufficient available material to form a very enjoyable entertainment, and whilst we may be required to be exceedingly charitable in our comments upon the solo portion of the programme, we find a generous compensation in the choruses, if properly balanced, and if the full vocal force we possess be employed. If the three entertainments contemplated by the three independent leaders means division of our vocal force into three separate bodies, and I think that, to a considerable extent, such result must follow, then "Key Note" struck a full chord-in his sugestion that each of the leaders, in his turn, shall use our vocal force in producing a more creditable entertainment than will be possible with the force divided. Such an arrangement would give stimulus to the leaders and immediately attach public interest to these events and thus insure for them a success which, under the present condition of things, they have neither reason nor right to expect.

Yours etc,

A. NEAL CLARK

Peterborough, Sept. 17th, 1891.

Bowmanville's Matrimonial Boom.

A Bowmanville despatch says:—Another brilliant wedding was witnessed here yesterday, being the fifth society wedding in this town in as many months. The uniting parties were Miss Georgie, third daughter of Mr. James B. Fairbairn, P.M., and Mr. Henry M. Paterson, merchant, of Montreal. The ceremony was performed by the Rev. R. D. Fraser, M.A., St. Paul's church at three o'clock. The church was festooned with beautiful plants and flowers by the young ladies of the congregation. The ushers were Mr. R. A. Brock, John Y. Reid, jr., Rye and Tom Fairbairn. As the bridal party entered the church the choir sang, "The Voice that Breathed o'er Eden," and the wedding march was played by Miss Armour as they departed. The bride was given away by her father, and looked exceedingly pretty in a white silk trimmed with chiffon lace, bridal veil, and wreath of lily of the valley, and gold brooch and pin, with a handsome gold bracelet, the gift of the groom. The bridesmaids were Miss Maud Fairbairn, sister of the bride; Miss Carrie Allen, daughter of Mayor Allen; Miss Muriel Brock, daughter of Mr W. R. Brock of Toronto, and Miss Mary Reid, daughter of Mr. John Y. Reid, of Toronto, Misses Fairbairn and Allan were attired in white surah silk, trimmed with chiffon lace, and hats trimmed with green bows and double violets, and carried exceedingly handsome bouquets of white roses. Misses Brock and Reid were dressed in white silk, white leghorn hats with white plumes, and carried bouquets of of white asters and ferns. Miss Anna Edsall was maid of honour, and was prettily dressed in cream cashmere, and carried a basket of asters and ferns, and Master Alex. Beith was page, in a Lord Fauntleroy suit of velvet. Mr. James Paterson, brother of the groom, was best man. After the ceremony the guests were conveyed to the residence of the bride's parent's, Elgin street, where a wedding reception was held. The spacious reception room was decorated with floral and foliage treasures. After a sumptuous wedding repast the happy couple left by the C. P.R. for Detroit, Chicago, and Minneapolis on their wedding tour. The bride received a very handsome assortment of presents, including silver, oxidized silver, Doulton china, cutlery, fancy chairs, paintings, and cheques amounting to several hundred dollars. Mrs. Patterson bears with her the best wishes of a host of friends for her future happiness.

All ages and conditions of people may use National Pills without injury and with great benefit. dw

WILLIAM'S SPEECH

Has a Warlike Tone and Evokes Uneasiness.

BERLIN, Sept. 18.—The Emperor's speech as reported in the Berlin Post, caused a heavy decline yesterday in all Imperial and Prussian stocks. The telegraph officials refuse to transmit telegrams giving the Emperor's speech as the reason for the decline. The official version of the Emperor's speech, published in the Reischzanziger, modifies the Post phrase. According to this version the Emperor said: "Corsican conqueror," instead of "Corsican parvenue," as the Post has it, and several other differences are noticeable. Still, the speech has a warlike tone, recalling the Emperor's earlier manner.

Cannot Review the French Army.

PARIS, Sept. 18.—At Vitry le Francois yesterday President Carnot and his Cabinet reviewed the French army, consisting of 110,000 men, which has been taking part in extensive manœuvres since September 3rd under the command of Gen. Saussier. There was an enormous crowd present and the most fervent enthusiasm was manifested.

France Peremptory Demand on China.

PARIS, Sept. 18.—M. Ribot, Minister of Foreign Affairs, has handed to the Chinese charge d' affaires a note insisting upon the urgency of upholding the security of the life and property of foreigners in China.

Cable Chat.

An explosion shattered an extensive percussion cap factory at Zizkow, Germany, killing two persons and severely injuring a number of others.

Three Months for Elopement.

DUNDALK, Sept. 18.—Ward, the photographer, who was committed for trial last week for wife desertion has been sentenced to three months in Owen Sound jail, while his paramour goes free. Ward left his family in a destitute condition and eloped with another woman.

A Canadian Killed in Montana.

STRATFORD, Sept. 18.—Through an accident on the Montana Central Railroad on Tuesday, Brakesman W. A. Miller, brother of John Miller of this city, was killed. Deceased left Stratford for the west last April. Up to that he was running out of this city.

The Ottawa Strikes.

OTTAWA, Sept. 18.—All was quiet in the strike district yesterday. The men are receiving money from all quarters and have the full sympathy of the citizens. Three of yesterday's rioters were brought before Recorder Champagne at Hull and committed for trial.

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then

HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEES, 9 N. Railroad St., Kendallville, Ind.
